* Torpedoed; made port. † Mined; made port. ‡ 216 lost, 2 captured. § Salvaged.

WAR LOSSES OF AMERICAN MERCHANT SHIPPING.

THESE returns do not include the losses of vessels of the American Navy or of the American Army and lives thus sacrified recorded by the Navy and War Departments. The table covers August 3, 1914, to April 5, 1917, inclusive:

SHIP.	Torpedoed.		Mined.		Gunfire, Etc		Total		Lives Lost
	No	*Gross.*	*No.*	*Gross.*	*No*	*Gross*	*No*	*Gross*	
Steam	6	25,988	4	9,675	6	24,649	16	60,312	67
Sail	....	.....	1	1,904	2	4,927	3	6,831	.....
Total	6	25,988	5	11,579	8	29,576	19	67,143	67

The following table covers the period from April 6, 1917, the entry of the United States into the war, up to the armistice of November 11, 1918, inclusive:

SHIP.	Torpedoed		Mined.		Gunfire, Etc.		Total.		Lives Lost
	No.	*Gross.*	*No.*	*Gross*	*No.*	*Gross.*	*No.*	*Gross*	
Steam	45	190,357	2	8,116	22	38,272	69	236,745	707
Sail	..	. . .	.....	.. ..	57	50,561	57	50,561	1
Total	45	190,357	2	8,116	79	88,833	126	287,306	708

The totals for the entire period August 3, 1914, to November 11, 1918, inclusive, are given below:

SHIP.	Torpedoed.		Mined.		Gunfire, Etc.		Total.		Lives Lost
	No.	*Gross.*	*No*	*Gross.*	*No.*	*Gross.*	*No.*	*Gross.*	
Total steam	51	216,345	6	17,791	28	62,921	85	297,057	774
Total sail	.. ..	.... .	1	1,904	59	55,488	60	57,392	1
Grand total	51	216,345	7	19,695	87	118,409	145	354,449	775

Of the entire losses of life, 703 were due to submarine torpedoes, 38 to gunfire, and 34 to drifting enemy mines.

SHIPBUILDING TERMS.

(From a Bulletin of the United States Emergency Fleet Corporation.)

Aft—at, near, or toward the stern.
After Perpendicular—a vertical straight line at the after edge of the rudder post.
Anchor—a heavy steel device attached to the end of a chain or hawser for holding the ship in position when not alongside dock.
Athwartships—across the ship, at right angles to the keel.
Ballast—any weight or weights (usually sea water) used to keep the ship from becoming "top heavy."
Beam—an athwartship member supporting a portion of a deck. Also the width of the ship.
Below—below a deck or decks (corresponding to "down stairs").
Berth—a place for a ship.
Bilge—the rounded portion of the hull between the side and bottom.
Bilges—the lowest portion of the ship inside of the hull.
Bilge Keel—a fore and aft member fitted to the outside of the shell plating running along the bilge, used to prevent excessive rolling of the ship.
Bitts—heavy steel castings fitted to the weather deck for securing mooring lines or hawsers
Boom—a long, round, heavy spar, pivoted at one end, usually used for hoisting cargo, &c.
Boss—the curved swelling portion of the ship's hull around the propeller shaft
Bow—the forward end of a ship.
Bridge—the athwartship platform above the weather deck from which the ship is navigated.
Bulkhead—a vertical partition extending either athwartships or fore and aft.
Bulwark—the ship's side above the weather deck.
Bunker—a compartment used for the stowage of coal or other fuel
Buoyancy—ability to float.
Camber—the athwartship curvature of a deck. Sometimes called *round up.*
Calk—to make a joint water tight.
Capstan—a revolving device, with axis vertical, used for heaving in lines.
Centre Line—the middle line of the ship, from stem to stern.
Chock—a heavy fitting through which ropes or hawsers may be led.
Cleat—a fitting attached to the deck, having two fore and aft arms around which a rope may be secured.
Coaming—the vertical boundary of a hatch or skylight.
Cofferdam—the space between two bulkheads located very close together.
Davit—heavy vertical pillar of which the upper end is bent to a curve, used to support the end of a boat when hoisting or lowering
Deadweight—the total weight of cargo, &c.
Deck—the part of a ship that corresponds to the floor of a building
Displacement—the total weight of the ship when afloat, including everything on board.
Dog—a small bent metal fitting used to close doors, hatch covers, manhole covers, &c.
Double Bottom—Compartments at bottom of ship between inner and outer bottoms, used for ballast tanks, water, fuel, oil, &c.
Drag—the amount that one end of the keel is below the other when the ship is afloat but not on an even keel
Draft—the vertical distance of the lowest part of the ship below the surface of the water afloat.
Even Keel—a ship is said to be on even keel when the keel is level, or parallel to the water.
Fairlead—a small fitting through which a rope may be led so as to change its direction without excessive friction.
Fender—a device to prevent damage to a ship's hull at or near the waterline by other vessels, &c
Fidley Hatch—hatch around smokestack and uptake.
Fore and Aft—in line with the length of the ship, longitudinally.
Forcastle—the forward upper portion of the hull, usually the crew's quarters.
Fore Peak—a large compartment or tank just aft of the bow in the lower part of the ship.
Forward—near or toward the bow.
Framing—the support and stiffening of the shell plating, deck plating, &c.
Freeboard—vertical distance from the upper watertight deck or top of bulwarks to waterline, when ship is loaded.
Galley—the "kitchen" of a ship.
Gangway—a passageway or other means of boarding a ship.
Garboard Strake—the strake of shell plating next to the keel.
Gross Tonnage—a figure obtained by dividing the total volume of the ship, in cubic feet, by 100.
Gudgeon—fitting on which rudder swings The gudgeons fit around the *pintles*, and form a part of the rudder post.
Gunwale—the side of a ship at the edge of the weather deck.
Hatch—an opening in a deck.
Hawse Pipe—a large fitting attached to the bow through which the anchor chain passes.
Hawser—a large rope.
Helm—the direction to which the tiller is put, or opposite to which the rudder is put. (When the rudder is to port the ship is said to carry starboard helm.)
Hogging—straining of the ship that tends to make the bow and stern lower than the middle.
Hull—the body of a ship, including shell plating, framing, decks, bulkheads, &c.
Inboard—inside the ship, toward the centre line.
Jackstaff—flag pole at bow of ship.
Keel—the fore and aft member, usually in the form of flat plates end to end, extending from stem to stern along the bottom of a ship on the centre line.
Keelson—an auxiliary keel or stringer, extending along and over, or parallel to the keel. The centre vertical keel.
Length Between Perpendiculars—the length of a ship measured from the stem to the after perpendicular.
Length Over All—the length of a ship measured from the stem to the aftermost point of the stern.
Lines—the plans of a ship that show its form. From the lines, drawn full size on the mould loft floor, are made templates of the various parts of the hull.
Longitudinal—a fore and aft vertical member running parallel, or nearly parallel, to the centre vertical keel through the double bottom.
Magazine—a compartment or room in which ammunition is stored.
Main Deck—the principal deck of the main hull, being the highest, and giving strength to the main hull.
Mast—a large long spar, placed nearly vertical on the centre line of a ship.
Midship—at the middle of the ship's length.
Mould—a light pattern of a part of a ship. Usually made of thin wood or paper Also called a *template.*
Mooring—securing a ship in position by lines so she cannot move or swing.
Net Tonnage—a figure obtained by making deduction from the gross tonnage to allow for space not available for carrying cargo.
Orlop Deck—the lowest deck.
Outboard—away from the centre line, toward the side of a ship.
Overhang—portion of the hull over and unsupported by the water
Panting—in and out movement of shell plating.
Pillar—vertical member or column giving support to a deck Also called *stanchion.*
Pintle—fitting or pin on the rudder which turns in a gudgeon.
Platform—a partial deck.
Poop—the after, upper portion of the hull, usually containing the steering gear.
Port—the left hand side of the ship when looking from aft forward. Also an opening.
Porthole—a circular opening in the ship's side.
Propeller—a revolving device that drives the ship through the water, consisting of three or four blades, resembling in shape those of an electric fan.
Quadrant—a fitting on the rudder head to which the steering chains are attached.
Quarter—a side of the stern.
Quarter Deck—that portion of the weather deck nearest the stern.

SHIPBUILDING TERMS—*Continued.*

Rigging—ropes, wire ropes, lashings, &c., used to support masts, spars, booms, &c.
Rudder—a large, heavy fitting hinged to the rudder post. Used for steering the ship
Rudder Stop—fitting to limit the swing of the rudder.
Samson Post—a heavy vertical post that supports cargo booms.
Scantlings—the dimensions of various parts of the ship.
Scupper—a drain from the edge of a deck discharging overboard.
Seam—fore and aft joint of shell plating.
Shaft—long, round, heavy forging connecting engine and propeller
Sheer—fore and aft curvature of a deck.
Shell Plating—the plates forming the outer skin of the hull.
Shore—a large round wooden brace
Spar Deck—upper deck.
Stability—tendency of a ship to remain upright.
Stanchion—a pillar or upright post, a pillar.
Starboard—the right-hand side of the ship when looking from aft forward Opposite to port.
Stem—forging or casting forming extreme bow of ship, extending from keel to forecastle deck
Stern Frame—large casting attached to after end of keel to form ship's stern. Includes rudder post, propeller post, and aperture for propeller.
Strake—a fore and aft course or row of shell or other plating.
Stringer—a fore and aft continuous member used to give longitudinal strength.
Tank Top—the inner bottom
Tiller—arm attached to rudder head for operating rudder.
Transom—the aftermost transverse frame
Transverse—athwartships, at right angles to the keel.
Transverse Frames—vertical athwartship members forming the ship's "ribs"
Trim—amount ship is off from an even keel
Tumble Home—an inboard sloping of the ship's side above the level of greatest beam
Upper Deck—the highest complete deck
Vertical Keel—row of plating extending vertically along centre of flat plate keel. Sometimes called *centre keelson.*
Weather Deck—a deck with no overhead protection
Winch—a small hoisting engine.
Yard—a horizontal, thwartship, spar fitted to a mast

The greatest number of telephones in United States cities in proportion to population is in Dallas, Texas—36,234 phones; rate per 100 population, 24.8.

The 142 cities in the United States with a population of 50,000 and over had 4,642,245 telephones in operation on January 1, 1919, with an estimated total population of 37,386,300, or 12 4 telephones per 100 population. In 1918 the average increase in number of telephones was 4 6 per cent.

The number of telephones in use in the United States at the close of the calendar year 1917 was 11,713,228—one to every nine persons, or every two families; and the number of calls made during the year is estimated at 21,842,000,000, an average of more than 200 for every man, woman, and child in the county, according to a report by Director Sam. L. Rogers, of the Bureau of the Census, Department of Commerce. The statistics for 1917 cover the Bell Telephone System—comprising all lines operated by the American Telephone and Telegraph Co. and its associated companies; independent telephone systems reporting annual incomes of more than $5,000; and independent telephone systems, including rural lines, reporting incomes of less than $5,000. They do not include data for telephone lines maintained by steam and electric railways for use in connection with the operation of their roads; private lines in hotels, factories, etc.; or lines operated by Federal, State, or municipal offices. The wire mileage increased, from 1912, from 20,248,326 to 28,827,091, or by 42.4 per cent., as against 55.8 per cent. for the preceding five-year period. The number of telephones increased from 8,729,592 to 11,713,228, or at the rate of 34.2 per cent., as compared with 42.7 per cent. for the five years 1907-1912. The estimated number of messages or talks increased from 13,736,000,000 to 21,842,000,000, or by 59 per cent., as compared with 20 8 per cent. for the five years preceding The total number of employés in 1917 was 262,622, an increase of 43.2 per cent. as compared with 1912; and their salaries and wages aggregated $175,668,299, an increase of 82 9 per cent over the 1912 figure. The income from all sources in 1917 amounted to $391,476,926, an increase of 53.5 per cent. over 1912; and the expenses and fixed charges were $319,116,293, or 56 6 per cent. more than in 1912. The total value of plant and equipment in 1917 amounted to $1,492,230,081, an increase of 32 8 per cent. as compared with 1912.

The airplane radio telephone was one of the marvels of the late war. Following the development of the wireless telegraph came the production of the wireless telephone, and the invention had been so perfected in 1915 and 1916 that in the United States Navy's official test at the Arlington Station, across the Potomac River from Washington, human speech sent out by the transmitters there was heard simultaneously at the Eiffel Tower in Paris and at the Government's own wireless station in Hawaii.

Figures of mileage and expenditure as to Kentucky, Michigan, and North Carolina are for 1917.

In 1918 in New York State $8,856,178 was expended on State highways, included in total.

THE AMERICAN FORESTRY ASSOCIATION.

THE American Forestry Association, with headquarters at 1410 H Street Northwest, Washington, D. C., was organized in 1882 and incorporated in January, 1897. It is devoted to the conservation of private, State and National forests and to public education in the knowledge of trees, their care and development. It is a voluntary organization for the inculcation and spread of a forest policy on a scale adequate for economic needs, and any person is eligible for membership. It is independent, has no official connection with any Federal or State Department or policy, and is devoted to a public service conducive to National prosperity. It asserts that forestry means the propagation and care of forests for the production of timber as a crop; protection of watersheds; utilization of non-agricultural soil; use of forests for public recreation. It declares that forestry is of immense importance to the people; that the latest available figures show that the forests annually supply over $1,500,000,000 worth of products; employ 830,000 people; pay $440,000,000 in wages, and that they cover 550,000,000 acres of land unsuited for agriculture; regulate the distribution of water; prevent erosion of lands, and are essential to the beauty of the country and the health of the Nation. It recognizes that forestry is an industry limited by economic conditions; that private owners should be aided and encouraged by investigations, demonstrations, and educational work, since they cannot be expected to practise forestry at a financial loss; that Federal and State Governments should undertake scientific forestry upon National and State forest reserves for the benefit of the public. It devotes its influence and educational facilities to the development of public thought and knowledge along these practical lines.

The membership of the association is 16,500 in every State in the Union, in Canada and all over the world. The subscribing membership is $3 a year; contributing membership $10 a year; sustaining membership $25 a year, and life membership $100. Members receive each month the *American Forestry Magazine*, which contains articles pertaining to trees, forests, and birds.

President—Charles Lathrop Pack, Lakewood, N. J. *Treasurer*—John E. Jenks, Washington, D. C.
Executive Secretary and Editor-in-Chief—Percival S. Ridsdale, Washington, D. C.

THE ALASKA RAILROAD.

(Data furnished by the Alaska Engineering Commission).

On April 10, 1915, President Wilson announced the selection of the route for the Alaska Railroad to be built by the Government. The route adopted is known as the Susitna route and extends from Seward, on Resurrection Bay, to Fairbanks, on the Tanana River, a distance of 471 miles. This route includes the existing Alaska Northern Railway, which runs from Seward through the Kenai Peninsula for a distance of seventy-one miles to Turnagain Arm, and has been purchased from its owners by the Government for $1,150,000.

From Turnagain Arm the route extends through the Susitna Valley and across Broad Pass to the Tanana River, and from there to Happy Station at Mile 463, where it connects with the Tanana Valley Railroad, and from there on to Fairbanks. A side line extends from Matanuska Junction into the Matanuska coal fields, a distance of thirty-eight miles. A spur three miles in length extends from this branch up Eska Creek to the Eska coal mine, and a short spur up Moose Creek to the Doherty mine.

The Tanana Valley Railroad has been purchased by the Government for $300,000. It is a narrow-gauge line extending from Fairbanks to Chatanika, a distance of 39 miles, with a five-mile branch from Chena Junction to Chena. This road will be connected with the main line, and will be used as a feeder, and permits of the delivery of coal to mines that are being developed northeast of Fairbanks.

While the complete rehabilitation of the Alaska Northern Railway—the portion of the line extending from Seward to Kern Creek, a distance of 71 miles—has not yet been accomplished, great progress has been made in that direction It is not yet ready for heavy traffic, but light trains now operate in safety, many of the decaying trestles and bridges having been eliminated. The uncompleted gap along Turnagain Arm, between Seward and Anchorage, was closed by the connecting of steel on the afternoon of September 10, 1918, and train schedule established between the two points. On the main line north of Anchorage the track has been extended to Talkeetna, which is Mile 227 from Seward As stated, the branch line to the Matanuska coal fields, which with its spurs totals 41 miles, is in operation. On the coastal section it is, therefore, possible now to travel or ship freight via the Government railroad from Seward to Talkeetna, a distance of 227 miles, and to Chickaloon and Eska in the coal fields. Between Talkeetna and the crossing of the Susitna River (Mile 265), 27 miles have been graded and are ready for track The remainder of the distance between these two points has been cleared and is ready for grading.

Material has been gathered for the erection of snow-sheds in the vicinity of Mile 54, on the Alaska Northern, which work will be pushed during the present season. It is hoped this will obviate the closing of the line by snow slides, which occurred very early the past winter, due to the unusually heavy fall of snow. Work on the wharf facilities at Anchorage to permit ships of deepest draught now in the Alaska trade to dock, was continued last season, some 200,000 cubic yards of material being dredged, and 2,600 feet of dock approach being constructed. On the interior, or Fairbanks division, of the system a line change of some miles was necessitated by the rampage of Lost Slough, which broke from its old-established channel and damaged a stretch of the grade. This line change has been accomplished and the track extended southward from Nenana, a distance of 48 miles to Mile 365, at which point coal is being taken out in considerable quantities. Between Nenana and Fairbanks the narrow gauge line to be operated temporarily in connection with the Tanana Valley Railroad and then converted into standard gauge has been extended to a point 9¾ miles south of Happy Station, making available a considerably increased supply of wood for use as fuel in Fairbanks and vicinity. Just north of Nenana, across the Tanana River, 2¼ miles of track has been laid (all figures as of June 30, 1919). The clearing on the remaining distance between Nenana and Fairbanks is done, most of the crossings are driven, and the grading is now under way. It is confidently expected that this gap will be closed by December 1, 1919 Considerable reconstruction work has been done on the Tanana Valley Railroad.

Mileage in operation: Main line Seward to Talkeetna, 227; branch line to Matanuska coal fields, with spurs, 41; main line Mile 365 to Nenana, 48; main line between Nenana and Fairbanks (narrow gauge), 20; Tanana Valley R. R. branches to Chatanika and Chena (narrow gauge), 36. Total, 372 miles.

Development and prospecting work has been continued by the Government in the Matanuska coal fields on a small scale, the output from the two mines at Eska and Chickaloon approximating 5,300 tons of coal per month.

d Deficit or decrease. a Returns for Utah Railway for 1917 cover one month only; road not operated separately prior to December 1.

In 1915 the railroads in the United States paid out $29,942,800 for loss and damage to freight in transit. Nearly $2,000,000 of this loss was due to thefts, and $4,000,000 to rough handling of cars. In 1918 over 10,000 arrests for thefts on railroads were made.

LONDON'S PASSENGER TRAFFIC.

A British Government committee estimated the London passenger traffic for 1918 at: Local railways (exclusive of suburban traffic on main lines), 699,000,000; tramways (including outerurban and Combine), 992,000,000; omnibuses (including Tillings and National Steam Bus Co.), 682,000,000; total, 2,373,000,000, or an increase of over 1,000,000,000 in 10 years from 1,363,815,165. In 1913, the last complete pre-war year, the total was 2,007,348,055. Generally speaking, the approximate number of journeys per head per year of the civil population in Greater London in 1918 was 101.2, local railway lines only, 149.5 tramways, and 102.8 omnibuses. The London County Council operates 150 tramway miles out of 353 in the metropolitan area; it owns 1,662 electric cars and 158 trailer cars. It carries over 2,000,000 passengers daily and the estimated cost of running a tramcar mile, excluding the capital cost and renewal, is 15.99d. ($0.32). This, the committee found, entails an estimated deficit of £159,000 ($773,774), assuming that the whole of the present charges on the undertaking, including the allocation of the sinking fund, are met in accordance with existing procedure. There are only 1,210 cars and 112 trailers in average use, owing to repairs, and the estimated revenue per car mile in 1919-1920 is 20.26d. ($0.405). In 1918 the three Combine tramways carried 198,334,499 passengers. The Underground Railway group of companies, which possesses together 1,390 cars of all sorts, and works 1,165, carried approximately 380,000,000 passengers in 1918. For dividend purposes the receipts of these different railways were pooled with those of the omnibuses; the average rate of dividend paid was 2.93 per cent. on the aggregate share capital.

As regards omnibuses, the committee stated that the number in use in May of this year was 2,044; before the war it was 2,906. About 100 emergency lorry buses were in service at the end of June, 1918, and more were being added from week to week. The actual bus mileage run by 1,796 buses was 73,152,709, while the passengers carried by the Combine numbered 652,562,327. In 1913 the receipts per mile run were 8.57d. ($0.171); in 1915 they were 10.78d. ($0.215); in 1918 they were 15.32d. ($0.306). On the other hand, the working cost—traffic expenses, including labor, maintenance, repairs, and roads, gasoline, tires and "other expenses," including administration, and depreciation—in 1913, the committee's report discloses, was 7.19d. ($0.144) per car mile run, in 1915 8.58d. ($0.172), and in 1918 14.05d. ($0.281).

Excludes cars in the service of switching and terminal companies. Excludes returns for so-called small roads (having operating revenues below $100,000 for the year) and returns for switching and terminal companies. There are 6,000 Pullman sleeping cars, of which 4,500 are in daily service.

RAILWAY STOCKHOLDERS, AS OF JANUARY 1, 1918.

Stockholders of the railways of the United States numbered 647,689 on January 1, 1918, as compared with 612,889 on January 1, 1917, and 626,122 on June 30, 1915. The average holdings per stockholder, par value, amounted to $13,966 in 1917, as compared with $14,321 in 1916 and $13,796 in 1915. The foregoing statements apply to all roads. For roads of Class I. and Class II., operating 96.6 per cent. of the total railway mileage, it is possible to exclude to a considerable extent capital stock held by or for other railway companies. Making this exclusion, the approximate amount of railway stock in the hands of the general public on January 1, 1918, was $6,377,551,082. This stock was in the hands of 636,208 holders, the average amount of their holdings being $10,024. Among the holders were banks and corporations, whose blocks of stock belonged to unnumbered thousands of individuals.

Cable and horse cars total 182, of which 119 are in California; 48 in Washington State; 4 in Pa.; 3 in Kan , and 2 each in Col., Ga., N. H., and N. Y. Electric locomotives total 645, of which 151 are in N. Y.

The reports from which this table is made up are rendered at different dates, the average of which is about June, 1918. In a few cases, where the company owns a large number of freight cars compared with the number of passenger cars owned, the total number of such freight cars has been omitted. In the case of electrified steam railroads, mileage is included in all cases; but under cars only electric locomotives and motor passenger cars of electrified steam railroads are given. Gasoline and storage battery cars are included under motor passenger cars

New England States—Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut. Eastern States—New York, New Jersey, Pennsylvania, Delaware, District of Columbia, Maryland, Virginia, West Virginia Central States—Michigan, Ohio, Indiana, Kentucky, Wisconsin, Illinois, Minnesota, Iowa, Missouri. Southern States—North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Tennessee, Louisiana, Arkansas. Western States—North Dakota, South Dakota, Nebraska, Nevada, Kansas, Texas, Colorado, Montana, Idaho, Utah, Oregon, California, Arizona, Oklahoma, New Mexico, Wyoming.

IMPORTANT TUNNELS OF THE WORLD.

Alberg—Under the Alps at the Arl Mountain, and extends from Langen to St. Anton, 6¾ miles; opened 1884.

Andes Mountains—See "Trans-Andine."

Big Bend—Drains the Feather River in California, 2 miles; opened 1886.

Bitter Root Mountains (Montana and Idaho)—10,100 feet long

Blackwell—Under River Thames, England, 1½ miles; opened 1897.

Busk-Ivanhoe Tunnel on the Colorado Midland R. R., 9,600 feet long, single track, under the Continental Divide, in Lake and Pitkin Counties.

Cascade Mountain—Through the Cascade Mountains in Washington, 3 miles.

Connaught—Through Selkirk Mountains, Canada; on Canadian Pacific Railroad, double track, about 5 miles long; completed 1916

Continental Divide, for the Denver and Salt Lake R. R , 6.4 miles long (under survey).

Cumberland—Under Cumberland Mountains, Tennessee, 8,000 feet long.

Detroit. (Mich. Central Ry.)—Under Detroit River.

Gunnison—Southwestern Colorado, 6 miles; opened 1909.

Hoosac—Through Hoosac Mountains, Mass., 4¾ miles; opened 1873.

Khojak Pass—India, Quetta to Kandahar, 2 miles.

Loetschberg—Through the Alps, in Oberland, Switzerland, 9¼ miles; opened June 20, 1913, costing nearly $10,000,000.

Mt. Roberts—From the shore of Gastineau Channel at Juneau, Alaska, into Silver Bow Basin, 1 1-3 miles.

Mont d'Or—Between France and Switzerland, was bored through October 2, 1913. The tunnel pierces the Jura Mountains from Fresne to Vallorbe, and is 3¾ miles long.

Mont Cenis—Italy to France, under the Col de Frejus, 8 miles; opened 1871.

New Croton—Supplies water to New York City, 33 1-8 miles; opened 1888.

Otira—In New Zealand, 5 1-3 miles.

Rove—Northwest from l'Estaque, France, part of canal connecting Marseilles with Rhône River; 4½ miles, 72 feet wide, 47 feet high; opened 1916.

Rothschönberg—Drains the Felberg mines. Saxony, 31½ miles; opened 1877.

St. Clair—Under St. Clair River from Sarnia, Ont., to Port Huron, Mich., 2 miles; opened 1891

St. Gothard—Through the Alps, connects Goschenen with Airolo, in Switzerland, 9 1-3 miles; opened 1881.

Severn—From Monmouthshire to Gloucestershire, England, 4½ miles; opened 1886.

Simplon—Through the Alps, 12½ miles; opened 1905

Strawberry—Through the Wasatch Mountains.

Sutro—Drains the Comstock Lode in Nevada, 4½ miles; opened 1879.

Trans-Andine Ry. Tunnel—5 miles long, 10,486 feet above sea level and affords direct communication between Valparaiso and Buenos Ayres; opened April 5, 1910.

Wasserfluh—In the Alps, between Bunnadern and Lichtensteig, Switz., 2 miles, opened 1906.

Woodhead—Manchester to Sheffield, Eng., 3 miles.

MOTOR VEHICLES IN NEW YORK STATE, 1919.

MINERAL PRODUCTS—STATES THEY COME FROM.

Mineral	Chief Producing States	Mineral.	Chief Producing States
Aluminum	N. Y., Tenn., N. C.	Magnesite (crude)	Cal., Wash.
Antimonial lead	Not separable by States.	Manganese ore	Mont., Va., Ariz , Ark.
Antimony ore	Nev., Alas., Utah, Idaho.	Mica	N. C , N. H., Va , Ga.
Arsenious oxide	Not separable by States.	Millstones	N. Y., Va., N. C., Penn.
Asbestos	Ariz., Ga , Cal., Wyo.	Mineral paints: Nat. pig .	Canvass discontinued
Asphalt	Tex., Cal , Okla , Ill.	Zinc and lead pigments	Penn., Wis., Kan., Mo.
Barytes (crude)	Ga., Mo., Tenn., Ky.	Mineral waters	Wis., N. Y., Cal., Me.
Bauxite	Ark., Ga., Ala., Tenn.	Natural gas	W. Va., Penn , Ohio, Okla.
Borax (crude)	Cal.	Natural-gas gasoline	Okla., W. Va., Cal., Penn.
Bromine	Mich., Ohio, Wash., Pa.	Nickel	Not separable by States.
Cadmium	Not separable by States.	Oilstones, etc.	Ala., Ind., Ohio, Vt.
Calcium-magnes chloride	Mich., Ohio, W. Va., Cal	Peat	N. J , Ill., Cal., Mass.
Cement	Penn , Ind., Mo , Cal.	Petroleum	Okla , Cal., Kan , Tex.
Chromic iron ore	Cal., Ore , Md., Wash.	Phosphate rock	Fla., Tenn., S. C., Wyo.
Clay: Products	Ohio, Penn., N J., Ill.	Platinum and allied metals	Nev., Cal , Wyo., Ore.
Raw	Mo , Penn., N. J., Ill.	Potash	Neb., Cal., Utah., Md.
Coal: Bituminous	Penn , W. Va., Ill., Ohio	Pumice	Kan., Neb , Cal.
Anthracite	Penn	Pyrite	Va., N. Y., Cal , Ga.
Coke	Penn , Ala., Ohio, Ind.	Quicksilver	Cal., Tex., Nev., Ore.
Copper	Ariz., Mont , Mich., Utah	Salt	Mich., N. Y., Ohio, Kan.
Diatomaceous (infusorial) earth and tripoli	Cal., Penn., Ill., Wash.	Sand and gravel	Penn., Ohio, Ill., N. Y.
Emery and corundum	N. Y., N. C , Va.	Sand-lime brick	Mich , Minn., N. Y., Mass.
Feldspar	Me., N. C., Penn., Conn.	Silica (quartz)	Mass., Penn., Wis., N. C.
Ferroalloys	Penn., Ill., Md , Ala.	Silver	Utah, Mont , Idaho, Nev.
Fluorspar	Ill., Ky., Colo., N. H.	Slate	Penn , Vt., Me., Va
Fuller's earth	Fla., Ga., Tex., Ark.	Stone	Penn., Ohio, Vt., N. Y.
Garnet, for abras. purposes	N. Y., N. H., N. C.	Sulphur	La., Tex., Wyo , Nev
Gems and precious stones	Mont., Nev., Cal , Me.	Sulph. acid fr. copper and zinc sm	Penn , Ill , Ohio, Tenn.
Gold	Cal., Colo., Alas., S. Dak.	Talc and soapstone	N. Y., Vt., Va., Ga.
Graphite	Ala , N. Y., Penn., R. I.	Thorium miner. (monazite)	N C.
Grindstones-pulpstones	Ohio, W. Va., Mich.	Tin	Alaska, S. Dak.
Gypsum	N. Y., Ia., Mich., Ohio.	Titanium ore (rutile)	Va.
Iron: Ore	Minn., Mich., Ala., N. Y	Tungsten ore	Cal., Colo., S. Dak., Nev.
Pig	Penn , Ohio, Ill., Ala.	Uranium-vanadium mins	Colo , Utah.
Lead	Mo.. Idaho, Utah, Colo.	Zinc	N. J., Mo., Mont., Okla.
Lime	Penn., Ohio, Va., Mo.		

MINERAL PRODUCING STATES AND THEIR LEADING MINERAL PRODUCTS

State	Principal mineral products	State	Principal Mineral Products.
Ala.	Coal, iron ore, clay prod , stone	Mont	Copper, zinc, silver, coal.
Alas	Copper, gold, silver, coal.	Nebr	Potash, clay prod., stone, sand, gravel.
Ariz	Copper, silver, gold, zinc.	Nev.	Copper, silver, gold. lead
Ark	Coal, bauxite, zinc, clay prod	N H.	Stone, clay prod , mica, sand, gravel.
Cal.	Petrol., gold, copper, cement	N. J.	Zinc, clay prod., cement, iron ore.
Colo.	Coal, gold, zinc, silver.	N. M.	Copper, coal, zinc. silver.
Conn	Clay prod., stone, lime, sand, gravel	N. Y	Clay prod., iron ore, cement, stone
Del.	Stone, clay prod., sand, gravel, min. wat.	N. C	Stone, clay prod , mica, iron ore.
D. of C	Clay prod. sand-lime brick, stone, min. wat.	N. D.	Coal, clay prod., min. wat , sand-lime brick.
Fla	Phosph. rock, stone, fuller's earth, clay prod	Ohio	Coal, clay prod , petrol., nat. gas.
Ga	Clay prod., stone, barytes, cement	Okla	Petrol , nat.-gas gasol., zinc, nat. gas.
Idaho	Lead, silver, zinc, copper.	Ore.	Gold, copper, stone, clay prod.
Ill.	Coal, petrol., clay prod., cement	Penn.	Coal, clay prod., cement, nat gas
Ind.	Coal, cement, clay prod., stone.	R. I	Stone, clay prod , graphite, min. wat.
Iowa	Coal, clay prod., cement, gypsum.	S. C.	Clay prod., stone, phosph. rock, min. wat.
Kan	Petrol. coal, nat. gas, cement.	S. D.	Gold, tungsten ore, stone, silver.
Ky	Coal, petrol., clay prod , stone.	Tenn.	Coal, zinc, copper, cement.
La.	Petrol sulphur, nat. gas, nat -gas gasol.	Tex.	Petrol. sulphur, coal, cement.
Me	Stone, lime, clay prod., min. wat.	Utah	Copper, lead, silver, coal
Md.	Coal, clay prod , cement, stone	Vt.	Stone, slate, talc, soapstone, lime
Mass	Stone, clay prod , lime, sand, gravel.	Va.	Coal, lime, clay prod., stone.
Mich	Copper, iron ore, salt, cement.	Wash.	Coal, cement, clay prod., lead
Minn	Iron ore, clay prod., cement, manganlf. ore.	W. Va	Coal, nat gas, petrol clay prod.
Miss	Clay prod , sand, gravel, min wat , stone	Wis.	Zinc, iron ore, stone, zinc and lead pigm.
Mo.	Lead, zinc, coal, clay prod.	Wyo.	Coal, petrol., iron ore, copper.

U S. IMPORTS AND EXPORTS OF CHIEF MINERAL PRODUCTS

(Calendar Year 1918, Value Expressed in Dollars)

Mineral	Imports.	Exports	Mineral	Imports	Exports
Abrasives	None	5,845,353	Lead	617,669	11,020,209
Aluminum, incl m'n'f's	554,038	10,869,388	Manganese	15,095,867	None.
Antimony (metal)	3,178,877	None.	Nickel, incl. m'n'f's	11,636,018	9,079,733
Arsenic	1,281,812	None.	Petroleum, incl gasol , etc	23,348,258	380,000,000
Asbestos, incl. m'n'f's	6,363,894	2,544,378	Platinum ore	4,949,855	13,511
Asphalt	624,967	1,155,590	Pyrite	2,741,676	None.
Brass	1,773,789	799,318	Salt	281,468	1,677,577
Clay, incl prod.	8,102,994	525,933	Soda, ash	None.	7,805,550
Coal	6,898,466	137,748,568	Soda, caustic	None.	5,602,813
Coke	221,880	11,861,408	Soda, other salts of	None.	6,587,134
Copper, incl m'n'f's.	126,526,111	202,522,724	Sulphur	9,542	3,626,638
Fertilizers	91,560,352	958,876	Tin	93,144,218	31,952
Gems	22,666,839	None	Tungsten	11,552,218	None.
Graphite	3,092,475	830,073	Zinc, incl m'n'f's.	1,099,572	18,000,442
Iron ores	3,717,920	17,111,811	All other and total	473,123,639	827,258,409

Pig iron production, January 1 to June 30, 1919 (gross tons)—By coke, 16,036,218; by anthracite and coke, 67,592; by charcoal, 174,365; total, 16,278,175. Basic, 7,910,295; Bessemer and low phosphorous, 5,181,621; foundry and ferro-silicon, 2,436,023; malleable, 465,823; forge, 104,874; spiegeleisen and ferromanganese, 144,192; other grades, 35,347.

ORE PRODUCTION OF LAKE SUPERIOR DISTRICT.

The following table shows the total production of the Lake Superior District, by ranges. The figures prior to 1872 were collected by A. P. Swineford, editor *Marquette Mining Journal;* those for 1872 to 1877, inclusive, are from the Michigan Mineral Statistics; those for 1878 to 1888, inclusive, were collected by W. J. Stevens; and the later figures were collected by the United States Geological Survey. The figures of ore shipped out are from the *Iron Trade Review.* Figures represent gross tons.

Rolled blooms and billets for forging purposes are included from 1905, while semi-finished products rolled for export are included for 1912 and subsequent years. Prior to 1892 structural shapes were included in "all other finished rolled products."

Two-thirds of the rails produced now weigh 85 pounds or over a yard. and one-quarter of the rails weigh 100 pounds or over a yard. Four-fifths of the rails are by open-hearth process. Girder and high T rails for electric and street railways are included in the figures given above. For recent years the tonnage was as follows: (1913) 195,659; (1914) 136,889; (1915) 133,965; (1916) 127,410; (1917) 91,674; (1918) 20,834 gross tons.

COAL MINERS—THEIR AVERAGE NUMBER.

The number of men employed in the Pennsylvania anthracite mines ranged as high as 180,000 in 1914, and as low as 154,000 in 1917. They average 200 (1908) to 285 (1917) days work a year, and they dig 2 02 (1913) to 2 39 (1908) tons per man per day.

In the bituminous mines the number of employés ranged up to 603,000 in 1917, with 243 days' work per year, and an average digging of 3 91 (1915) tons per man per day

In metal mines in 1917 the number of fatalities was 852, of which 727 were underground. Total injured, 46,286, of which 36,755 were hurt underground.

COAL RESERVES OF THE WORLD, UNMINED.

United States and Alaska, 4,231,000,000,000 tons, of which 22,000,000,000 tons is anthracite, 2,155,000,000,000 tons is bituminous, and 2,054,000,000,000 tons is sub-bituminous and lignite; Canada, 1,361,000,000,000 tons, of which 2,000,000,000 is anthracite and 313,000,000,000 is bituminous; China, 1,097,000,000,000 tons, of which 427,000,000,000 is anthracite; Germany, 467,000,000,000 tons, of which 452,000,000,000 tons is bituminous and the rest sub-bituminous; Great Britain, 209,000,000,000 tons, of which 12,000,000,000 is anthracite; Siberia, 192,000,000,000 tons, no anthracite; Australia, 183,000,000,000 tons, all bituminous or sub-bituminous; India, 87,000,000,000 tons, no anthracite; Russia in Europe, 66,000,000,000 tons, of which 41,000,000 is anthracite; Union of South Africa, 62,000,000,000 tons, of which 13,000,000,000 is anthracite; Austria, 59,000,000,000 tons, no anthracite; Colombia, 30,000,000,000 tons, no anthracite; Indo-China, 22,000,000,000 tons, all anthracite; France 19,000,000,000 tons, of which 4,000,000,000 is anthracite; Belgium, 12,000,000,000 tons, no anthracite; Spain, 10,000,000,000 tons, of which 2,000,000,000 is anthracite; Spitzbergen, 9,000,000,000 tons, no anthracite; Japan, 9,000,000,000 tons, no anthracite; Holland, 5,000,000,000 tons, no anthracite; other countries, 24,000,000,000 tons of which 3,000,000,000 is anthracite.

Total coal reserves, 8,154,000,000,000 tons, of which 548,000,000,000 is anthracite; 4,302,000,000,000 is bituminous, and 3,304,000,000,000 is sub-bituminous and lignite.

POWER USED IN THE UNITED STATES.

The figures, gathered in 1912 by the Census Bureau, show the horse-power then in use as follows: Steam, 24,339,819; water, 4,870,320; gas and oil, 1,238,107; total, 30,448,246. Of the steam-power, 16,233,733 horse-power was used in manufactures; 4,946,532 in public utilities, and 3,169,554 in electric railways. In 1912 the country produced 450,104,982 tons of bituminous coal and 84,361,598 tons of anthracite, of which about one-third or approximately 178,000,000 tons, was used in the development of industrial steam-power. Practically no coal is used in connection with the development of water-power or gas and oil-power. Steam railroads the same year used 125,000,000 tons and steamships 10,000,000 tons, while in steam heating plants 70,000,000 tons were used. About 70 per cent. of coal each year is used in peace times in steam-making, and the balance in hot-air and hot-water plants, cook stoves, the making of coke and gas, and exportations.

The Geological Survey has estimated that the waters of the United States, by their natural flow, exclusive of dams, can produce 27,943,000 horse-power at a minimum, of which 11,504,000 is in the Pacific States, 8,694,000 in the Mountain States, 2,346,000 in the South Atlantic States, 1,357,000 in the Middle Atlantic States, 1,087,000 in the East South Central States, 902,000 in the West North Central States, 832,000 in the East North Central States, 868,000 in the New England States, and 353,000 in the West South Central States.

CLASSIFICATIONS OF COAL.

THE Geological Survey gives to coal six classifications. They are: Anthracite, semi-anthracite, semi-bituminous, bituminous, sub-bituminous, and lignite. All of these various classes are produced in the United States. Most of the anthracite coal is mined in eastern Pennsylvania. Small areas in the West are placed in the anthracite classification, but are not identical with the Pennsylvania anthracite. Anthracite is an almost ideal domestic fuel, but is not well adapted to steam raising, although it is used for this purpose when an absolutely smokeless fuel is required. There is very little semi-anthracite in this country, hence it is but a small factor in the trade. Semi-bituminous is of higher rank than bituminous. It has a high percentage of fixed carbon, which makes it nearly smokeless. It is best adapted to raising steam and to general manufacture that requires a high degree of heat. It is regarded as the best coal for steamships, and is used almost exclusively by the navy. Being of a soft, tender quality, it is easily broken. This fineness is regarded by those accustomed to lump coal as detrimental, but it is not. It burns slowly and retains a high degree of heat. Bituminous coal is produced in a number of grades, but generally speaking, it describes a rank of coal having about equal proportions of volatile matter and fixed carbon. Bituminous coal is only slightly affected chemically by weathering unless it is exposed for many years. "Sub-bituminous" is a term adopted by the Geological Survey to describe a rank of coal more generally known as "black lignite." It is produced principally in the Western States. It is a clean, domestic coal, and ignites easily. Lignite is a product of North Dakota and Texas.

THE quantity of coal now made into coke is 60,000,000 to 70,000,000 tons annually, and as under present practice the yield of benzol is 2 gallons from the ton of coal, the universal use of by-product ovens would increase the present production of benzol to over 3,000,000 barrels. The coal reserves available for the future production of benzol are enormous.

OUTPUT OF COKE BY CHIEF PRODUCING STATES—NET TONS.

Merchandise imports free of duty, which are included in the above table, were valued as follows—(1821), $2,017,423; (1830), $4,590,281; (1840), $48,313,391; (1850), $18,081,590; (1855), $36,430,524; (1860), $73,741,479; (1870), $20,140,786; (1880), $208,301,863; (1890), $265,668,629; (1900), $367,236,866; (1910), $755,311,296; (1916), $1,492,647,350; (1917), $1,848,840,520; (1918), $2,118,599,372; (1919), $2,230,222,338.

Of the merchandise imports free of duty, crude materials for use in manufacturing were valued as follows—(1821), $1,424,755; (1830), $3,309,771; (1840), $9,698,751; (1850), $407,141; (1855), $2,163,411; (1860), $16,429,453; (1870), $13,432,645; (1880), $88,232,538; (1890), $107,346,613; (1900), $210,391,745; (1910), $436,257,101; (1916), $851,888,721; (1917), $1,009,093,390; (1918), $1,099,244,156; (1919), $1,108,865,243.

Of the merchandise imports free of duty, foodstuffs in crude condition and food animals were valued as follows—(1840), $15,213,743; (1850), $15,803,449; (1855), $28,503,915; (1860), $42,126,415; (1870), $198,669; (1880), $85,524,106; (1890), $106,515,414; (1900), $68,722,439; (1910), $113,681,442; (1916), $217,203,290; (1917), $268,597,470; (1918), $312,681,329; (1919), $319,887,378.

Of the merchandise imports free of duty, manufactures for further use in manufacturing were valued as follows—(1821), $487,697; (1830), $1,210,985; (1840), $4,962,487; (1850), $764,223; (1855), $1,201,318; (1860), $6,432,914; (1870), $2,518,320; (1880), $15,404,865; (1890), $19,274,580; (1900), $45,577,831; (1910), $123,295,107; (1916), $255,617,750; (1917), $361,886,136; (1918), $435,403,772; (1919), $488,681,928.

Each stretch is treated as a separate river, and tonnage carried between ports on different stretches will appear in the statistics of all intervening stretches; consequently the sum of the tonnage carried in the four stretches does not represent the total traffic on the river as a whole.

Prior to 1866 the figures of import values represent net general imports, the amount of duty collected being the annual amounts collected on merchandise only, For 1867 and later years the figures of import values represent imports for consumption, the average ad valorem rates on dutiable merchandise being based on ordinary duties, and those on free and dutiable merchandise being based on total duties collected. The total duties collected include duty equivalent to internal revenue tax, and drawback on articles exported from the United States returned.

Imports entered for consumption are imports on which duties are paid (or which are registered as entered free), within a named period. Thus, goods may be imported to the value of $2,000,000,000 in a given period, but 75 per cent. of them go into bonded warehouses, to be held until needed for consumption. When such goods come out of storage they are recorded as imported and not till then.

IMPORTS AND EXPORTS.

The statistics since 1913 represent the commerce of the districts named as rearranged July 1, 1913. The former limits in almost all cases were more restricted, and the statistics are accordingly not strictly comparable. Prior to 1914 the statistics given in this table for Massachusetts and Maryland were returned as for the (former) districts of Boston and Baltimore, respectively.

The statistics since 1913 represent the commerce of the districts named as rearranged July 1, 1913. The former limits in almost all cases were more restricted, and the statistics are accordingly not strictly comparable. Prior to 1914 the statistics given in this table for Massachusetts and Maryland were returned as for the (former) districts of Boston and Baltimore, respectively.

EXPORTS OF BREADSTUFFS, MEATS, ETC., FOR 1918 AND 1919.

(By the Department of Commerce. Fiscal year ending June 30)

Exports by Groups.		1919.	1918.

The principal exports of merchandise from the United States to the Virgin Islands are breadstuffs, cereals, etc.; bituminous coal, iron and steel products, boots and shoes, meat and dairy products, oils, lumber and refined sugar. The principal imports to the United States from the Virgin Islands are sugar and rum, hides and skins and cabinet woods.

While it is reported that minerals are to be found on the islands, so far as known no attempts at mining or exploration have been made.

The Virgin Islands were discovered by Columbus, 1493, on his second voyage. St. Thomas was first colonized, 1666, by the Danes, who planted a permanent settlement in 1672, and who held on until the United States bought the islands for $25,000,000 and took possession March 31, 1917 (except that the English kept them, by force, April, 1801, to February, 1802, and from 1807 to 1815). St. Croix was occupied by Dutch and English settlers in 1625, Denmark not getting it till 1733. The United States first tried to buy the islands January, 1865, under President Lincoln. As early as 1688 there were slave colonies on St. Thomas.

The population of the Virgin Islands by the first United States Census, November 1, 1917, was 26,051, as against 27,086 on February 1, 1911; 43,178 in 1835, and 38,231 in 1860. Of the 1917 population St. Croix had 14,901, St. Thomas 10,191 and St. John 959 The 1835 census gave St. Croix 26,681, St. Thomas 14,022 and St. John 2,475. The 1917 population of the cities was: (St Croix), Christiansted, 4,574; Frederiksted, 3,144 (St. Thomas), Charlotte Amalie, 7,747. Of the total population of the Virgin Islands in 1917, 1,922, or 7.4 per cent, were whites; 19,523, or 74.9 per cent., were negroes; 4,563, or 17.5 per cent., were of mixed white and negro blood; and 43, or two-tenths of 1 per cent., were of other races. Of the 43 persons of "other races," 15 were returned as Chinese, 7 as Filipinos, 8 as Indians, 8 as "coolies," 2 as Hindus, 1 as Burmese, and the color of 2 was not specified. At no census of the Virgin Islands prior to that of 1917 was inquiry made as to the color or race. The proportion of whites is largest on St. Thomas, due to marine camps and fishermen. Of the 1917 population of the islands 11,999 were males and 14,052 were females. Common law marriages prevail. There were 7,186 males over 21 years. About half the population of school age (5 to 20 years) attend school. In the Virgin Islands in 1917 there were 14,590 persons 10 years of age and over engaged in gainful occupations. The gainful workers thus formed 56 per cent. of the total population and 68 8 per cent. of the population 10 years of age and over. In the male population the gainful workers numbered 7,936, which was 66.1 per cent. of all males and 82.3 per cent. of the males 10 years of age and over. In the female population the gainful workers numbered 6,654, which was 47.4 per cent. of all females and 57 6 per cent. of the females 10 years of age and over.

The value of farm property for the islands amounted to $3,706,911, including the value of land and buildings, $3,017,341; implements and machinery, $106,649, and the value of live stock, $582,921. The average value of all farm property per farm was $8,621; of land and buildings, $7,017; of implements and machinery, $248; of live stock, $1,356; and the average value of farm land per acre was $34.37. The total area of the islands is approximately 84,781 acres, and the land in farms is about 69,892 acres. Of the acres in farms, 49,206 are reported for the Island of St. Croix, the principal agricultural island; 10,003 acres are reported for St John, and 10,683 acres for St. Thomas. The Island of St. Croix, because of its physical nature, leads in every phase of agriculture. Of the 430 farms on the islands 102 were operated by whites; and 29.5 per cent. of all the farms were run by owners, 13 per cent. by managers and 57.5 per cent. by tenants. There were 219 farms under five acres, and 16 of 1,000 acres and over. The live stock was—12,322 cattle, 2,129 horses, 1,600 mules, 974 asses, 2,329 swine, 1,096 sheep, 2,259 goats, 13,966 poultry and 195 bee colonies. The 1917 crop values were: Sugar cane, $442,120; guinea grass, $63,886; vegetables, $6,537; cotton, $3,850. The fisheries netted $44,436.

Per capita estimates are got by dividing the item in question by the United States population. A large proportion of the figures in 1919 column are somewhat preliminary, and they relate to that year or to the latest previous year for which figures are available. For later data on separate items see Index. Population is continental. Gold and silver cannot be stated separately prior to 1876. Net ordinary receipts and disbursements do not include loans, Treasury notes, or Postal expenses or revenues. 1919 commercial failures cover first six months. On July 1, 1907, there was an arbitrary reduction of $135,000,000 in circulation of money. Before 1900 the value of farm buildings, over $6,000,000, was not considered. Mineral production is mainly for 1917.

Figures for the Union of South Africa, 1900-1905, are for Cape Colony only.

RESOURCES AND INDUSTRY OF SPITZBERGEN.

Spitzbergen, rediscovered and named by the Dutch about 1596, is a group of Arctic islands 375 miles north of Norway, with an area of 31,000 square miles. Exploration has proved the existence of a wealth of coal, phosphate, and gypsum. There are also iron ore, zinc-blende, and asbestos. About 60,000 tons of coal was shipped out in 1918.

HIDES AND SKINS USED IN THE UNITED STATES.

(United States Department of Agriculture figures, 1914).

TRAFFIC OF THE PORT OF LONDON.

The annual report of the Port of London authority gives the total tonnage (net) of vessels arriving and departing with cargoes and in ballast from and to foreign countries, British possessions, and coastwise during 1918 at 14,564,008 tons, compared with 40,082,282 tons in 1913, and 18,053,000 tons in 1917. These figures do not include tonnage engaged on Government service in connection with the war.

The Statist also presents a brief statement of British war finances during the same period, showing the total war expenditure and the amounts met out of revenue and out of the proceeds of loans:

YEAR.	War Expenditure.	MET OUT OF— Revenue.	MET OUT OF— Loans.	Total Revenue and Loans.
1914-15	$1,762,096,375	$137,756,025	$1,972,635,775	$2,110,391,800
1915-16	6,013,607,575	664,841,775	5,671,024,900	6,335,866,675
1916-17	9,736,873,725	1,830,344,175	7,897,443,800	9,727,787,975
1917-18	12,149,737,975	2,470,332,725	9,658,927,000	12,129,259,725
1918-19	11,562,322,225	3,336,569,725	8,203,103,800	11,539,673,525
Total to March 31, 1919	$41,824,637,875	$8,439,844,425	$33,403,135,275	$41,842,979,700

War expenditure includes interest on war debt and loans to allies and dominions, and excludes peace-time cost of Army and Navy.

The estimated expenditures of the British Government for the year ended March 31, 1920, are $6,682,062,600, as against $14,444,877,420 in the year ended March 31, 1919

Other Brit. Col. and pos.	1918	2,920	3,133				

The figures for all except British South Africa and the United States are exclusive of passengers traveling indirectly via Continental ports. In connection with the above figures it may be noted that in the year 1913 the passengers between this country and non-European countries numbered 469,640 British and 232,051 aliens in the outward movement and 227,643 British and 144,975 aliens in the inward movement. The following totals relate to the traffic to and from the Continent of Europe. A large proportion of these passengers in the years 1916, 1917 and 1918 were war workers:

YEAR.	No. of Pass. from United Kingdom to the Continent.	No. of Pass. from Continent to the United Kingdom.	YEAR.	No. of Pass. from United Kingdom to the Continent.	No. of Pass. from Continent to the United Kingdom.
1918.....	189,225	171,229	1916.....	219,017	212,491
1917.....	201,953	182,484	1913.....	1,184,412	1,309,874

The tonnage of the British and foreign vessels in foreign trade that entered and cleared with cargoes at the ports of the United Kingdom during six years was:

YEAR.	ENTERED WITH CARGOES			CLEARED WITH CARGOES;

The imports are of merchandise for home consumption. The exports include foreign as well as domestic produce, the total of foreign for 1919 being $52,321,479. In 1919 the dutiable merchandise in the imports was valued at $526,495,717, the free at $389,947,715. The table does not include gold or silver imports or exports.

Merchandise imports from U. S.—(1910), $217,502,415; (1911), $274,844,858; (1912), $330,428,502; (1913), $435,769,650; (1914), $395,565,328; (1915), $296,632,486; (1916), $370,496,574; (1917), $664,219,653; (1918), $791,906,127; (1919), $746,937,509.

Merchandise exports to U. S.—(1910), $104,199,675; (1911), $104,115,823; (1912), $102,041,222; (1913), $139,725,953; (1914), $163,372,825; (1915), $173,320,216; (1916), $201,106,488; (1917), $280,616,330; (1918), $417,812,807; (1919), $454,923,170.

Merchandise imports from United Kingdom—(1917), $107,096,584; (1918), $81,302,403; (1919), $73,-024,016.

Merchandise exports to United Kingdom—(1917), $742,147,537; (1918), $845,480,069; (1919), $531,-920,977.

Other 1918 yields—Beans, 3,563,380 bushels; buckwheat, 11,375,500 bushels; mixed grains, 35,662,300 bushels; flaxseed, 6,055,200 bushels; hay and clover, 14,772,300 tons; potatoes, white, 104,364,200 bushels; peas, 3,099,400 bushels.

Of the 1918 Canadian grain crop the three prairie provinces of Manitoba, Saskatchewan, and Alberta raised 164,400,000 bushels of wheat, 222,000,000 bushels of oats, 47,600,000 bushels of barley, and 5,700,000 bushels of flax.

Canadian grain exports in the year ended March 31, 1919, were, in bushels—Wheat, 150,392,037; Oats, 54,877,882; barley, 6,846,790; rye, 878,222; peas, 107,502; beans, 14,103; buckwheat, 162,124; corn, 101,535.

THE NAME OF CANADA.

The Rev. Isaac Taylor, in *Words and Places* (1864), drawing upon such authorities as Cooley's *Maritime and Inland Discovery*, Charnock's *Local Etymology*, and Drake's *Book of the Indians*, has the following: "The names of the West Indies and of the Red Indians of North America are due to the sanguine supposition of Columbus that his daring enterprise had in truth been rewarded by the discovery of a new passage to the shores of India. The name of Canada is due to a mistake of another kind. 'Canada' was the native Indian word for a 'village.' When the French explorers first sailed up the St. Lawrence, pointing to the land, they asked its name, while the natives thought they required the name given to the collected wigwams on the shore, and replied 'Canada.' "

The yen for all practical calculations equals 50 cents.

The financial years from 1876-77 to 1884-85 consist of 12 months each, from July 1 to June 30; the financial year 1885-86 comprises 9 months, from July 1 to March 31; and those subsequent to 1886-87 inclusive consist of 12 months each, from April 1 to March 31. The figures for the financial years from 1875-76 to 1914-15 represent the settled accounts, those for the financial year 1915-16 the actual account on October 31, 1916, and those for the financial years 1916-17 and 1917-18 the budget estimates. As a sum of yen 1,324,575 is to be left unused of the total expenditure for 1916-17, in consequence of the disbursement of the special war expenditure, the net expenditure amounts to yen 600,938,397.

The chief sources of revenue in 1918-19 were (in yen), taxes, 368,367,758; land levy, 73,275,789; income tax, 66,462,095; on liquors, 94,621,578. Other sources, with the 1917-18 figures (in yen) are, sugar excise, 25,174,187; on business, 22,257,000; from public undertakings, 176,346,659; textiles, 17,459,341; stamp receipts, 30,790,718; postal, telegraph and telephone, 70,228,229; tobacco monopoly, 59,061,606; public loans, 19,430,963.

There are over 7,500 miles of railways, over 2,000 banks, more than 1,000,000 factory employés. The banks (January 1, 1919) had $205,859,000 paid-up capital; $2,147,518,589 deposits. The specie of Japan, January 1, 1919, was $796,603,000, of which $225,820,500 was in Japan.

Population (1917)—Japan, proper, 56,550,348; Korea (Chosen), 16,998,181; Formosa (Taiwan), 3,650,047; Karafuto (Saghalien), 68,207.

More than 500,000 Japanese, mostly laborers, are residents in other countries.

Nearly 76 per cent. of planted acreage plantation rubber is owned by British capital, and 2.8 per cent. by American capital, according to best available authorities, as follows:

PLANTATION INTERESTS.	Acreage.	Per Cent.	PLANTATION INTERESTS.	Acreage.	Per Cent.
British	1,513,576	75.9	German	3,400	.2
Dutch	260,000	13.0	All other	63,577	3.1
French and Belgian	100,000	5.0			
American	55,000	2.8	Total	1,995,553	100.0

The 55,000 acres planted and controlled by American capital comprise the estate of the General Rubber Co., in Sumatra. American interests have also recently acquired 40,000 acres of undeveloped land in Sumatra. A very limited area is also planted to rubber in Mindanao, Philippines.

A fraction over 66 per cent. of all rubber plantations are situated in British colonies. Of the total acreage under British control, 807,491 acres are in the Federated Malay States and Johore, 159,500 acres in the Straits Settlements, 251,500 in Ceylon, 41,820 in South India, 29,880 in British Borneo, 26,390 in British Burmah, and 5,000 in the South Sea Islands. Under the Dutch flag there are 352,455 acres in Sumatra, 238,830 acres in Java, and 10,100 acres in Dutch Borneo, giving the Netherlands control over 49 per cent. of the total world acreage in rubber plantations. France controls 10,000 acres in Cochin China, and the share of all other countries amounts to 62,577 acres.

EXPORTS OF CONDENSED MILK FROM U. S., CALENDAR YEAR 1918.

The total value of the condensed milk exports was $72,824,897.

WORLD'S PRODUCTION AND CONSUMPTION OF TEXTILES.

There is given in the following table the production of textile fibers, by grand divisions, in 1913:

Grand Divisions.	Cotton.	Wool.	Silk, Raw.	Flax Fiber.	Jute.
	Metric Tons.	*Metric Tons.*	*Metric Tons.*	*Metric Tons.*	*Metric Tons.*
Europe, including Asiatic Russia and Turkey	238,950	468,684	7,083	568,822	.....
America	3,236,420	370,500	...	29	.....
Asia, exclusive of Asiatic Russia and Turkey	1,765,815	96,680	34,319	8,600	1,815,350
Oceania	175	392,500	....	....	.....
Africa	341,875	100,537	....	....	.....
Total	5,583,235	1,428,901	41,402	577,451	1,815,350

The value of raw materials and manufactured products of the textile industries, by classes, for the calendar year 1913, follows:

	Value of Raw Materials Produced.	Value of Manufactured Products.		Value of Raw Materials Produced.	Value of Manufactured Products.
	Dollars.	*Dollars*		*Dollars.*	*Dollars*
Cotton.	1,575,608,000	5,951,142,000	Jute.	181,832,000	331,272,000
Wool	557,872,000	2,453,804,000	Clothing, millinery, etc	..	429,209,000
Silk	297,928,000	932,508,000			
Flax	98,889,000	456,555,000	Total	2,712,129,000	10,554,490,000

The value of textile fibers produced, and the value of textile manufactures produced and consumed, during the calendar year 1913, by grand divisions, follow:

Grand Divisions.	Value of Raw Fibers Produced	Value of Textile Manufactures.	Domestic Consumption of Textiles
Europe, including Asiatic Russia and Turkey	$401,100,000	$6,249,740,000	$4,726,775,000
America	1,078,188,000	2,198,070,000	2,625,045,000
Asia, exclusive of Asiatic Russia and Turkey	901,354,000	2,059,700,000	2,175,250,000
Oceania	167,124,000	22,634,000	132,993,000
Africa	163,863,000	24,346,000	190,400,000
Total	$2,712,129,000	$10,554,490,000	$9,850,403,000

WHAT AMERICANS EAT.

The following table, compiled under the directions of Royal Meeker, Commissioner of Labor Statistics U. S. Dept of Labor, shows the pounds of food consumed per man per day in New York and other cities:

Item.	Atlanta	Boston.	Chicago	Denver.	New Orleans, White	New Orleans, Colored	New York	Providence	San Francisco	Seattle	St. Louis	St. Paul and Minneapolis.
Total meat	0 296	0 350	0 380	0 400	0 320	0 320	0 356	0 361	0 420	0 309	0 369	0 316

Including whole milk, evaporated and condensed milk, butter, buttermilk, cheese, cream, and ice cream

A well-balanced diet, the experts say, should contain, per day, 100 grams of protein (lean meat, cheese, eggs, etc.), 115 grams of fat, 500 grams of carbohydrates (cereals, etc.), 0.7 grams of calcium (milk, etc.), 0.015 grams of iron, and 1 32 grams of phosphorus.

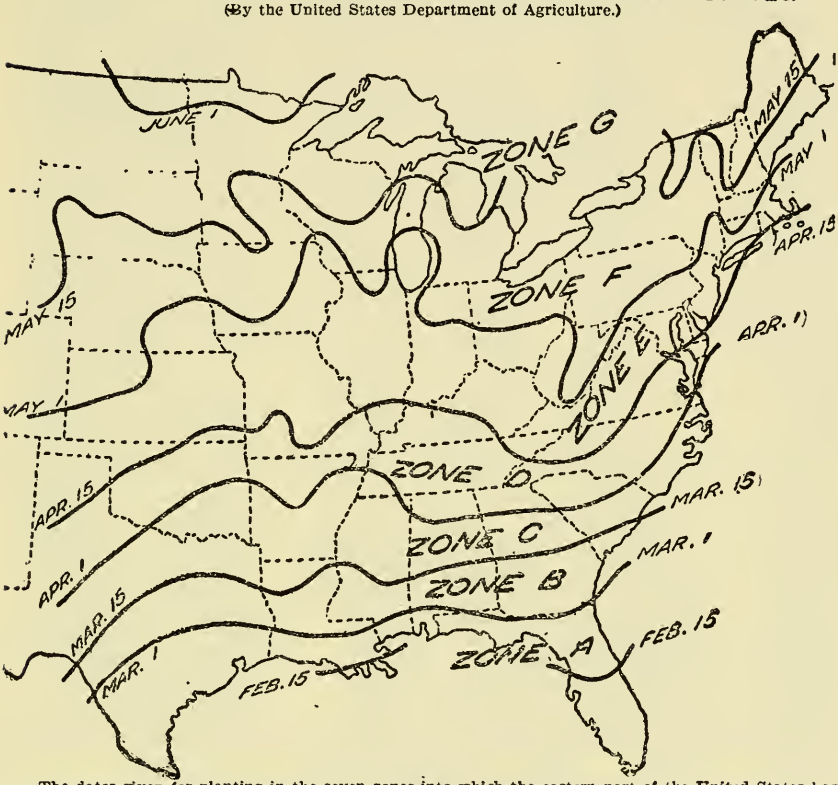
An inquiry by Dr Meeker in 43 localities and covering white families of the same size—husband, wife, and three children, of 2, 5 and 11 years—with $1,300 income, showed food expenditures in a year in chief cities as follows: New York, $597; Boston, $593; Newark, N. J., $564; New Orleans, $560; Pittsburgh, $559; Philadelphia, $555; Baltimore, $550; Richmond, $545; San Francisco, $542; Atlanta, $532; Cincinnati, $529; Chicago, $528; Denver, $528; Seattle, $528; St. Louis, $524; Cleveland, $519; Detroit, $512; Indianapolis, $510; Buffalo, $508; Los Angeles, $494; Minneapolis and St. Paul, $481. The investigators estimated that the lowest yearly "safe" income to provide food for a family of man, wife, and three young children in 1918-1919, was as follows: New York City, over $2,000; Chicago, $1,800; Denver, $2,000; St. Louis, over $2,000; San Francisco, over $2,000; Seattle, over $2,000; Boston, over $1,600; St. Paul, $1,800; New Orleans, $1,400; Atlanta, over $2,000. At the time of the inquiry, the most food for the money spent, relatively, was got at St. Paul and Minneapolis, with Atlanta, Ga., second, and New York last, of 11 cities According to Dr. Meeker, a woman eats 90 per cent. as much as a man; a child of 3 years or under, 15 per cent.; a child of 4 to 6 years, 40 per cent.; a child 7 to 10 years, 75 per cent.; a child 11 to 14 years, 90 per cent.; a child 14 years and over, 100 per cent

His conclusion was that in most American communities during the war the people were somewhat underfed, not averaging the required 3,000 to 3,500 calories of food energy per day.

Fruits are recommended by many Government dieticians as containing valuable food acids. Milk is especially urged for children, and butter and cheese for older persons. Pasteurized milk is said by some health authorities to incline small children to rickets unless some fruit acid is used in the diet.

GARDEN PLANTING MAP FOR EASTERN UNITED STATES.

(By the United States Department of Agriculture.)



The dates given for planting in the seven zones into which the eastern part of the United States has been divided are considered to be the best for planting. Earlier and later plantings often can be made, however, with fair chances of success.

PLANTING DATES BY VEGETABLE GROUPS.

ZONE.	Group 1.	Group 2.	Group 3.	Group 4.
A	Jan. 1 to Feb. 1	Feb. 1 to Feb. 15	Feb. 15 to Mar. 1	Mar. 1 to Mar. 15
B	Feb. 1 to Feb. 15	Feb. 15 to Mar. 1	Mar. 1 to Mar. 15	Mar. 15 to Apr. 1
C	Feb. 15 to Mar. 1	Mar. 1 to Mar. 15	Mar. 15 to Apr. 1	Apr. 1 to Apr. 15
D	Mar. 1 to Mar. 15	Mar. 15 to Apr. 15	Apr. 1 to May 1	May 1 to May 15
E	Mar. 15 to Apr. 15	Apr. 15 to May 1	May 1 to May 15	May 15 to June 1
F*	Apr. 15 to May 1	May 1 to May 15	May 15 to June 1	May 15 to June 15
G*	May 1 to May 15	May 15 to June 1	May 15 to June 15	(†)

* For the crops grown. † Season too short for this group Group 1 (may be planted two weeks before last killing frost)—Early cabbage plants from hot bed or seed box, radishes, collards, onion sets, early smooth peas, kale, early potatoes, turnips, and mustard. Group 2 (may be planted about the date of the last killing frost)—Beets, parsnips, carrots, lettuce, salsify, spinach, wrinkled peas, cauliflower plants, celery seed, onion seed, parsley, sweet corn, and Chinese cabbage. Group 3 (should be planted two weeks after last killing frost)—Snap beans, okra, and tomato plants. Group 4 (cannot be planted until ground is well warmed up, about a month after last hard frosts)—Lima beans, pepper plants, eggplant, cucumbers, melons, squash, and sweet potatoes.

Because of the greatly varying altitudes in the Western States this portion of the country cannot be divided into definite zones. The best planting dates can be indicated only by the average date of the last killing frost in each section, as is done on the accompanying map. Planting of the vegetable groups given below should be governed by the frost dates indicated. Group 1 (may be planted two weeks before last killing frost)—Early cabbage plants from hot bed or seed box, radishes, collards, onion sets, early smooth peas, kale, early potatoes, turnips, and mustard. Group 2 (may be planted about the date of the last killing frost)—Beets, parsnips, carrots, lettuce, salsify, spinach, wrinkled peas, cauliflower plants, celery seed, onion seed, parsley, sweet corn, and Chinese cabbage. Group 3 (should be planted two weeks after last killing frost)—Snap beans, okra, and tomato plants. Group 4 (cannot be planted until ground is well warmed up, about a month after last hard frosts)—Lima beans, pepper plants, eggplant, cucumbers, melons, squash, and sweet potatoes.

The dates given on this sheet are general averages. The nearest station of the United States Weather Bureau will be glad to give more specific information regarding the frost-free date in any particular community.

WHEAT HARVEST SEASONS OF THE WORLD.

(Compiled by the Chicago Board of Trade.)

January—Australia, New Zealand and Chili.
February and March—East India, Upper Egypt.
April—Lower Egypt, Syria, Cyprus, Persia, Asia Minor, India, Mexico and Cuba
May—Algeria, Central Asia, China, Japan, Morocco, Texas and Florida.
June—Turkey, Greece, Italy, Spain, Portugal, South of France, California, Louisiana, Mississippi, Alabama, Georgia, Carolinas, Tennessee, Virginia, Kentucky, Kansas, Arkansas, Utah, Missouri.
July—Roumania, Bulgaria, Austria-Hungary, South of Russia, Germany, Switzerland, France, South of England, Oregon, Nebraska, Minnesota, Wisconsin, Colorado, Washington, Iowa, Illinois, Indiana, Michigan, Ohio, New York, New England and Upper Canada.
August—Belgium, Holland, Great Britain, Denmark, Poland, Lower Canada, Columbia, Manitoba, North and South Dakota.
September and October—Scotland, Sweden, Norway and North of Russia.
November—Peru, South Africa and Argentina.
December—Burmah and Argentina.

CORN HARVEST TIME.

January—New South Wales.
March and April—Argentina.
September and October—All European countries.
October—The crop of the United States is harvested principally in this month.

CEREAL CROPS OF THE GLOBE.

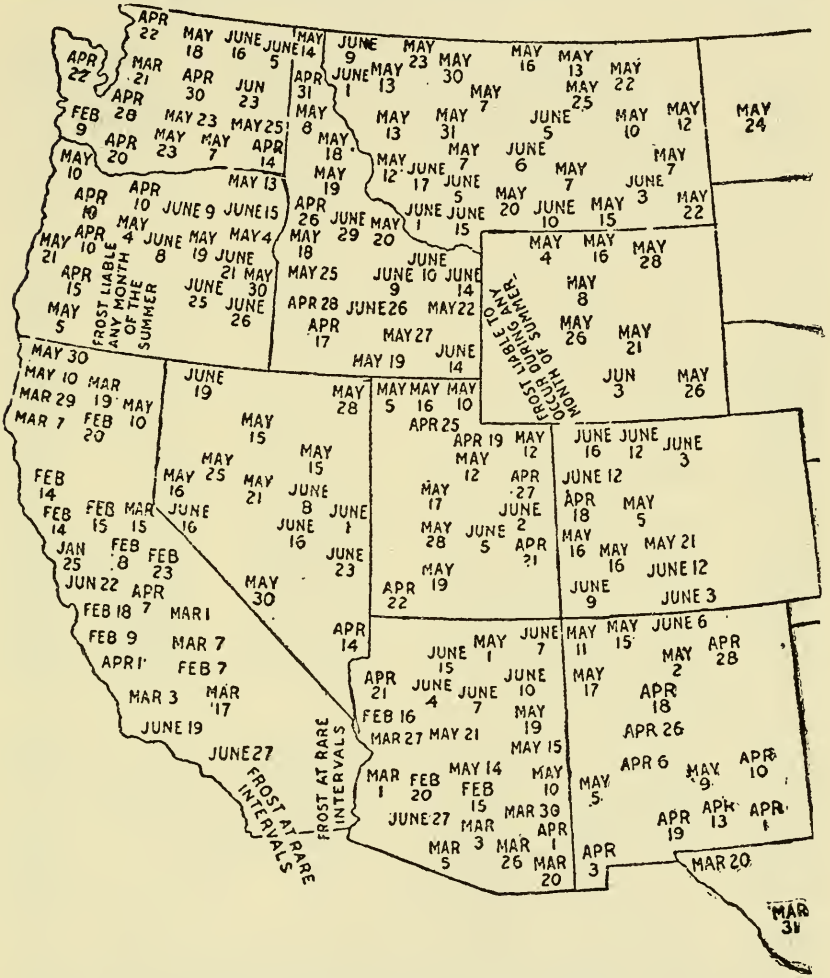
GARDEN PLANTING MAP FOR WESTERN UNITED STATES.
(By the United States Department of Agriculture. Based on average dates of last killing frost in spring.)



TOBACCO HINTS BY GOVERNMENT EXPERTS.

With respect to date of planting tobacco seed beds, April 1 is about right for New England, while the normal season extends through March and April in the Middle States and in the Central or Western States, while in the Southern States seed beds are planted in Florida in January and early February, seldom later than March 1 in South Carolina and continuing on through March in North Carolina. As regards fertilizing tobacco crops in New England as much as 20 tons of manure per acre is not unusual, but commercial fertilizers are of much more importance than manure in this section. In the Middle States manure is frequently more important than commercial fertilizer. In the Southern States manure is seldom used, except in Florida, whereas commercial fertilizers are very important, the average application being about 800 pounds per acre. If the time required for maturity is reckoned as beginning at the time of sowing the seed the period for New England is too short, the actual time being approximately 12 to 18 weeks. In the Southern States the minimum time for maturity is too high, the correct minimum being approximately 12 weeks. As regards tobacco varieties, those grown in New England are Broadleaf, Connecticut Havana and Cuban; in the Middle States the varieties are Seedleaf, Maryland and Oronoco; in the Southern States, Oronoco and Cuban. To the list given for the Central and Western States should be added Seedleaf.

SEED PLANTING IN THE UNITED STATES.

(Compiled from reports of the Department of Agriculture.)

KIND OF CROP.	Date of Planting.	Best Soil.	Amount of Manure per Acre.	Amount of Seed per Acre (1).	Weeks to Maturity.
NEW ENGLAND.					
Corn	May 10 to 30	Sandy or clay loam	8 to 12 tons	8 to 12 qts	14–17
Wheat	Fall or Spring	Clay loam	6 to 8 tons	2 bush	20
Oats	Apr. to May	Strong loam	0 to 8 tons	2 to 3 bush	11–15
Barley	Apr. to June 10	Strong loam	7 to 8 tons	2 to 2½ bush	13–16
Rye	Apr. to May, Sept	Medium loam	7 to 8 tons	5 to 6 pecks	40
Buckwheat	June 1 to 20	Light loam	0 to 4 tons	1 to 1¼ bush	10–15
White beans	May to June	Sandy loam	7 to 8 tons	8 to 16 qts	8–14
Potatoes	Apr. 15 to May 1	Rich loam	15 to 20 tons	8 to 20 bush	12–20
Turnips	July 1 to Aug. 3	Sandy loam	10 tons	1 lb	10
Mangels	Apr. 15 to May 5	Strong heavy loam	8 to 15 tons	4 to 6 lbs	17–22
Tobacco	Seed bed Apr	Sandy loam	8 to 12 tons		9–12
Hay					
MIDDLE STATES.					
Corn	Apr. 20 to May 30	Medium loam	8 to 12 tons manure	6 to 8 qts	16–18
Wheat	Sept. 20 to Oct 20	Loam or clay loam	8 tons; 300 lbs fer	2 bush	41–43
Oats	Mar to May	Moist clay loam	8 tons; 300 lbs fer	2 to 2½ bush	13–16
Barley	Mar. to May	Clay loam	8 tons; 300 lbs fer	2 bush	13–16
Rye	Sept. 1 to Oct. 1	Sand or gravel loam	8 tons; 300 lbs fer	1½ bush	40–43
Buckwheat	June to July	Loam	0 to 4 tons	½ to 1½ bush	8–10
White beans	May to June	Sandy loam	8 tons	1½ bush	13–14
Potatoes	Mar. to May	Loam	10 to 18 tons	8 to 15 bush	14–22

Hay	Apr. to May	Clay loam	10 tons	8 to 15 lbs	
SOUTHERN STATES.					
Cotton	Feb to May 15	Sandy loam (2)		1 to 3 bush	20–30
Corn	Feb. to June	Rich loam	10 bush. cot seed.	8 qts	18–20
Wheat	Sept. to Nov	Clay loam (2)	8 tons	2 bush	43
Oats	Feb., May, Sept.	Clay loam (2)	8 to 10 tons	2½ bush	14–17
Barley	Apr. to May	Clay loam	8 tons	2½ bush	17
Rye	Sept to Oct	Clay loam (2)	10 tons	1½ bush	43
White beans	Mar. to May	Light loam	8 tons	1 to 2 bush	7–8
Cabbage	Oct., Mar to May	Light loam	6 to 10 tons	¼ to ½ lb	14
Watermelons	Mar. 1 to May 10	Rich, light loam	5 tons; 300 lbs. fer	2 to 7 lbs	16–20
Onions	Feb 1 to Apr 10	Loam or muck			16–24
Potatoes	Jan., Feb. to Apr	Light, loose loam	8 to 12 tons	8 to 10 bush	11–15
Sweet potatoes	May to June	Sandy loam		10 to 12 bush	12–15
Pumpkins	Apr 1 to May 1	Rich, light loam		4 to 7 lbs	17–20
Tomatoes	Jan. 1 to Feb. 19	Rich, sandy loam		4 to 9 oz	14–20
Turnips	Feb., Aug., Apr.	Rich, light loam		2 to 6 lbs	8–12
Tobacco	Seed bed, Mar	Sandy loam	8 to 15 tons	oz. to 6 sq. rd.	18–20
Cow peas	May 1 to July 15	Sandy loam	200 to 300 lbs. phos.	2 to 5 pecks	6–8

(1) The standard varieties of seed planted in the several sections of the United States are as follows: Corn—New England, leaming, sanford, flint; Middle States, leaming, white dent, yellow dent; Central and Western States, leaming, sanford, flint, white dent; Southern States, hickory king, gourd-seed, Cox prolific. Wheat—Middle States, fultz; Central and Western States, fultz, poole, fife; Southern States, fulcaster. Oats—New England, Clydesdale and Welcome; Middle States, white, black; Central and Western States, Sixty-day, Swedish Select and Silver mine; Southern States, Red rustproof. Barley—New England and Middle States, Manchuria and Oderbrucker; Western States, coast; Southern States, Tennessee Winter. Rye—New England, white; Middle States, white, Winter; Central and Western States, Winter; Southern States, excelsior Winter. Buckwheat—Middle States, silver hull; Central and Western States, silver hull. Potatoes—New England, green mountain, carmen 3, rose; Middle States, rose, carmen 3, rural 2; Central and Western States, hebron, rural, early rose, early Ohio. Tobacco—Central and Western States, yellow prior, Spanish, white burley. Hay, clover—Middle States, medium red. Sweet Potatoes—Middle States, yellow Jersey; Southern States, yellow Jersey. Cotton—Southern States, Texas stormproof. Spring wheat is to some extent grown in Ohio, Indiana, Illinois and many other States. It matures in eighteen to twenty weeks.

(2) In Texas the black loam is a good soil for cotton, corn, wheat and most other field crops.

VEGETABLE PLANTING TABLE.

Vegetable.	Quantity for 100 Foot Row.	Distance Apart in Inches		Depth of Planting, Inches.	Time of Planting	Mature (in Days, Except as Noted).
		Rows.	In Row.			
Asparagus, seed	1 oz	12 to 24	3 to 5	½ to 1	Early spring	3 to 4 yrs.
Asparagus, plants	60 to 80	36 to 48	15 to 20	8 to 10.	Early spring	1 to 3 yrs.
Beans, snap	½ to 1 pt	20 to 24	4 to 6	1	April to August	40 to 65
Beans, pole	½ pt	36 to 48	Hills 24 to 36.	1	May and June	50 to 80
Beans, Lima, bush	½ to 1 pt	18 to 24	4 to 6	1	May and June	60 to 90
Beans, Lima, pole	½ pt	36 to 48	Hills 24 to 36.	1	April to June	60 to 80
Beets	2 oz	12 to 18	5 or 6 to ft.	1 to 2.	April to July	60 to 80.
Brussels sprouts	¼ oz	24 to 30	16 to 24	½	April to August	60 to 80
Cabbage, early	¼ oz	24 to 30	12 to 18	½	March and April (Start in hotbed during February).	90 to 130
Cabbage, late	¼ oz	24 to 36	16 to 24	½	May and June	90 to 130
Carrot	1 oz	18 to 24	6 or 7 to ft.	½	April to June	75 to 110
Cauliflower	1 packet	24 to 30	14 to 18	½	April to June (Start in hotbed during February or March.)	100 to 130
Celery	¼ oz	18 to 36	4 to 8	⅛	May and June. (Start in hotbed during March or April	120 to 150
Chard	½ oz	18 to 24	4 to 6 to ft	½	April to July	60 to 80
Corn, sweet	½ pt	30 to 36	30 to 36.	1 to 2.	May to July	60 to 100
Cress, upland	½ oz	12 to 18	4 to 5 to ft.	½ to 1	March to May	30 to 40
Cucumber	½ oz	48 to 72	48 to 72	1	April to July	60 to 80
Eggplant	⅓ oz	24 to 36	18 to 24	½ to 1	April and May (Start in hotbed during March	100 to 140
Endive	1 oz	18	8 to 10	½	Midsummer	90 to 180
Horseradish	70 roots	24 to 30	4 to 6	3 to 4	Early spring	1 to 2 yrs.
Kale	½ oz	18 to 24	6 to 8	½	Early spring, Aug. and Sept.	90 to 120
Kohlrabi	¼ oz	18 to 24	4 to 6	½	April to August	60 to 80
Lettuce	½ oz	12 to 18	4 to 6	½	March to September	60 to 90
Muskmelon	½ oz	72 to 96	Hills 72	1	April to June. (Start in hotbed during March)	120 to 150
Okra, or gumbo	2 oz.	36 to 48	24 to 30	1 to 2	May and June	60 to 90
Onion, seed	1 oz	12 to 18	5 or 10 to ft.	½ to 1	April and May	130 to 150
Onion, sets	1 qt	12 to 18	4 or 5 to ft.	1 to 2.	Autumn and March to May	90 to 120
Parsley	¼ oz	12 to 18	3 to 6	⅓	Early spring and September	90 to 120
Parsnip	½ oz	18 to 24	4 or 6 to ft	½ to 1.	April and May	125 to 160
Peas	1 to 2 pts	36 to 48	15 to ft	3 to 4	March to June	40 to 80
Pepper	⅓ oz	18 to 24	15 to 18	½	May and June (Start in hotbed during March)	100 to 140
Potato, Irish	5 lbs	24 to 36	14 to 18	3 to 5	March to June	80 to 140
Potato, sweet	75 slips	36 to 60	14	2 to 3	March to June	100 to 130
Pumpkin	½ oz	96 to 144	96 to 144	1	May	100 to 140
Radish	1 oz	12 to 18	8 or 12 to ft.	½	March to September	20 to 40
Rhubarb, plants	33	36 to 60	36 to 48		Early spring	1 to 3 yrs.
Rutabaga	¼ oz	18 to 24	6 to 8.	½ to 1	May and June	60 to 80
Salsify	½ oz	18 to 24	2 to 4	½	Early spring	120 to 180
Spinach	1 oz	12 to 18	7 or 8 to ft	1 to 2	September or early spring	30 to 60
Squash bush	½ oz	36 to 48	Hills 36 to 48	1	April to June	60 to 80
Squash, late	½ oz	84 to 120	Hills 84 to 108	1	April to June	120 to 160
Tomato, seed	⅓ oz	36 to 48	30 to 36	½ to 1	May and June (Start in hotbed dur'g Feb. and March)	100 to 140
Tomato, plants	33 to 40	36 to 48	30 to 36		May and June. (Start in hotbed dur'g Feb. and March)	80 to 100
Turnip	½ oz	18 to 24	6 or 7 to ft.	¼ to ½.	April and August	60 to 80
Vegetable marrow	½ oz	96 to 144	Hills 96 to 108	1 to 2	April to June	110 to 140
Watermelon	½ oz	96 to 120	96 to 120	1	May	100 to 120

NOTE—Set rhubarb plants so that growing tips are at surface of ground.

HOW MUCH SEED TO BUY: The following amounts of seed will plant in each case a garden row 100 ft. long:

String Beans	½ to 1 pint	Lettuce	½ ounce	Onion Sets (bulbs)	1 quart
Lima Beans	½ to 1 pint	Muskmelon	½ ounce	Onion Seed	1 ounce
Cabbage	¼ ounce	Cucumber	½ ounce	Peas	1 to 2 pints
Carrot	1 ounce	Eggplant	½ ounce	Radish	1 ounce
Cauliflower	1 packet	Kale or Swiss Chard	½ ounce	Spinach	1 ounce
Celery	¼ ounce	Parsley	¼ ounce	Tomatoes	½ ounce
All Squash	½ ounce	Parsnip	½ ounce	Turnip	½ ounce
Beets	2 ounces	Vegetable Oyster (Salsify)	½ ounce		
Sweet Corn	½ pint				

1 or 2 pecks of early potatoes and ½ to 1 bushel of late potatoes are enough to plant to supply four persons

NOTES ON PRESERVING, BLANCHING, DRYING, ETC.

Minutes required for blanching vegetables—Asparagus, 10 to 15. Greens, 15. Brussels Sprouts, Cabbage, Corn, Lima Beans, Okra, Peppers, Peas, String Beans, 5 to 10. Beets, Carrots, Parsnips, Salsify, 5. Cauliflower, 3. Tomatoes, till skins loosen.

Minutes required for sterilizing in hot water—Tomatoes, 22. Cauliflower, 60. Beets, Carrots, Parsnips and Salsify, 90. Asparagus, Brussels Sprouts, Cabbage, Greens, Okra, Peppers, Pumpkin, Sauerkraut, String Beans, Squash, 120. Corn, Lima Beans, Peas, 180.

Fruits require scarcely any time for blanching—Berries and Cherries, none; Pineapples, 3 to 5 minutes Apricots, 1 to 2 min. Apples, 1½ min. Gooseberries, Oranges and Pears, 1½ min. Rhubarb, 1 to 3 min.

Minutes required for sterilizing fruits in hot water—Apricots, Berries, Cherries, Currants, Peaches, Plums, 16. Oranges, 12. Apples, Pears, Quinces, Rhubarb, 20. Pineapples and fruits without sugar, 30.

Some peaches do not peel readily even if dipped in boiling water. In such cases omit dipping in boiling water and pare them.

The time given is for quart jars. For pint jars, deduct 5 minutes For 2 quart jars, add 30 minutes.

Home-made and commercial hot-water bath outfits are not satisfactory for canning at high altitudes, as the temperature for water in them does not reach 212° F. In such localities water-seal and steam pressure outfits give better results, as much higher temperatures can be maintained.

VEGETABLE PLANTING TABLE—*Continued.*

The time given is for 1-quart jars and fresh products at altitudes up to 1,000 feet above sea level. For higher altitudes, increase the time 10 per cent for each additional 500 feet. For example, if the time is given as 120 minutes, and the location is 1,500 feet above sea level, the time should be made 132 minutes; for 2,000 feet, 145 minutes.

The time given is for fresh, sound and firm vegetables. For vegetables which have been gathered over 24 hours, increase the time of sterilization by adding one-fifth.

The amount of time required for drying vegetables varies, from a minimum of 2 hours to a maximum of 8 hours, at a temperature of 110 to 150 degrees, Fahrenheit. The average for vegetables is 2½ to 3½ hours; average for fruits, 5 hours. Asparagus takes 4 to 8 hours; cherries, 2 to 4 hours.

SALT.

At one time nearly the whole of the salt used as food and for industrial purposes was obtained from sea water, and in many countries where the climate is dry and warm and there is a convenient seaboard large quantities are so obtained. In Portugal more than 250,000 tons are annually produced, and about the same quantity is obtained on the Atlantic and Mediterranean coasts of France. Spain has salt works in the Balearic Island, the Bay of Cadiz, and elsewhere, which turn out annually 300,000 tons; and even the small Adriatic seaboard of Austria produces every year from 70,000 to 100,000 tons. The peninsula and islands of Italy yield about 165,000 tons, and there are still a few establishments in England and Scotland; but in these latter countries the industry has been almost entirely driven out by the rock salt works. The salt obtained from this source is called "sea" or "bay salt." The works are generally called salt gardens. They consist of a series of large, shallow evaporating reservoirs. The sea water is admitted and flows slowly from one to another, all the while evaporating under the heat of the sun, until finally the dry salt remains in crystalline crusts on the salting tables in the final basins. These reservoirs vary from ten to sixteen inches in depth, the sediment and many of the impurities being deposited in the earlier and deeper basins in the first stages of evaporation.

MILK PRODUCTION OF THE UNITED STATES.

The production of milk in the United States during 1918 was about 4 per cent. more than in 1917, according to reports made by crop reporters of the Bureau of Crop Estimate. The yield per cow is estimated to be 8.2 quarts per day for 287 days of the year (equaling 588 gallons) in 1918, and 8 quarts for 285 days (570 gallons) in 1917. To estimate the total production of milk, it is not proper to apply the above estimate yield per cow to the number of milk cows as reported by the Department of Agriculture, because this figure is based upon the Census classification, which includes some heifers not yet fresh. Making what seems to be proper allowance for this (applying yield per cow to 80 per cent of the total as reported by the Department of Agriculture), indications seem to be that the total production on farms in 1918 was about 11,044,000,000 gallons; and in 1917, about 10,629,000,000 gallons. These estimates do not include production of cows not on farms (i. e., those in towns and villages), which would add about 5 per cent. to the estimates above for the total production of the United States.

The number not on farms, i. e., in cities and villages, is not estimated yearly, but their number in 1910 as reported by the Census was: Horses, 3,183,000; mules, 270,000; cattle, 1,879,000; sheep, 391,000; swine, 1,288,000. The Census of 1910 also reported 106,000 asses and burros on farms and 17,000 not on farms; 2,915,000 goats on farms and 115,000 not on farms.

	U. S.	8,876,286,000

The United States has approximately 850,000,000 acres of land—45 per cent. of the country's land area—in crops or available for crop production, according to estimates of Department of Agriculture specialists. Of this 480,000,000 acres were improved land in 1910; the remainder consisting of 200,000,000 acres of potentially arable forest and cut-over land, 60,000,000 acres of swamps and other wet lands needing drainage, 30,000,000 acres of potentially irrigable land, and about 80,000,000 acres of unimproved land other than woodland. Over 1,000,000,000 acres of land in the U. S. are not adapted to cultivation, of which at least 360,000,000 acres may be used for forests and about 600,000,000 acres for grazing. Most of the grazing land is located in the Western States. In addition there are about 40,000,000 acres of desert land, and 40,000,000 acres of land in cities, rural highways, and railroad rights of way, an amount which will gradually increase with increasing population.

The world's supply of wheat on July 1, 1919, was estimated at 287,278,000 bushels, as against 252,890,000 bushels July 1, 1918.

1919 CROP YIELDS NOT NAMED ELSEWHERE IN THE ALMANAC.

(From October 1 Estimates, by the United States Department of Agriculture.)

Rice, 44,261,000 bushels; hay, tame, 86,723,000 tons; hay, wild, 16,821,000 tons; apples, 156,721,000 bushels; apples (commercial crop), 23,177,000 barrels; peaches, 51,327,000 bushels; pears, 13,687,000 bushels; grain sorghums, 127,053,000 bushels; peanuts, 51,590,000 bushels; beans, dry, 12,690,000 bushels; clover seed, 1,015,000 bushels; sugar beets, 7,303,000 tons; broom corn, 50,800 tons; cranberries, 559,000 barrels; sorghum syrup, 33,128,000 gallons; hops, 33,121,000 pounds.

WHOLE WHEAT'S HIGH VALUE AS FOOD

The United States Public Health Service says: "The 'highly milled' products are, without exception, inferior in dietary value, as regards growth, to foods prepared from the whole grain. The experiences with war bread would indicate that persons with delicate digestion are subject to temporary digestive disturbances as a result of a change from 'white' bread to bread containing a considerable percentage of bran ('war bread'). But a bread including all of the grain, with the exception of the superficial cellulose layer, is undoubtedly superior to the so-called white bread, made from 'highly milled' flour, and would not possess the above mentioned objectionable features. The most significant defect of 'white' flour is the deficiency in antineuritic and fat-soluble vitamine; it is also deficient in adequate protein and inorganic salts. A wheat flour, containing a considerable part of the germ and superficial layers of the grain, supports growth of mice and pigeons especially well when supplemented with inorganic salts. The same is true of 'whole wheat' bread. Highly milled corn grits, forming the exclusive food of young hogs, leads to failure of growth in these animals, whereas the whole corn kernel, supplemented by inorganic salts, promotes growth. In the light of our present knowledge, it would appear that bread made from 'whole wheat' flour, or old-fashioned corn meal, should be used in preference to 'white' bread and 'highly milled' corn foods."

AMOUNT OF FAT IN VARIOUS FOODS.

Food material.	Quantity.	Fat content.	Food material	Quantity.	Fat content.
Whole milk	1 cup....	About 2 level teaspoons.	Cheese (grated).	1 cup, or 4 ounces.	2½ level tablespoons.
Ordinary cream (18 per cent).	1 cup...	About 3 level tablespoons.	Egg	1.....	A little more than 1 level teaspoon.
Double or whipping cream (40 per cent).	1 cup....	About 6 level tablespoons.	Egg yolk.....	1.....	Do.
Butter.....	1 cup....	14 level tablespoons.	Egg white	1.....	only a trace.
English walnut meats (finely chopped).	1 cup, or 8 ounces,	Nearly ⅔ cup.	Egg yolks.....	1 cup ...	About 5 level tablespoons.
Peanuts (finely chopped)	1 cup, or 8 ounces.	A little more than ⅓ cup.	Egg whites.....	1 cup ...	¼ level teaspoon
Chocolate . ..	1 square, or 1 ounce.	1 scant tablespoon.	Vegetable oil or lard or drippings from which all water has been driven off by heat.	1 cup....	1 cup.

In making these estimates it is assumed that 3 level teaspoons make 1 level tablespoon, and 16 level tablespoons 1 cup.

Heat calories in various cereals—Wheat, 1 bushel, 60 pounds, 89,340; Corn, 1 bushel, 56 pounds, 88,032; Rye, 1 bushel, 56 pounds, 84,448; Barley, 1 bushel, 48 pounds, 70,796; Oats, 1 bushel, 32 pounds, 41,920.

The average man needs in his food, daily, 2¼ ounces of protein, ¼ ounce of iron, and 10 grains of calcium, besides several thousand heat calories. The following table shows the amounts of various foods required to give the necessary amounts of protein, iron and calcium.

Proteins							
Beans 11.7 oz.	Peanut Butter 9 oz.	Lettuce.. ...2 oz.	Spinach..... 7 oz.	Chocolate....2 oz.
Bread... .2 lbs	Rolled Oats...1 lb.	Oat Meal...2½ oz.	Calcium.	Egg Yolk.... 3 oz.
Beef... . 13½ oz.	Split Peas.10½ oz.	Onions....' 7 oz.	Beans .....7 oz.	Milk... .: 1 lb
Cheese . ..9 oz.	Iron.	Peas..... . 4 oz.	Cabbage ..1½ oz.	Oranges ..8 oz.
Eggs. ... .1¼ lb	Almonds ....3 oz.	Prunes. . ...4 oz.	Carrots . .10 oz	Oat Meal .5½ oz.
Milk.. 2½ qts	Beef.....4 oz.	Raisins ... 1½ oz.	Cheese.... 2½ oz.	Peanuts..... 2 oz.
	Egg Yolk.....3 oz.			

There are 100 heat calories in each of the following items: Orange, large; Apple, large; Pear, large; Banana, medium; Egg Yolk, 2; Egg White, 7; Peaches, 3; Butter, ½ oz.; Dates, 3; Fig, 1; Potato, medium; Cheese, 9 oz ; Chop, Lamb, 1 oz.; Steak, 1½ oz ; Codfish, 3½ oz.

Hogs	68,621,795	11,253,974,380	1,715,544,875
	112,269,186	24,154,671,605	3,883,014,416

NOTE—The basis of this table is the number of head slaughtered in inspected houses. From this is estimated the total number slaughtered by applying the percentage of total slaughtered in inspected houses in 1909, as shown below. The number of pounds is found by multiplying the number of head by average dressed weights of carcasses, also shown below. "Other edible portions" include such things as hearts, livers, edible fats, etc, the number of pounds of which per head is shown in following statement:

	Pct. of Total in Inspected Houses.	Average Weight Dressed.	Oth. Edible Port'ns Per Animal		Pct. of Total in Inspected Houses.	Average Weight Dressed.	Oth. Edible Port'ns Per Animal.
		Pounds.	*Pounds.*			*Pounds.*	*Pounds.*
Cattle	56 39	543	98	Sheep	76.95	41	2.
Calves	35.46	105	9.7	Hogs	58.86	154	25.

The average weight, dressed, of hogs, was estimated for 1918 at 164 pounds. according to the Drovers Journal; 1917 hogs averaged 208 pounds, and 1918 hogs averaged 219 pounds: 75 per cent. of this gross weight gives 156 pounds for 1917, and 164 pounds for 1918, as the dressed weight.

Using the figures of total meat production in this table and the census figures of population, the per capita production of meats for each year from 1909 to 1918 was as follows:

YEAR.	Pounds.	YEAR.	Pounds	YEAR.	Pounds	YEAR.	Pounds.
1909	217.2	1912	208 2	1915	210 0	1917	227.4
1910	197.7	1913	206.5	1916	238.7	1918	266.7
1911	219.1	1914	191.9				

The United States Department of Agriculture's estimate of meat production and consumption in this country is as follows: The figures include not only meat, but the other edible food parts.

MEAT PRODUCTION IN UNITED STATES.

(Final 000 omitted in all columns.)

CLASS OF MEAT	1900.	1909.	1914.	1916.	1917.	1918.
	Pounds.	*Pounds.*	*Pounds.*	*Pounds.*	*Pounds.*	*Pounds.*
Beef	8,962,805	9,545,343	7,159,738	7,857.031	8,528,929	9,796,929

FEDERAL INVESTIGATION OF THE MEAT PACKERS AND OTHERS.

In 1918, and again in 1919, the Federal Trade Commission investigated the meat packers, charging that the "Big Five"—Armour & Co., Morris & Co., Swift & Co., Wilson & Co., Inc., and the Cudahy Packing Co.—had a monopolistic control over the meat packing industry and were extending it over poultry and dairy products as well as fish and also canned fruits and vegetables, cereal breakfast foods, condensed milk, vegetable oils, rice, and fertilizers. Excessive profits were alleged, too. In the 1919 inquiry, the Commission declared to President Wilson that the "Big Five" were then in an agreement for the division of live-stock purchases throughout the United States according to certain fixed percentages, and also for the control of meat imports and meat prices. In their report the Federal Trade Commission said:

"The packers' power is increased by the fact that they control all the facilities through which live stock is sold to themselves. Control of stockyards comprehends control of live-stock exchange buildings where commission men have their offices; control of assignment of pens to commission firms; control of banks and cattle-loan companies; control of terminal and switching facilities; control of yardage services and charges; control of weighing facilities; control of the disposition of dead animals and other profitable yard monopolies; and in most cases control of all packing-house and other business sites. Packer-owned stockyards give these interests access to records containing confidential shipping information, which is used to the disadvantage of shippers who have attempted to forward their live stock to a second market. The "Big Five" own 93 per cent of the total of all kinds of cars owned by interstate slaughterers, including refrigerator, stock, tank, box, flat, and gondola cars. The most important of these from the standpoint of monopolization are the refrigerator cars. The "Big Five" own 91 per cent of all refrigerator cars properly equipped for the shipment of fresh meat that are operated upon the railroads of the United States The railroads have almost no equipment suitable for shipping dressed meat, and, consequently, unless an independent packing company is large enough to afford to make a heavy outlay for refrigerator cars, it is practically impossible for it to attempt to ship fresh meat out of the locality in which it is produced. The smaller independents, therefore, confine themselves either to pork packing or to cattle slaughter for local consumption. From a competitive standpoint, a great advantage which the big packers have enjoyed has been the preferential treatment accorded their cars

"The real-estate interests of the big packers apart from the land acquired and held for industrial purposes are very diverse and widely scattered They range from immense terminal properties in great distributing centres to huge ranches in the West and in South America." The Commission contended to the President that proof of a combine among the packers lay in the following table of almost fixed percentages of purchases of cattle by each of the "Big Five" in the past five years:

PER CENT. OF TOTAL CATTLE PURCHASES.

	Swift	Armour	Morris.	Wilson (Sulzberger.)	Cudahy
1913	33 90	27 18	17.80	11.74	9.38
1914	34 01	27 16	17 97	11 56	9 30
1915	34 47	27 57	18.14	10.15	9 67
1916	34 59	27 04	17.86	10.94	9. 57
1917	35.07	26.96	17.14	10.85	9.98

The packers denied the allegations, when put on the stand, before a Congressional committee.

FLOUR MILLING INVESTIGATION.

According to the Commission, there were 7,000 merchant wheat flour mills in the United States which during the last three years had produced on the average about 118,000,000 barrels of flour annually, but which have an aggregate capacity sufficient to produce approximately double this quantity. This output of flour has required the grinding of about 550,000,000 bushels of wheat per year. Figures were submitted by the Commission showing costs and profits as follows for 1917: Costs per barrel—wheat, $8.22; packages, 30 cents; operating and repairs, 24 cents; general expenses, 13 cents; selling expenses, 27 cents; depreciation, 3 cents; total, $9.19. From this was subtracted $1.23, the value of cattle feed, as a by-product from the flour. This made the net cost to the miller $7.96 a barrel; selling price of the flour (average), $8.34. Some of the jobbers and commission men made over 60 per cent profit, it was charged.

WAR PROFITEERING.

In response to a United States Senate resolution the Federal Trade Commission likewise submitted to President Wilson a report in which it stated: "In the case of basic metals, as in steel, when the Government announced a fixed price, it was made so high that it would insure and stimulate production. This has resulted in giving a wide range of profits. Under the device of cost, plus a margin of profit, these profits are necessarily great in the case of the low-cost mills. Thus, while the market was prevented from running away, as it would have done undoubtedly if it had not been regulated by a fixed price, the stronger factors in the industry are further strengthened in their position and enriched by profits which are without precedent.

"Again, in the case of flour milling, it is apparent that while a Government-fixed price for wheat and an allowance of maximum margin of profit over cost on flour have had the virtue of stabilization, nevertheless the profits resulting are heavy. Before the Government interfered flour sold in 1917 with an average profit as high as 52 cents a barrel. After the fixation of the price of wheat and the determination of a maximum profit of 25 cents per barrel of flour, the very high average profit per barrel dropped toward the maximum. Where this decline in price did not bring the price down to the maximum—that is, where the millers continued to exceed the Government maximum, as they did in many instances—many of the millers were actuated by the hope that they would be allowed to include income and excess profit taxes in their costs and pass these taxes on to the consumer. However, if there had been a fairly general compliance with the maximum of 25 cents, the profits of the least efficient mills would have been considerable and those of the most efficient mills proportionately heavier. To the extent that the maximum price was exceeded the profits were larger and in general were in fact very great.

"The situation in coal gives still another angle of view to the same problem. Maximum prices were fixed by territorial divisions. Many of the coal producers have not taken the maximum, but, due to the fact that in a given field there is a very wide range in the cost of the coal produced in that field, it follows that certain low-cost producers have made very large margins under the system of Governmental fixed prices for the field. Many high-cost producers have made small margins. The bulk of the production, of course, enjoys the large margin. Information on the return on the investment, now being collated, will reveal the exact amount of profit. Percentages of profit worked upon investment will obviously be very large in the case of low-cost companies.

"The experience with steel, flour, and coal shows that a high stimulating fixed price, while stabilizing an ascending market, produces an economic situation which is fraught with hardship to the consuming public and with ultimate peril to the high-cost companies through increasing the power of their low-cost competitors

"In this connection a survey of the petroleum field shows that the market, when under the control of dominating factors, such as Standard Oil, can be one of huge profits without the device of the high fixed price. No price for the public has been fixed upon petroleum and its products by the Government. Unlike the situation in steel, flour, and coal, there has been as yet no Government interference with the law of supply and demand except in the instances of Government purchases. Under that law large profits may eventuate through the bidding up of prices by anxious buyers. And, moreover, even in the absence of this element, prices may be forced up by spreading false and misleading information concerning the condition of supply and demand. Reports, for instance, have been circulated that the supply of gasoline was endangered for the purpose of maintaining the high price of that product and the heavy profits from it. At different stages of the oil industry different products of petroleum have yielded the heavy profits. Kerosene was once the chief profit producer. Gasoline followed and superseded it as the chief producer of profits. Enormous profits are now being made in fuel oil, with the advantage to the refiner that the high price of that product meets no popular challenge. Gasoline is maintained at its present high price and produces heavy profits for the low-cost refiners.

"In cases where the Government fixes a definite margin of profit above costs, as in the case of flour, there is a considerable incentive to a fictitious enhancement of costs through account juggling. This has added to the volume of unusual profits. Increase of cost showing on the producers' books can be accomplished in various ways. The item of depreciation can be padded. Officers' salaries can be increased. Interest on investment can be included in cost. New construction can be recorded as repairs. Fictitious valuations on raw material can be added and inventories can be manipulated.

"Concerns bottling or canning vegetables which made contracts for future deliveries during the year 1917, in some instances meeting a condition of inadequate crops and seduced by rising prices, withheld portions of their contract deliveries and sold spot on the market at the higher price. There were varying degrees in this practice. Some of the instances were flagrant, and in those cases the Commission recommended the revocation of license of the offender to the Food Administration, and these recommendations were acted upon. A great number of complaints of failure to deliver futures were made wherein action was not taken, as the evidence showed that the canner was unable to secure supplies by reason of crop failures. The Food Administration has endeavored to meet this situation the present year by a delivery limitation on the amount named in the contracts for future delivery Another trade practice has developed in which the consignee refuses goods after shipment because the market has fallen, and vice versa the consignor refuses to ship on a rising market. These instances, which in the knowledge of the Commission have not been numerous, have been handled by the Commission in connection with the Food Administration and its power of revocation of license. Still another trade practice which has increased the price of supplies to the consumer has been that of commercial bribery. Again, the trade tendency of manufacturers maintaining the resale price of wares has contributed to holding high the general price level and in instances has increased profits without question.

STEEL.

"In 1917 the steel companies made abnormal profits in the period prior to the Government price-fixing policy, and a number have continued to make unusually heavy profits since that policy was inaugurated. The United States Steel Corporation's profits expressed in terms of the total amount invested in the business show net percentage earnings as follows: 1912, 4.7; 1913, 5.7; 1914, 2.8; 1915, 5.2; 1916, 15.6; 1917, 24.9. The figures as to the net income of the Steel Corporation, as shown by the company for the years 1912, 1913, 1914, 1915, 1916, and 1917, before deducting Federal income and excess-profits taxes in 1917, follow: 1912, $77,075,217; 1913, $105,320,691; 1914, $46,520,407; 1915, $97,967,962; 1916, $294,025,564; 1917, $478,204,343. The Federal income and excess-profits taxes of the Steel Corporation for 1917 were $233,465,435, which leaves from net income $244,738,908, of which about one-tenth was applicable to interest on bonds of the corporation and the rest available for dividends and surplus.

COPPER.

"Very large earnings have been made in the copper industry on the whole, although it should be noted that they have been due in part to an unusually heavy demand for this metal, which is used almost exclusively for war purposes directly and indirectly. The Commission's figures show that 21 companies, including a large proportion of high-cost companies, made profits in 1917 which ranged from 1 per cent. to 107 per cent on their investments. The average profit was 24.4 per cent. Probably over 70 per cent. of the production is marketed at profits over 20 per cent. on investment. These same companies show an average profit of only 11.7 per cent. in 1913, which may be considered to be a normal year. Thus the average profit in the industry has more than doubled. The range of profits in 1913 was from 1 to 56 per cent. The profits used in these computations do not include Federal income or excess-profits taxes, and, therefore, represent sums actually retained by the companies for addition to surplus or dividends. There does not appear on the whole to have been any concerted action in this industry in putting prices up in the first instance. The war scramble among the Allies shot the prices of copper and other metals to almost unheard-of levels. But there are certain strong interests among the producers and marketers which predominate in certain stages of production, and these appear to have taken steps to maintain prices at unnecessarily high levels."

PETROLEUM AND ITS PRODUCTS.

"The data secured by the Federal Trade Commission for 106 refining companies for the first quarter of 1918, supplemented in certain cases by returns for the second six months of 1917, indicate that the average profit in the oil industry is about 21 per cent. on the investment. This is a considerable increase over the rate of profits indicated for pre-war years, as the Commission's gasoline report indicates an average profit for the year 1913, 1914, and 1915 of 15 per cent. on the investment. In 1917 over 50 per cent. of the estimated production was produced by companies having a profit of over 20 per cent. on the investment. Rates of profit ranged from losses up to 122 per cent. The profits of the Eastern refiners have been relatively larger than those on the Pacific Coast. The situation in the East is due to the fact that while gasoline prices have been but slightly advanced, the prices of other products have been increased greatly, especially the price of fuel oil. The public knows little about prices except the price of gasoline and, to a less extent, kerosene. Formerly refineries operated for the sake of gasoline almost exclusively, and fuel oil was commonly sold at a loss, but now fuel oil is a very profitable product."

LEATHER AND LEATHER GOODS.

"During 1917 a large proportion of the tanners in the United States made unusual profits As the Commission reported in January last, reports of a number of the larger companies show that net profits in

FEDERAL INVESTIGATION OF THE MEAT PACKERS AND OTHERS.—*Continued.*

1916 were in several instances two, three, four, or even five times as large as in 1915, and the 1915 net profits in turn showed increases of from 30 per cent. to more than 100 per cent. over those of 1914. One striking instance is a company whose net profits were reported as follows: 1914, $644,390; 1915, $945,051; 1916. $3,576,544. The tanners took advantage of the enormous demand for leather and took very high prices, During 1917 the prices of hides, particularly packer hides, were advanced very rapidly, notwithstanding that during the period of advance great supplies of hides were withheld from the public. Many shoe manufacturers in 1917 made larger profits than usual. Wholesale shoe dealers secured wider margins of profits in 1917 than they had been accustomed to receive. The margins of retail shoe dealers widened greatly during 1917, especially upon fancy shoes. This was true to a less extent on staple shoes. It appears that the retailer has profited more in proportion than the wholesaler."

According to the Commission, the meat packers, Armour, Swift, and others, made big gains from their leather concerns.

FLOUR.

"The flour millers have had unusual profits for considerably more than a year. Information collected and verified by the Commission shows for the four years ending June 30, 1916, a profit of 13½ cents on each barrel of flour and 12 per cent. on the capital investment These figures came from accounts covering nearly 40,000,000 barrels output annually. This is somewhat less than 40 per cent. of the annual output of the whole country, but a very much larger part of the flour sold in the regular commercial market. In other words, these figures apply to mills that in large part supply the demand for flour in interstate commerce and for export. The years covered—1913, 1914, 1915, 1916—should probably be accepted as fairly representative in spite of the fact that the war demand in 1915 and 1916 would lead one to expect them to show an abnormally high profit. In the year ending June 30, 1917, these same mills made an average of 52 cents on each barrel of flour sold, and nearly 38 per cent on their investment—profits that are indefensible, considering that an average of the profit of one mill for six months of the year shows as high as $2 per barrel. The Commission has tabulated returns covering the sale of something over 4,000,000 barrels of flour made and sold under the Food Administration's regulations from September, 1917, to March, 1918, inclusive.

"In the face of the regulation of 25 cents per barrel maximum, the average profit per barrel on this flour was about 45 cents, or over three times the normal profit per barrel referred to above. The return on investment was apparently between 25 and 30 per cent. However, with prices maintained at the same level, cost would probably have increased and profit would have been somewhat reduced in April, May, and June, 1918, because of the smaller output in those months. The average net profits of jobbers reporting to the Commission was about 15 cents per barrel for 1913 and 1914, but increased to nearly 50 cents in the first half of 1917. These profits include all the pay received by the proprietors of the business for their services."

About three-quarters of the total canned milk (evaporated and condensed) is produced by ten companies. Nearly one-half of the total pack is produced by three companies, according to the Commission

SALMON CANNERS.

"Approximately 90 per cent. of the salmon packed in 1917 was produced at a cost under $7.25 per case To this should be added selling expense. This item, as reported by 24 companies packing practically 50 per cent. of the year's production, was 28 cents per case. However, the 28 cents does not include brokerage and cash discounts in all cases, and it is estimated that 50 cents per case would be a fairer allowance. This would bring the representative high cost up to $7.75. The weighted average of the 1917 opening prices for different grades of salmon was $8.29 per full case, but more salmon was sold above than below this price during the year. This indicates a margin for a high-cost canner of 54 cents per case and larger margin on the bulk of the production. The average investment per case in 1917 was $4.32. It follows that the marginal percentage earned upon reasonable investment by the high-cost canners was approximately 12½ per cent."

THE PHYSIOLOGY OF SLEEP.

(By R. Legendre of Paris)

If the need of sleep is due to an accumulation of toxic waste products in the organism, one ought to be able, by injecting these substances into a normal animal, to communicate the necessity for sleep. Our first experiments in that direction were unsuccessful. By injecting into a vein of a normal dog some blood or serum taken from a dog exhausted by loss of sleep, we had no very definite results, although in some cases we brought on some modifications of the cells of the frontal lobe, and by injecting these same substances directly into the brain we were no more successful. Could it, therefore, be concluded that wakefulness is not accompanied by the accumulation of toxic substances, and is caused only by the impoverishment of the nerve cells? This conclusion was possible, but it might equally be the case that the blood of the normal animal destroyed the substances injected in small doses, or that their quantity was too small. To remove this last doubt we made our injections by another method. There exists, in the interior and around the nerve centers, a liquid called the cerebro-spinal fluid, which completely envelops them. You can get this fluid either at the lower end of the spine, and is there reached by lumbar puncture, and in spinal anesthesia, or between the occipital bone and the first vertebra, at the level of the fourth ventricle of the brain.

The serum, or, better yet, the cerebro-spinal fluid, of an animal exhausted by loss of sleep, if injected under these conditions into a normal animal, produces in the latter in about half an hour an imperative need of sleep. The animal so injected is benumbed little by little, its eyelids clink, its limbs relax, its eyes close, it loses all attention, and it responds but feebly to strong stimulation. Its brain presents the characteristic lesions of insomnia. The injections, under the same conditions, of liquids from a normal animal have no effect at all. You, therefore, may conclude from these experiments that it is possible to transmit the absolute need of sleep from an exhausted animal to a normal one, and also that the liquids of exhausted animals have a property or contain a substance capable of producing sleep.

New York State crops (1919), United States Department of Agriculture, October 1, estimated—Corn, 35,874,000 bushels; oats, 27,310,000 bushels; potatoes, 34,369,000 bushels; spring wheat, 698,000 bushels; winter wheat, 10,428,000 bushels; barley, 2,398,000 bushels; buckwheat, 6,518,000 bushels; tobacco, 3,587,000 pounds; apples, 21,396,000 bushels; pears, 1,562,000 bushels; beans, 1,480,000 bushels; hay, tame, 6,360,000 tons; peaches, 1,891,000 bushels.

THE DAIRY INDUSTRY IN NEW YORK STATE.

(By the Department of Farms and Markets, Division of Agriculture, Albany.)

A CENSUS giving the amount of milk consumed in liquid form in New York State during 1918 was taken by agents of the Division of Agriculture of the Department of Farms and Markets. This census included every city, village, and hamlet of more than 200 inhabitants As far as possible actual records of average daily distribution were taken. Through the courtesy of the Bureau of Markets of the United States Department of Agriculture. the reports on milk products for 1918 were made available for use in this bulletin. These reports were made to the Bureau of Markets of the Federal Government by the manufacturers of dairy products, on blanks furnished by the Government and sworn to as correct The census indicates approximately 1,023,034 milk producing cows in the State, value estimated at $102,303,400

New York State ranks first in the value of its dairy products. In 1918 there were 2,341,401,288 pounds of milk consumed in the State of New York in liquid form, and there were 2,095,531,125 pounds of milk used to be made into manufactured products. The total value of milk consumed in liquid form and milk used for manufacturing purposes was $124,725,847 89. The average production for the year per cow was 4,337 pounds; the average income per cow, $121.91. In this average no allowance was made for milk-fed calves. The census shows over 1,742 places or establishments where milk is manufactured or received for shipment in the State, and divided as follows: 630 cheese factories, 136 butter and cheese factories 8 cream and powdered milk plants, 213 creameries, 59 condenseries, 6 milk platforms, 633 milk stations 28 skimming stations, and 19 combination milk stations and condensery plants The value of the dairy farms is $129,540,000.

Cotton production in the calendar year 1919 was estimated at 10,696,000 bales.

Consumption, quantity of domestic exports, and net imports represent the commercial year; value of domestic exports represents fiscal year ending June 30.

Production covers nearly as possible the crop grown during the preceding calendar year and picked mainly during the cotton year specified in the stub.

Value of exports of domestic cotton goods—(1913), $53,743,977; (1914), $51,467,233; (1915), $71,973,497; (1916), $112,053,235; (1917), $136,299,842; (1918), $169,378,223; (1919), $232,680,723.

The production of raw silk in China is an unknown quantity. In the absence of statistics from Austria and the Levant, 1915 production is used as an estimate in 1918-19. Shanghai 1918-19 figures exclude tussah.

The domestic consumption of raw silk in Japan is estimated to be 25 per cent of the production. The remaining 75 per cent., which is exported, being 32,485,000 pounds during the season 1918-19, would indicate a crop of approximately 43,314,000 pounds.

The domestic consumption of raw silk (including tussah) in China is estimated to be 55 per cent. of the production. The exports from Canton and Shanghai during the season 1918-19 were 14,520,000, which would indicate a crop of approximately 32,267,000 pounds.

Coffee consumption per capita per year expressed in pounds—(1830), 2.98; (1840), 5.06; (1850), 5.60; (1860), 5.79; (1870), 6 00; (1880), 8.78; (1890), 7.83; (1900), 9 81; (1910), 9.33; (1913), 8 85; (1914), 10 06; (1915), 10.52; (1916), 10.97; (1917), 12.22; (1918), 10.29.

The coffee figures after 1900 include imports into continental United States and shipments thereto from non-contiguous customs districts. Coffee consumption per capita is based on net coffee coming to and remaining in continental United States.

The United States has exported Brazilian and other foreign coffees, in pounds, as follows—(1914), 13,811,301; (1915), 70,952,754; (1916), 75,817,516; (1917), 57,502,893; (1918), 60,410,267; (1919), 77,731,606. The value of the coffee exported in 1917 was $7,936,082; (1918), $7,023,872; (1919), $13,910,964.

United States imports of coffee in the year ended June 30, 1919, included 571,921,573 pounds from Brazil, 158,343,135 pounds from Central America, and 121,416,418 pounds from Colombia.

1877.....	58,347,112	16,181,467						

Tea consumption per capita per year expressed in pounds—(1830), 0.53; (1840), 0.99; (1850), 1.22; (1860), 0.84; (1870), 1.10; (1880), 1 39; (1890), 1 33; (1900), 1.10; (1910), 0.89; (1913), 0.95; (1914), 0.90; (1915), 0.91; (1916), 1.07; (1917), 0 98; (1918), 1.38. Tea consumption figures are based on net imports.

Of the tea imports in year ended June 30, 1919, China sent 10,322,467 pounds, and Japan sent 57,600,251 pounds. Up to 1906 China sent more than Japan. The China tea came to New York by way of Europe.

Foreign tea exported from the United States in pounds—(1913), 901,745; (1914), 983,222; (1915), 4,813,878; (1916), 790,474; (1917), 625,315; (1918), 3,935,967; (1919), 15,114,805. These exports were valued at $157,736 in 1916, at $196,803 in 1917, $1,419,571 in 1918, and $5,293,554 in 1919.

The East India Co. in 1678 carried to England 4,713 pounds of Chinese tea on speculation. It was considered a "drug on the market." British imports subsequently increased to nearly 200,000,000 pounds, half of which was for British consumption. China's high-water mark in the tea trade was reached by 1886, when its exports were 300,000,000 pounds. In 1838 the first Indian tea reached the London market. By 1860 this had developed into a trade of 1,000,000 pounds; prior to that China supplied the world.

WORLD'S COCOA PRODUCTION IN 1917.

The *Corrtere Economico* publishes the following official statistics for the world's cocoa crop for the year 1917:

Country.	Pounds	Country.	Pounds.	Country.	Pounds	Country.	Pounds.
English colonies	320,020,000	Venezuela.....	41,887,000	Java.....	2,546,000	German colonies.	8,818,000
Ecuador.....	88,184,000	San Domingo..	54,674,000	Surinam.....	4,248,000	Other countries.	1,239,000
Brazil.....	121,253,000	Hayti..	3,402,000	French colonies	3,527,000		
San Tomaso .	67,999,000	Cuba.....	3,307,000	Belgian Congo.	1,724,000	Total.....	731,089,000
Fernando Po...	8,261,000						

In the year 1916 the total was 650,357,000 pounds; in 1915, 656,971,000 pounds, and in 1914, 611,336,000 pounds.

The American production is of the season preceding the fiscal year. The export figures relate to continental United States after 1900. The consumption figures are mainly in terms of raw sugar. The beet sugar production figures, 1865-1872 and 1875-1879, are averages. The world production of 1919 is a Willett & Gray estimate for 1919-1920 crop.

Maple sugar production (1919) in pounds--New York, 3,161,000; Vermont, 4,894,560.

Maple sugar production (1919) in gallons--New York, 1,401,000; Vermont, 521,180.

Sorghum syrup production in United States (1919), 34,000,000 gallons, estimated.

Sugar beet production in United States (1919), 7,265,000 tons estimated.

EFFECT OF PROHIBITION ON SUGAR CONSUMPTION.

The spread of Prohibition is causing augmented demand for sugar for consumption, so that it would not be surprising if a production figure of much over 20,000,000 tons will be necessary within a few years to inaugurate a free supply of sugar for all localities, such as obtained in pre-war times. Cuba has reached 4,000,000-ton crops, and there is more likelihood of her exceeding rather than falling short of this amount. The beet sowing by the Central European Powers will tend to increase, as sugar is one of the most convenient and quickest methods of obtaining an export commodity by means of which to settle those countries' external debts resulting from the war.

MUSHROOMS AND OTHER EDIBLE FUNGI.

"Mushrooms," says C. F. Langworthy of the United States Department of Agriculture, "are often spoken of by popular writers as very rich in nitrogenous material and so natural substitutes for meat, but such statements are not justified by studies of their composition. Mushrooms and other edible fungi, like more common succulent vegetable foods, contain a very high average of water—over 90 per cent. on an average. The 10 per cent. or so of nutritive material they contain is largely carbohydrates, though a little nitrogenous material is also present. Fat is almost utterly lacking. So it is obvious that the mushroom more nearly resembles in composition such a vegetable as carrot or turnip than it does meat."

SUGAR CROPS OF THE WORLD.

(Estimate made by Willett & Gray, N. Y.)

ALABAMA PEANUTS.

In 1909 Alabama planted in peanuts 200,000 acres and gathered 1,574,000 bushels, valued at $1,496,000. In 1916, 400,000 acres were planted, 9,000,000 bushels raised, worth $10,250,000. In 1918 the area planted increased to over 1,000,000 acres, producing 17,500,000 bushels of nuts, worth over $21,000,000. This is the story of the Alabama peanut in a nutshell.

SUMMARY OF COD CATCH.

The following table gives a complete summary of all the codfish secured in the vessel and shore fisheries from the inception of the industry and carried to the home ports in Washington and California. No effort has been made to include the cod consumed locally in Alaska, which, in the aggregate, amounts to considerable, as it forms the principal article of diet.

No losses of vessels or lives were reported in 1918.

Lives lost—Isabel, 14; Pearl, 30; Nellie Colman, 30; Glen, 1; John F. Miller, 10; Stanley, 4; Joseph Russ, 1; John D. Spreckels, 2; Harold Blekum, 4.

The Northern Fishers, Inc., lost, in 1917, the schooner Harold Blekum, wrecked at Ugak Bay, Kodiak Island, March 3; and the auxiliary schooner Hunter was lost off Sutwick Island, August 30. Three fishermen were drowned and one accidently killed while engaged in this industry, a total loss of four men. No losses of vessels and men in the vessel fisheries were reported for 1916.

The Pacific Coast salmon pack in 1918 was 9,692,300 cases, of which 5,128,276 cases was of pink, humpback, and chum, and 2,987,710 cases was sockeye. Of the total pack, 6,677,569 cases came from Alaska, 1,616,157 from British Columbia, 624,198 from Puget Sound, and 591,381 from Columbia River.

The Alaska salmon pack of 1918 was valued at $51,041,949. It weighed 430,000,000 pounds.

Halibut catch (pounds), 1918—Puget Sound, 16,455,564; Cal., 6,100,000; Brit. Col, 16,695,500.

Canned shad pack (cases), 1918—Columbia River, 7,000; Scaramento River, 4,800.

California canned salmon pack, 1918—26,500 cases; 1917—39,000 cases.

THE CATCH OF COD ON THE PACIFIC COAST, 1916, 1917, AND 1918.

POTATO CROPS OF THE WORLD.

(By the United States Department of Agriculture.)

DURING the five-year period, 1909-1913, the world's potato crop averaged about 5,471,000,000 bushels annually, ranging between 4,842,000,000 bushels in 1911 and 5,873,000,000 bushels in 1912. Of the average yearly production during this period, a total of 2,692,000,000 bushels, or 49%, was furnished by the 10 countries named below. In 1917, these 10 countries produced 2,734,156,000 bushels of potatoes, or 50% of the average annual production during 1909-1913

WEIGHT OF A FARM HORSE.

THE weight of a mature farm horse, average for the United States, is 1,203 pounds. Washington, the most northwestern State of the Union, has the highest State average, 1,350 pounds, seconded by Maine, the most northeastern State, with 1,325 pounds. Lightest weight horses are found in Florida, the most southeastern State, with an average weight of 850 pounds. Mature mules on farms of the United States average 956 pounds. Washington again leads, with 1,110 pounds, followed by Oregon, with 1,100 pounds. Lightest mules are found in Mississippi, where the average is 865 pounds.

THE WORLD'S STOCK OF HORSES.

The world's stock of horses was estimated early in 1919 as follows: Russia in Europe, 23,860,178; United States, 21,123,000; Argentina, 9,427,000; Russia in Asia, 6,577,693; Brazil, 6,065,230; Austria-Hungary, 4,370,884; Germany, 3,341,627; Canada, 2,990,635; Australia, 2,521,983; France, 2,317,205; India, 1,818,873; United Kingdom, 1,699,640; Japan, 1,533,829; Italy, 955,878; Union of South Africa, 714,414; Sweden, 599,136; Cuba, 560,580; Uruguay, 556,307; Chile, 553,869; Spain, 525,353; Denmark, 515,415; Bulgaria, 477,233; New Zealand, 404,284; Holland, 384,445; Belgium, 317,080; Algeria, 221,178; Switzerland, 186,513; Serbia, 152,136; Tunis, 88,000; Portugal, 87,765; Costa Rica, 52,095; Egypt, 47,911.

WHAT BECOMES OF THE MILK FROM 23,000,000 COWS?

Forty-three and one-tenth per cent. used as liquid milk; 41 per cent. used for making butter; 5 per cent. used for making cheese; 2.9 per cent. used for condensed milk; 3 7 per cent. used for making ice cream; 4.3 per cent. used for feeding calves. This 2.9 per cent. used by the condensers is the milk from 480,000 cows. The United States has about 23,000,000 dairy cows Europe has lost 22,000,000 in the last few years and there is no quick chance for replacement, for, having no cows, there can be no calves, and no importation of cattle can be permitted for at least a year after the war.

ANNUAL LOSS TO THE UNITED STATES CAUSED BY INSECTS.

(By L. O. Howard, Chief, Bureau of Entomology, U. S. Dept. Agriculture.)

FARM crops—Cereals, $430,204,600; hay, $116,230,500; cotton, $140,631,100; tobacco, $16,900,800; vegetables, $199,412,600; sugar crops, $8,436,800; fruits, $141,264,300; farm-forest products, $22,138,900; other crops, $29,649,700; farm crop total, $1,104,869,300.

Forests and forest products, $100,000,000; products in storage, $100,000,000; insect-borne diseases of man, $150,000,000; damage to domestic animals, $100,000,000; grand total, $1,554,869,300.

VACANT PUBLIC LANDS IN THE UNITED STATES.

The following figures, revised officially to July 1, 1919, show the acres of surveyed and unsurveyed public lands in the U. S., the figures in parenthesis being acreage of unsurveyed domain: Alabama, 37,740; Arizona, 7,142,565 (13,572,220); Arkansas, 300,599 (7,000); California, 15,654,405 (4,585,572); Colorado, 8,251,297 (1,296,681); Florida, 117,784; Idaho, 6,745,861 (3,942,747); Kansas, 4,956; Louisiana, 30,129; Michigan, 73,106; Minnesota, 240,314; Mississippi, 39,933; Missouri, 78; Montana, 4,182,643 (2,950,951); Nebraska, 92,826; Nevada, 31,971,560 (23,146,330); New Mexico, 14,033,148 (4,752,575); North Dakota, 90,547; Oklahoma, 20,994; Oregon, 13,412,269 (748,832); South Dakota, 531,810 (29,399); Utah, 14,217,026 (17,104,961); Washington, 868,502 (309,299); Wisconsin, 6,934; Wyoming, 20,721,658 (1,666,321). Grand total, 138,788,684 (74,112,938).

The unappropriated lands in Alaska are not included herein. The total area of Alaska is 378,165,760 acres, of which about 25,384,000 acres are reserved. Approximately 1,144,449 acres have been surveyed under the rectangular system.

Cash receipts of the General Land Office during the fiscal year ended June 30, 1919: From disposal of public lands, $2,817,533.86; sales of Indian lands, $1,387,781.74; leases of power permits, etc., $43,941.26; depredations on the public lands, $29,927.20; copies of records and plats, $22,970 38; and sales of Government property, etc. $1,219.72; total receipts for the year, $4,303,674.16.

Area of public and Indian lands originally entered during the fiscal year, 11,871,181.50 acres; area of lands patented, 10,777,001.35.

The total number of entries, acres sold and amount received therefor under the Timber and Stone Acts of June 3, 1878, and August 4, 1892, were: From June 3, 1878, to June 30, 1919, entries, 103,768; acres, 13,476,627.69; amount, $34,207,333.88.

Supervisor of Surveys—Frank M. Johnson, Denver.

THE MINT CROP.

The 1919 mint crop of Indiana and Michigan was reported by the crop specialist of the Bureau of Crop Estimates as 300,000 pounds from 10,000 acres, as compared with 350,000 pounds from 12,000 acres in 1918. 400,000 pounds from 15,000 acres in 1917, 450,000 pounds from 15,000 acres in 1916, 550,000 pounds from 16,000 acres in 1915, and 600,000 pounds from 18,000 acres in 1914. The average yield was about 30 pounds per acre.

FORESTS AND FORESTRY IN THE UNITED STATES.

About one-fourth of the United States, or 550,000,000 acres, is in forests. Forests publicly owned contain one-fifth of all the timber standing. The remaining four-fifths is contained in forests privately owned. The timber in private ownership is not only four times that publicly owned but is generally more valuable. The original forests of the United States covered an area of about 850,000,000 acres, with an estimated stand of not less than 5,200,000,000,000 feet of merchantable timber, a greater quantity and variety than upon any area of similar size in the world. The present rate of cutting for all purposes exceeds the annual growth of the forests

The leading species, from the point of number production in 1918, was yellow pine, with a total production of 10,845,000,000 board feet. The Douglas fir of the Northwest held second place, with more than 5,520,000,000 board feet, and white pine, with 2,200,000,000 board feet, was third. Of the hard woods, oak, the first in amount cut, was followed in the order named by maple, gum, cypress, chestnut, and birch. We take from our forests yearly, including waste in logging and manufacture, more than 22,000,000,000 cubic feet of wood, valued at about $1,375,000,000. We use in a single year 100,000,000 cords of firewood, nearly 32,000,000,000 feet of lumber, 100,000,000 ties, nearly 1,300,000,000 staves, 445,000,000 board feet of veneer, over 81,000,000 sets of heading, over 335,000,000 barrel hoops, over 4,500,000 cords of native pulpwood, 170,000,000 cubic feet of round mine timbers, nearly 1,500,000 cords of wood for distillation, over 140,000 cords for excelsior, and nearly 4,000,000 telegraph and telephone poles.

About 5,480,000 cords of wood were used in the manufacture of paper in 1917, of which about 900,000 cords were imported, mostly from Canada. The demand for wood pulp is making a severe drain upon the spruce forests, which furnish the principal supply, though a number of other woods, such as poplar, hemlock, pine, and balsam, are now being used in considerable quantities. Tests by the Forest Service of the United States Department of Agriculture have shown that pulp suitable for use in the manufacture of news and wrapping paper can be made from some ten species of native woods, including Sitka spruce, Western hemlock, Englemann spruce, red fir, white fir, and lodge pine. The gross area within the National forest boundaries is 175,103,336 acres, of which 20,561,669 acres are alienated lands. The present net area of the National forests, including those in Alaska and Porto Rico, and lands acquired in the White Mountains and Southern Appalachian region for National forest purposes, is 154,541,667 acres. Receipts in 1919 were: From timber, $1,540,100; from grazing, $2,609,169; from special uses, $209,145; from all sources, $4,358,414.

The operating costs of the National forests are about $4,000,000 annually. In bad-fire years the cost of fire fighting adds heavy emergency expenditures, which in the calendar year 1918 exceeds $1,000,000. For improvements (roads, trails, telephone lines, bridges, cabins, etc) there is an annual appropriation of $450,000. plus 10 per cent of the receipts, which is expendable for roads and trails. In addition, the Federal Aid Roads Act made available $1,000,000 yearly for ten years for roads and trails within or partly within the National forests. The total regular appropriation for the support of the Forest Service, including its diversified investigative and co-operative work for the fiscal year 1918 is $5,731,555

Thirty-three States have forestry departments. The appropriations for their yearly support range from $1,000 to $500,000. Those having $25,000 or more are: Pennsylvania, $500,000; New York, $267,000; Michigan, $190,000; Massachusetts, $120,000; Maine, $119,000, with an additional $225,000 for the suppression of the gypsy and brown-tail moths; Minnesota, $103,000; California, $50,000; Washington, $50,000; New Jersey, $40,000; New Hampshire, $29,000; Oregon, $27,000; Wisconsin, $25,000. New York in 1917 also appropriated $2,500,000, available until expended, for the extension of her State-owned "forest preserve" of nearly 2,000,000 acres in the Adirondack and Catskill Mountains. Pennsylvania has more than 1,000,000 acres of State-owned forests and practises forestry on them. Minnesota has 400,000 acres now in State forests and 1,000,000 acres of school lands to be retained for State school forests Wisconsin has 380,000 acres reserved, and Michigan 289,000 with an additional 300,000 to be used for exchange. South Dakota has 51,000 acres of State forest, New Jersey 17,000, and North Carolina, Ohio, Indiana, Maryland, Connecticut, New Hampshire, and Massachusetts from 350 to 13,000 acres each Twenty-four States co-operate in fire protection with the Federal Government.

THE PALISADES INTERSTATE PARK.

The Palisades Interstate Park comprises 36,000 acres (1,000 acres in the State of New Jersey and 35,000 in New York State). The park embraces the Palisades cliffs and runs for twelve miles on the west bank of the Hudson River from a point north of Fort Lee to Palisades, N. Y. The Harriman Park, which is the highlands region of the Palisades system, runs from Bear Mountain, N. Y., five miles south of West Point, for fifteen miles to Tuxedo, N. Y. The Commission also owns the State Rifle Range at Blauvelt, N Y., and the Hook Mountain quarries. In the creation of the Palisades Park, the State of New York has appropriated in money and lands nearly $6,000,000 New Jersey appropriated $500,000 for the building of the Henry Hudson Drive along the Palisades, and $50,000 for land. In addition, the Commission has received private contributions of nearly $5,000,000 in cash; all these contributions and appropriations, together with value of land donations, aggregate $12,000,000.

In the Palisades section of the park, the Commission maintains pavilions for picnic parties; bath houses and beaches; canoe beach for camping, and facilities for Winter storage of canoes; motor boat basin for small pleasure craft; week-end camps for working boys; hundreds of individual camps are established here under permit. In the Harriman Park and Bear Mountain section of the Palisades system there is maintained by the Commission the Bear Mountain Inn, which is a restaurant, built by private funds and operated by the Commissioners for the sale of food at reasonable prices; a lawn plateau for baseball, tennis, running meets, and other organized athletic sports; a large grove on the side of Hessian Lake for picnic parties, benches and tables being scattered through this area, and swings for the children; the free use of rowboats is permitted for a limited period on Hessian Lake; sightseeing automobiles take visitors into the park, which plunges into the woodland for fifteen miles; parking places for automobiles have been developed; seven lakes have been either entirely made or artificially enlarged.

The Commission maintains the largest civil encampment in the world. In 1919 over 52,000 individuals. mostly tenement children and mothers, averaged eight consecutive days' vacation each. There was a daily census of nearly 1,600 Boy Scouts in the camps Camps for working girls are maintained at cost. During the Summer of 1919 over 625,000 visitors were at Bear Mountain, nearly 200,000 of whom came by automobile. Over 1,100,000 sales were made at the Bear Mountain Inn. Nearly 200,000 people were carried in the Commission automobiles. Over 800,000 people visited the Palisades section of the park. No concessions are let in the Palisades Park. This park is under the jurisdiction of a Joint Commission, appointed by the Governors of New York and New Jersey.

George W. Perkins has been the President of the New York Commission for nearly twenty years and has been very active in its management The Commission consists of: New York State—George W. Perkins, President; Franklin W. Hopkins, Vice-President; J. Du Pratt White, Secretary; Edward L. Partridge, Treasurer; Richard V. Lindabury, William H. Porter, A. Averell Harriman, Frederick C. Sutro, Charles W. Baker and John J. Voorhees. New Jersey—Richard V. Lindabury, President; Edward L. Partridge, Vice-President; J. Du Pratt White, Secretary; Frederick C. Sutro, Treasurer; George W. Perkins, Charles W. Baker, Myron W. Robinson, John J. Voorhees, William H. Porter and W. Averell Harriman.

THE NEW YORK STATE FOREST PRESERVE.

(Specially prepared for the ALMANAC by the State Conservation Commission.)

NEW YORK STATE'S great Forest Preserve was established by act of the Legislature in 1885. It includes large areas in the two great forested sections of the State, the Adirondack and Catskill Mountains. Article 7, Section 7, of the State Constitution, adopted in 1894, assured its integrity for all time. It provided that "The lands of the State, now owned or hereafter acquired, constituting the forest preserve as now fixed by law, shall be forever kept as wild forest land. They shall not be leased, sold or exchanged, or be taken by any corporation, public or private, nor shall the timber thereon be sold, removed or destroyed. But the Legislature may by general laws provide for the use of not exceeding three per centum of such lands for the construction and maintenance of reservoirs for municipal water supply, for the canals of the State, and to regulate the flow of streams. Such reservoirs shall be constructed, owned and controlled by the State, but such work shall not be undertaken until after the boundaries and high flow lines thereof shall have been accurately surveyed and fixed, and after public notice, hearing and determination that such lands are required for such public use. The expense of any such improvements shall be apportioned on the public and private property, and municipalities benefited to the extent of the benefits received."

The objects for which the Forest Preserve were established may be briefly stated as follows:

First—Forests are the great conservers of water supply. The leaves of the forest trees prevent rapid evaporation of moisture from the ground and the soft sponge-like duff of the forest floor hoards the water from melting snow and from rain, allowing it to run gradually into the brooks and rivers. The streams of Europe and Asia have shrunk as the forests have been cut away, and in many parts of our own country the water courses have diminished from the same cause.

Second—Forests increase the fall of rain. As the moisture laden winds from the lakes and ocean sweep over them, their lower temperature precipitates the vapor as rain or snow. Thus the forests are not only conservers of water supply but are also, for all practical purposes, actual producers of water supply.

Third—Forests are great equalizers of climate and temperature. It is a fact of common knowledge that the localities which have the most equable climates, which are most free from violent winds, from periods of drought, and from excessive heat and cold, are the sections which have a considerable forest cover over them or in their immediate vicinity.

Fourth—Because of the pace of our modern civilization, forests have become invaluable as recreation grounds for all the people. In fact their use for this purpose has increased so tremendously within the last twenty years that it is now one of the chief purposes for which a forest preserve should be maintained. Forested regions are also important as sanitary and health resorts, and are absolutely essential for the preservation of fish and game.

Fifth—Without preservation of the forest under State ownership, the supply of timber for the future will be seriously endangered. Private ownership of forest land has proved almost universally to be wasteful and o lead ultimately to complete denudation.

Since the establishment of the Forest Reserve, the State of New York has spent $5,007,287 in the acquisition of land for its extension. In addition large areas of other land have been acquired by tax sales, with the result that January 1, 1919, the area of the Forest Preserve in both the Adirondack and Catskill Mountains aggregated 1,838,322 acres.

Jurisdiction over the Forest Preserve is exercised by the Conservation Commission, which has charge, besides, of the State Reservation at Saratoga Springs, the St. Lawrence Reservation, the Cuba Reservation, and the John Brown Farm in the Town of North Elba, Essex County. Besides administrative control over this property, the commission also has entire charge of the fighting of forest fires upon both public and privately-owned land in the large forested regions.

For the prompt detection of forest fires, fifty-two observation stations are maintained upon mountain tops throughout the Adirondacks and Catskills. All of these stations are connected by telephone lines with the ranger headquarters. Observers are on duty at these stations throughout the entire dry season from Spring until Fall. A force of sixty-five forest rangers and five district rangers is also maintained, to attend to the administration of the State owned land and the fighting of fires upon both State and private land.

The work of reforestation of State land and the raising of trees for the reforestation of private land is also conducted by the commission. For this purpose six nurseries are maintained, having a total capacity of 30,000,000 trees and an annual production of 10,000,000. Approximately 5,000 acres of State land are reforested each year. Trees are sold to private landowners at the cost of production, to municipalities at 50 cents per thousand, and are furnished to State institutions without charge.

The sections of the Adirondack and Catskill Mountains upon which it is most important for the State to insure the maintenance of a continuous forest cover have been defined by law and are known as the Adirondack and Catskill Parks. They are bounded by a line called the blue line. Within these parks approximately one-half of the land is still privately owned. Part of the land of the Forest Preserve lies outside of the park lines, and thus the park lines, which run through both State and private land, are simply lines to designate the most vital sections of the mountain regions. Extensive lumbering operations upon much of the land within the park lines are endangering the water sheds, and this led to a referendum vote in 1916 for the authorization of a bond issue of $7,500,000 for purchase of additional land to be added to the Forest Preserve. The proposition passed by a large majority and the Conservation Commission is now engaged upon the expenditure of this sum. The Legislature in 1917 appropriated $2,500,000 of the bond issue for immediate use. The recommendations of the Conservation Commission are submitted to the Commissioners of the Land Office, who act with the Conservation Commission in finally deciding on purchases.

It is conservatively estimated that the Forest Preserve is now worth, if it should be placed on the market, at least $40,000,000, thus showing an increase in value of approximately 800 per cent. over its cost to the State.

Investigations made by the Conservation Commission indicate that investment in hotels, boarding houses and other facilities for the care of Summer visitors in the Forest Preserve regions, the amount of money annually expended in caring for these people, the money spent by vacationists, and the number of persons actually engaged in the business of caring for Summer visitors, far exceed in amount similar figures for the lumber industry, thus indicating that the chief business in the Forest Preserve regions has now come to be that of caring for vacationists.

For such a business the Adirondack and Catskill Mountains are incomparable. They are covered almost everywhere with the native trees of North America—pine, spruce, hemlock, balsam, cedar, tamarack, beech, birch, maple, and the other less important deciduous trees. Even on many of these areas that have been devastated in the past, these trees are returning.

Under a careful system of game protection the fauna native to the woods is preserved, and in many respects is increasing. Chief among the large animals are deer and bears. Beaver, which had become extinct, were reintroduced to the Adirondacks in 1905 and have since spread over every section of the woods. They have also been introduced in the Catskills and are becoming more abundant there. In 1915, through co-operation with the Benevolent and Protective Order of Elks, a carload of elk from Yellowstone Park were liberated in the Adirondacks. Among other common animals, many of which furnish a large amount of fur, should be mentioned the fox, mink, otter, marten, weasel, fisher, coon, and muskrat.

The lakes and streams, which are annually stocked by the Conservation Commission, contain brook trout, lake trout, rainbow trout, brown trout, largemouth and smallmouth black bass, great northern pike, pickerel, perch, bullheads, and many of the other coarser fishes.

THE NATIONAL PARKS AT A GLANCE.

[Number, 18; total area, 10,739 square miles.]

NATIONAL PARKS IN ORDER OF CREATION.	Location.	Area in Sq. Miles	Distinctive Characteristics.
Hot Springs, 1832 ..	Middle Arkansas.....	1½	46 hot springs possessing curative properties.
Yellowstone, 1872...	No'western Wyoming	3,348	Geysers; boiling springs; mud volcanoes; petrified forests; Grand Canyon of the Yellowstone.
Sequoia, 1890.....	Middle eastern California.	252	12,000 sequoia trees over 10 feet in diameter, some 25 to 36 feet in diameter; cave.
Yosemite, 1890.....	Middle eastern California.	1,125	Valley of world-famed beauty; lofty cliffs; many waterfalls of extraord'y height; 3 groves of big trees.
General Grant, 1890.	Mid east'n California.	4	Created to preserve Gen. Grant Tree, 35 ft in diam.
Mount Rainier, 1899	W. central Washington	324	28 glaciers; 48 sq. miles of glacier, 50 to 500 ft. thick.
Crater Lake, 1902...	Southwestern Oregon.	249	Lake of extraordinary blue in crater of extinct volcano; sides 1,000 feet high; lava; fishing.
Wind Cave, 1903....	South Dakota	17	Miles of galleries and chambers containing peculiar formations.
Platt, 1904.....	Southern Oklahoma...	1⅛	Many sulph. and oth. springs possess medicinal value
Sullys Hill, 1904....	North Dakota.....	1⅛	An important wild animal preserve.
Mesa Verde, 1906...	So'western Colorado..	77	Most notable, best preserved prehistoric cliff dwell'gs.
Glacier, 1910.....	No'western Montana.	1,534	250 glacier-fed lakes; 60 small glaciers; precipices thousands of feet deep.
Rocky Mount'n, 1915	North middle Colorado	397½	Heart of the Rockies; snowy range, peaks 11,000 to 14,250 feet altitude.
Hawaii, 1916.....	Hawaii..	118	Kilauea & Mauna Loa on Hawaii; Haleakala on Maui
Lassen Volcano, 1916	Northern California...	124	Only active volcano in U. S. proper; hot springs; mud geysers.
Mt. McKinley, 1917	South central Alaska .	2,200	Highest mountain in North America.
Grand Canyon, 1919	North central Arizona.	958	Greatest example of erosion in the world.
Lafayette, 1919.....	Maine coast.....	8	Group of granite mountains on Mt. Desert Isl.

THE National parks and reservations mentioned are under the supervision of the Secretary of the Interior. Congress, by act of August 25, 1916, created a National Park Service, and placed the administration of the National parks and monuments under the Department of the Interior in charge of a director of such service. General information, the annual administrative reports, copies of the rules and regulations, and compilations of the laws relating to the parks may be obtained from the Secretary of the Interior, the Director of the National Park Service, Washington, D. C., or the superintendents of the parks.

YELLOWSTONE NATIONAL PARK, WYOMING.

YELLOWSTONE NATIONAL PARK is in Wyoming, Montana, and Idaho, is 62 miles long and 54 miles wide, and has an area of 2,142,720 acres. The supervisor's address is Yellowstone Park, Wyoming. The park can be reached by the following railroads: Northern Pacific Railroad to Gardiner, the northern entrance, via Livingston, Mont.; Oregon Short Line Railroad to Yellowstone, Mont., the western entrance; Chicago, Burlington and Quincy Railroad to Cody, Wyo , from which the eastern entrance of the park is accessible by auto stages, by a drive of 55.4 miles. Stage and private transportation connections for the reservation are made at all these points. The tourist season extends from June 1 to September 15. During the park season round-trip excursion tickets at reduced fares are sold at practically all stations in the United States and Canada, to Gardiner, Yellowstone station, and Cody, as destinations. From the Middle West, East and South round-trip excursion tickets may be purchased for transportation on going trip to any of the three Yellowstone National Park gateways (Gardiner, Yellowstone station, Cody), and for transportation on the return trip from the same or any other gateway, thus affording passengers the privilege of entering the park at one entrance and leaving it at the same point or any one of the other entrances. From many sections trips may be planned to include visits to two or more of the following national parks in the Rocky Mountain region; Yellowstone, Glacier, Rocky Mountain, Mesa Verde. Passengers wishing to visit Yellowstone National Park as a side-trip in connection with journeys to other destinations will find stop-over privileges available and may make side-trips to the park from Livingston, Mont., Pocatello, Idaho, Ogden, Utah, Salt Lake City, Utah, or Frannie, Wyo , which are stop-over points on both one-way and round-trip tickets, or from Billings, Mont., or Butte, Mont., which are stop-over points on round-trip tickets. The Yellowstone is the largest national park. The central portion is a broad, elevated, volcanic plateau, between 7,000 and 8,500 feet above sea level, and with an average elevation of about 8,000 feet The entire region is volcanic. Not only the surrounding mountains but the great interior plain is made of material once ejected, as ash and lava, from depths far below the surface. Geological speculation points to a crater which once opened just west of Mount Washburn. Wild elk, deer, and antelope are numerous in the park; and moose, bison, mountain sheep, black, brown, and grizzly bears, wolves, coyotes, mountain lions, and the smaller fur-bearing animals are found. Bears are seen daily in summer at garbage dumps near all hotels and camps and occasionally elsewhere. In winter, elk, mule deer and white-tailed deer, antelope, and mountain sheep may be viewed at close quarters along the northern line of the park.

THE YOSEMITE NATIONAL PARK, CALIFORNIA.

YOSEMITE NATIONAL PARK, CALIFORNIA, including the Yosemite Valley and Mariposa Big Tree Grove, embraces an area of 719,622 acres. The superintendent's address is Yosemite, Cal. The park can be reached from Merced on the Atchison, Topeka and Santa Fe and the Southern Pacific Railroads by way of Yosemite Valley Railroad, which runs to El Portal, near the western boundary. Stage lines run from the terminus of the Yosemite Valley Railroad and from Merced, by way of Mariposa, Wawona, and Mariposa Big Trees, to Yosemite Valley within the park. Tickets may be procured covering trip in one way and out the other way. This is known as the Horseshoe Route. The tourist season extends from May 1 to November 1, but the park is accessible and hotel accommodations are furnished the entire year The Yosemite Falls drop 1,430 feet in one sheer fall, a height equal to nine Niagara Falls piled one on top of the other. The Lower Yosemite Fall, immediately below, has a drop of 320 feet, or two Niagaras more. Vernal Falls has the same height, while Illilouette Falls is 50 feet higher. The Nevada Falls drops 594 feet sheer; the celebrated Bridalveil Fall, 620 feet; while the Ribbon Falls, highest of all, drops 1,612 feet sheer, a straight fall nearly ten times as great as Niagara. Nowhere else in the world may be had a water spectacle such as this. Similarly the sheer summits Cathedral Rocks rise 2,591 feet vertically from the valley; El Capitan, 3,604 feet; Sentinel Dome, 4,157 feet; Half Dome, 4,892 feet; Clouds Rest, 5,964 feet.

The park lies on the west slope of the Sierra Nevada mountains. From east to west winds the Tioga Road, connecting on the west with the main road system of California and crossing the Sierra on the east through Tioga Pass. The monster mountain mass of which Mount Lyell is the chief lies on the southwest boundary of the park. It may be reached by trail from Tuolumne Meadows. It is the climax of the Sierra in this neighborhood. The traveler swings from the Tuolumne Meadows around Johnston Peak to Lyell

Fork, and turns southward up its valley. Rafferty Peak and Parsons Peak rear gray heads on the right, and huge Kuna Crest borders the trail's left side for miles. At the head of the valley, beyond several immense granite shelves, rears the mighty group, Mount Lyell in the centre, supported on the north by McClure Mountain and on the south by Rodgers Peak.

The greatest grove of giant sequoia trees outside of the Sequoia National Park is found in the extreme south of the Yosemite National Park. It is called the Mariposa Grove. It is reached from the Wawona Road, which enters the park from the south. To see this grove requires a day's trip from the Yosemite Valley and back.

The monster tree of the Mariposa Grove is the Grizzly Giant, girth 93 feet, diameter 29.6 feet, height 204 feet. It is a little short of 4,000 years old. It is the third largest tree in the world. The largest and oldest is the General Sherman tree in the Sequoia National Park, whose height is 280 feet and whose diameter is 36.5 feet. The second largest is the General Grant tree, in the General Grant National Park, whose height is 264 feet and whose diameter is 35 feet. Other trees in the Mariposa Grove, which have become more or less celebrated individually, are the Washington tree, whose diameter is only 3 inches less than that of the Grizzly Giant; the Columbia tree, whose height is 294 feet; and the Wawona tree, through whose trunk runs an automobile road 26 feet wide There are two minor sequoia groves in the Yosemite National Park—the Merced and the Tuolumne The valley is 7 miles long. Its floor averages 1 mile in width, its walls rising from 3,000 to 4,000 feet.

GLACIER NATIONAL PARK, MONTANA.

GLACIER NATIONAL PARK, MONTANA, has an area of approximately 981,681 acres. Within the limits stated there are 250 lakes, ranging from ten miles to a few hundred feet in extent. There are sixty glaciers between five square miles and a few acres in area. There are wild animals, plants, and rocks in number and quantity to satisfy the most ardent student, and views of great variety, beauty and grandeur to gratify the artist and the lover of nature. The address of the supervisor is Belton, Mont. The park can be reached via the Great Northern Railway, Glacier Park Station being the eastern entrance. The tourist season extends from June 15 to about September 15. From Glacier Park Station, automobile roads lead to Two Medicine Lake, to Cut Bank Chalets, to St. Mary Lakes, and eventually to Lake McDermott, from which point horse trails lead up into the mountain fastnesses, and, at three points, across the Continental Divide to the western slopes. Belton, Mont., is the western entrance to the national park The road from Belton runs to Fish Creek on Lake McDonald and up the Flathead River Trails lead to points of interest, skirting lakes, and trips may be taken on trails leading from the Flathead River Road to Logging, Quartz, Bowman, and Kintla Lakes, and reach glacial amphitheatres, rock pinnacles, ridges, and hanging glaciers. The Bowman Trail crosses the mountain range through Brown Pass

As a rule tourists are inclined to carry too much. A very inexpensive and simple outfit is required—old clothes and stout shoes are the rule. For a week's to two weeks' trip, either afoot or horseback, the following list is about all that is required:

One suit of old clothes, 1 sweater or mackinaw wool jacket, 2 suits of wool underwear (medium weight), 3 pairs of wool socks (heavy), 1 pair of stout lace shoes or hunting boots, 1 pair of canvas leggings (if shoes are worn), 2 pairs of cotton gloves, 1 old felt hat, 1 rubber blanket or raincoat, if on walking tour. Waterproof slickers are furnished free with saddle horses.

Glacier, whose lower valleys once were hunted and trapped by Blackfeet Indians, has a large and growing population of creatures of the wild. Its rocks and precipices fit it especially to be the home of the Rocky Mountain sheep and the mountain goat. Both of these large and hardy climbers are found in Glacier in great numbers. They are a familiar sight in many of the places most frequented by tourists. Trout fishing is particularly fine. The trout are of half a dozen western varieties, of which the cutthroat is the most common. In St. Mary Lake, Mackinaw trout up to 20 pounds in weight are caught. So widely are trout distributed that it is difficult to name lakes of special fishing importance. Many of the best fishing lakes are seldom visited.

MT. RAINIER NATIONAL PARK, WASHINGTON.

MOUNT RAINIER NATIONAL PARK, WASHINGTON, has an area of 207,360 acres, and contains the largest accessible single-peak glacier system, with twenty-eight glaciers, covering forty-eight square miles, from fifty to five hundred feet thick. There are wonderful sub-alpine wild flower fields. The supervisor's address is Longmire, Wash. The park is reached by stage or private transportation from Ashford, Wash., on the Tacoma Eastern Railroad, and by trail from Fairfax, on the Northern Pacific Railroad. The tourist season extends from June 1 to September 15. The southern portion of the park is reached by rail to Ashford, on the Chicago, Milwaukee and St. Paul Railroad, thence by automobile stage lines of the Rainier National Park Co. to Longmire Springs, a distance of 13 miles, 6½ of which are within the park. The northwestern portion of the park is accessible by trail from Fairfax. The distance is 10 miles from Fairfax to the Carbon River ranger station, from which point trails lead to Crater Lake, Spray Park, Carbon Glacier, Mystic Lake, and other points of interest. Pack horses can be secured at Fairfax. The northeastern portion of the park is reached through the White River entrance, which is 39 miles from Enumclaw, over the McClellan Pass State Highway. This highway has been completed to The Dalles, Washington, 29 miles from Enumclaw. The remaining 10 miles is over the road constructed through the forest reserve by the Mount Rainier Mining Co. From the White River entrance the new Storboo Road leads to Glacier Basin, 10 miles. From Glacier Basin, and from other points on the Storbo Road, trails lead to Chinook Pass, Owyhigh Lakes, Summerland, Yakima Park, Winthrop Glacier, Mystic Lake, and other points of interest. The southeastern portion of the park, where the Ohanapecosh Hot Springs are located, can best be reached by trail from Narada Falls, 14 miles This section can also be reached by trail, 13 miles from Lewis, Wash. There are no hotel or camp accommodations at the hot springs.

The lower altitudes of the park are densely timbered with fir, cedar, hemlock, maple, alder, cottonwood, and spruce. The forested areas, extending to an altitude of about 6,500 feet, gradually decrease in density of growth after an altitude of 4,000 feet is reached, and the high, broad plateaus between the glacial canyons present scenes of diversified beauty.

A large part of the area above the 4,500-foot contour consists of open, grassy parks, rocky and barren summits, snow fields, and glaciers. Tracts of dense sub-alpine forest occur in sheltered locations, but they are nowhere very extensive, and their continuity is broken by open swamp glades and meadows and small bodies of standing water The steep upper slopes of the spurs diverging from the main ridges are frequently covered with a stunted, scraggy growth of low trees firmly rooted in the crevices between the rocks. The most beautiful of the alpine trees are about the mountain parks. Small patches of low, weather-beaten, and stunted mountain hemlock, alpine fir, and white-bark pine occur up to 7,000 feet. A few diminutive mountain hemlock grow above this elevation. The trunks are prostrate, and the crowns are flattened mats of branches lying close to the ground. The extreme limit of tree growth on Mount Rainier is about 7,600 feet. The forest continues up to 4,500 feet, at which elevation the grassy meadows begin.

Here begins also the real floral beauty of the park. The lower meadows are generally moist and often swampy. The typical plants are the cotton grass, spiraeas, asters, erythroniums, arnicas, monkey flowers, the creamy fireweed, swamp speedwells, sedges, and willows. These moist meadows soon give way to dry, grassy areas interspersed with beautiful symmetrical tree groups. As elevation increases the groups of trees diminish in both number and size until timber line is reached, when they form prostrate mats at about 6,700 feet. The region of the greatest floral beauty is about 5,400 feet. Here the plants are large, growing in

fertile soil. Here the color of the leaves as well as the floral organs are superb. All colors are represented. The principal plants having red flowers in this zone are Indian paint brush, Lewis's monkey flower, red heather, rosy spiraea, and the fireweeds; those having white flowers are valerians, mountain dock, saxifrages, avalanche lilies, several umbelliferous plants, and the cudweeds; those having blue flowers are speedwells, lupines, mertensias, pentstemons, and violets; those having yellow flowers are the arnicas, potentillas, buttercups, deertongues, stonecrops, mountain dandelions, and monkey flowers. The principal plants in the pumice fields above timber line are the mountain phlox, golden aster, Lyall's lupine, yellow heather, scarlet pentstemon, hulsea nana, purple phaelia, golden draba, and smelowskia. The last two vie with each other for attaining the highest altitude.

SEQUOIA NATIONAL PARK, CALIFORNIA.

SEQUOIA NATIONAL PARK, CALIFORNIA, has an area of 161,597 acres, and is the home of the Big Trees. The address of the superintendent is Three Rivers, Cal This park may be reached from Visalia, on the Southern Pacific and the Atchison, Topeka and Santa Fe Railroads, by way of the Visalia Electric Railroad Company to Lemon Cove, thence by stage or private conveyance to the Giant Forest within the park, or by private conveyance from Visalia via Lemon Cove. The tourist season is May 24 to Oct. 10, and the best period is June 15 to Oct. 1, while it is dry and clear.

Visalia, Cal. (altitude 384 feet), is the gateway city of the Sequoia National Park and the High Sierra region, including the Great Western Divide, Kern River Canyon, and Mount Whitney, which is part of the territory it is proposed to add to the present park area by legislation providing for the establishment of the Roosevelt National Park. It is one of the oldest cities settled by Americans in California and has excellent hotel accommodations. A new concrete highway connects this city with Lemon Cove, 20 miles, and Three Rivers, 30 miles. From Three Rivers it is 43 miles to the Giant Forest, the last 20 miles of which are within the Sequoia National Park. Visalia is on the Southern Pacific and Atchison, Topeka and Santa Fe Railroads, and is also connected with Lemon Cove by the trains of the Visalia Electric Railroad, via Exeter, a station on the Southern Pacific Railroad. At Lemon Cove immediate transfer from the train is made to the automobile stages of the Sequoia National Park Stage Co. for Giant Forest. The running time of the automobile stages is about five hours.

The Sequoia and General Grant National Parks are in western central California. They are situated on the Sierra Nevada's warmest slopes and contain some of the most luxuriant forests of America. They are the big-tree national parks in every sense. Here all native growths attain their greatest girth and height. The pines and firs and cedars are the noblest of their kind. Their open glades are gardens of wild flowers. But their chief glory is the tree after which the parks are named, the Sequoia Washingtoniana, popularly known and widely celebrated as the Big Tree of California. Sequoia National Park contains more than 1,000,000 sequoia trees of all sizes, 12,000 of which exceed 10 feet in diameter. Among these are many monsters of great age. The General Sherman Tree, most celebrated of all, is 279.9 feet high with a diameter of 36.5 feet. It is the biggest and the oldest living thing. The Abraham Lincoln Tree is 270 feet high, with a diameter of 31 feet. The William McKinley Tree is 290 feet high, with a diameter of 28 feet. These trees occur in 12 groves scattered through the park. The largest and most famous of these is the Giant Forest, in whose 3,200 acreas grow a half million sequoia trees, of thich 5,000 exceed 10 feet in diameter. Here is found the General Sherman Tree and many of his peers. The Giant Forest was until recently the terminus of the automobile road from Visalia and the site of the public camp. This road, however, has now been completed to a point on the Marble Fork River several miles beyond the forest.

GENERAL GRANT NATIONAL PARK, CALIFORNIA.

GENERAL GRANT NATIONAL PARK, CALIFORNIA, has an area of 2,536 acres. This reservation is administered jointly with Sequoia National Park, and the tourist season extends from May 24 to October 10. The address of the superintendent is given above. The park may be reached from Sanger, on the Southern Pacific Railroad, thence by auto stage or private conveyance, a distance of 46 miles to the park, also from Cutler Station, on the Atchison, Topeka and Santa Fe Railroad, thence thirty-nine miles by stage or private conveyance by way of Orosi and Badger to the park.

Six miles away, across the mountain, valley, and forest, lies the General Grant National Park. It was created to preserve for the public benefit the General Grant Tree and its splendid group of fellows. In this grove, which is as luxuriant in all growing things as the Giant Forest, are 10,000 sequoia trees, 190 of which exceed 10 feet in diameter.

CRATER LAKE NATIONAL PARK, OREGON

CRATER LAKE NATIONAL PARK, OREGON, has an area of 159,360 acres. The address of the superintendent during the tourist months (July 1 to September 30) is Crater Lake, Ore., and during the balance of the year Medford, Ore. This park may be reached by stage or automobile from Klamath Falls, Medford, Chiloquin, or Ashland, Ore., on the Southern Pacific Railroad. This park is in the very heart of the Cascade Range. Crater Lake, itself, is a body of water of wonderful blue, in the blown-in top of an extinct volcano In this neighborhood the Cascades merge into a broad, irregular platform surmounted by volcanic cones. The cones vary in size and are distributed without regularity. Each has been an active volcano. The fragments, blown out by violent eruption, have fallen upon the volcanic orifice from which they issued, and built up cinder cones. From their bases have spread streams of lava (coutces), raising the general level of the country between the cones From some vents by many eruptions, both explosive and effusive, large cones, like McLoughlin, Shasta, and Hood, have been built up. Were we to examine their internal structure, exposed in the walls of the canyons carved in their slopes, we should find them composed of overlapping layers of lava and volcanic conglomerate. But to this general form of volcanic architecture there was an exception. One of the very largest of these ancient volcanoes was Mount Mazama, which lifted its majestic cone nearly to the height of Mount Rainier, 300 miles to the north. But this was ages ago. No human eyes ever saw Mount Mazama. Long before man came the entire upper part of it in some titanic cataclysm fell in upon itself as if swallowed by a subterranean cavern, leaving its craterlike lava sides cut sharply downward into the central abyss.

The first awful depth of this vast hole no man can guess. But the volcano was not quenched. It burst up through the collapsed lavas in three places, making lesser cones within the crater, but none quite so high as the surroundingrim. Then the fires ceased and gradually, as the years passed, springs percolated into the vast basin and precipitation, in the form of snow, filled it with water within a thousand feet of its rim. This is Crater Lake. To-day one small cone emerges a few hundred feet from the surface The lake is 2,000 feet deep in places. It has no inlet of any sort, nor is there any stream running out of it; but the water is supposed to escape by underground channels and to reappear as springs in the Klamath region, a few miles away. Geologists find Crater Lake of special interest because of the way nature made it. Many volcanoes have had their tops blown off, and Mount Rainier was one of these, but no other in the United States has fallen in like Mount Mazama.

Unforgettable also are the twisted and contorted lava formations of the inner rim. A boat ride along the edge of the lake reveals these in a thousand changes. At one point near shore a mass of uriously carved lava is called the Phantom Ship because, seen at a distance, it suggests a ship under full sail. The illusion at dusk or by moonlight is striking. In certain slants of light the Phantom Ship suddenly disappears—a phantom indeed. Another experience full of interest is a visit to Wizard Island. One can climb its sides and descend into its little crater. The somewhat mysterious beauty of this most remarkable lake is by no

means the only charm of the Crater Lake National Park. The surrounding cliffs present some of the most striking pictures of the entire Western country. These can best be studied from a boat on the lake, but walking upon the rim of the lake is one of the most wonderful experiences possible. The motor road around the rim, which has been under construction for four years, is now completed. It is easily one of the greater scenic highways of the world. The motorist looks down on the one side upon the lake disclosed in complete detail from every point of view, and out on the other side over an ever-changing panorama of Cascade Mountain scenery. At many points he may park his car and clamber as he pleases among the rocks and over the precipices of the lake's deep gulf. All park approaches connect with the rim road, which is 35 miles in length.

WIND CAVE NATIONAL PARK, SO. DAKOTA.

WIND CAVE NATIONAL PARK, SOUTH DAKOTA, contains 10,899 acres. The superintendent's address is Wind Cave, S. Dak. This park may be reached by private conveyance from Hot Springs, on the Chicago, Burlington and Quincy and the Chicago and Northwestern Railroads, or by similar conveyance from Custer, on the Chicago, Burlington and Quincy Railroad. The season is June 1 to Sept. 30. The cave consists of a series of long, narrow passageways having variations in height and width, and opening into irregular chambers at intervals. There are three principal divisions. The first, into which the entrance descends, is a long, narrow tunnel leading southeast, parallel with the road to Hot Springs and a short distance east of it. This extends 1,900 feet to G. A. R. Hall, 360 feet lower than the entrance and 330 feet below the surface of the ground above. A few feet beyond the G. A. R. Hall the trail ascends by stairways to upper level of the cave, and thence through other chambers to the Garden of Eden, the end of this route. From the crossroads on this division there is a branch passage leading to the northeast to the Assembly Room, same elevation as the Garden of Eden. Here it joins the third division, northwesterly to the Pearly Gates, parallel to the entrance passage. There are several branches, the largest leading upward into the Fair Grounds, 100 feet higher than adjoining portions of the cave. It is reached through a hole in the roof of a passageway from the Ticket Office. In the game preserve are buffalo, elk, and deer.

SULLYS HILL PARK, NORTH DAKOTA, on the shore of Devils Lake, has an area of 780 acres. The address of the superintendent is Fort Totten, N. Dak. Devils Lake, Narrows, and Tokio, on the Great Northern Railroad, are close to the park, and from these points the reservation can be approached by wagon or by boat (private conveyance).

PLATT NATIONAL PARK, AT SULPHUR, OKLAHOMA, has an area of 848.22 acres. Sulphur is the postoffice address of the superintendent. The town is accessible by the Atchinson, Topeka and Santa Fe and the St. Louis and San Francisco Railroads. The park, which is open to tourists the entire year, is within walking or riding distance of the railroads.

MESA VERDE NATIONAL PARK, COLORADO.

MESA VERDE NATIONAL PARK, COLORADO, under the organic act approved June 29, 1906, contained an area of 42,376 acres, and the five-mile strip under the park jurisdiction for the protection of ruins, provided for by the act, abutting the park, contained 175,360 acres. The five-mile strip was eliminated from park supervision by the act of June 30, 1913, and the boundaries of the park proper were changed so as to make the present aggregate area 76.51 square miles, or 48,966.4 acres. The address of the superintendent is Mancos, Col., the nearest railroad station, on the Denver and Rio Grande Railroad. Auto stages take the visitor from Mancos to the ruins (a distance of thirty-two miles) and return. The tourist season extends from May 1 to October 31.

The Mesa Verde or Green Mesa is so called from the cedar and pinyon trees which, growing upon it, impart to it a green color. This mesa is 15 miles long by 8 wide. Rising from the valley on the north side, its top slopes southward to the cliff bordering the valley of the Mancos on the south. Into this valley open a number of small high-walled canyons through which, in times of heavy rain, torrents of water flow into the Mancos. In the shelter of the sides of these small canyons occur some of the best-preserved cliff dwellings in America.

In prehistoric times a large human population lived in these cliff dwellings, seeking a home there for protection. They obtained their livelihood by agriculture on the tops of the mesa, cultivating farms, which yielded them corn. Game was scarce The Mancos yielded a few fishes. The earth contributed berries and nuts. At that time as at present water was rare and found only in sequestered places near the heads of canyons, but the inhabitants cultivated their farms and raised their corn, which they ground on flat stones called metates and baked their bread on a flat stone griddle. They boiled their meat in decorated vessels. They shaped stones into regular forms, ornamented them with designs, and laid them one on another. The population of the cliff dwellings, due to increase in numbers, led to their covering the cave floor with rooms, after which they emerged from their caves and built their homes in the open on top of the mesas in the form of pueblos or community houses. These latter fell into disuse and for years were indicated by mounds of stone and earth. One of these mounds, situated on the point of a mesa opposite Cliff Palace, was opened in the summer of 1915 and found to be a massive walled structure. On top of the mesa there are many mounds, not unlike that which formerly covered the Sun Temple.

The Mesa Verde National Park and the Casa Grande National Monument were set aside to protect the instructive prehistoric ruins and other objects of antiquity which they contain. These ruins are being excavated and repaired and are open for the inspection of visitors. Reports on the repair of such ruins have been issued by the Department of the Interior, and more detailed accounts are distributed by the Bureau of American Ethnology, Smithsonian Institution.

ROCKY MOUNTAIN NATIONAL PARK, COLORADO.

ROCKY MOUNTAIN NATIONAL PARK, COLORADO, as created by the act of January 26, 1915, contained 229,062 acreas, and later by the act of February 14, 1917, the eastern boundary of the park was changed so as to make the present aggregate area 254,327. It includes about twenty-nine miles of the Continental Divide and large areas of the Atlantic and Pacific slopes. The park may be reached on the east from Loveland, Longmont, Lyons and Fort Collins, on the Chicago, Burlington and Quincy Railroad, from Fort Collins, on the Colorado and Southern Railroad, and from Ward, on the Denver, Boulder and Western Railroad; and may be reached on the west from Granby, on the Denver and Salt Lake Railroad. The address of the superintendent is Estes Park, Col. The park season is May 1 to November 1, but the reservation is accessible throughout the year, and in winter snow carnivals are regular held. This national park is high up in the air. The summer visitors who live at the base of the great mountains are 8,000 feet, or more than a mile and a half, above the level of the sea; while the mountains themselves rise precipitously nearly a mile, and sometimes more than a mile. Longs Peak, the biggest of them all, rises 14,255 feet above sea level, and most of the other mountains in the Snowy Range, as it is sometimes called, are more than 12,000 feet high; several are nearly as high as Longs Peak. The valleys on both sides of this range and those which penetrate into its recesses are dotted with parklike glades clothed in a profusion of glowing wild flowers and watered with cold streams from the mountain snows and glaciers. Forests of pine and silver-stemmed aspen separate them.

The range lies, roughly speaking, north and south. The gentler slope is on the west. On the east side the descent from the Continental Divide is precipitous in the extreme. Sheer drops of two or three thousand feet into rock-bound gorges carpeted with snow patches and wild flowers are common. Seen from the east side valleys this range rises in daring relief, craggy in outline, snow spattered; awe inspiring. In the northeast corner, separated from the Continental Divide by the Fall River Canyon, lies a tumbled

majestic mountain mass which includes some of the loftiest peaks and the finest glaciers. To the south of Longs Peak the country grows even wilder. The range is a succession of superb peaks. The southern park boundary unfortunately cuts arbitrarily through a climatic massing of noble snow-covered summits. The St. Vrain Glaciers, with their surrounding ramparts, a spectacle of grandeur, lie outside the park and, still farther below, the Continental Divide grows in splendor to Arapaho Peak and its glacier. The west side, gentler in its slopes and less majestic in its mountain massings, is a region of loveliness and wildness diversified by splendid mountains, innumerable streams, and lakes of great charm. Grand Lake, which has railroad connections nearby, is the largest and deepest lake in the park. It is the center of a growing cottage and hotel population, and is destined to become a center of much importance upon the completion of the Fall River Road, which will connect the east and west sides across the Continental Divide.

Often one can see a thunderstorm born on the square granite head of Longs Peak. First, out of the blue sky a slight mist seems to gather. In a few moments, while you watch, it becomes a tiny cloud. This grows with great rapidity. In five minutes, perhaps, the mountain top is hidden. Then, out of nothing, apparently, the cloud swells and sweeps over the sky. Sometimes in 15 minutes after the first tiny fleck of mist appears it is raining in the valley and possibly snowing on the mountain. In half an hour more it has cleared. These rocks are the home of the Rocky Mountain sheep, or bighorn. This animal is much larger than any domestic sheep. It is powerful and agile. When fleeing from enemies, these sheep, even the lambs, drop off precipices apparently hundreds of feet high, breaking the fall at short intervals, upon ledges. They do not land on their curved horns, as many persons declare, but upon their four feet held close together. Landing on some nearby ledge, which breaks their fall, they plunge again downward to another ledge, and so on till they reach good footing in the valley below. They also ascend slopes surprisingly steep.

LASSEN VOLCANIC NATIONAL PARK, CALIFORNIA, created by act of August 9, 1916, has an area of 79,-561,58 acres, and contains Lassen Peak, 10,437 feet elevation, still exhibiting some volcanic activity, the remarkable Cinder Cone, 6,907 feet elevation, erupted a few hundred years ago; many hot springs and mud geysers, seven lakes and many interesting ice caves and lakes of volcanic glass. The park may be reached from Red Bluff, Susanville, or Westwood, on the Southern Pacific Railway, and from Keddie, on the Western Pacific Railway

HAWAII NATIONAL PARK, TERRITORY OF HAWAII created by act of August 1, 1916, and having an area of 75,295 acres, contains three celebrated Hawaiian volcanoes—Kilauea, Mauna Loa, and Haleakala, wholly unique of their kind, the most famous in the world of science, and the most continuously, variously and harmlessly active volcanoes on earth. It also contains a wonderful lake of lava and magnificent tropical forests. No appropriation has yet been made for adminstration of this park.

MOUNT MCKINLEY NATIONAL PARK, TERRITORY OF ALASKA, created by act of February 26, 1917, and comprising an area of 1,408,000 acres, contains the mountain from which it is named, the loftiest summit in America, its top reaching 20,300 feet above sea level. No appropriation has been made for its administration.

HOT SPRINGS RESERVATION, ARKANSAS.

HOT SPRINGS RESERVATION, ARKANSAS (the permanent reservation), has an area of 911.63 acres. Eleven bath houses on the reservation and twelve in the City of Hot Springs, as well as several hotels operated in connection with bath houses, receive hot water from the springs, under lease with the Secretary of the Interior The address of the superintendent is Hot Springs, Ark The hot springs, 46 in number, are situated near the center of Arkansas, 50 miles southwest of Little Rock. In addition to the hot springs there are many cold springs furnishing palatable waters extensively used both in the treatment of disease and as table waters The only physicians allowed to prescribe the waters of the hot springs are those of Arkansas examined by a Federal board appointed by the Sec. of the Interior. While the baths may be taken without the advice of a physician by procuring a permit at any of the bathhouses receiving water from the hot springs on the reservation, this practice is not recommended. Patients who assume to determine the nature of their ailments and to prescribe for themselves often fail to obtain the desired relief. The waters are not beneficial in all diseases and in some are harmful.

Among the ailments the Springs help are gout, rheumatism, malaria, alcoholism, drug addiction, some heart troubles, blood diseases, and many chronic skin diseases. The waters range in temperature from 102° to 147° F., most of them having a temperature of 135° to 145° F. Little Geyser Spring is nearly cold and contains only 170 parts per million of mineral matter besides having slightly higher percentages of silica and sulphate and slightly lower percentages of calcium and bicarbonate than the average. Superior Spring (North) contains only 231 parts per million of mineral matter, but is otherwise normal. Tunnel Spring contains only 259 parts of mineral matter and has a slightly higher percentage of silica and slightly lower percentages of calcium and bicarbonate than the average. Stevens Springs and Mud Spring have somewhat higher percentages of sulphate. Reservoir Spring contains 310 parts of mineral matter and has higher percentages of sulphate, potassium, and sodium, and lower percentages of silica, bicarbonate, and magnesium than the average. These differences in composition are too small to affect the therapeutic value of the waters. The waters of the other springs, ranging in mineral content from 272 to 297 parts per million, correspond closely in their chief constituents to the analysis of Big Iron Springs. The baths create a reaction accompanied by an elevation of body temperature, accelerated heart action with diminished blood pressure in the arteries, and a stimulation of the nutritive changes in the tissue cells, especially those composing the organs of elimination and those concerned in the formation of the blood The mineral constituent is very low, and when the waters are taken internally, combined with the sweating produced by the baths and packs, elimination by all the emunctories is greatly increased.

There are also seven National Military and other parks under the jurisdiction of the Secretary of War. They are as follows: Chickamauga and Chattanooga, Georgia and Tennessee; Shiloh, Tennessee; Gettysburg, Pennsylvania; Vicksburg, Mississippi; Antietam Battlefield, Maryland; Lincoln's birthplace, Kentucky; Guilford Court House, North Carolina

NATIONAL MONUMENTS—THE CASA GRANDE RUIN, ARIZONA.

CASA GRANDE RUIN, ARIZONA, has an area of 480 acres. The nearest railroad station is Casa Grande, on the Southern Pacific Railroad. It may also be reached by private conveyance from Florence, Ariz., on the Phoenix and Eastern Railroad. The address of the custodian is Florence.

The Pima Indians, who dwell in the neighborhood, claim Casa Grande as the habitation of one of their ancient chiefs, and designate it by several names, among which are Vaaki, Old House; Civanavaaki, Old House of the Chief; and Sialim Civanavaaki, Old House of Chief Morning Green. Casa Grande was a ruin when discovered and has not been permanently inhabited since it was first seen by a white man. The identity of its builders has furnished a constant theme for speculation from the discovery of the ruin to the present time. Although it has been ascribed to the Aztec, there is no evidence that the ancient people who inhabited this building were closely related to any tribes of the Mexican plateau, whose culture, as indicated by archeologic remains, was different from that of the Pueblos, or sedentary tribes of New Mexico and Arizona. The age of Casa Grande and contiguous remains is unknown, but there is good reason to believe that settlements on their site were older than most of the present pueblos or cliff dwellings. The Pima claim, however, that it is not so old as ruins of the same general character situated near Phoenix, on Salt River, a short distance from its junction with the Gila.

The walls of Casa Grande are of a fawn color slightly tinged with red. Externally they are rough and very much eroded, but the interior walls are plastered, still showing places that formerly, in the words of

THE NATIONAL PARKS AT A GLANCE—*Continued.*

Father Kino, were as smooth as "Puebla pottery." The walls are constructed of a natural cement, commonly called caliche by the Mexicans, composed of lime, earth, and pebbles; this was made into blocks, which were laid in courses. These blocks are supposed to have been made in position, the materials therefor being rammed into bottomless baskets or wooden frames that were raised as the work progressed until the wall reached the desired height. The blocks are not of uniform size, consequently the horizontal joints of the courses are not always the same distance apart. Although clearly shown in the outside walls, these joints are not visible in the interior walls on account of the plastering. The exterior faces of the walls are not perfectly plumb, the thickness of the walls at the top being much less than at the base. Impressions of human hands appear in places in the plaster of the north and the west rooms. Posts were used to support some of the narrow walls, and stones employed for the same purposes are found in their foundations. Many conflicting statements regarding the former height of Casa Grande are on record, most authors favoring three or four stories. There were undoubtedly four stories counting from the level of the plain to the top of the highest wall, as could be seen from the outside as one approached the structure, but the lowest etory was filled solid with earth, so that inside the building there were really only three tiers of rooms, one above the other in the central part of the ruin and two on each of the four sides The entrance into the lowest room was on a level with the roofs of the surrounding buildings, forming a terrace that surrounded the base of Casa Grande. Entrance to the upper rooms was effected by means of ladders from the outside and by hatchways. The positions of the outside doorways indicate that there were entrances on all four sides, but the middle room had only one doorway, which was situated on the east side.

It is evident to anyone who visits Casa Grande that the historic structure called by this name is only one of many blocks of buildings which formerly existed in the immediate vicinity. In addition to the compounds, or structures inclosed by a common wall, there is a type of thick-walled buildings at Casa Grande from which this wall is absent or at least has not yet been discovered. The best example of this type is the so-called Clan-house 1. Perhaps the most remarkable of the several rooms in Clan-house 1 are the two massive-walled inclosures on the north side, which have been designated "the annex." One of these seems to have been merely an open space surrounded by thick walls formerly higher than at present. In this inclosure were found the remains of a walled-up cyst of natural cement, one side of which was built continuous with the south wall; the other sides of this cyst, visible from the room, were decorated with figures of birds and other animals, painted red In the interior of this cyst, or rude sarcophagus, was found a human skeleton extended at full length with the head directed to the east; near the head was a receptacle for mortuary offerings.

OTHER NATIONAL MONUMENTS.

Under the Act of Congress, approved June 8, 1906, interdepartmental regulations governing the excavation, appropriation, etc., of prehistoric ruins or objects of antiquity have been promulgated by the Secretaries of the Interior, Agriculture, and War. Applications for permits to make excavations on the public lands, Indian reservations, or the national monuments named below should be addressed to the Secretary of the Interior The following have been preserved from entry and set aside as national monuments: Devils Tower, Wyoming; Montezuma Castle, Arizona; Petrified Forest, Arizona; El Morro, New Mexico; Chaco Canyon, New Mexico; Muir Woods, California; Natural Bridges, Utah; Lewis and Clark Cavern, Montana; Tumacacori, Arizona; Navajo, Arizona; Zion, Utah; Shosbone Cavern, Wyoming; Gran Quivira, New Mexico; Sitka, Alaska; Rainbow Bridge, Utah; Pinnacles, California; Colorado, Colorado; Papago Saguaro, Arizona; Capulin Mountain, New Mexico; Dinosaur, Utah; Verendrye, North Dakota; Casa Grande, Arizona; Katmai, Alaska.

Eleven other National monuments within National forests have also been set aside under this act and placed under the jurisdiction of the Secretary of Agriculture, to whom inquiries in regard thereto should be addressed. Two other National monuments (Big Hole Battlefield, in Montana, and Cabrilio, in California) are under the jurisdiction of the Secretary of War

Total cost of the pulpwood at the mills—(1918), $73,167,118; (1917), $60,815,057; (1916), $45,785,682; (1909), $34,477,540.

Of the pulpwood consumed in 1918, the reduction to pulp by the various processes was, in cords—Mechanical, 1,345,435; sulphite, 2,860,172; soda, 748,638; sulphate, 296,549

Number of mills—250 in 1918, 246 in 1917, 235 in 1916, 253 in 1909

Average cost per cord at the mills, of the wood consumed—(1918), $13.93; (1917), $11 10; (1916), $8.76; (1909), $8.62. In 1918 the cost ranged from $18.10 in New Hampshire and $17.89 in New York to $5.43 in West Virginia.

The cut, by States, in cords, in 1918, was—Maine, 1,234,969; New York, 1,003,742; Wisconsin, 860,857; Pennsylvania, 383,699; New Hampshire, 345,272; Michigan, 203,516; North Carolina, 186,168; Minnesota, 182,002; Virginia, 129,637; West Virginia, 109,885; Vermont, 99,687; Massachusetts, 45,754; California Oregon and Washington, 239,774; all other States, 225,832.

Of the pulpwood bought in 1918 by the mills, 2,467,745 cords were rough, and cost $11.78 a cord; 2,402,393 cords were peeled, and cost $15.18 a cord; and 380,656 cords were rossed, and cost $20.07 a cord.

Production of wood pulp in United States, in tons—(1918), 3,313,861; (1917), 3,509,939; (1916), 3,425,001; (1909), 2,495,523.

Imports of pulp wood, by fiscal years, in cords—(1917), 1,016,814; (1918), 1,172,033; (1919), 1,390,334.

Value of pulpwood imports—(1919), $13,708,447; (1918), $11,088,422; (1917), $6,889,123.

Exports of wood pulp long tons—(1918), 20,399; (1917), 34,982. The average export value in 1918 was $85.81 a ton, as against $59.37 in 1916.

PAN-AMERICAN UNION.

THE Pan-American Union is the international organization and office maintained in Washington, D. C., by the twenty-one American republics, as follows: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Hayti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, United States, Uruguay, and Venezuela. It is devoted to the development and advancement of commerce, friendly intercourse, and good understanding among these countries. It is supported by quotas contributed by each country, based upon the population. Its affairs are administered by a Director-General and Assistant Director, elected by and responsible to a Governing Board, which is composed of the Secretary of State of the United States and the diplomatic representatives in Washington of the other American governments. These two executive officers are assisted by a staff of experts, statisticians, commercial specialists, editors, translators, compilers, librarians, clerks and stenographers. The Union publishes a monthly bulletin in English, Spanish, Portuguese and French, which is a record of Pan-American progress. It also publishes numerous special reports and pamphlets on various subjects of practical information. Its *library*, the Columbus Memorial *Library*, contains 40,000 volumes, 22,000 photographs, 150,000 index cards, and a collection of 1,500 maps. The Union is housed in a building erected through the gifts of Andrew Carnegie and the contributions of the American republics.

Director-General—John Barrett; *Assistant Director*—Francisco J. Yanes; *Chief Clerk and Editor*, Franklin Adams; *Chief Statistician*—William C. Wells; *Trade Expert*—W. A. Reid

PROPERTY IN NEWS.

THIS question was decided favorably to the Associated Press in February, 1919, by the Supreme Court of the United States in an action between the Associated Press and the International News Service. Here are extracts from the opinion of the Court, rendered by Justice Pitney:

"In considering the general question of property in news matter it is necessary to recognize its dual character, distinguishing between the substance of the information and the particular form or collocation of words in which the writer has communicated it. No doubt news articles often possess a literary quality, and are the subject of literary property at the common law; nor do we question that such an article, as a literary production, is the subject of copyright by the terms of the act as it now stands. In an early case at the circuit Mr. Justice Thompson held in effect that a newspaper was not within the protection of the copyright acts of 1790 and 1802 (*Clayton* v. *Stone*, 2 Paine 382; 5 Fed. Cas. No 2872). But the present act is broader; it provides that the works for which copyright may be secured shall include 'all the writings of an author,' and specifically mentions 'periodicals, including newspapers' (Act of March 4, 1909, Ch. 320, Secs. 4 and 5; 35 Stat. 1075, 1076). Evidently this admits to copyright a contribution to a newspaper, notwithstanding it also may convey news; and such is the practice of the copyright office, as the newspapers of the day bear witness. See Copyright Office Bulletin No. 15 (1917), pp. 7, 14, 16-17.

"But the news element—the information respecting current events contained in the literary production—is not the creation of the writer, but is a report of matters that ordinarily are *publici juris*, it is the history of the day. It is not to be supposed that the framers of the Constitution, when they empowered Congress 'to promote the progress of science and useful arts, by securing for limited times to authors and inventors the exclusive right to their respective writings and discoveries' (Const., Art. 1., Sec. 8, Par. 8), intended to confer upon one who might happen to be the first to report a historic event the exclusive right for any period to spread the knowledge of it. * * * *

"Not only do the acquisition and transmission of news require elaborate organization and a large expenditure of money, skill, and effort; not only has it an exchange value to the gatherer, dependent chiefly upon its novelty and freshness, the regularity of the service, its reputed reliability and thoroughness, and its adaptability to the public needs; but also, as is evident, the news has an exchange value to one who can misappropriate it. * * *

"The underlying principle is much the same as that which lies at the base of the equitable theory of consideration in the law of trusts—that he who has fairly paid the price should have the beneficial use of the property. Pom. Eq. Jur. Sec. 981. It is no answer to say that complainant spends its money for that which is too fugitive or evanescent to be the subject of property. That might, and for the purposes of the discussion we are assuming that it would, furnish an answer in a common-law controversy. But in a court of equity, where the question is one of unfair competition, if that which complainant has acquired fairly at substantial cost may be sold fairly at substantial profit, a competitor who is misappropriating it for the purpose of disposing of it to his own profit and to the disadvantage of complainant cannot be heard to say that it is too fugitive or evanescent to be regarded as property It has all the attributes of property necessary for determining that a misappropriation of it by a competitor is unfair competition because contrary to good conscience.

"The contention that the news is abandoned to the public for all purposes when published in the first newspaper is untenable. Abandonment is a question of intent, and the entire organization of the Associated Press negatives such a purpose. The cost of the service would be prohibitive if the reward were to be so limited. No single newspaper, no small group of newspapers, could sustain the expenditure. Indeed, it is one of the most obvious results of defendant's theory that, by permitting indiscriminate publication by anybody and everybody for purposes of profit in competition with the news gatherer, it would render publication profitless, or so little profitable as in effect to cut off the service by rendering the cost prohibitive in comparison with the return. The practical needs and requirements of the business are reflected in complainant's by-laws, which have been referred to. Their effect is that publication by each member must be deemed not by any means an abandonment of the news to the world for any and all purposes, but a publication for limited purposes; for the benefit of the readers of the bulletin or the newspaper as such; not for the purpose of making merchandise of it as news, with the result of depriving complainant's other members of their reasonable opportunity to obtain just returns for their expenditures."

LAWS ON FUR-BEARING ANIMALS.

(From a Summary by the United States Department of Agriculture)

Alabama—There is a close season (March 1 to October 31), on beaver, otter, bear, fox, raccoon, opossum, mink, and muskrat

Alaska—There is no close season for black bear, wolf, wolverine, squirrel, or rabbit.

Arizona—Beavers are protected until January 1, 1923.

Arkansas—Open season on bears is November 10 to January 15

Connecticut—*Open Seasons*: Otter, November 1 to March 31; raccoon, October 16 to January 31, but landowner may kill the animals at any time to protect property; skunk, November 1 to January 31; may be taken at any time to protect property No close season on other fur animals.

Trapping—Unlawful to trap with scented baits; to trap on lands of another without permission; and to take animals with a snare or similar device. Traps must be visited at least once in 48 hours, and must not be set in path, wood road, or specially prepared furrow. Hunting license is required for trapping (except of a resident on own land); fee, resident, $1; non-resident, $10; alien, $15; with an additional 25 cents recording fee for each license Persons under sixteen years of age, while denied a hunting license, may obtain one for taking fur animals only.

Propagation—No restrictions on possession or sale of fur animals kept in captivity.

Bounties—Towns are permitted to pay bounty on wild cat or fox (not over $5); on weasel, woodchuck, wild Belgian hare, or wild German rabbit (not over $1).

Delaware—Otter open season is December 1 to March 25; open season on muskrat is December 1 to March 10.

Idaho—For all fur animals (except bear), there is an open season, October 1 to March 31.

Illinois—Open season on all is November 1 to March 15.

Maine: *Open Seasons*—All fur animals (except beaver, muskrat, raccoon, bear, bobcat, Canada lynx (loup cervier), and weasel, October 15 to February 29; muskrat, October 15 to May 14; raccoon, August 15 to February 29. No open season on beaver except when declared by the Commissioner of Inland Fisheries and Game. No close season on bear, bobcat, Canada lynx (loup cervier), or weasel. Unlawful to transport or dispose of a beaver skin without official seal of Commissioner attached.

Trapping—Special beaver trapping license, good only in territory opened to beaver trapping by Commissioner, fee $25. Trappers in unorganized townships of the State are required to take out an annual license except for bear and bobcat (fee $10), and on or before December 15 of each year must make such report as the Commissioner of Inland Fisheries and Game may require. Any person who sets a trap in an organized county or incorporated place must obtain written consent of the owner or occupant of land on which the trap is set, and must visit such trap at least once in every twenty-four hours and remove animals caught. All traps must be plainly marked with owner's name and address, either by having the same stamped on the trap or on a metal tag firmly attached to it. A bear trap must be inclosed in a "hut."

Dealers in skins of fur animals must each year take out a license (fee, State, $25; county, $2), to engage in this trade and must keep a record of transactions and forward same to the Commissioner of Inland Fisheries and Game on or before December 20. Putting out poison for wolves, foxes, dogs, or other animals is forbidden under penalty of fine or imprisonment.

Traps may not be set within twenty-five feet of a muskrat house. (Special laws in Southern Oxford and certain territory in Washington County.) On complaint by landowners of damage done by beavers, the Commissioner of Inland Fisheries and Game has authority to declare an open season for beavers on lands where damage occurs. Any person may lawfully kill any wild animal, except beaver, found destroying his property. Unlawful to dig out a fox den at any time.

Propagation—Permit required to raise fur animals (fee, $2). Protected species may be taken under special permits by licensed trappers for breeding purposes. No animals may be imported into the State without permit.

Bounties—Bobcat and Canada lynx (loup cervier), $10 each; paid by State Claim for bounty must be made within five days after killing or return from trip in which killing was done. Bounty on bears, $5 each; paid by State, claim to be made within ten days after killing

Massachusetts—*Open Seasons:* Raccoon, October 1 to December 31. No close season for other fur animals.

Trapping—Poison may not be used to kill animals, except rats, woodchucks, or other pests on one's own premises. The use of steel traps with spread of over six inches and "choke" traps with greater opening than six inches is unlawful, as is also the use of snares or, except with consent of landowner, of scented baits. Traps may not be set on inclosed lands of another without written consent Traps must be visited at least once in twenty-four hours. Animals "may be taken from traps on the Lord's day," but traps may not be set or reset. Introduction of foxes or raccoons in Dukes County is prohibited.

Propagation—No legislation.

Bounties—Seals, $2; wildcat or lynx, $5; paid by town, but refunded by county.

Michigan—Beaver open season is November 1 to April 15; open season on coons is October 15 to December 31. The open season on muskrat is extended.

Minnesota—There is no close season on black bear. Open season on mink and muskrat is December 1 to April 1.

Missouri—Open season on all fur animals is November 1 to January 31.

Montana—Marten close season is May 1 to September 14

Nebraska—Muskrat, opossum, and otter open season is November 20 to March 20; coon and skunk September 20 to March 20; mink, December 1 to January 31.

New Hampshire—Muskrat open season on Connecticut River is November 1 to March 31.

New Jersey—*Open Seasons:* Skunk, mink, muskrat and otter, November 15 to April 1, raccoon, October 1 to December 15. Beaver, unlawful to trap, take, kill, or have in possession at any time. The Board of Fish and Game Commissioners may grant permits to hunt foxes with hound and firearms from the last day of the open season for quail (December 15) to May 31.

Trapping—Skunks, minks, muskrats, and otters may not be taken in close season, except that muskrats may be destroyed by owner of canal or dam which they are destroying. Muskrats, skunk, mink, otter, may be taken by trap only, except in Salem County, above Mill Creek, where they may be taken in open season by firearms and light. It is unlawful to disturb the lodge or nesting chamber of muskrats, to molest traps set by another, or to appropriate or take animals caught in such traps.

Propagation—No restrictions except those imposed by close seasons, during which wild animals may not be taken for breeding purposes. Breeder's license, fee $5

Bounties—Fox, $3; paid by counties.

New York—*Open Seasons:* Mink and sable, November 10 to March 15; raccoon may be taken otherwise than by trapping in the Catskill Park, October 1 to March 15; raccoon, elsewhere in State, November 10 to February 10; skunk, November 10 to February 10; muskrat, November 10 to April 20 No open season for beaver.

Trapping—License required for hunting or trapping; fee, resident, $1.10; non-resident, $10 Muskrat houses may not be molested, injured, or disturbed, nor the animals shot at any time. Skunks may not be taken by the aid of dogs or by digging out or driving them from dens or holes by smoking or the use of chemicals; if injuring property, they may be taken at any time and in any manner, but the skins of animals so taken shall not be possessed, sold, bought, or trafficked in. Unlawful to set traps during close season

Propagation—All protected fur animals may be kept alive in captivity for propagation and sale, provided a license be obtained from the conservation commission (fee, $5). No fur-bearing animals may be kept which are taken wild during close season for such animals (unless taken under license); nor may they be disposed of during close season. The con-

servation commission is authorized to issue license to capture animals for propagation; fee for permit, $1.

Bounties—Panther, $20, paid by State; none paid since May, 1884.

Ohio—Muskrat open season is December 1 to March 1; on coon, mink, skunk, and opossum, November 1 to February 1; on foxes, October 2 to January 1.

Pennsylvania—*Open Seasons:* Bear, October 15 to December 15; raccoon, September 1 to December 31. No open season for beaver. Foxes may not be trapped, shot, snared, or poisoned in Delaware County.

Trapping—Non-resident trapper requires license (fee, $10). Unlawful to trap bears, and only one may be killed in a season or three to a camp or body of men. No steel traps larger than No. 3 size may be used for trapping wildcats or other fur animals. Resident requires no license for trapping, but hunting licenses required for killing raccoons or bears, which are regarded as "game" animals (fee, $1).

Propagation—No restrictions on raising fur animals, except that possession and breeding of ferrets is unlawful except under license from the State Board of Game Commissioners; fee for license to breed and sell ferrets, $25; to possess a ferret without breeding, $1.

Bounties—Wildcat, $8; fox, $2; mink, $1; weasel, $2; paid from special fund created by setting aside one-half the receipts by the Board of Game Commissioners from gun licenses, fines, etc.

Rhode Island—Raccoon open season is November 1 to February 1.

South Carolina—Fox open season is October 1 to February 15; on other fur animals, October 1 to March 15.

South Dakota—Otter and beaver are protected indefinitely. Mink, muskrat, and skunk open season is December 1 to March 1.

Utah—Marten are protected indefinitely.

Vermont—On black bear, May 1 to November 1, there is a $10 bounty.

Washington—A breeder's license is required to raise fur animals in captivity.

West Virginia—Open season on red fox, coon, mink, muskrat, is November 1 to February 1. Bounty on wolf is $62.50; on bear and mountain lion, $30; on coyote, $4; on lynx or wild cat, $3.

Wyoming—Beaver are protected until 1925.

FEDERAL LAWS.

That part of the Lacey Act codified as Section 242 of the Criminal Code (35 Stat., 1137) makes it unlawful to ship or transport "from any State, Territory, or District of the United States to any other State, Territory or District thereof" the bodies or parts of bodies of any wild animal or bird killed or shipped in violation of law of the State, Territory, or District in which the same were killed or from which they were shipped. This makes it unlawful to ship out of any State skins or pelts illegally taken or shipped. Section 243 of the Criminal Code requires packages containing furs, when shipped in interstate commerce, to be plainly marked, so that the name and address of the shipper and the nature of the contents may be readily ascertained by inspection of the outside of the package.

The Tariff Act of 1913 places a duty of 10 per cent. ad valorem on live animals shipped into the United States. Paragraph 397 of this act places on the free list animals imported for breeding purposes by a citizen of the United States: "*Provided*, That no such animal shall be admitted free unless pure-bred of a recognized breed and duly registered in a book of record recognized by the Secretary of Agriculture for that breed." This act has made it impossible thus far to admit free of duty any foxes or other Canadian fur animals for propagation Raw furs not advanced in manufacture are admitted free of duty.

CANADA

New Brunswick—*Open Seasons*: Mink, otter, and fisher, November 1 to March 31; fox, October 1 to March 1; muskrat, noon of March 25 to noon of May 15. Beaver and sable, close season to July 1, 1920. The Minister of Lands and Mines, when satisfied that a number of beavers may be taken from any stream without injury to the supply, may issue a special license accompanied by necessary tags for taking them; fee, $4 for each animal.

Trapping—Non-residents require a license (fee, $25) for trapping. A license is also required to deal in, buy, sell, cure, or tan the skin of fur-bearing animals (fees, non-resident, $25; resident, $2). The digging out of foxes from their homes or earth burrows is prohibited at all times. Unlawful to possess green skins or carcasses of protected fur animals in close season.

Propagation—Permits to capture wild fur-bearing animals for propagation within the Province may be obtained from the Minister of Lands and Mines, who fixes the fee for such permit.

Bounties—Wildcat (killed within the Province), $3; porcupine, 50 cents; hawks and owls, 25 cents each; paid by the Minister of Lands and Mines.

Nova Scotia—*Open Seasons*: No open season for beaver or marten. Mink, otter, fox, raccoon, muskrat, and all other fur-bearing animals (except bear, wolf, and wildcat, which are not protected), November 1 to January 31.

Trapping—Non-resident requires a license (fee, $30) to take fur-bearing animals, which are included in the term "game." Unlawful to take any protected fur animal (unless under a permit) from a burrow or den by smoking or digging; to take fur animal by use of poison; to damage or molest a beaver dam or house, or a muskrat house, or set snare or trap within 25 feet of the latter; or to have in possession the green hide or pelt of a fur animal taken out of season.

Propagation—Permits to take wild animals may be obtained from the Board of Game Commissioners under such restrictions as they may require. Unlawful to keep fur-bearing animals in captivity for breeding purposes without a permit from the Chief Game Commissioner; fee, $2 for each kind of animal kept, payable annually. Reports are required annually on September 30. Inclosures for fur animals are protected from trespass.

Bounties—None paid.

Newfoundland—*Open Seasons*: Otter, marten, and lynx, October 1 to March 31; fox, October 16 to March 14; muskrat, October 1 to April 30 No open season for beaver until October 1, 1920.

Trapping—Non-resident trappers require annual license; fee, $501. Fur buyers and shippers also require annual license (fee, 50 cents), and must report operations under same before December 31 of each year. Trapping on Grand Lake Caribou Preserve is unlawful at all times.

Propagation—No restrictions, except as to foxes. A fox farm must be licensed; the owner must at stated times make reports to the Game and Inland Fisheries Board, and the premises must be at all times open to inspection by officers of the board. Possession of fox cub or fox taken in close season is prohibited. Unlawful to export a fox not bred on a fox farm, or, without permit from the Colonial Board, to export a fox bred in captivity.

Bounties—None paid.

Ontario—*Open Seasons*: Mink, fisher, and marten, November 1 to April 30; muskrat, north of French and Mattawa Rivers, April 1 to May 20; south of said rivers, March 1 to April 20. Beavers and otters may be taken by residents of the Province only, under license and special restrictions, from November 1 to March 31.

Trapping—License to trap required except to take wolf and fox, or for farmers and their sons to trap on own land; fee, resident, $5; non-resident, $50. License (fee for resident and British subject, $10; for alien, $25) is required of all fur dealers or traders. Dealers may obtain a permit to hold furs during close season. Possession of unprime skins is illegal. Muskrats may not be shot or speared at any time. Muskrat houses are protected at all times except when the animals are injuring property. Beavers, when damaging property, may be destroyed by game overseer under special authorization from the Department of Game and Fisheries.

Propagation—A permit is required of breeders of game or fur animals. Licensed fur breeders may sell live animals or skins during open season upon payment of royalties. The Minister may grant permits to take fur animals during the close season for propagating and scientific purposes

Bounties—Gray timber wolf, $20; other wolf, $5; paid by county, but Provincial treasurer refunds 40 per cent. to county Provincial treasurer pays entire bounty in unorganized counties.

LAWS ON FUR-BEARING ANIMALS—*Continued.*

OFFICIALS FROM WHOM LAWS ON FUR-BEARING ANIMALS MAY BE HAD.

Alabama—State Game and Fish Commissioner, Montgomery.
Alaska—The Governor, Juneau; Secretary of Commerce, Washington, D. C.
Arizona—State Game Warden, Phoenix.
Arkansas—Secretary, Game and Fish Commission, Little Rock.
California—Executive Officer, Fish and Game Commission, New Call Building, San Francisco.
Colorado—State Game and Fish Commissioner, Denver.
Connecticut—Secretary, Commission of Fisheries and Game, Hartford.
Delaware—Chief Game Warden, Dover.
District of Columbia—Superintendent Metropolitan Police, Washington.
Florida—Secretary of State, Tallahassee.
Georgia—Game and Fish Commissioner, Atlanta
Idaho—Fish and Game Warden, Boisé.
Illinois—Chief Game and Fish Warden, Springfield
Indiana—Director, Department of Conservation, Indianapolis.
Iowa—State Fish and Game Warden, Lausing.
Kansas—State Fish and Game Warden, Pratt.
Kentucky—Executive Agent, Game and Fish Commission, Frankfort.
Louisiana—Commissioner of Conservation, Court Building, New Orleans.
Maine—Commissioner of Inland Fisheries and Game, Augusta
Maryland—State Game Warden, 512 Munsey Building, Baltimore.
Massachusetts—Chairman, Commissioners of Fisheries and Game, State House, Boston.
Michigan—Commissioner Game, Fish, and Forest-Fire Department, Lansing
Minnesota—Game and Fish Commissioner, St Paul
Mississippi—Secretary of State, Jackson.
Missouri—Game and Fish Commissioner, Jefferson City.
Montana—State Game Warden, Helena.
Nebraska—Chief Deputy, Game and Fish Commission, Lincoln.
Nevada—State Fish and Game Warden, Carson City.
New Hampshire—Fish and Game Commissioner, Sunapee.
New Jersey—Secretary, Board of Fish and Game Commissioners, Trenton.
New Mexico—Game and Fish Warden, Santa Fé.
New York—Secretary of Conservation Commission, Albany.
North Carolina—Secretary, Audubon Society of North Carolina, Raleigh.
North Dakota—Secretary, Game and Fish Board, Steele.
Ohio—Chief Game Warden, Board of Agriculture, Columbus.
Oklahoma—State Game Warden, Oklahoma City.
Oregon—State Game Warden, Portland.
Pennsylvania—Secretary, Board of Game Commissioners, Harrisburg.
Rhode Island—Chairman, Commissioners of Birds, Rumford.
South Carolina—Chief Game Warden, Columbia.
South Dakota—State Game Warden, Pierre
Tennessee—State Game and Fish Warden, Nashville.
Texas—Game, Fish, and Oyster Commissioner, Austin.
Utah—Fish and Game Commissioner, Salt Lake City.
Vermont—Fish and Game Commissioner, Cambridge
Virginia—Commissioner of Game and Inland Fisheries, Richmond.
Washington—Chief Game Warden and State Fish Commissioner, Seattle; Chief Deputy Game Warden, Spokane
West Virginia—Forest, Game, and Fish Warden, Philippi.
Wisconsin—Secretary, Conservation Commission, Madison.
Wyoming—State Game Warden, Lander.

CANADA.

Alberta—Chief Game Guardian, Edmonton.
British Columbia—Secretary, Game Conservation Board, Victoria.
Manitoba—Chief Game Guardian, Winnipeg.
New Brunswick—Chief Game and Fire Warden, Richibucto.
Northwest Territories—Commissioner of Parks, Ottawa.
Nova Scotia—Chief Game Commissioner, Halifax.
Ontario—Superintendent Game and Fisheries, Toronto.
Prince Edward Island—Game Inspector, Charlottetown.
Quebec—General Inspector of Fisheries and Game, Quebec.
Saskatchewan—Chief Game Guardian, Regina.
Yukon—Gold Commissioner, Dawson.
Colony of Newfoundland—Secretary, Department of Marine and Fisheries, St. John's.

MUNICIPAL AND CO-OPERATIVE HOUSING LAW IN WISCONSIN.

(From a Bulletin of the United States Department of Labor.)

In July the Wisconsin Legislature added a section to its general corporation law which made it possible for municipalities to engage in housing or for interested individuals to organize themselves to form co-operative housing companies. Under the law in question such a corporation is given power to acquire land and to prepare it for residential use upon approval of any public land commission or city planning commission of any locality where the property of such corporation is located. It is also provided that if the land is located within any city or within a radius of three miles from the boundary of the city approval must be had from the health department for the development of the land. No single dwelling may be erected by such company the cost of which exceeds $5,000. Sufficient ground space must be provided to furnish sufficient air and light.

The test clause of the act which makes co-operative housing possible is that clause which directs that no land shall be sold by the corporation except in case of winding up the affairs of the corporation or in closing mortgages or liens, or for disposing of land not needed by the corporation. Two other provisions indicate further the truly co-operative character of the corporation; namely, that no lease may be made for land or property of the corporation except to a stockholder of it and for the use of such stockholder. In this instance exception is made in the case of American soldiers, sailors, or marines in the war with Germany and the Entente, who need not be stockholders of the corporation. No tenant may hold stock of the corporation beyond the value of the premises occupied by him. All stock must be issued in consideration of money, labor, or property estimated at its true money value. No dividends may be declared until a fund equal to 2 per cent. of the authorized capital of the corporation has been created, and no dividend exceeding 5 per cent. of the par value of the stock may be paid to any holder. The preferred stock of the corporation must be retired as soon as possible. For this purpose 10 per cent. of the annual profits is set aside each year.

By providing that the common council of any city and the board of supervisors of any county may subscribe for preferred stock of the corporation in question, opportunity is offered for those governmental units to engage in the housing of wage earners. The directors of the co-operative housing corporation are not to receive any compensation until the surplus fund of 2 per cent. of the capital has been set aside and until dividends on preferred stock have been paid. At no time is the compensation of the board of directors to exceed $500 per annum. No fee for filing articles of incorporation by a housing corporation formed under the provisions of this law are required. This puts any housing corporation organized under the act on the same standing in that respect as educational, benevolent, and charitable corporations. The co-operative housing law outlined above is probably the first specific co-operative housing law passed by any State in the Union.

THE UNITED STATES REPATRIATION LAW.

THE joint resolution of Congress providing for repatriation of aliens lawfully resident in the United States, but who were drafted or enlisted in the military forces of this country or its co-belligerents, was approved on October 19, 1918.

(Public Resolution No. 44—Sixty-fifth Congress—H. J. Res. 331.) Joint resolution authorizing the readmission to the United States of certain aliens who have been conscripted or have volunteered for service with the military forces of the United States or co-belligerent forces.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That, notwithstanding the provisions of Section 3 of the Immigration Act of February 5, 1917, excluding from the United States aliens who are likely to become a public charge, or who are physically defective, or who are contract laborers, or who have come in consequence of advertisements for labor printed, published, or distributed in a foreign country, or who are assisted by others to come, or whose ticket or passage is paid for with the money of another or by any corporation, association, society, municipality, or foreign government, or who are stowawaays, or who are illiterate, aliens lawfully resident in the United States when heretofore or hereafter enlisted or conscripted for the military or naval service of the United States, or of any one of the nations co-belligerent of the United States in the present war; and aliens lawfully resident in the United States who have enlisted for service with Czecho-Slovak, Polish, or other independent forces attached to the United States Army or to the army or navy of any one of the co-belligerents of the United States in the present war, who may during or within one year after the termination of the war apply for readmission to this country, after being honorably discharged or granted furlough abroad by the proper military or naval authorities, or after being rejected on final examination in connection with their enlistment or conscription, shall, within two years after the termination of the war, be readmitted; and that any alien of either of the foregoing descriptions who would otherwise be excluded under said section of the immigration act on the ground that he is idiotic, imbecile, feeble-minded, epileptic, insane, or has had one or more attacks of insanity, or on the ground that he is afflicted with constitutional psychopathic inferiority, tuberculosis, a loathsome or dangerous contagious disease, or mental defect, shall be readmitted if it is proved that the disability was acquired while the alien was serving in the military or naval forces of the United States or of any one of the nations co-belligerent of the United States in the present war or in an independent force of the kind hereinbefore described, if such alien returns to a port of the United States within two years after the termination of the war; and that the head tax provided in the immigration act of February 5, 1917, shall not be collected from aliens readmitted into the United States under the provisions of this resolution.

INTERSTATE COMMERCE COMMISSION.

(For Roster of This Body see Index.)

THE Federal act to regulate commerce, passed by Congress, and approved February 4, 1887, established a commission of five, since increased to nine, members. The original act, with its amendments, applies to common carriers (except water), including railroads, sleeping car companies, petroleum pipe lines, and telephone, telegraph, cable and express companies. The act requires all rates to be reasonable and just; prohibits preferential rates, or undue or unreasonable preferences, or advantages in rates or facilities; forbids the charging of a higher rate for a shorter than for a longer haul over the same line in the same direction when the shorter is included within the longer haul. The commission has inquisitorial powers; it may prescribe rates, rules and regulations, including methods of keeping the accounts, records and memoranda required of the carriers subject to the law. The commission defined the zones under the Daylight Saving Act.

The act known as the Overman or Federal Control Act, approved March 21, 1918, provides that the commission shall ascertain and certify to the President the average annual railway operating income to be used by the President in making agreements for compensation for the use of the transportation systems of the country; that, in case the amount of compensation is not adjusted, claims may be submitted to boards of referees appointed by the commission, and the finding of such boards shall be a maximum of compensation which may be paid to the carriers; that the President, in executing the Federal Control Act, may avail himself of the advice, assistance, and co-operation of the commission, its members and its employés; that the President may initiate rates, fares, charges, classifications, regulations, and practices by filing same with the commission; that the commission shall, upon complaint, enter upon a hearing and determine the justness and reasonableness of any rate, fare, charge, or regulation, initiated by the President, taking into consideration the fact that the railroads are operated under unified control, and such recommendations as the President may make as to the necessity of increasing railway revenues.

A safety appliance act was passed (approved March 2, 1893), amended in 1903, and supplemented in 1910, providing for automatic couplers, drawbars of a standard height, grab-irons or handholds on sides and ends of freight cars, sill steps, handbrakes, ladders, running boards, roof holds, and other safety appliances. The act of February 17, 1911, as amended, compels railroads to equip their locomotives with safe and suitable boilers and appurtenances. There are also regulations as to limiting the consecutive hours on duty in twenty-four, the carrying of explosives, etc. By act approved March 1, 1913, the commission is directed to investigate, ascertain and report the value of all property of common carriers subject to the act. It is the duty of the Interstate Commerce Commission to report to the proper District-Attorneys infractions or violations of the provisions of these various acts, and to investigate accidents.

UNITED STATES BOARD OF MEDIATION AND CONCILIATION.

(Created by act of Congress, Approved July 15, 1913.)

Commissioner—William L. Chambers. *Assistant Commissioner*—G. W. W. Hanger. *Assistant to the Commissioner*—Wm. H. Smith. *Members of Board*—Chairman, Martin A. Knapp, William L. Chambers, and G. W. W. Hanger.

The purpose for which the board was established is to settle by mediation, conciliation and arbitration all controversies concerning wages, hours of labor, or conditions of employment that may arise between any common carrier or carriers engaged in the transportation of passengers or property wholly by railroad, or partly by railroad and partly by water, for a continuous carriage or shipment from one State or Territory of the United States or the District of Columbia to any other State or Territory of the United States or the District of Columbia, or from any place in the United States to an adjacent foreign country, or from any place in the United States through a foreign country to any other place in the United States, and their employés, which includes all persons actually engaged in any capacity in train operation or train service of any description, whether the cars upon or in which they are employed are owned or held and operated by the carrier under lease or other contract.

The Commissioner is appointed by the President for a term of seven years, salary $7,500, and is the executive officer of the board, which consists of the Commissioner and not more than two other officials of the Government, who are designated by the President. The Assistant Commissioner is appointed by the President, salary $5,000 per annum.

Since the organization of the board and up to June 30, 1919, 123 controversies between railroads and their employés engaged in train operation have reached the stage where an appeal for the services of the Board of Mediation and Conciliation was made. Of these cases an adjustment of the controversy was secured by the board through mediation alone in 78 cases; by mediation and arbitration in 4 cases; by arbitration in 18 cases; by the parties after mediation had been invoked in 6 cases. 1 case was settled by Federal legislation, and 1 case is pending. In 1 case mediation was declined by a railroad. Mediation was invoked in 14 cases and later withdrawn for adjustment through the U. S. R. R. Administration.

CIVIL EMPLOYEES ENTITLED TO PAY WHEN INJURED.

An act passed by Congress and approved September 7, 1916, provides for the compensation of civil employees of the United States when they sustain injuries while in the performance of duty. If the injuries need medical or surgical attention the employees are entitled to treatment at United States hospitals and by United States medical officers; or, if these are not available, treatment may be obtained of physicians or hospitals designated for the purpose. If more than three days are lost from work because of the injury, the employee is entitled to compensation for the time lost in excess of three days. The amount of the compensation is two-thirds of his salary, but in no case more than $66.67 a month. Special provisions are made for compensation in case of death.

To carry out the provisions of the act a commission was provided for by the law and appointed by the President. This commission is known as the United States Employees' Compensation Commission, and has offices in the Union Trust Building in Washington. The members of the commission are Mrs. Frances C. Axtell, Chas. H. Verrill, and John J. Keegan. The secretary of the commission is S. R. Colbert, Jr. At arsenals and navy yards and similar establishments of the Army and Navy, where large numbers of civilians are employed, medical officers of the Army and Navy have been detailed to treat injuries of the employees. Throughout the country treatment may be obtained from the medical officers and hospitals of the United States Public Health Service. In all the more important cities where there are no hospitals or medical officers of the Public Health Service arrangements have been made with local hospitals or physicians which have been designated for the care of beneficiaries of the compensation act. Arrangements with hospitals and physicians will be made in all localities where there are sufficient numbers of Government employees to warrant such action. When an employee is injured and desires medical or surgical advice or treatment he should be given by his official superior a letter addressed to the proper hospital or medical officer requesting treatment and reciting the facts that the bearer (giving the name) is an employee of the United States, employed at (giving the name of the office or establishment), that he was injured in the performance of duty on (giving the date), and that treatment is requested for the results of said injury pursuant to the provisions of section 9 of the Federal Compensation Act.

Depth bomb	1903	W. T. Unge	Swedish.

UNITED STATES PATENT OFFICE PROCEDURE.

(Revised by the Patent Office at Washington.)

Patents are issued in the name of the United States, and under the seal of the Patent Office, to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter or any new and useful improvement thereof, or any new, original and ornamental design for an article of manufacture, not known or used by others in this country before his invention or discovery thereof, and not patented or described in any printed publication in this or any foreign country, before his invention or discovery thereof or more than two years prior to his application, and not in public use or on sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned; upon payment of the fees required by law and other due proceedings had.

Every patent contains a grant to the patentee, his heirs or assigns, for the term of seventeen years, except in the case of design patents, of the exclusive right to make, use, and vend the invention or discovery throughout the United States and the Territories, referring to the specifications for the particulars thereof.

If it appear that the inventor, at the time of making his application, believed himself to be the first inventor or discoverer, a patent will not be refused on account of the invention or discovery, or any part thereof, having been known or used in any foreign country before his invention or discovery thereof, if it had not been before patented or described in any printed publication.

Joint inventors are entitled to a joint patent; neither can claim one separately. Independent inventors of distinct and independent improvements in the same machine cannot obtain a joint patent for their separate inventions; nor does the fact that one furnishes the capital and another makes the invention entitle them to make application as joint inventors; but in such case they may become joint patentees by means of a deed of assignment.

No person otherwise entitled thereto will be debarred from receiving a patent for his invention or discovery, by reason of its having been first patented or caused to be patented by the inventor or his legal representatives or assigns in a foreign country, unless the application for said foreign patent was filed more than twelve months prior to the filing of the application in this country, and four months in cases of designs, in which case no patent shall be granted in this country.

If an inventor wishes to file an application for patent, a copy of the Rules of Practice, containing forms and instructions, will be sent upon request. It is advisable, however, in every case, that the services of a competent registered patent attorney be secured, as the value of patents depends largely upon the skilful preparation of the specification and claims. The Patent Office cannot recommend any particular attorney or firm, but advises applicants to avoid doing business with those who advertise the possession of unusual facilities for obtaining patents.

Applications for patents must be made in writing to the Commissioner of Patents. The applicant must file in the Patent Office a written description of the invention or discovery, and of the manner and process of making, constructing, compounding, and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to which it appertains, or with which it is most nearly connected, to make, construct, compound, and use the same; and in case of a machine, he must explain the principle thereof, and the best mode in which he has contemplated applying that principle, so as to distinguish it from other

PATENT OFFICE PROCEDURE—*Continued.*

inventions, and particularly point out and distinctly claim the part, improvement, or combination which he claims as his invention or discovery. The specification and claim must be signed by the inventor.

When the nature of the invention admits of drawings, the applicant must furnish a drawing of the required size, signed by the inventor or his attorney in fact. The applicant, if required by the Patent Office, shall furnish a model of convenient size to exhibit advantageously the several parts of his invention or discovery, but a model should not be sent unless first called for by the Patent Office.

The applicant shall make oath that he verily believes himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition, or improvement for which he solicits a patent; that he does not know and does not believe that the same was ever before known or used, and shall state of what country he is a citizen and where he resides, and whether he is the sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more that twelve months prior to his application in this country, or four months in cases of designs. If any application for patent has been filed in any foreign country by the applicant in this country or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned; that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States nor described in any printed publication or patent in this or any foreign country for more than two years prior to his application in this country. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any Minister, Chargé d'Affaires, Consul, or commercial agent holding commission under the Government of the United States, or before any notary public, Judge or Magistrate having an official seal and authorized to administer oaths in that country whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, except that no acknowledgment may be taken by any attorney appearing in the case.

On the filing of such application and the payment of the fees required by law, if, on examination, it appears that the applicant is justly entitled to a patent under the law, and that the invention is sufficiently useful and important, the Commissioner will issue a patent therefor.

Every patent or any interest therein shall be assignable in law by an instrument in writing; and the patentee or his assigns or legal representatives may, in like manner, grant and convey an exclusive right under his patent to the whole or any specified part of the United States.

A reissue is granted to the original patentee, his legal representatives, or the assignees of the entire interest when, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his invention or discovery more that he had a right to claim as new, the original patent is inoperative or invalid, provided the error has arisen from inadvertence, accident, or mistake, and without any fraudulent or deceptive intention. Reissue applications must be made and the specifications sworn to by the inventors, if they be living.

Fees must be paid in advance, and are as follows: On filing each original application for a patent, $15. On issuing each original patent, $20. In design cases: For three years and six months, $10; for seven years, $15; for fourteen years, $30. On every application for the reissue of a patent, $30. On filing each disclaimer, $10. For certified copies of patents and other papers in manuscript, ten cents per hundred words and twenty-five cents for the certificate; for certified copies of printed patents, eighty cents. For uncertified printed copies of specifications and drawings of patents, five cents each. For recording every assignment, agreement, power of attorney, or other paper, of three hundred words or under, $1; or over three hundred and under one thousand words, $2; for each additional thousand words, or fraction thereof, $1. For copies of drawings, the reasonable cost of making them. The Patent Office is prepared to furnish positive photographic copies of the drawings of pending, patented or abandoned cases, in sizes and at rates as follows: Large size, 10x15 inches, twenty-five cents; medium size, 8x12½ inches, fifteen cents. Negative photographic copies of specifications and drawings of foreign patents, or of any page or part of page of any printed publication in the possession of the office, will be furnished on paper 7x11 inches for fifteen cents per sheet. Stamps cannot be accepted by the Patent Office in payment of fees. Stamps and stamped envelopes should not be sent to the office for replies to letters, as stamps are not required on mail matter emanating from the Patent Office.

The most important changes in Patent Office practice put in effect in the past year are as follows:

In Rule 93. "An interference is a proceeding instituted for the purpose of determining the question of priority of invention between two or more parties claiming substantially the same patentable invention. In order to ascertain whether any question of priority arises the Commissioner may call upon any junior applicant to state in writing the date when he conceived the invention under consideration. All statements filed in compliance with this rule will be returned to the parties filing them. In case the applicant makes no reply within the time specified, not less than ten days, the Commissioner will proceed upon the assumption that the said date is the date of the oath attached to the application. The fact that one of the parties has already obtained a patent will not prevent an interference, for, although the Commissioner has no power to cancel a patent, he may grant another patent for the same invention to a person who proves to be the prior inventor."

In Rule 77. "If an applicant neglect to prosecute his application for one year after the date when the last official notice of any action by the office was mailed to him, the application will be held to be abandoned, as set forth in Rule 171.

REGISTRATION OF TRADE-MARKS IN THE UNITED STATES.

THE following are extracts from the new "Act to authorize the registration of trade-marks used in commerce with foreign nations, or among the several States or Indian tribes, and to protect the same," approved February 20, 1905, and later amendatory acts.

"The owner of a trade-mark used in commerce with foreign nations, or among the several States, or with Indian tribes, provided such owner shall be domiciled within the territory of the United States, or resides in or is located in any foreign country, which, by treaty, convention, or law, affords similar privileges to the citizens of the United States, may obtain registration for such trade-mark by complying with the following requirements: First, by filing in the Patent Office an application therefor, in writing, addressed to the Commissioner of Patents, signed by the applicant, specifying his name, domicile, location, and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a statement of the mode in which the same is applied and affixed to goods and the length of time during which the trade-mark has been used; a description of the trade-mark itself shall be included, if desired by the applicant or required by the Commissioner, provided such description is of a character to meet the approval of the Commissioner. With this statement shall be filed a drawing of the trade-mark, signed by the applicant, or his attorney, and such number of specimens of the trade-mark, as actually used, as may be required by the Commissioner of Patents. Second, by paying into the Treasury of the United States the sum of ten dollars, and otherwise complying with the requirements of this act and such regulations as may be prescribed by the Commissioner of Patents.

"A certificate of registration shall remain in force for twenty years, except that in the case of trade-

marks previously registered in a foreign country such certificates shall cease to be in force on the day on which the trade-mark ceases to be protected in such foreign country, and shall in no case remain in force more than twenty years, unless renewed. Certificates of registration may be, from time to time, renewed for like periods on payments of the renewal fees required by this act, upon request by the registrant, his legal representatives, or transferees of record in the Patent Office, and such request may be made at any time not more than six months prior to the expiration of the period for which the certificates of registration were issued or renewed. Certificates of registration in force at the date at which this act takes effect shall remain in force for the period for which they were issued, but shall be renewable on the same conditions and for the same periods as certificates issued under the provisions of this act, and when so renewed shall have the same force and effect as certificates issued under this act.

"The registration of a trade-mark under the provisions of this act shall be prima facie evidence of ownership. Any person who shall, without the consent of the owner thereof, reproduce, counterfeit, copy, or colorably imitate any such trade-mark and affix the same to merchandise of substantially the same descriptive properties as those set forth in the registration, or to labels, signs, prints, packages, wrappers, or receptacles intended to be used upon or in connection with the sale of merchandise of substantially the same descriptive properties as these set forth in such registration, and shall use, or shall have used, such reproduction, counterfeit, copy, or colorable imitation in commerce among the several States, or with a foreign nation, or with the Indian tribes, shall be liable to an action for damages therefor at the suit of the owner thereof; and whenever in any such action a verdict is rendered for the plaintiff, the court may enter judgment therein for any sum above the amount found by the verdict as the actual damages, according to the circumstances of the case, not exceeding three times the amount of such verdict, together with the costs."

No trade-mark will be registered which consists of or comprises immoral or scandalous matter, or which consists of or comprises the flag or coat of arms or other insignia of the United States, or any simulation thereof, or of any State or municipality, or of any foreign nation, or which consists of or comprises any design or picture that has been adopted by any fraternal society as its emblem, or of any name, distinguishing mark, character, emblem, colors, flag, or banner adopted by any institution, organization, club, or society which was incorporated in any State in the United States prior to the date of the adoption and use by the applicant; Provided, That said name, distinguishing mark, character, emblem, colors, flag, or banner was adopted and publicly used by said institution, organization, club, or society prior to the date of adoption and use by the applicant; unless it shall be shown to the satisfaction of the Commissioner of Patents that the mark was adopted and used as a trade-mark by the applicant or applicant's predecessors, from whom title is derived, at a date prior to the date of its adoption by such fraternal society as its emblem, or which trade-mark is identical with a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties, or which so nearly resembles a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties as to be likely to cause confusion or mistake in the minds of the public, or to deceive purchasers; or which consists merely in the name of an individual, firm, corporation, or association, not written, printed, impressed, or woven in some particular or distinctive manner or in association with a portrait of the individual, or merely in words or devices which are descriptive of the goods with which they are used, or of the character or quality of such goods, or merely a geographical name or term; no portrait of a living individual will be registered as a trade-mark, except by the consent of such individual evidenced by an instrument in writing; and no trade-mark will be registered which is used in unlawful business, or upon any article injurious in itself, or which has been used with the design of deceiving the public in the purchase of merchandise, or which has been abandoned.

Any mark, used in commerce with foreign nations or among the several States or with Indian tribes, may be registered if it has been in actual and exclusive use as a trade-mark of the applicant, or his predecessors from whom he derived title, for ten years next preceding the passage of the act of February 20, 1905.

By Act of Congress approved February 18, 1909, the second section of the trades-mark act was amended so as to read as follows:

"The application prescribed in the foregoing section, in order to create any right whatever in favor of the party filing it, must be accompanied by a written declaration verified by the applicant, or by a member of the firm or an officer of the corporation or association applying, to the effect that the applicant believes himself or the firm, corporation, or association in whose behalf he makes the application to be the owner of the trade-mark sought to be registered, and that no other person, firm, corporation, or association, to the best of the applicant's knowledge and belief, has the right to use such trade-mark in the United States, either in the identical form or in such near resemblance thereto as might be calculated to deceive; that such trade-mark is used in commerce among the several States, or with foreign nations, or with Indian tribes, and that the description and drawing presented truly represent the trade-mark sought to be registered. If the applicant resides or is located in a foreign country, the statement required shall, in addition to the foregoing, set forth that the trade-mark has been registered by the applicant, or that an application for the registration thereof has been filed by him in the foreign country in which he resides or is located, and shall give the date of such registration, or the application therefor, as the case may be, except that in the application in such cases it shall not be necessary to state that the mark has been used in commerce with the United States or among the States thereof. The verification required by this section may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any Minister, Charge d'Affaires, Consul, or commercial agent holding commission under the Government of the United States, or before any notary public, Judge, or Magistrate having an official seal and authorized to administer oaths in the foreign country in which the applicant may be whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States."

A fee of $10.00 is required by law to be paid with each application for the registration of a trade-mark, and this fee will include the certificate of registration, if the trade-mark be determined to be registrable.

COPYRIGHT LAW OF THE UNITED STATES.

(Revised by Thorvald Solberg, Register of Copyrights.)

THE copyright law approved March 4, 1909, which took effect on July 1, 1909, provides that the application for registration of any work "shall specify to which of the following classes the work in which copyright is claimed belongs":

(a) Books, including composite and cyclopædic works, directories, gazetteers and other compilations; (b) periodicals, including newspapers; (c) lectures, sermons, addresses, prepared for oral delivery; (d) dramatic or dramatico-musical compositions; (e) musical compositions; (f) maps; (g) works of art, models or designs for works of art; (h) reproductions of a work of art; (i) drawings or plastic works of a scientific or technical character; (j) photographs; (k) prints and pictorial illustrations. The amendment of August 24, 1912, adds: (l) motion picture photo-plays; (m) motion pictures other than photo-plays.

The application for registration of any article should distinctly specify to which one of these classes the work belongs. An article is not entitled to registration unless it is reasonably possible to class it under one or the other of the designations named in the statute.

For works reproduced in copies for sale or public distribution: 1. Publish the work with the copyright

COPYRIGHT LAW OF THE UNITED STATES—*Continued.*

notice. The notice may be in the form "Copyright, 19....(year date of publication) by.....(name of copyright proprietor), or in case of works specified above (f) to (k) the notice may consist of the letter C enclosed in a circle (C) accompanied by the initials, monogram, mark or symbol of the proprietor—provided that his name shall appear on some accessible part of the copies." 2. Promptly after publication send to the Copyright Office, Library of Congress, Washington, D. C., two copies (or if the work is by a foreign citizen and is first published in a foreign country, one copy only) of the best edition of the work, with an application for registration. In the case of motion picture photo-plays and of motion pictures other than photo-plays a description of the work must be filed, together with copies of the reels, and a money order payable to the Register of Copyrights for the statutory registration fee of $1.

In the case of books by American authors, or permanent residents of the United States, the copies deposited must be accompanied by an affidavit, under the official seal of an officer authorized to administer oaths, stating that the typesetting, printing and binding of the book have been performed within the United States. Affidavit and application forms will be supplied by the Copyright Office on request.

Books of foreign origin in a language or languages other than English are not required to be manufactured in the United States. In the case of a book in the English language published abroad before publication in this country, an *ad interim* copyright for 30 days from the day of the deposit of the foreign copy may be secured by depositing in the Copyright Office one complete copy of the foreign edition within 30 days after its publication abroad. If two copies of such book manufactured in this country are deposited with application for registration and fee ($1) published during the *ad interim* term, the copyright shall be extended for the full term of 28 years.

For works not reproduced in copies for sale: Copyright may also be had of certain classes of works (see a, b, c, below) of which copies are not reproduced for sale, by filing in the Copyright Office an application for registration, with the statutory fee of $1, sending therewith: (a) In the case of lectures or other oral addresses or of dramatic or musical compositions, one complete manuscript or typewritten copy of the work. This privilege of registration, however, does not exempt the copyright proprietor from the deposit of printed copies of a dramatic or musical composition or lecture where the work is later reproduced in copies for sale. A new application must be made in such cases and another fee of $1 paid. (b) In the case of photographs not intended for general circulation, one photographic print. (c) In the case of works of art (paintings, drawings, sculpture); or of drawings or plastic works of a scientific or technical character, one photograph or other identifying production of the work. In the case of a motion picture photo-play, a title and description and one print taken from each scene or act. In case of a motion picture other than a photo-play, a title and description with not less than two prints to be taken from different sections of a complete motion picture. In all these cases, if the work is later reproduced in copies for sale, two copies must then be deposited.

For registration of any work subject to copyright, $1, which sum is to include a certificate of registration under seal. But only one registration at one fee is required in the case of several volumes of the same book deposited in the Copyright Office at the same time. For every additional certificate of registration, or copy of record under seal, 50 cents. In the case of photographs the fee shall be 50 cents where a certificate is not requested. For recording and certifying an assignment of copyright, or for a certified copy of an assignment, $1, if the instrument is not over three hundred words in length; if more than three hundred and less than one thousand words in length, $2; if more than one thousand words in length, $1 additional for each additional one thousand words or fraction thereof over three hundred words. For comparing a copy of an assignment with the record of such document in the Copyright Office and certifying the same under seal, $1. For recording the transfer of the proprietorship of copyright articles, 10 cents for each title of a book or other article, in addition to the fee prescribed for recording the instrument of assignment. For recording an extension or renewal of copyright, 50 cents. Remittances should be made by money order payable to the Register of Copyrights. Forms for application for copyright registration will be furnished on request.

The original term of copyright runs for twenty-eight years. Within one year prior to the expiration of the original term, the author, if living, or the widow or widower of the author, or the children of the author if he be not living; or if none of these be living then the author's executors, or in the absence of a will, the author's next of kin may secure a renewal for a further term of twenty-eight years, making fifty-six years in all. In case of composite works, if the proprietor secured the original copyrights, he may also secure the renewal.

Copyrights are assignable by any instruments of writing. Every assignment of copyright must be recorded in the Copyright Office within three calendar months after its execution in the United States or within six calendar months after its execution without the limits of the United States. "In default of which it shall be void as against any subsequent purchaser or mortgagee for a valuable consideration, without notice, whose assignment has been duly recorded." Every assignment of copyright executed in a foreign country must be acknowledged by the assignor before a consular officer or secretary of legation of the United States authorized by law to administer oaths or perform notarial acts. The certificate of such acknowledgment under the hand and official seal of such Consular Officer or Secretary of Legation is *prima facie* evidence of the execution of the instrument.

INTERNATIONAL COPYRIGHT RELATIONS.

Copyright is not secured in foreign countries by action in the Copyright Office, but only by complying with the legislation of such countries.

Copyright relations have been established with the following foreign countries by proclamation of the President: Austria, Belgium, Chile, Costa Rica, Cuba, Denmark, France, Germany, Great Britain and the British possessions, Italy, Luxemburg, Mexico, Netherlands and possessions, Norway, Portugal, Spain, Sweden, Switzerland, Tunis.

Copyright proclamations have been issued under Sec. 1 (e) of the act of 1909, securing copyright control of mechanical musical reproduction in the U. S. to citizens or subjects of Australia, Belgium, Cuba, France, Germany, Great Britain, Italy, Luxemburg, New Zealand and Norway. The convention with Hungary includes such protection.

Copyright treaties have also been entered into with China, Japan and Hungary (the latter in effect on October 16, 1912). The Copyright Convention of Mexico of 1902 has been ratified by the United States and is effective from July 1, 1908, as between the United States and Costa Rica, Guatemala, Honduras, Nicaragua and Salvador. The Pan-American Copyright Convention signed at Buenos Ayres in 1910 was proclaimed July 13, 1914, and is effective as between the United States and Bolivia, Brazil, Costa Rica, Dominican Republic, Ecuador, Guatemala, Honduras, Nicaragua, Panama and Salvador.

AUTHORITY OF THE COMMISSIONER OF PATENTS.

THE Commissioner of Patents is charged with the administration of the patent laws, and supervision of all matters relating to the granting of letters patent for inventions, and the registration of trade-marks. He is by statute made the tribunal of last resort in the Patent Office, and has appellate jurisdiction in the trial of interference cases, of the patentability of inventions, and of registration of trade-marks. Appeals lie from his decisions to the United States Court of Appeals of the District of Columbia.

The first Patent law in the U. S. was approved April 10, 1790. In the first year 3 patents were granted, one of them to Sam'l Hopkins for his method of making potash and pearlash, dated July 31, 1790. In the second year 33 patents were granted, and 11 in the third year. The Patent Office was burned, with most of the records, in 1836. Up to January 1, 1836, there had been 9,957 patents issued.

MARRIAGE AND DIVORCE LAWS.

Marriage Licenses—Required in all the States and Territories except Alaska. California and New Mexico require both parties to appear and be examined under oath, or submit affidavit.

Marriage, Prohibition of—Marriages between whites and persons of negro descent are prohibited and punishable in Ala., Ariz., Ark., Cal., Col., Del., Fla., Ga., Idaho, Ind., Ky., La., Md., Miss., Mo., Mont., Neb., Nev., N. C., N. Dak., Okla., Ore., S. C., S. Dak., Tenn., Tex., Utah, Va., and W. Va. The causes for absolute divorce given in the table are in addition to adultery, which is a primary cause in every State except South Carolina. Marriages between whites and Indians are void in Ariz., N. C., Ore., and S. C.; and between whites and Chinese in Ariz., Cal., Miss., Ore., and Utah. Marriage between first cousins is forbidden in most of the States, as is the marriage of an epileptic or imbecile.

Note—Marriage between first cousins is forbidden in all of the States except Ala., Cal., Col., Ct., Del., Dist. of Col., Ga., Hawaii, Idaho, Ky., Me., Mass., N. Mex., N. Y., N. C., R. I., S. C., Tex., Va., and Wash.; between step-relatives except in Alaska, Ariz., Ark., Del., Hawaii, Ill., Ind., Iowa, La., Md., Minn., Neb., Nev., N. Mex., N. Y., Ohio, Ore., Pan., Tenn., Utah, and Wis.

STATES.	Residence Required.	Causes for Absolute Divorce
Alabama.....	1-3 years.	Abandonment two years, crime against nature, habitual drunkenness, violence, pregnancy of wife by other than husband at marriage, physical incapacity, imprisonment for two years for felony, if husband becomes addicted to cocaine, morphine or similar drugs. New ground for divorce: To the wife, when the wife without support from the husband has lived separate and apart from the bed and board of the husband for five years next preceding the filing of the bill and she has actually resided in this State during all of said period. Acts 1915, held to authorize granting of divorce to wife only upon lapse of five years from and after date of its enactment.
Alaska. ..	2 years	Felony, physical incapacity, desertion two years, cruelty, habitual drunkenness.
Arizona .	1 year.	Felony, physical incapacity, desertion one year, excesses, cruelty, neglect to provide one year, pregnancy of wife by other than husband at marriage, conviction of felony prior to marriage unknown to other party, habitual drunkenness.
Arkansas ...	1 year.	Desertion one year, felony, habitual drunkenness one year, cruelty, former marriage existing, physical incapacity.
California ..	1 year.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony.
Colorado .	1 year.	Desertion one year, physical incapacity, cruelty, failure to provide one year, habitual drunkenness or drug fiend one year, felony, former marriage existing.
Connecticut	3 years	Fraudulent contract, wilful desertion three years, with total neglect of duty, habitual drunkenness, cruelty, imprisonment for life, infamous crime involving violation of conjugal duty and punishable by imprisonment in State prison, seven years' absence without being heard from.
Delaware . .	1 year	Desertion two years, habitual drunkenness for two years, cruelty, bigamy, felony followed by a continuous imprisonment for at least two years—and at the discretion of the Court, fraud, want of age, neglect to provide three years. "When at the time the cause of action arose, either party was a bona fide resident of the State, and has continued so to be down to the time of the commencement of the action; except that no action for absolute divorce shall be commenced for any cause other than adultery, or bigamy, unless one of the parties has been for the two years next preceding the commencement of the action, a bona fide resident of this State."
D. of Columbia	3 years	Marriages may be annulled for former existing marriage, lunacy, fraud, coercion, physical incapacity, and want of age at time of marriage.

Illinois.....	1 year.	Desertion two years, habitual drunkenness two years, former existing marriage, cruelty, felony, physical incapacity, attempt on life of other party; divorced party cannot marry for one year.
Indiana	2 years.	Abandonment two years, cruelty, habitual drunkenness, failure to provide two years, felony, physical incapacity.
Iowa	1 year.	Desertion two years, felony, habitual drunkenness, cruelty, pregnancy of wife by other than husband at marriage, unless husband has illegitimate child or children living of which wife did not know at time of marriage. The marriage may be annulled for the following causes existing at the time of the marriage: Insanity, physical incapacity, former existing marriage.
Kansas	1 year.	Abandonment one year, cruelty, fraud, habitual drunkenness, gross neglect of duty, felony, physical incapacity, pregnancy of wife by other than husband at marriage, former existing marriage.
Kentucky	1 year.	Separation five years, desertion one year, felony, physical incapacity, loathsome disease, habitual drunkenness one year, cruelty, force, fraud or duress in obtaining marriage, joining religious sect believing marriage unlawful, pregnancy of wife by other than husband at marriage or subsequent unchaste behavior, ungovernable temper.
Louisiana	1 year.	Felony, habitual drunkenness, excesses, cruelty, public defamation of other party, abandonment, attempt on life of other party, fugitive from justice.
Maine	1 year.	Cruelty, desertion three years, physical incapacity, habits of intoxication by liquors, opium, or other drugs, neglect to provide, insanity under certain limitations.
Maryland.	2 years.	Abandonment three years, unchastity of wife before marriage, physical incapacity, any cause which renders the marriage null and void *ab initio*.
Massachusetts..	3-5 years.	Cruelty, desertion three years, habits of intoxication by liquors, opium or other drugs, neglect to provide, physical incapacity, imprisonment for felony uniting for three years with religious sect believing marriage unlawful.
Michigan.....	1 year.	Felony, desertion two years, habitual drunkenness, physical incapacity, and in the discretion of the Court for cruelty or neglect to provide.

States.	Residence Required.	Causes for Absolute Divorce.
Minnesota	1 year.	Desertion one year, habitual drunkenness one year, cruelty, physical incapacity, imprisonment for felony.
Mississippi	1 year.	Felony, desertion two years, consanguinity, physical incapacity, habitual drunkenness by liquor, opium or other drugs, cruelty, insanity at time of marriage, former existing marriage, pregnancy of wife by other than husband at marriage.
Missouri	1 year.	Felony, absence one year, habitual drunkenness one year, cruelty, indignities, vagrancy, former existing marriage, physical incapacity, conviction of felony prior to marriage unknown to other party, wife pregnant by other than husband at marriage.
Montana .	1 year.	Cruelty, desertion, neglect one year, habitual drunkenness one year, felony, innocent party may not remarry within two years and guilty party within three years of the divorce.
Nebraska .	1 year.†	Abandonment two years, habitual drunkenness, physical incapacity, felony, failure to support two years, cruelty, imprisonment for more than 3 years.
Nevada	6 months.	Desertion one year, felony, habitual drunkenness, physical incapacity, cruelty, neglect to provide one year.
New Hampshire	1 year.	Cruelty, felony, physical incapacity, absence three years, habitual drunkenness three years, failure to provide three years, treatment endangering health or reason, union with sect regarding marriage unlawful, wife separate without the State ten years, not claiming marital rights, husband absent from United States three years intending to become citizen of another country without making any provision for wife's support.
New Jersey....	2 years.	Desertion two years, cruelty No divorce may be obtained on grounds arising in another State unless they constituted ground for divorce in the State where they arose. The marriage may be annulled for the following causes existing at the time of the marriage: Want of legal age, former existing marriage, consanguinity, physical incapacity, idiocy. In other cases, an action may be begun if the overt act was committed here.
New Mexico...	1 year.	Abandonment, cruelty, neglect to provide, habitual drunkenness, felony, physical incapacity, pregnancy of wife by other than husband at marriage.
New York....	(‡)	Adultery only. The marriage may be annulled for such causes as rendered the relationship void at its inception.
North Carolina	2 years	Pregnancy of wife by other than husband at marriage, physical incapacity husband and wife living apart for ten years and having no issue.
North Dakota	1 year.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony The marriage may be annulled for the following causes existing at the time of the marriage: Former existing marriage, insanity, physical incapacity, force or fraud inducing the marriage, or want of age.
Ohio.....	1 year. ..	That either party had a husband or wife living at the time of the marriage from which the divorce is sought, wilful absence of either party from the other for three years, adultery, impotency, extreme cruelty, fraudulent contract, any gross neglect of duty, habitual drunkenness for three years, the imprisonment of either party in a penitentiary under sentence thereto The petition for divorce under this clause must be filed during the imprisonment of the adverse party. The procurement of a divorce without this State, by a husband or wife, by virtue of which the party who procured it is released from the obligations of the marriage, while they remain binding upon the other party.
Oklahoma.....	1 year.	Abandonment one year, cruelty, fraud, habitual drunkenness, felony, gross neglect of duty, physical incapacity, former existing marriage, pregnancy of wife by other than husband at marriage.
Oregon	1 year.	Felony, habitual drunkenness one year, physical incapacity, desertion one year, cruelty or personal indignities rendering life burdensome.
Pennsylvania .	1 year.	Former existing marriage, desertion two years, personal abuse or conduct rendering life burdensome, felony, fraud, relationship within prohibited degrees, physical incapacity.
Porto Rico... .	1 year.	Felony, habitual drunkenness, abandonment one year.
Rhode Island. .	2 years.	Cruelty, desertion five years, habitual drunkenness, excessive use of morphine, opium or chloral, neglect to provide one year, gross misbehavior, living separate ten years, physical incapacity, cruel treatment of husband by wife, making it unsafe for him to live with her. Either party civilly dead for crime or prolonged absence. The marriage may be annulled for causes rendering the relationship originally void or voidable.
South Carolina.	.....	No divorces granted.
South Dakota .	1 year.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony. The marriage may be annulled for the following causes existing at the time of the marriage: Want of age, former existing marriage, insanity, physical incapacity, force or fraud inducing marriage.

(*n*) Except witnessed promissory note, 14 years.

In New York a judgment ceases, after 10 years, to be a lien on real estate.

CRIMES AND PENALTIES.

WHILE the penalties for homicide are not precisely uniform throughout the various States of the Union, except for the continuance or the abolishment of capital punishment, they are similar. With regard to other serious crimes, likewise, differences are more seeming than real. Felonies, such as manslaughter, arson, burglary, robbery and larceny, are in some States subdivided into degrees, first, second, third and even fourth; while in others there is a single general classification. Where there is no subdivision into degrees, however, the modifying of penalties by reason of attending circumstances, results in the same effect as though there were degrees.

CRIMES AGAINST THE UNITED STATES

Treason—Whoever, owing allegiance to the United States, levies war against them, or adheres to their enemies, giving them aid and comfort, is guilty of treason. The penalty upon conviction is imprisonment for not less than 5 years, fine of not less than $10,000, or death. Misprision of treason consists in general of having knowledge of, concealing and not disclosing the treason of others. The penalty is imprisonment for not more than 7 years, and fine of not more than $1,000, or both fine and imprisonment. Rebellion or insurrection is the inciting, setting on foot, assisting or engaging in armed resistance to the execution of the laws by two or more. The penalty on conviction is imprisonment for not more than 10 years, fine of not more than $10,000, or both.

CRIMES AGAINST THE STATES, PROVIDED FOR IN THE VARIOUS STATE PENAL CODES.

Murder in the First Degree may be generally defined to be the unlawful, intentional and premeditated killing of a human being, or such a killing resulting from the commission or attempt to commit one of the graver crimes, such as arson, burglary, rape or robbery. In Nevada, killing of a person by a life convict is murder in the first degree.

Murder in the Second Degree is such a killing without premeditation, or resulting from the attempt to commit some lesser crime.

The penalty for murder in the first degree by the Federal Statutes is death by hanging. Hanging is also the penalty in Connecticut, Delaware, Florida, Georgia, Missouri, New Mexico, Hawaii and the District of Columbia. Death by hanging or life imprisonment in Alabama, California, Colorado, Idaho, Iowa, Louisiana, Maryland, Mississippi, Montana, New Hampshire, West Virginia and Wyoming, Alaska and Porto Rico. In Illinois, hanging or imprisonment not less than 14 years to life. In Texas, hanging, or any term of imprisonment not less than 5 years. Death by electricity in Arkansas, Massachusetts, Nebraska, New Jersey, New York, North Carolina, Pennsylvania and Vermont Death by electricity or life imprisonment in Indiana, Kentucky, Ohio, Oklahoma and South Carolina Life imprisonment in Arizona, Kansas, Maine, Michigan, Minnesota, North Dakota, Oregon, Rhode Island, South Dakota, Tennessee, Washington, Wisconsin. In Nevada and in Utah, the penalty may be death or life imprisonment; if death, the convicted person may choose between hanging or shooting. In Tennessee, the jury may fix the term of imprisonment. In the State of Washington, the jury may, by special verdict, find for the death penalty. In New Jersey, the jury are permitted to recommend life imprisonment.

Murder in the second degree is punished in the Federal Constitution by imprisonment for not less than 10 years to life. The same penalty, not less than 10 years up to life is imposed in the States of Arizona, Idaho, Iowa, Nebraska, Nevada, Rhode Island, Utah Not less than 10 (the statutes not mentioning life imprisonment) is the penalty in Alabama, California, Kansas, Missouri, Montana, Washington and Porto Rico. Life imprisonment is the penalty in Connecticut, Delaware, Florida, Georgia, Indiana, Michigan, Minnesota, Ohio, Oregon, Vermont. The statutes of Illinois, Kentucky, Louisiana, Mississippi, Oklahoma, South Carolina and Texas have no second degree murder classification In Arkansas the penalty is from 5 to 21 years; Maryland, 5 to 18; Michigan and New Hampshire, any term of years to life; no minimum term mentioned New Jersey, not over 30; New Mexico, 3 or more; New York, not less than 20 up to life; North Carolina, 2 to 30; North Dakota, 10 to 30; Pennsylvania, not over 20; Tennessee, 10 to 20; Virginia and West Virginia, 5 to 18; Wisconsin, 14 to 25; Wyoming, not less than 20 up to life; Alaska, not less than 15; Hawaii, 20 up to life; District of Columbia, not less than 20 up to life.

In Colorado the death sentence is not imposed where the conviction is had on circumstantial evidence, nor on one under 18 years of age. In Delaware the jury may recommend commutation of the death sentence to imprisonment for life.

Manslaughter may be defined as a killing either unintentionally resulting from the careless or unlawful doing of some otherwise lawful act or from the commission of some unlawful act of comparatively trivial character or intentionally in the heat of passion and without premeditation

Penalties for manslaughter vary, scarcely any two States fixing precisely the same. Many of the States do not subdivide into first and second Where there is but the single heading the penalties are as follows: California (not over 10), Connecticut (not over 10 years and fine of $1,000), Delaware (1-10 and $500 to $5,000), Florida (not over 20 or $5,000), Idaho (not over 10), Illinois (any term up to life fixed by the Division of Pardons and Paroles), Indiana (2-21), Iowa (not over 8 and $1,000), Louisiana) not over 20 and $2,000), Maine (not over 20 and $1,000, or both), Maryland (not over 10 or $500), Massachusetts (not over 20), Michigan (15 or not over $1,000), Mississippi (not over 20 and $500), Montana (not over 10), Nebraska (1-10), Nevada (not over 10), New Jersey (not over 10), New Mexico (1-10), North Carolina (4 months to 20 years), Ohio (1-20), Oregon (1-15 and $5,000), Rhode Island (not over 20), South Carolina (2-30), Texas (2-5, Vermont (not less than 1 up to life or $1,000), Virginia (1-15, Washington (not over 20 and fine), Wyoming (1-20), Alaska (1-15), District of Columbia (not over 15, or $1,000, or both). Where two degrees are specified the penalty for manslaughter in the first is: Alabama (1-10), Arizona (not over 10), Arkansas (2-7), Colorado (1-8), Georgia (1-20), Kansas (5-21), Kentucky (2-21), Minnesota (5-20), Missouri (not less than 5), New Hampshire (not over 30), New York (not over 20), North Dakota (5-15), Oklahoma (not less than 4), Pennsylvania (not over 12 and $1,000), South Dakota (not less than 4), Tennessee (2-10), Utah (1-10), West Virginia (1-5), Wisconsin (5-10), Hawaii (10-20), Porto Rico (not over 10). And for second degree: In Alabama (not over 1 and $500), Georgia (1-3), Kansas (3-5), Kentucky (1-6), Minnesota (1-15), Missouri (3-5), New Hampshire (not over 10 or $1,000, or both), New York (not over 15 or $1,000, or both), North Dakota (1-15), Oklahoma (2-4), Pennsylvania (not over 2 and $1,000), South Dakota (2-4), Tennessee (1-15), Utah (not over 1), West Virginia (court fixes penalty), Wisconsin (4-7), Hawaii (5-10), Porto Rico (not over 10).

Assault with Intent to Kill—Under Federal Statutes, assault with intent to kill or to commit a rape is punishable by imprisonment for not more than 20 years, while assault with intent to commit a felony other than murder or rape is punishable by not more than 5 years' imprisonment and a fine of not over $3,000. In Iowa, assault with intent to kill is punishable by 10 years' imprisonment; not over 10 in Kansas, Massachusetts, Missouri, New York and Oklahoma; from 1 to 10, North Dakota, Oregon, Virginia; not less than 10 in Porto Rico; 1 to 14, California, Colorado, Idaho, Illinois, Nevada, Wyoming; 1-20 Maine, Rhode Island and Utah; Alabama (2-20) Arizona (5 up to life), Arkansas (1-21), Connecticut (10-30), Delaware (not over 3), Florida (not over 20), Georgia and Maryland (2-10), Indiana (2-14 and $2,000), Kentucky (1-5), Louisiana (not over 2 and $1,000), Michigan (any term to life or $8,000), Minnesota (5-10 and not over $100), Mississippi (not over 5 or $1,000). Montana (5-10), Nebraska and Texas (2-15), New Hampshire (not over 20), New Jersey (not over 7 or $200, or both), New Mexico (6 months to 3 years or $1,000), North Carolina (fine or imprisonment, or both), Ohio and Alaska (1-15), Pennsylvania (not over 7 and $1,000), South Dakota (not over 5), Tennessee (3-21), Vermont (not over 10 and $1,000), Washington (not less than 5), West Virginia (2-10), Wisconsin (1-5 or $1,000), Hawaii (not over 5 and a fine), District of Columbia

(not over 15). In Texas, an assault with a dagger incurs a double penalty. In Iowa, assault with intent to commit a rape (not more than 20).

Rape—In Federal Courts, rape is punishable with death by hanging. While many States have death as the extreme penalty, in few is it the same one. Arkansas and North Carolina (death by electricity), Alabama, Delaware and Louisiana (hanging), Florida and Mississippi (hanging or life imprisonment), Kentucky (electrical execution or life), Georgia (hanging or 1-20), Missouri (hanging or not less than 5), Oklahoma (electrical execution or not less than 5), Oklahoma (electrical execution or not less than 15), South Carolina (electrical execution or 5-40), Tennessee (electrical execution or not less than 10 to life), Texas (hanging or not less than 5 to life), Virginia (electrical execution or 5-20), West Virginia (hanging or 7-20), District of Columbia (hanging or 5-30). Many of the States do not inflict the death penalty. Arizona (5 to life), California (not over 50), Colorado (3 to life), Connecticut (not over 20), Idaho (not less than 5 to life), Illinois (1-life), Indiana (2-21), Iowa (any term to life), Kansas (5-21), Maine (any term of years), Maryland) hanging or 18 months-21 years), Massachusetts and Michigan (any term to life), Minnesota (7-30), Montana (not less than 5) Nebraska (3-20), Nevada (not less than 20 up to life), New Hampshire (not over 30), New Jersey (not over 15 or $5,000, or both), New Mexico (5-20), New York (10-20), North Dakota (not less than 1), Ohio and Oregon (3-20), Pennsylvania (not over 15 and $1,000), Rhode Island (not less than 10 up to life), South Dakota (not less than 10), Utah and Washington and Porto Rico (not less than 5), Vermont (not over 20 or $2,000, or both), Wisconsin (1-30), Wyoming (not less than 1 up to life), Alaska (3-20), Hawaii (up to life and $1,000) The rape of a daughter, sister or female under 12 is punished in Alaska by life imprisonment. In Indiana rape of female under 12, life imprisonment. In Nevada rape accompanied with extreme violence may be punished by death or imprisonment not less than 20 years in jury's discretion.

Arson—where classified in degrees—though the number and exact definitions of degrees varies greatly —is in general classified with reference to two conditions, first, the character of the building burned, whether a dwelling house or structure likely to contain a human being; and, second, whether the crime is committed by day or night. Thus the most serious offense is the burning of an inhabited dwelling by night, and the least serious, the burning of an uninhabited structure by day. Often intermediate degrees are recognized, such as burning a dwelling by day or an uninhabited building by night. The Federal Statutes for arson in the first degree impose a penalty of not more than 20 years, and for the second degree, not more than 20 years and a fine of not more than $5,000. Some States punish arson in the first degree with death. These are: Alabama (hanging or not less than 10), Delaware (hanging), Louisiana (hanging or 1 to 10), Maryland (hanging or not over 20), Mississippi (hanging or life imprisonment), North Carolina, South Carolina and Virginia (death by electricity), Vermont (any term to 30 years or death by electricity), Hawaii (hanging or life imprisonment). The imprisonment which may be imposed for arson in the first degree takes a wide range—New York (not over 40), Iowa (30), New Hampshire (not over 30), Oklahoma (10-30), Florida and Michigan (any term up to life), Georgia (1 to life), Idaho (2 to life), Illinois (1-20), Indiana (2-21), Kansas (10-21), Kentucky (5-12), Maine (1-20), Minnesota and North Dakota (not less than 10), Nebraska (1-20), New Jersey (not over 15 or $2,000, or both), New Mexico (2-20), Ohio (not over 20), Oregon, West Virginia and Alaska (10-20), Texas (5-20), Utah (2-15), Wisconsin (3-14), Wyoming (1-21), South Dakota and Porto Rico (not less than 10), Arizona and California (not less than 2), Arkansas (2-10), Colorado and District of Columbia (1-10), Connecticut (not over 10), Missouri, Montana and Washington (not less than 5). The penalties for arson in the second degree are as varied as those for the first. In the Federal Courts, nor more than 20 and $5,000. California (1-25), Colorado (not over 2 and $1,000), Delaware (1-10 and $500 to $5,000), Iowa (10-20), Kansas (7-10), Louisiana (1-20), Maine (any term of years), Maryland (2-20), Minnesota (7-15), New Hampshire (not over 20), New Mexico (1-15), New York (not over 25), North Dakota (7-10), Oregon (5-15), Pennsylvania (not over 10 and $2,000), South Dakota (7-10); Tennessee (2-21), Vermont (not over 10 or $1,000), Virginia (5-18), Washington (not over 10 or $5,000), Alaska (5-15), Hawaii (life or any number of years), Alabama and Oklahoma (2-10), Arizona, Idaho Montana, Utah and Porto Rico (1-10), Arkansas (6 months and fine), Massachusetts and Mississippi (not over 10), Missouri (not less than 3), Nevada (1-3 and fine), South Carolina (in discretion of the court), Wisconsin (3-10).

Burglary—The classification of burglary or house breaking depends on substantially the same elements as those of arson, namely, the building entered, whether a dwelling or other building, and whether the offence was committed by day or night. Burglary in the first degree is punished in North Carolina by death by electricity; Virginia (electricity or 5-18), Delaware (hanging or not over 14), Florida and Iowa (any term up to life), Maine (any term of years), Massachusetts (life imprisonment or not less than 10), Ohio (life or 5-30), Rhode Island and South Carolina (not less than 5 up to life), Alabama, Georgia and Illinois (1-20), Arkansas, California, Idaho, Montana, Alaska and Porto Rico (1-15), Connecticut, Michigan and Hawaii (not over 20), Indiana (10-20), Kansas (10-20), Mississippi (7-15), Nevada and Wyoming (1-14), New Hampshire (not over 30), New Mexico (3-12), Oklahoma (7-20), Oregon, Tennessee and Wisconsin (5-15), Pennsylvania (not over 10 and $10,000), Texas (2-12), Utah (25-40), Vermont (not over 15 or $1,000), District of Columbia (not over 15), West Virginia (2-15), Minnesota, New York, North Dakota, South Dakota (not less than 10), Missouri and Washington (not less than 5), Arkansas (3-7), Colorado and Nebraska (1-10), Kentucky (2-10), Maryland, (3-10). Burglary by means of dynamite or other explosives is punished in Colorado by imprisonment from 25 to 40 years; in Wisconsin (15-40), and in Wyoming (not over 20) Quite a number of States have no heading of second degree burglary. These are Alabama, Arkansas, Colorado, Kentucky, Louisiana, Maryland, Michigan, Nebraska, New Jersey, Rhode Island, South Carolina, West Virginia, and Wyoming, also the District of Columbia. The penalties where it is specified do not show as much variance as in the first degree. Connecticut, Florida, Iowa, Massachusetts (not over 20), Delaware, Georgia and Utah (1-20), Minnesota, Mississippi, New York, North Carolina and Hawaii (not over 10), Maine (1-10), Arizona, California, Idaho, Montana, Nevada and New Hampshire (not over 5), Texas (not less than 5), North Dakota and New Mexico (1-5), Oregon, South Dakota, Tennessee and Virginia (3-10), Indiana (2-14), Kansas (5-10), Missouri (not less than 2), Ohio (1-15), Oklahoma (2-7), Pennsylvania (not over 10 and $500), Vermont (not over 10 or $1,000), Washington (not over 15), Wisconsin (3-8), Alaska (2-5), Porto Rico (not over 2).

Robbery may be generally defined as the theft of property from the person or immediate presence of the victim, accomplished by force or fear Where degrees of robbery are recognized, the distinction is generally determined by whether the thief be armed or unarmed, though some States also distinguish the second from the first degree, where the theft is accomplished by means of threats of future rather than immediate injury. In the following synopsis, degrees are not considered Federal Statutes fix the penalty for robbery at not more than 15 years. Alabama punishes robbery by death (hanging or not less than 10), Virginia (electrical execution or 5-18), Massachusetts, Michigan and Hawaii (any number of years to life), Maine (any term of years), Idaho, Rhode Island and Texas (5 to life), Oregon and Utah (3 to life), Illinois (1 to life), Oklahoma (not less than 10), New York and South Dakota (10-20), Kansas (10-21), Arizona, Nevada and Washington (not less than 5), North Carolina (5-60), Minnesota (5-20), Tennessee (5-15), Indiana (5-14 and $1,000), West Virginia (5-10), Arkansas (3-21), Nebraska, New Mexico and Wisconsin (3-15), Colorado (3-14), Maryland (3-10), Kentucky and South Carolina (2-10), Georgia and Iowa (2-20), Montana and Porto Rico (1-20), Ohio and Alaska (1-15), Wyoming (1-14), North Dakota (1-10), California (not less than 1), New Hampshire (not over 30), Vermont (not over 20 and $1,000), Florida (not over 20), New Jersey (not over 15 or $1,000, or both), Louisiana (not over 14), Delaware (not over 12), Connecticut (not over 7), Pennsylvania (not over 5 and $1,000), District of Columbia (6 months to 15 years). In Nevada train rob-

bery and in Texas robbery by means of deadly weapons may be punished with death. Train robberies in Territories are punishable by imprisonment not more than 20 years and a fine of not more than $5,000.

Grand Larceny is simply theft of property above a fixed value, generally $25 to $50—more States also classify as grand larceny theft of property from the person of the victim, irrespective of value, though, of course, accomplished without the force or fear which constitutes the crime of robbery. In the Federal Courts, grand larceny is punishable by not more than 10 years' imprisonment and a fine of not more than $10,000. Wisconsin (1-25), Alabama and Georgia (1-20), Maryland (1-15), Idaho, Indiana, Montana and Nevada (1-14), New Mexico, Oregon, Utah, Virginia, Alaska, Porto Rico and District of Columbia (1-10), Tennessee, Texas and West Virginia (2-10), Nebraska and Ohio (1-7), Arkansas, Kentucky, Maine and North Dakota (1-5), Hawaii (not over 20), Washington (not over 15), Louisiana, New York, North Carolina and Wyoming (not over 10), Kansas and Missouri (not over 7), New Jersey (not over 7 or $2,000, or both), Connecticut, Iowa, Massachusetts, Mississippi, New Hampshire, Oklahoma and South Dakota (not over 5), Florida and Rhode Island (not over 5 or $1,000), Michigan (not over 5 or $5,000), Pennsylvania (3 and $500), Delaware (not over 3), South Carolina (3 months to 10 years). Special penalties are imposed in certain States for horse and cattle stealing; in Arkansas for stealing horse or mule (1-15); in Missouri and New Hampshire, larceny of horse or cattle (not over 7); in Texas horse theft (5-10); in Georgia there are various grades of larceny of horses, cattle, etc. In Connecticut the punishment for larceny of over $2,000 (not over 20). In North Carolina, habitual offenders receive longer terms.

Forgery in general means the false making, imitating or counterfeiting or alteration of a genuine signature or written instrument. There are numerous Federal Statutes defining and imposing penalties for alteration of public records and documents. These do not come within the purview of this synopsis, being no one general classification. Counterfeiting is punished by imprisonment of not more than 15 years and a fine of not more than $5,000. There is some uniformity but not a great deal in the various State penalties for forgery. North Dakota (not less than 10), North Carolina (4 months to 10 years), Oklahoma (7-20), Kentucky (5-15), Tennessee (3-15), Arkansas (2-21), Oregon and Alaska (2-20), Mississippi and New Mexico (2-15), Indiana (2-14 or $1,000), Alabama, Georgia and West Virginia (2-10), Texas (2-7), Nebraska, Ohio and Utah (1-20), Montana (1-15), Nevada and Wyoming (1-14), Maryland, Virginia, Porto Rico and District of Columbia (1-10), Wisconsin (1-7), South Carolina (1-7), Kansas (not over 21), Minnesota, New York and Washington (not over 20), Michigan (not over 14), Florida, Iowa, Maine, Massachusetts, Missouri, South Dakota (not over 10), Pennsylvania and Vermont (not over $1,000), Rhode Island (not over 10, or $1,000, or both), Hawaii (not over 10 and $500), New Hampshire (not over 7), New Jersey (not over 7 or $2,000, or both), Connecticut (not over 5).

Bigamy—A person who, having a husband or wife living, marries another, is guilty of bigamy. Under Federal Statutes, polygamy (or bigamy) in the Territories is punished by imprisonment for not more than 5 years and a fine of not more than $500. Five years' imprisonment is the most general maximum penalty in the States for bigamy and fines are quite commonly imposed. Some of the States, however, have a more severe extreme penalty and some a lesser maximum. Kentucky (3-9), Virginia (3-8), Tennessee (2-21), Arkansas (3-7), New Mexico and District of Columbia (2-7), Alabama and Texas (2-5), Indiana (2-5 or $1,000), Georgia (1-10), Nebraska, Ohio and Alaska (1-7), North Dakota, West Virginia and Wyoming (1-5), Illinois, Nevada and Rhode Island (1-5 and $1,000), Louisiana (1-5 and $500), Wisconsin (1-5 and fine), Oregon (1-4), Mississippi (not over 10), California (not over 10 and $5,000), Arizona (not over 10 and $2,000), New Jersey (not over 10 or $1,000, or both), Delaware (not over 6 and $2,000), Connecticut, Iowa, Kansas, Massachusetts, Missouri, New York, Oklahoma, South Dakota and Washington (not over 5), Idaho (not over 5 and $2,000), Minnesota and Vermont (not over 5 and $1,000), Florida, Maine, Michigan and Utah (not over 5 or $500), Porto Rico (not over 3 or $2,000), Montana (not over 3 and $1,000), New Hampshire (not over 3 and $500), Pennsylvania (not over 2 and $1,000), Hawaii (not over 2 or $500).

Perjury under the various State codes usually means false testimony on a material point given in an action or proceeding at law. The following are the penalties imposed in accordance with this usual definition. In the Federal Courts (not more than 5 and not more than $2,000), Iowa (10 up to life), Oklahoma (5-20), Georgia (4-10), Ohio and Oregon (3-10), Indiana (2-21 or $50 and $1,000), Minnesota, Texas and District of Columbia (2-10), Wisconsin (2-5), South Dakota (1-20), Arkansas and Tennessee (1-15), Arizona, California, Colorado, Idaho, Illinois, Montana, Nebraska, Nevada and Wyoming (1-14), North Dakota, Utah, Alaska and Porto Rico (1-10), New Mexico (1-7), Kentucky (1-5), West Virginia (1 year and $1,000), North Carolina (4 months to 10 years), Florida, New Hampshire, Massachusetts, Rhode Island and Hawaii (not over 20), Michigan and Washington (not over 15), Vermont (not over 15 and $1,000), Maine, Maryland, Mississippi and New York (not over 10), Delaware (not over 10 and $2,000), Kansas, Missouri and South Carolina (not over 7), New Jersey (not over 7 or $2,000, or both), Pennsylvania (not over 7 and $500), Connecticut and Louisiana (not over 5), Virginia (not over 1 and $1,000). In many of the States severer penalties than those given above are imposed, varying with the character of the action or the results of the false testimony. Thus in Colorado and Texas perjury which causes conviction in a capital case is punished by death. In capital cases, irrespective of results, the penalty is: In Alaska (2-20), Oregon (5-20), Kansas (not less than 7), Maine, Mississippi and Missouri (not less than 10), Massachusetts and Michigan (any term up to life), Wisconsin (3-15). In cases of felony not necessarily capital: Alabama (3-20), New York (not more than 20), North Dakota (not less than 10), Virginia (2-10), West Virginia (1-10).

Where crimes are divided into several degrees, it is generally within the province of the jury, in convicting, to fix the degree of the crime, and in almost every case in which a crime is punishable by death or imprisonment it is the province of the jury to determine the punishment, except upon a plea of guilty, when the duty devolves upon the court

NOTE—Figures in parentheses are years. Money figures are maximum.

PENALTIES FOR USURY

Penalties for usury differ in various States. California, misdemeanor with jail term, $500 fine or both; Colorado, Maine, Massachusetts (except on loans of less than $1,000), have no provisions on the subject. Loss of *principal and interest* is the penalty in Arkansas and New York. Loss of principal in Delaware and Oregon

Loss of interest in Alabama, Arizona, District of Columbia, Florida, Idaho, Illinois, Iowa, Louisiana, Michigan, Minnesota, Mississippi, Nebraska, New Jersey, North Carolina (double amount if paid), North Dakota (double amount if paid), Porto Rico, South Carolina, South Dakota, Virginia, Washington (double amount if paid), Wisconsin, Hawaii, and Wyoming In Alaska, Montana, Oklahoma, Texas, Vermont, double the amount of interest collected

Loss of excess of interest in Connecticut, Georgia, Indiana, Kansas, Kentucky, Maryland, Missouri, Nevada, New Hampshire (three times), Ohio, Pennsylvania, Tennessee, Vermont, and West Virginia. Loss of principal and interest in Rhode Island, also fine or imprisonment. In New Mexico, fine and forfeiture of double amount collected.

By the Federal act No. 193, the period of military service is to be excluded from the computation of time limited for the bringing of an action by or against persons in the service. This applies to all the courts, Federal, State or district, in the country and to causes of action accruing prior to or during the service and to limitations established before or after the passage of the act.

ADMINISTRATION OF DECEASED PERSONS' ESTATES.

THESE statutes have been revised for THE ALMANAC by one of the largest law firms in New York City making a specialty in their practice of the inheritance laws. All the data has been carefully brought up to date.

INHERITANCE TAX LAWS.

The following is a synopsis of several of the laws of the various States affecting the administration of the estate of a deceased person:

1. Who to Administer.—(a) If the deceased leaves a will, the duty of administration falls upon the executor. If no executor is named, or in the event of the death or refusal of the executor to act, the Court will grant administration under the will to some suitable person, generally selected from those most largely interested under the provisions of the will, such as the residuary legatees, if any. (b) If the deceased died intestate, letters of administration are granted to the following persons in practically all the States:

First—To the surviving husband or widow.
Second—To one or more of the next of kin entitled to share in the estate.
Third—If none of the above consent to act, to one of the creditors of the estate, except in localities where there is provided by law a Public Administrator, who is preferred to creditors.

In practically all the States an administrator is required to give bond for the faithful performance of his duties in double the value of the estate to be administered.

In most of the States, if so provided by the will, no bond is required of an executor, except that in some States an executor is required to give a bond to cover the probable amount of the debts of the estate, and in practically all the States, in the discretion of the Court, for cause shown, an executor may be required to give a bond.

2. Claims of Creditors.—The procedure in the several States in presenting creditors' claims against the estate varies very considerably. In the majority of the States the executor or administrator is required promptly to give public notice to creditors to present their claims to him, and the creditors are required so to present their claims supported by an affidavit that the same are justly due and owing from the estate, above any offsets or counter claims, within a period limited generally to six months or a year. The law of each State should be consulted for more specific details. Most of the States direct a final closing of the estate by the executor or administrator within a year or eighteen months after his appointment, though the time limit may be extended by the Probate Court if conditions require it.

3. The following table contains an analysis of the laws of the several States, covering:

(1) The inheritance or succession tax upon property received either by intestate laws, last will, or by gift or transfer, designed to take effect at death, excepting legacies for religious, charitable or educational purposes, which are tax exempt in most of the States. In the great majority of the States no distinction as to tax is made between real estate and personal property.

(2) The various classes of estate obligations given priority over other claims in case of the insolvency of the estate.

STATE	Inheritance Tax.	Preferred Obligations
Alabama.....	None.	1. Funeral expenses. 2. Administration expenses. 3. Expenses of last sickness. 4. Taxes. 5. Wages of servants or employés.
Arizona.....	To grandfather, grandmother, parents, husband, wife, child, brother, sister, son-in-law, or daughter-in-law, lineal descendant, or adopted child, 1%; $5,000 exempt to each beneficiary above named. Estates less than $10,000 exempt. To uncle, aunt, nephew, niece or descendant thereof, 2%; $2,000 exempt to each beneficiary named. Estate less than $5,000 exempt. To others, 3% up to $10,000; 4% from $10,000 to $20,000; 5% from $20,000 to $50,000; 6% above $50,000. $500 exempt.	No statutory provision.
Arkansas.....	On amounts not exceeding $5,000 the rate is 1% to parents, husband or wife, child or adopted child, lineal descendant, brother, sister, son-in-law or daughter-in-law. To all others the rate on the same amount is 3%. $3,000 passing to widow or minor child and $1,000 passing to the other immediate relatives mentioned is exempt. The exemption to others more remote is $500. On amounts in excess of $5,000 the primary rates (1% and 3% respectively) are increased as follows: From $5,000 to $10,000, twice the primary rates; from $10,000 to $30,000, 3 times the primary rates; from $30,000 to $50,000, 4 times; $50,000 to $100,000, 5 times; $100,000 to $500,000, 6 times; $500,000 to $1,000,000, 7 times; above $1,000,000, 8 times.	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages of servants. 4. Judgments which are liens on land of deceased.
California..... On amounts not exceeding $15,000 the primary rates of tax are: (1) To wife or lineal issue, 1%. (2) To husband, ancestor or adopted child or its issue, 1½%. (3) To brother, sister or their descendants, to son-in-law or daughter-in-law, 3%. (4) To uncles, aunts or their descendants, 4% (5) To others, 5%. On increased amounts the primary rate is multiplied as follows: $15,000 to $30,000, 1½ times; $30,000 to $50,000, twice; $50,000 to $100,000, 2½ times; above $100,000, 3 times. $10,000 is exempt to husband, wife, issue or adopted child; $3,000 is exempt to ancestor; $1,000 exempt to class (3), $250 to class (4) and $100 to class (5).	1. Funeral expenses. 2. Expenses of last sickness. 3. Administration expenses. 4. Wages for 60 days. 5. Debts preferred by U. S. laws. 6. Debts secured by liens on property of deceased.
Tennessee.....	To parents, husband, wife, child or descendants, $10,000 exempt. Upon excess, 1% up to $20,000; 1¼% above $20,000. To others, 5% above $250.	No priority.
Texas.....	Exempt to parents, husband or wife or descendants. The rate of taxation on other legacies varies (above such sum as is exempt) with the amount of the legacy. Six divisions as to amount are recognized: (1) up to $10,000; (2) $10,000 to $25,000; (3) $25,000 to $50,000; (4) $50,000 to $100,000; (5) $100,000 to $500,000; (6) above $500,000. To ancestors, brothers, sisters or their descendants, the rates on the above amounts are 2%, 2½%, 3%, 3½%, 4% and 5%, $2,000 being exempt. To uncles, aunts or their descendants the rates are 3%, 4%, 5%, 6%, 7% and 8%, $1,000 being exempt. To others more remote the rates are 4%, 5½%, 7%, 8½%, 10% and 12%, $500 being exempt.	1. Funeral and last sickness expenses. 2. Administration expenses and one year's support of widow and children. 3. Debts secured by mortgage or other lien. 4. Other debts presented within twelve months.

STATE.	Inheritance Tax.	Preferred Obligations.
Utah.....	$10,000 of each estate exempt; tax 3%, $10,000 to $25,000; 5% above $25,000.	1. Funeral expenses. 2. Expenses of last sickness and administration. 3. Wages up to $100. 4. Debts preferred by U. S. or State laws. 5. Debts secured by liens.
Vermont.....	Exempt to parents, husband or wife, lineal descendants, stepchild, adopted child, or lineal descendant thereof, wife or widow of son, husband of daughter. To all others, 5%.	1. Funeral expenses. 2. Headstone not over $25. 3. Expenses of last sickness. 4. Taxes. 5. Debts due to State. 6. Debts due to U. S. 7. Wages within 3 months, not over $50 per creditor.
Virginia ...	On amounts not exceeding $50,000 the primary rates are: (a) To grandparent, parent, husband or wife, child, descendant, brother or sister, 1%. $15,000 exempt. (b) To others more remote, 5%. On larger amounts the primary rates are multiplied as follows: (1) from $50,000 to $250,000, twice; (2) $250,000 to $1,000,000, 3 times; (3) above $1,000,000, 4 times.	1. Funeral and administration expenses. 2. Expenses of last sickness, not exceeding $50, doctor or druggist. 3. Taxes. 4. Money owing as trustee or in fiduciary capacity.
Washington. ..	To parents, husband or wife, lineal descendant, adopted child or its descendants, $10,000 exempt Rates on excess are: 1% up to $50,000; 2%, $50,000 to $100,000; 3% $100,000 to $250,000; 5% above $250,000 To brother, sister, uncle, aunt, nephew or niece, no exemption, the rates on the amounts stated are: 3%, 5%, 7% and 9%. To others more remote, the rates on the same amounts are: 6%, 9%, 12% and 15%.	1. Funeral expenses. 2. Expenses of last sickness. 3. Debts preferred by U. S. laws. 4. Wages, within ninety days. 5. Taxes. 6. Judgments and mortgages which are liens on land.
West Virginia...	To lineal ancestor, husband, wife, descendant, the rate is 1% on amounts up to $25,000; $25,000 to $50,000, 1½%; $50,000 to $100,000, 2%; $100,000 to $500,000, 2½%; above $500,000, 3%. Exempt up to $10,000, except in case of widow, where $15,000 is exempt. To brother or sister the rate is 3% up to $25,000, and for the varying amounts stated above the rates are 4½%, 6%, 7½% and 9%. To others more remote the rates are 5%, 7½%, 10%, 12½% and 15%.	1. Funeral and administration expenses. 2. Debts owing to U. S. 3. Taxes. 4. Fiduciary obligations.
Wisconsin.....	(1) Tax of 1% to husband, wife, lineal descendants, lineal ancestors, adopted child, and lineal issue thereof. (2) To brothers, sisters and their descendants, wife or widow of son, or husband of daughter, 1½%. (3) To uncles, aunts or their descendants, 3%. (4) To great-uncles, great-aunts and their descendants, 4%. (5) To all others, 5%. When the estate is above $25,000 the above rates are multiplied as follows: $25,000 to $50,000, 1½ times on excess; $50,000 to $100,000, 2 times on excess; $100,000 to $500,000, 2½ times on excess; above $500,000, 3 times on excess. Exempt $10,000 to widow and lesser amounts to other relatives, down to $100 exemptions to strangers in blood.	1. Last sickness and funeral expenses. 2. Debts preferred by U. S. laws.
Wyoming.....	Tax of 2% on amount above $10,000 to parents, husband or wife, child, brother, sister, lineal descendants, wife or widow of son, husband of daughter, adopted or acknowledged child for ten years. To others than above, tax of 5%; $500 exempt.	1. Funeral and administration expenses. 2. Expenses of last sickness and sixty days' wages, including medical attendance and medicines. 3. Judgments and mortgages. 4. All claims presented within six months. 5. All claims presented within one yr
United States...	The Federal Tax is imposed on the estate as a whole, not on the shares of the several legatees, irrespective of the relationship of the beneficiaries to the decedent. $50,000 of each estate is exempt from tax. The rates on the excess are as follows: Not exceeding $50,000, 1%; $50,000 to $150,000, 2%; $150,000 to $250,000, 3%; $250,000 to $450,000, 4%; $450,000 to $750,000, 6%; $750,000 to $1,000,000, 8%; $1,000,000 to $1,500,000, 10%; $1,500,000 to $2,000,000, 12%; $2,000,000 to $3,000,000, 14%; $3,000,000 to $4,000,000, 16%; $4,000,000 to $5,000,000, 18%; $5,000,000 to $8,000,000, 20%; $8,000,000 to $10,000,000, 22%; exceeding $10,000,000, 25%.	

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE.

THE following is a synopsis of the laws of the various States providing for the distribution of the persona estate of a deceased after the payment of funeral expenses and other debts where there is no will:

In many of the States the widow and children are entitled to receive a small portion of the estate, generally varying from $100 to $500, before the claims of creditors are paid. Aside from such exempt portion of the estate, the property to be distributed to the widow or relatives is that remaining after all creditors' claims have been satisfied.

The following is the plan of distribution of a male's property. The same rules apply to a female's estate, except in some States, where the rights of a husband in the estate of his deceased wife differ.

I. In all States where the deceased leaves a child or children, or descendants of any deceased child, and no widow, the children or descendants take the entire estate, to the exclusion of all other relatives. The children take equal shares, and in most States the descendants of a deceased child together take the share of their parent, except where the descendants are all in equal degree to the deceased (all grandchildren, no children surviving), when they share equally and do not take their proportionate share of their parent's interest.

No statement is given in this synopsis of the law of Louisiana, which, being founded on the provisions of the French code and Roman law instead of the English common law, which is the underlying principle in the other States, differs in many respects from the principles followed in the other States, especially on the question of the rights of a husband and wife in each other's property and in the property acquired by the husband and wife during their married life. The provisions of the law of Indiana are also not included, for the reason that for an accurate statement of its provisions a reading of the entire statute is necessary, together with the decisions of the Indiana courts construing its provisions, which would occupy too much space for a statement here

II. (a) If deceased leaves a widow, and no children or descendants, the widow takes all. This is the rule in Alabama, Arizona, Colorado, Florida, Georgia, Illinois, Kansas, Minnesota, Mississippi, New Jersey, New Mexico, Ohio, Oregon, Tennessee, Texas, Washington, West Virginia and Wisconsin.

(b) In the following States the widow takes one-half, the residue being taken by the other relatives in the manner and proportion in which they take the entire estate when the deceased leaves neither widow nor descendants (given below); Arkansas, California, Delaware, District of Columbia, Idaho, Iowa, Kentucky, Maine, Maryland, Missouri, Montana, Nebraska, Nevada, North Carolina, Oklahoma, Rhode Island, Texas, Washington, West Virginia and Wisconsin.

(c) In Massachusetts, North Dakota, Pennsylvania and Utah the widow takes the entire estate up to $5,000 and one-half of the residue

(d) In Connecticut the widow takes the entire estate up to $2,000 and one-half of the residue.

(e) In New York, if there be a father or mother of deceased surviving, the widow takes one-half; if there be no father or mother, but a brother or sister, nephew or niece surviving, the widow takes $2,000 and one-half residue; if there be no parent, brother, sister, nephew or niece, the widow takes all. The residue after the widow's share passes in each case in accordance with the provisions applying where no widow or issue survive.

(f) In New Hampshire the widow takes $1,500, and, if the estate exceeds $3,000, one-half of the residue.

(g) In Wyoming the widow takes the entire estate up to $20,000 and three-fourths of the residue (if brother, sister or parent survive, otherwise all to widow).

(i) In Michigan the widow takes the entire estate up to $3,000 and one-half of the residue (if brother, sister or parent survive, otherwise all to widow).

(j) In Vermont the widow takes entire estate if not exceeding $2,500; if more than $2,500, widow takes that sum and one-half of residue.

III. (a) When the deceased leaves a widow and children, or descendants, the widow takes one-third and the children share equally in the residue in the following States: Arizona, Arkansas, Connecticut, Delaware, District of Columbia, Illinois, Iowa, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New York, Ohio (one-half if less than $400), Pennsylvania, Rhode Island, South Carolina, Texas, Vermont, Virginia and West Virginia

(b) In the following States, if there be but one child, the widow takes one-half and the child one-half; if two or more children or their descendants, the widow takes one-third, as above, and the children or their descendants the residue: California, Florida, Idaho, Michigan, Montana, Nevada, North Dakota, Oklahoma, South Dakota and Utah.

(c) In the following States the widow takes one-half and the children, or descendants, the residue: Colorado, Kansas, Kentucky, Oregon, Washington and Wyoming.

(d) In the following States the widow takes the same share as each of the children: Mississippi, Missouri, Tennessee and Wisconsin.

(e) In North Carolina, if there are less than three children, the widow takes one-third and the children the residue; if there are three or more children, the widow takes the same share as each of the children

(f) In Alabama, if there is but one child, the widow takes one-half and the child one-half; if there are more than one child and less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

(g) In Georgia, if there are less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue

In Nebraska if widow is not the parent of all the children of the deceased and there be more than one child, widow takes one-fourth and children the residue. If widow is parent of all children of the deceased, she takes one-half if there be but one child and the child the residue; if there be more than one child the widow takes one-third and the children the residue.

(h) In New Mexico, the widow takes one-half of the estate acquired during marriage, otherwise than by gift (by purchase, for example) and the children or their descendants share equally in the residue; the widow also takes one-fourth of the estate acquired before marriage, or by gift or legacy during marriage, the children or their descendants taking the residue.

IV. (a) When the deceased leaves no widow, children or descendants, the parents take the entire estate in equal shares in the following States: Alabama, Arizona, California, Colorado, Connecticut, Idaho, Iowa, Kansas, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, Nevada, New Hampshire, North Carolina, Oklahoma, Pennsylvania, Texas, Utah, Vermont, Washington, Wisconsin and Wyoming.

In all of the States just mentioned, except Alabama, Arizona, Maine, and Texas, if one parent is dead, the surviving parent takes the entire estate, to the exclusion of brothers and sisters. In Alabama, Arizona, Maine, and Texas the surviving parent takes one-half and the brothers and sisters, or their descendants, take the residue.

In all of them, if both parents are dead, the brothers and sisters and their descendants take the entire estate.

(b) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother and brothers and sisters, or their descendants equally; and if both parents are dead, then to the brothers and sisters, or their descendants: Florida, New York, Oregon, Rhode Island, South Dakota, Tennessee, Virginia, and West Virginia.

(c) In the following States the father, if living, takes the entire estate; if the father is dead, then to

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE—*Continued.*

the mother, and if both parents are dead, then to the brothers and sisters of their descendants: Arkansas, District of Columbia and North Dakota.

(d) In the following States the parents, if living, and the brothers and sisters, or their descendants, take the entire estate, sharing equally: Georgia, Illinois, Mississippi, Missouri, New Jersey and South Carolina.

(e) In Delaware, Ohio and Maryland (where the property did not descend to intestate from either parent), the brothers and sisters, or their descendants, take the entire estate in preference to the parents, who only inherit if there are no brothers or sisters or lawful issue of any deceased brothers or sisters.

DISTRIBUTION OF FEMALE'S ESTATE.

In the following States, if the deceased was a married woman, the rights of her surviving husband in her personal estate differ from the rights of a widow in the estate of her deceased husband as shown in the above synopsis.

(a) In Delaware, District of Columbia, North Carolina, Rhode Island, and Virginia the husband takes the entire personal estate, whether there is any issue of the marriage or not.

(b) In New York, if there are no children or descendants of children, the husband takes the entire estate.

(c) In Florida, Georgia, and Pennsylvania, if there are no children or descendants, the husband takes the entire estate; if there are children, the husband takes the same share as each child.

(d) In Ohio the husband takes the entire estate if there are no children or descendants; if there are children or descendants, they take the entire estate.

(e) In Alabama the husband takes one-half of the estate, the children, or descendants, taking the residue.

(f) In North Carolina, where surviving husband is not also the father of all the children of decedent, if there be one child the husband takes one-half and the child one-half; if there be more than one child, husband takes child's share.

ACKNOWLEDGMENT OF DEEDS.

AN ACKNOWLEDGMENT is the act of declaring the execution of an instrument before an officer authorized to certify to such declaration. The officer certifies to the fact of such declaration, and to his knowledge of the person so declaring. Conveyances or deeds of land to be entitled to be recorded must first be acknowledged before a proper officer. Most of the States have forms of acknowledgments, which should be followed.

Acknowledgments may be taken in general by Notaries Public, Justices of the Peace, Judges or Clerks of Courts of the higher grades, Registers, Masters in Chancery, Court Commissioners, Town Clerks, Mayor and Clerks of incorporated cities, within their respective jurisdictions.

The requisites to a valid deed are the same in general as other contracts, but the appointment of an attorney to execute a deed for another person must in general be executed with the same formalities requisite to the deed itself.

SEALS or their equivalent (or whatever is intended as such) are necessary in Alaska, Connecticut, Delaware, District of Columbia, Florida, Idaho, Illinois, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina, Vermont, Virginia, West Virginia, Wisconsin, Wyoming. In almost all the States deeds by corporations must be under seal FORMS are prescribed or indicated by the statutes of most of the States except Connecticut, Florida, Louisiana SEPARATE ACKNOWLEDGMENT by wife is required in Alaska, Arkansas, Delaware, District of Columbia, Florida, Georgia, Idaho, Kentucky, Louisiana, Montana, Nevada, New Jersey, North Carolina, Oregon, Pennsylvania, South Carolina, Tennessee, Texas. ONE WITNESS to the execution of deeds is required in District of Columbia, Maine (customary), Maryland, Nebraska, New Jersey (usual), Oklahoma, Utah, Wyoming. TWO WITNESSES to the execution of deeds are required in Arkansas, Connecticut, Florida, Georgia, Louisiana, Michigan, Minnesota, New Hampshire, Ohio, Oregon, South Carolina, Texas, Vermont, Wisconsin.

PROMISSORY NOTES AND CHECKS.

Negotiable instruments, the common forms of which are promissory notes, checks, or other bills of exchange, while having the same general requisites as other contracts, have certain distinct features The purpose of the law is to facilitate as much as possible their free passing from hand to hand like currency. The assignment of an ordinary contract leaves the assignee in no different position for enforcing his rights than that of his assignor, but one who takes a negotiable instrument from a prior holder, without knowledge of any defences to it, before its maturity, and gives value for it, holds it free of any defences which might have been set up against his predecessors, except those defects that were inherent in the instrument itself.

To be negotiable an instrument must be in writing and signed by the maker (of a note) or drawer (of a bill or check).

It must contain an unconditional promise or order to pay a sum certain in money.

Must be payable on demand, or at a fixed future time.

Must be payable to order or to bearer.

In a bill of exchange (check) the party directed to pay must be reasonably certain

Every negotiable instrument is presumed to have been issued for a valuable consideration, and want of consideration in the creation of the instrument is not a defence against a bona-fide holder.

An instrument is negotiated, that is completely transferred, so as to vest title in the purchaser, if payable to bearer, or indorsed simply with the name of the last holder, by mere delivery, if payable to order by the indorsement of the party to whom it is payable and delivery.

One who transfers an instrument by indorsement warrants to every subsequent holder that the instrument is genuine, that he has title to it, and that if not paid by the party primarily liable at maturity, he will pay it upon receiving due notice of non-payment.

To hold an indorser liable the holder upon its non-payment at maturity must give prompt notice of such non-payment to the indorser and that the holder looks to the indorser for payment. Such notice should be sent within twenty-four hours.

When an indorser is thus compelled to pay he may hold prior parties through whom he received the instrument liable to him by sending them prompt notice of non-payment upon receiving such notice from the holder.

One who transfers a negotiable instrument by delivery, without indorsing it, simply warrants that the instrument is genuine, that he has title to it, and knows of no defence to it, but does not agree to pay it if unpaid at maturity.

The maker of a note is liable to pay it if unpaid at maturity without any notice from the holder or indorser.

Notice to one of several partners is sufficient notice to all.

When a check is certified by a bank the bank becomes primarily liable to pay it without notice of its non-payment, and when the holder of a check thus obtains its certification by the bank, the drawer of the check and previous indorsers are released from liability, and the holder looks to the bank for payment.

A bona-fide holder of a negotiable instrument, that is, a party who takes an instrument regular on its face, before its maturity, pays value for it and has no knowledge of any defences to it, is entitled to

hold the party primarily liable responsible for its payment, despite any defences he may have against the party to whom he gave it, except such as rendered the instrument void in its inception. Thus, if the maker of a note received no value for it, or was induced to issue it through fraud or imposition, they do not defeat the right of a bona-fide holder to compel its payment from him.

The following States have enacted a similar Negotiable Instrument Law: Alabama, Arizona, Colorado, Connecticut, Dist of Columbia, Florida, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maryland, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, Tennessee, Utah, Virginia, Washington, and Wisconsin—and the same general rules apply in all the States

LAW OF CONTRACTS.

A contract is an agreement of two or more parties by which reciprocal rights and obligations are created. One party acquires a right, enforceable at law, to some act or forbearance from the other, who is under a corresponding obligation to thus act or forbear.

Generally speaking, all contracts which are made between two competent parties, for a proper consideration without fraud and for a lawful purpose, are enforceable at law.

To the creation of a valid contract there must be:

1. Precise agreement. The offer of one party must be met by an acceptance by the other, according to the terms offered.
2. There must be a consideration. Something of value must either be received by one party or given up by the other
3. The parties must have capacity to contract. The contracts of insane persons are not binding upon them. Married women are now generally permitted to contract as though single, and bind their separate property. The contracts of an infant are generally not binding upon him unless ratified after attaining his majority. The contracts of an infant for "necessaries" may be enforced against him to the extent of the reasonable value of the goods furnished It is incumbent upon one seeking thus to hold an infant to show that the goods furnished were in fact necessary to the infant, and that he was not already supplied by his parents or guardians.
4. The party's consent must not be the result of fraud or imposition, or it may be avoided by the party imposed upon.
5. The purpose of the parties must be lawful. Agreements to defraud others, to violate statutes, or whose aim is against public policy, such as to create monopolies or for the corrupt procurement of legislative or official action, are void, and cannot be enforced by any party thereto

Contracts in general are equally valid whether made orally or in writing, with the exception of certain classes of contracts, which in most of the States are required to be attested by a note or memorandum in writing, signed by the party or his agent sought to be held liable. Some of the provisions, which are adopted from the old **English Statute of Frauds**, vary in some States, but the following contracts very generally are required to be thus attested by some writing:

Contracts by their terms not to be performed within a year from the making thereof.

A promise to answer for the debt, default, or miscarriage of another person.

Contracts made in consideration of marriage, except mutual promises to marry

Promise of an executor or administrator to pay debts of deceased out of his own property.

Contracts for the creation of any interest or estate in land, with the exception of leases for a short term, generally one year.

Contracts for the sale of goods above a certain value, unless a portion of the price is paid or part of the goods delivered. The required value of the goods sold varies in different States from $30 to $200. In a number of the States no such provision exists.

In many of the States declarations or conveyances of trust estates.

In many States representations as to the character, credit, or responsibility of another person.

Partial performance of the contract is generally held to dispense with the necessity for a writing.

If the damages liable to result from the breaking of a contract are uncertain the parties may agree upon a sum to which either may be entitled as compensation for a breach, which will be upheld by the courts, but if the sum so fixed is not designed as a fair compensation to the party injured, but as a penalty to be inflicted, it will be disregarded

A party is generally excused for the failure to perform what he has agreed only by the act of God or the public enemy, except in cases involving a personal element in the work to be performed, such as the rendition of services, when the death or sickness of the party contracting to perform them is a valid excuse, or contracts for the performance of work upon a specified object, when its destruction without the fault of the party sought to be held liable is a sufficient excuse

ARREST IN CIVIL ACTION.

WHILE imprisonment for debt as it formerly existed in English and American law, by which a debtor might be arrested and imprisoned for mere inability to pay his creditor, no longer exists in the United States, the statutes of the majority of the States provide for the arrest of a defendant in a civil action under varying conditions. A large number of States determine the right of arrest by the character of the claim on which suit is brought, allowing in it actions for fraud or the injuries known in the law as "torts," such as an injury to the person or property, conversion or embezzlement, libel, slander, or the like.

In the following States no civil arrest is allowed: Arizona, District of Columbia, Florida, Maryland, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, Tennessee, and Texas.

In the following States the right to arrest depends upon the nature of claim in suit: In actions for fraud or torts, Connecticut; for fraud, libel, slander, or violent injury to person or property, Delaware; for fraud only, Iowa and Kansas; only after verdict of jury, finding malice, fraud, or wilful deceit, Colorado; for torts, breach of promise to marry, misconduct or embezzlement in office or professional capacity, Michigan, Pennsylvania, and New York (also for fine or penalty or to recover property concealed from Sheriff)

In the following States arrest is only allowed against a defendant about to remove from State or about to conceal, transfer, or remove his property to avoid plaintiff's claim or defraud creditors, irrespective of the nature of the claim: Indiana, Kentucky, Louisiana, New Hampshire, Utah, Virginia. In New Hampshire tax collector may also arrest person for non-payment of poll tax if not sufficient property upon which to make distress.

In the following States arrest is allowed in contract actions where the defendant is about to depart from the State or conceal or remove his property, and also in actions for fraud or torts of various kinds, though the provisions are not identical: Arkansas (fraud only), California, Idaho, Illinois, Maine, Massachusetts, Montana, Nevada, New Jersey, North Carolina, North Dakota, Oregon, South Carolina, South Dakota, Vermont, Washington, West Virginia (fraud only), Wisconsin.

In Georgia arrest only allowed against attorneys, Sheriffs or other officers of the court for failure to pay over money collected and in certain circumstances against defendant who conceals property from Sheriff. The drawer of a check on which, on presentation to the bank, payment is refused is guilty of a mis-

ARREST IN CIVIL ACTION—*Continued.*

demeanor. Criminal prosecution cannot be instituted, however, until after an expiration of thirty days, and not then if the drawer makes good the invalid check.

In Wyoming (only after judgment) in actions for fraud, or money lost at gambling, or where defendant has removed or concealed property to avoid judgment.

In Rhode Island, allowed in all actions except to recover debt or taxes

In Ohio, when an affidavit is filed showing: About to remove property to defraud creditors, convert property into money for same purpose, conceal property or rights in action fraudulently, assigned or disposed of property with intent to defraud creditors. Fraudulently contracted the debt, or incurred the obligation. Money or property sought to be recovered was in gambling on a bet or wager.

WILLS.

A WILL OR TESTAMENT is a final disposition of a person's property, to take effect after his death. A codicil is an addition or alteration in such disposition. All persons are competent to make a will except idiots, persons of unsound mind, and infants In many States a will of an unmarried woman is deemed revoked by her subsequent marriage. A nuncupative or unwritten will is one made *orally* by a soldier in active service, or by a mariner while at sea.

In most of the States a will must be in writing, signed by the testator, or by some person in his presence, and by his direction, and attested by witnesses who must subscribe their names thereto in the *presence* of the testator. The form of wording a will is immaterial as long as its intent is clear.

AGE at which persons may make wills is in most of the States 21 years. Males and females are competent to make wills at 18 years in the following States: California, Connecticut, Idaho, Montana, Nevada, North Dakota. Oklahoma, South Dakota, Utah and the Hawaiian Islands; and in the following States only females at 18 years: Colorado, District of Columbia, Illinois, Maryland, Missouri, Washington, Wisconsin.

In the following States persons of 18 years may dispose of personal property only: Alabama, Arkansas, Missouri, Oregon, Rhode Island, Virginia, West Virginia; in Georgia any one over 14 years and in Louisiana any one over 16 years is competent to make a will. In Colorado, persons of 17 years, and in New York males of 18 and females of 16 years may dispose of personalty. WITNESSSES—Most of the States require two witnesses, except in Connecticut (3), Maine (3), Massachusetts (3), New Hampshire (3). South Carolina (3), Vermont (3).

THE BANKRUPTCY LAW.

EXTRACTS FROM THE UNITED STATES BANKRUPTCY ACT OF JULY 1, 1898, AS AMENDED BY SUBSEQUENT ACTS.

SEC. 4. WHO MAY BECOME BANKRUPTS.—(*a*) Any person who owes debts, except a corporation, shall be entitled to the benefits of this act as a voluntary bankrupt

(*b*) Any natural person, except a wage-earner, or a person engaged chiefly in farming or the tillage of the soil, any unincorporated company, and any corporation engaged principally in manufacturing, trading, printing, publishing, mining, or mercantile pursuits, owing debts to the amount of one thousand dollars or over, may be adjudged an involuntary bankrupt upon default or an impartial trial, and shall be subject to the provisions and entitled to the benefits of this act Private bankers, but no national banks or banks incorporated under State or Territorial laws, may be adjudged involuntary bankrupts.

The bankruptcy of a corporation shall not release its officers, directors, or stockholders, as such, from any liability under the laws of a State or Territory or of the United States.

SEC. 7. DUTIES OF BANKRUPTS.—(*a*) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or a Judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries; (6) immediately inform his trustee of any attempt, by his creditors or other persons, to evade the provisions of this act, coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee, (8) prepare, make oath to and file in court within ten days, unless further time is granted, after the adjudication if an involuntary bankrupt, and with the petition if a voluntary bankrupt, a schedule of his property showing the amount and kind of property, the location thereof, its money value in detail, and a list of his creditors, showing their residences if known (if unknown that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any, and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee, and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind, and whereabouts of his property, and, in addition, all matters which may affect the administration and settlement of his estate; but no testimony given by him shall be offered in evidence against him in any criminal proceedings.

Provided, however, that he shall not be required to attend a meeting of his creditors, or at or for an examination at a place more than one hundred and fifty miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a Judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town, or village of his residence.

Act of March 3, 1911 (Judicial Code) 36 Stat 1134, as follows:

SEC. 24. Original jurisdiction in district courts

"SEC. 130. The Circuit Courts of Appeals shall have the appellate and supervisory jurisdiction conferred upon them by the act entitled 'An act to establish a uniform system of bankruptcy throughout the United States,' approved July first, eighteen hundred and ninety-eight, and all laws amendatory thereof, and shall exercise the same in the manner therein prescribed."

SEC. 252 states the appellate jurisdiction of the Supreme Court conferred upon it by the Bankruptcy Act of July 1, 1898.

SEC. 4, Act of January 28, 1915, as follows:

"That the judgments and decrees of the Circuit Courts of Appeals in all proceedings and cases arising under the Bankruptcy Act and in all controversies arising in such proceedings and cases shall be final, save only that it shall be competent for the Supreme Court to require by *certiorari*, upon the petition of any party thereto, that the proceeding, case, or controversy be certified to it for review and determination, with the same power and authority as if taken to that court by appeal or writ of error; but *certiorari* shall not be allowed in any such proceeding, case, or controversy unless the petition therefor is presented to the Supreme Court within three months from the date of such judgment or decree."

By act of Congress, approved March 2, 1917, section 17 of the Bankruptcy Law of 1898 was amended by adding to debts not affected by a discharge those "for breach of promise of marriage accompanied by seduction."

The war suspended for a time the operation of bankruptcy laws in their application to those who were engaged in war service military or civil. These were embodied in the moratorium provisions of both Federal and State statutes.

CHIEF LEGISLATION OF 1919 IN THE U. S.

NOTE—This review, prepared by the American Bar Association's Committee on Noteworthy Changes in Statute Law, Thomas I. Parkinson, Chairman, covers the Acts of Congress passed by the final session of the 65th Congress and those enactments of the 66th Congress available on August 15th, 1919, and the principal State enactments then available of the 44 legislatures which were in session in 1919.

SEDITION AND SABOTAGE.

Statutes defining and punishing criminal syndicalism and sabotage were enacted in Oregon (12), Oklahoma (70), Utah (127), and Iowa (382). The Oregon act recites that "there is an active element within this State which is determined if possible to overthrow our existing political structure" and "destroy our industrial and economic institutions." A similar but less detailed provision against syndicalism is contained in Michigan (H. B. 139), Nevada (22), Ohio (H. B. 477), California (188), and Washington (174). Most of these statutes also penalize the owner of premises who knowingly permits assemblages the purposes of which are contrary to the provisions of the act. Washington (173) not only punished sabotage, but also makes it a felony to interfere with or supplant the owners' management of his industry or to threaten such interference.

Sedition and opposition to the Government of the United States or of the State is punished in Minnesota (93), which prohibits interference with the military forces or with bond sales, and the publication of disloyal or abusive language concerning the Government or our military forces, flag or uniform. This statute is permanent and applicable whenever the United States is at war. Criminal punishment for any one who advises, suggests or encourages crime as a means of coercion or of accomplishing reform is provided in Wyoming (76), Indiana (125), Vermont (194), Massachusetts (191), and Rhode Island (177). Connecticut (312) punishes the publication of disloyal or abusive matter concerning the Government of the United States, its military forces, flag, or uniform. Similar prohibitions against the advocacy of the reformation or overthrow by violence, or other unlawful means, of the present form of Government of the United States and of the several States are contained in Illinois (H B. 300), West Virginia (24), and New Hampshire (155). Pennsylvania (No. 275) defines and punishes sedition.

The display of the red flag or any other symbol or emblem calculated to incite disorder or hostility to government is forbidden in a large number of States Legislation of this kind is contained in West Virginia (24), New Jersey (78), Oregon (35), Indiana(125), and South Dakota (S. B. 2). Iowa (199) makes it a felony for a person armed with a dangerous weapon to display such red flag or other symbol. The display of a red flag may be punished by fifteen years' imprisonment in New Jersey, and by a maximum of only thirty days' imprisonment in South Dakota.

PUBLIC HEALTH.

A new administration for health legislation is provided for in Michigan. The statute abolishes the former State board of health and substitutes a commissioner of health. In the new Oregon health code the State Board of Health may take direct charge of the health administration of any city or county whose officers do not enforce the rules and regulations of the board. This code also creates a State board of eugenics with power to order an operation on insane, febble-minded, habitually criminal persons, or perverts, whose children "would probably become a social menace or wards of the State." North Carolina (281) also authorizes such an operation on the inmates of institutions when, in the judgment of the board of medical consultation, necessary "for the improvement of the mental, moral or physical condition" of the inmate. The operation cannot be performed until approved by the Governor and the secretary of the Board of Health.

A bill declaring social diseases dangerous to public health and subjecting persons affected to quarantine as in the case of other serious communicable diseases, requiring physicians to report cases, and giving to health officers power to examine and quarantine and requiring compulsory treatment, was passed in North Dakota (S. B. 140), North Carolina (206), South Dakota (S. B. 85), Montana (106), South Carolina (No. 17), Delaware (53), Florida (7829), Utah (52), Washington (114), Georgia (1918, No 393), and Oregon (264). These statutes also make it unlawful for a person affected with these diseases to expose another person to infection. They are phrased in almost identical language, but the Montana statute adds a provision requiring, under threat of criminal punishment, a physician or other person who knows or has good reason to suspect that a person infected "is so conducting himself or herself as to expose other persons to infection or is about to so conduct himself or herself" to notify the health authorities. The Utah statute requires physicians to inform infected persons of the danger of communicating the disease and to advise such persons against marriage. Maine (41) forbids the marriage of persons with a social disease. Oklahoma (17) makes the marriage of infected persons a felony, while Alabama (No. 178) requires a certificate of the man's freedom from infection before a marriage license can be issued. The Maine act requires physicians, under penalty, to notify the local health officer if an infected patient intends to marry, and the health officer is empowered to notify the other party. North Carolina makes the social evil a crime. This act appears in six other States and has influenced legislation in at least two others. The Montana act forbids issuance of certificates of freedom from infection unless given under safeguards. Washington (114) allows an appeal to the State Board of Health from a decision of the local health officer.

Nebraska (H. B. 188) declares social diseases "contagious, infectious, communicable, and dangerous to the public health," and vests in the State Department of Health the power to make rules and regulations "in its judgment necessary" to control and supresss such diseases. Breach of these regulations is a misdemeanor.

NARCOTIC DRUGS.

The war against the abuse of narcotic drugs—the consumption of which in this country has grown—was expanded by amendments to the Federal tax and by drastic State laws. Congress in the Revenue Act of 1918 increased the tax on these drugs and tightened the administrative provisions under which dealers are licensed and controlled. This tax was enacted to carry out obligations under the international agreement for the control of habit-forming drugs. Tennessee (105) limits the amount of such drugs which may be dispensed or prescribed by physicians to any patient in any twenty-four hours Oklahoma (60) also limits the supply which may be secured in any forty-eight hours Both of these laws make violations felonies. A physician's license may be revoked under Tennessee (117) if he prescribes or dispenses opium to an addict except in a bona fide attempt to effect a cure. Delaware (214) and the Oklahoma act show the effect of the anti-narcotic campaign stimulated by the enforcement of the Federal law. The Delaware act follows generally the Federal act and depends, as do similar State laws, on that statute, since the Federal official order form on which narcotics must be obtained by dealers is made the official form for the State. Consequently, if no forms were issued by the United States Government, no narcotics could be procured by Delaware druggists. A provision opens the records to Federal officers, but punishes them for disclosing information so obtained except for the purposes of enforcing the Federal law or that of the State.

CRIMES AND CRIMINAL PROCEDURE.

Varying estimates of the death penalty as a deterrent of crime are illustrated in Washington (112) which substitutes life imprisonment for the death penalty unless the jury in addition to its verdict of guilty find, in a special verdict, that the death penalty should be inflicted; in New Jersey (134), which permits the jury as a part of its verdict to recommend life imprisonment, in which case the death penalty shall not be imposed; and in Tennessee (4 and 5), which repeal recent legislation abolishing the death penalty as a punishment for murder in the first degree, and provide, like the New Jersey statute, that the punishment shall be death unless the jury, finding that there are mitigating circumstances, fix the punishment at imprisonment. Vermont (196, 197) reduces the maximum punishment for arson and assault with intent to kill from life to thirty years' imprisonment.

New York (414) makes a change in its criminal law by repealing the statute punishing as a crime attempts to commit suicide. It is believed that there never was a conviction under this statute. A change in the definition of murder is contained in Nevada (248), which provides that murder committed by a convict serving a life sentence shall be deemed murder in the first degree. Wisconsin (559) provides that an act or omission within the State, which culminates in the commission of a crime outside the State, is punishable in the same manner as if the whole crime had been committeed within the State. This statute also provides that "any person who commits an act or who omits to do an act which act or omission constitutes a part of a crime by the laws of this State shall be punished the same as if he had committed the whole of such crime within this State."

Georgia (1918, No 297) and Pennsylvania (No. 26) punish the bringing of stolen property into the State or the receiving of such property, knowing it to have been stolen outside the State, in the same manner as if the person so bringing or receiving such stolen property had stolen it within the State Alabama (No. 119) provides "that it shall be unlawful to try any person on an indictment presented by the Grand Jury until at least one entire day after the case has been placed upon the trial docket of the court." Delaware (237) provides that "it shall be a sufficient arraignment" if the defendant is informed of the substance of the indictment, and whether it is for a felony or a misdemeanor Nevada (232), amending the criminal practice act, provides for criminal trials upon information as well as upon indictment. South Dakota (H B. 201) provides for amendment of the indictment or information if upon the trial there appears a variance between the allegations and the proof in respect to time or the name or description of a place, person or thing; and provides also (H. B. 225) that where defendant's objection to the introduction of evidence under an indictment or information is sustained by the court, the effect shall be the same as the sustaining of a demurrer, and "the court may direct the filing of new information or the resubmission of the case." Vermont (No. 75) provides that "any witness summoned from without the State in a criminal cause shall be privileged from the service of papers of any kind" and from arrest. New York (282) provides that appellate courts in criminal cases may modify the sentence imposed by the trial court. Tennessee (165) provides that upon reversal and the order of a new trial in a felony case, the trial judge who "has passed upon the fact" shall be incompetent to conduct a new trial

WILLS AND ESTATES.

New York (294) provides that a will executed outside the State in the mode prescribed by the law of the place of execution or the law of the decedent's domicile shall be deemed to be legally executed Wisconsin (582) provides for the probate of wills executed in a country with which the United States is at war and devising or bequeathing property in the State. Tennessee (14) provides that the collateral kin of a deceased negro shall inherit real or personal property as in the case of white persons. California (615, 611) changes the community property rules and places the wife more nearly on an equality with the husband, by giving her the right to dispose by will of one-half of the community property If she fails to do so, the husband gets the whole community property as formerly. Oklahoma (25) gives to the court having jurisdiction of the settlement of a decedent estate jurisdiction to determine conclusively the question of "heirship of such person." New York (Ch. 293) provides that subsequent marriage revokes the will of the husband or wife if either husband or wife or the issue of such marriage survives the testator. Under the former law the wife's will was revoked by subsequent marriage, but the husband's was revoked only in case issue of the marriage survived. California (Ch. 595) adopts amendments with a similar effect. The will of a woman is revoked by her subsequent marriage if the husband or issue of the marriage survive. Heretofore, subsequent marriage revoked the will of a woman and the later death of her husband did not revive it.

PROPERTY.

This year South Carolina (173) provides that if the wife leaves her husband and remains away for five years or is guilty of other specified marital offenses, she shall be barred of all dower in her husband's lands. In 1917, Oregon permitted the husband or wife to take one-third of the real estate in fee in lieu of dower or curtesy. This year, Oregon (351) repeals this provision, thereby apparently returning to the old system. Tennessee (13) provides for the determination of the interests of unborn persons in equity suits to determine title to real estate. It is provided that such a proceeding shall be deemed *in rem* against the land and shall operate directly on the land and shall have the effect of releasing all claims inconsistent with the title established With respect to conveyances of real estate, Vermont (90) provides that a married woman may convey or mortgage her real estate of which she is seized in her own right by her separate deed as she might do if unmarried An Ohio statute (S B 8) prohibits either husband or wife to subject personal household property owned by either or both of them to a lien without the joint consent of both. Minnesota (188) provides that no conveyance of real estate shall contain a covenant against its subsequent conveyance to a person of a specified religious faith or discriminating against any class of persons of religious belief.

Oklahoma (16) provides for the creation of express trusts in real or personal property. The trust instruments must specify the period of duration, which is limited to twenty-one years or to the life or lives of the beneficiaries.

A rider in Deficiencies Appropriation Bill (65th Congress, No. 233) amends the Trading with Enemy Act by increasing the powers of the Alien Property Custodian to take or seize property rights of enemies and provides that the sole relief and remedy "of any claimant on account of any property taken by the Custodian shall be that provided by this act, and in case of sale or liquidation by the Custodian shall be limited to the proceeds derived from such sale or liquidation." Pennsylvania (No. 177) in a whereas clause recites that the bankruptcy statutes of the United States and the insolvency statutes of the State are not so worded as to make it clear that the "statutory interest inchoate of a spouse" of the debtor is divested by bankruptcy or insolvency sale The act then provides that in case of such sale the inchoate interest of the spouse shall be fully and completely divested.

UNIFORM LAWS

Uniform laws recommended by the Conference of Commissioners on Uniform State Laws have been enacted as follows:

Uniform Flag Act, Maine (158); Washington (107); Wisconsin (113).
Uniform Partnership Act, New Jersey (212); New York (408).
Uniform Limited Partnership Act, New Jersey (211); Minnesota (498); Tennessee (120); Wisconsin (449)
Uniform Warehouse Receipts Act, Texas (S B. 215).
Uniform Negotiable Instruments Law, Texas (S. B. 211).
Uniform Conditional Sales Act, New Jersey (210); South Dakota (S. B. 142); Delaware (192); Wisconsin (672).
Uniform Fraudulent Conveyance Act, New Jersey (213); South Dakota (S. B. 143); Delaware (207); Tennessee (125); Wisconsin (470); Michigan (H. B. 173); New Hampshire (63)
Uniform Cold Storage Act, Tennessee (116).
Uniform Extradition of Persons of Unsound Mind, Wisconsin (277).
Uniform Foreign Probate Act, Tennessee (77).
Uniform Sales Act, Oregon (91); Tennessee (118); Iowa (396).
Uniform Bills of Lading Act, North Carolina (65).
Uniform Acknowledgments of Written Instruments Act, Tennessee (48).

MARRIAGE AND DIVORCE.

Marriage between first cousins or persons either of whom is feeble-minded is forbidden in Montana (6). The minimum age at which marriage is permitted is fixed at fifteen by Missouri (H. B. 27), and at eighteen by Tennessee (156). Provision for alimony without divorce is made in North Carolina (24), which authorizes

an order for subsistence where the husband deserts or is guilty of conduct which might be ground for a divorce. In a State where divorce is difficult to obtain, this statute permits the wife to secure subsistence out of her husband's property or income without the necessity of either living with him after the conduct complained of, or of divorcing him Tennessee (70) adds to the causes of divorce such cruel or inhuman treatment of the husband by the wife "as renders it unsafe or improper for him to cohabit with her."

New York (265) reduces from five to three years the time which must elapse before the court may permit the guilty party in divorce proceedings to remarry. The question whether an illegitimate child shall succeed to the property of its parent of unsound mind is placed wholly within the discretion of the court by New York (202), which provides that if the marriage be annulled because one of the parties was of unsound mind, the child of such marriage shall be the legitimate child of the parent of sound mind, and the court shall determine whether he shall be considered the legitimate child of the parent of unsound mind. Tennessee (126) declares that married women are "fully emancipated from all disability on account of coverture" (state of marriage) and "the common law as to the disability of married women and its effect on the rights of property of the wife is totally abrogated," except that the husband's curtesy (life interest) is not abolished.

STATE GOVERNMENT.

Changes in legislative procedure along the line of the California plan are proposed in constitutional amendments in West Virginia (127) which divides the legislative session into two parts, the first lasting for fifteen days and devoted to the introduction of bills, and the second, after a recess, devoted to their consideration and final action. No bill can be passed in the first part of the session except in an emergency and by a four-fifths vote, and no bill can be introduced in the second part without a three-fifths vote. Oklahoma (312) proposes an amendment prohibiting the introduction of bills after the sixtieth day of the session except on the recommendation of the Governor. The registration of persons employed as counsel or agents to promote or oppose legislation is provided for in Maine (100). Among other things this act prohibits the employment of legislative counsel on a contingent fee In the Act of Congress, known as the Revenue Law of 1918 (65th Congress, No. 254), a legislative drafting service is created for each House of Congress to "aid in drafting public bills and resolutions or amendments thereto on the request of any committee of either House." Oregon (167) creates a legislative reference service consisting of the heads of the departments of law, economics, history and commerce in the State university, "to conduct research into questions of importance and legislative interest," and Indiana (34) recreates a legislative reference bureau to take the place of a similar service which was permitted to lapse two years ago.

Bills reorganizing the State Government were enacted in Massachusetts (350) and Idaho (S. B. 19). The Massachusetts measure divides the State Administration into nineteen departments and brings within these departments practically all existing State agencies. Power to make detailed examinations of the operation of various State agencies and their financial transactions is contained in Michigan (S. 41) and Connecticut (291). Michigan (H. 42) contains important provisions looking toward uniformity of accounting systems and methods in the various State offices. This act not only authorizes the prescribing of uniform systems of accounting, but it requires their installation and use under penalty of removal from office. With slight modifications the 1918 Virginia budget law has been adopted in Oklahoma (142) and Wyoming (10). This plan requires the Governor to hold hearings upon and review the departmental estimates of proposed appropriations and to survey the executive and administrative agencies of the State as a basis for his recommendations to the Legislature. This budget scheme includes not only executive responsibility for recommendations to the Legislature respecting needed appropriations and existing financial resources, but also reforms in the procedure of the Legislature in considering and enacting appropriation bills. Provision is made for joint hearings of the finance or appropriation committees of both Houses, at which the Governor or Governor-elect may be heard and before which heads of departments may be called. Items contained in the Governor's budget may be increased or decreased by the Legislature, but no special appropriation is to be considered until the budget is finally acted upon. North Carolina (38) also adopts the Virginia plan but with the exception that the budget is prepared by a board consisting of the Governor and the four chairmen of the committees on appropriations and finance of the two houses of the Legislature. Montana (205) entrusts the preparation of the budget to the State Board of Examiners and provides that neither house "shall consider any other appropriation until the budget bill has been finally acted upon by both houses, and no other appropriation shall be valid unless ....passed in each House by a two-thirds vote of all members." Nevada (45) adopts the Maryland budget plan placing further limitations on the power of the Legislature to alter the Governor's budget by providing that items may be reduced or stricken out, but may not be increased.

Alabama (No. 31) provides a similar budget plan and specifically alters the rules of legislative procedure to provide that there shall be no change in the executive budget except a reduction or elimination of an item unless such change is adopted by a two-thirds vote.

So-called budget plans, which merely provide for the more careful preparation of departmental estimates and their submission to the Legislature for its information in dealing with appropriation bills, are provided by South Carolina (130), Michigan (S B. 41), and Maine (102). New Hampshire (153) contains a similar provision. These schemes do not regulate Legislative procedure or limit the power of the Legislature to deal with executive recommendations Detailed provision for the purchase of all State supplies through a central purchasing agency is provided in Michigan (H B. 199), Wyoming (96), and Alabama (No. 47).

The Pennsylvania State Constabulary, which has been the model for State police forces in this country, is reorganized (No. 179). Similar State police forces are created in Michigan (H B. 24), Tennessee (96), and West Virginia (Sp. 12).

State agencies to study and co-operate in solving the social, political, and industrial problems of reconstruction are provided in Wyoming (77), North Carolina (261), Michigan (S. B. 84), and Alabama (No. 172), and the existing council of defence is continued in Nevada (173) Governmental assistance in the development and extension of the trade and commerce of the State is provided for in Massachusetts (119), Georgia (1918, 513), and South Carolina (172) The South Carolina statute provides for the incorporation of exporting companies and grants them tax exemptions. Nevada (105), authorizes an investigation of the feasibility of constructing a State cement plant and a State smelter. Acting under a recent Constitutional amendment the South Dakota Legislature (S. B 222), provides for the construction and operation of State cement plants, and creates a coal mining commission (S. B. 218), authorized to acquire in the State or in adjoining States coal lands "to the end that the State through said commission may engage in the mining, distribution, and sale of coal"

A NORTH DAKOTA EXPERIMENT.

North Dakota (H. B. 17) creates an Industrial Commission "to conduct and manage, on behalf of the State of North Dakota, certain utilities, industries, enterprises and business projects now or hereafter established by law." This Commission is required to establish, operate, and manage such new undertakings as the Bank of North Dakota (H. B. 18), warehouses, elevators, and flour mills (S. B. 20), and a home building association (S. B. 19). All of this Legislation was fostered by the Non-Partisan League, which was organized, according to the *North Dakota Leader*, the League's official newspaper, "to gain certain benefits for the farmers of this State through political action" The League controlled a majority of the members in each House of the Legislature. All of these statutes providing for the State embarking on various business ventures were approved by the electors under a referendum vote. The Industrial Commission is composed of the Governor, the Attorney-General, and the Commissioner of Agriculture and Labor, all of whom are elective officers. All orders and regulations of the Commission must be approved by the Governor before becoming effective. In connection with the business enterprises under its super-

vision, the Commission is authorized to determine their location, to acquire necessary properties by purchase, lease, or condemnation, to erect and equip buildings, to appoint a manager of each enterprise as its general agent, and "to fix the buying price of things bought and the selling price of things sold." Civil actions against the State are authorized with respect to claims arising out of transactions in connection with the various enterprises of the Commission.

The Bank of North Dakota (H. B. 18) may do "anything that any bank may lawfully do, except as herein specified." All deposits are guaranteed by the State, and exempted from State and local taxation. Provision is made for issuing $2,000,000 of State bonds to finance the banking enterprise (H. B. 49), and (S. B. 130) provides for the issuance of not more than $10,000,000 of "bonds of North Dakota, real estate series," the proceeds of which are to be used for loans by the bank on real property. The same State (S. B. 20) provides "that for the purpose of encouraging and promoting agriculture, commerce, and industry, the State of North Dakota shall engage in the business of manufacturing and marketing farm products and for that purpose shall establish a system of warehouses, elevators, flour mills, factories, plants, machinery, and equipments." The business "may include anything that any private individual or corporation may lawfully do in conducting a similar business except as herein restricted." The Association, under the direction of the Industrial Commission, "may buy, manufacture, store, mortgage, pledge, sell, exchange, or otherwise acquire or dispose of all kinds of manufactured and new farm and food products and by-products and may for such purposes establish and operate exchanges, bureaus, markets, and agencies, within or without the State, including foreign countries" Provision is made (S. B. 75), for an issue of State bonds not exceeding $5,000,000 to finance the mill and elevator enterprise. The State undertakes (S. B. 19), to "engage in the enterprise of providing homes for residents of the State" for the purpose of "promoting home-building and ownership." The Industrial Commission is authorized to purchase, lease, or condemn land, subdivide such land into lots, lay out streets and build homes. Any person may open a home buying account "by applying in person, by mail, or through a home buyers' league, a trade union, a woman's club, or any other recognized industrial, social or civic body" The statute provides that "special efforts shall be made to secure deposits from children, young people, renters and wage earners." Any such deposits, together with interest, may be withdrawn on giving six months' notice. In case of accident or crop failure, payments under a home-buying contract and mortgage payments due the State bank may be deferred. By (S. B. 47), the State engages in the business of insuring crops against damage from hail A flat tax of three cents per acre per annum is levied on all tillable land within the State, for the purpose of establishing the indemnity fund; but the only persons who can receive payments from the fund are those who pay an additional acreage tax. All tillable land is regarded as covered by the insurance and as taxable in this double manner, unless the owner expressly withdraws it from the operation of the act.

LAWYERS, AMBULANCE CHASERS, ETC.

Indiana, by Constitutional provision, has heretofore assured "every person of good moral character, being a voter," the right "to admission to practice law in all courts of justice" The Legislature now proposes (239), an amendment to the Constitution which will give to the State Legislature power to prescribe the qualifications of persons who shall be admitted to practice. Indiana is now the only State in the Union in which the voter of good moral character enjoys the Constitutional right to represent his fellows in courts of law.

North Dakota (S. B. 21) makes innovations in a provision for the service of subpoenas. It is provided that service may be had by telegraph, in which case a service message from the telegraph company showing delivery of the telegram is made *prima facie* evidence of service; or by telephone, in which case acknowledgment of identity over the telephone by the person so served is made *prima facie* evidence of service.

Oregon (422) makes it a crime for a person or corporation to practice law without having been duly admitted and licensed as an attorney. The practice of the law is defined by this statute to include not only proceedings in the courts, but also acting in any manner "professionally, in legal formalities, negotiations or proceedings"

Oklahoma (173) penalizes not only practice without a license, but also provides that the judge who knowingly permits an unlicensed person to practice in his court shall be removed from office.

New Jersey (223) penalizes any person not a member of the bar who solicits the commencement of an action for damages out of which action such solicitor has an agreement to receive directly or indirectly compensation dependent upon the amount of the recovery. Oregon (95), goes further and punishes criminally both the person who solicits "any business on account of a claim for personal injuries," and the lawyer who accepts or brings action on a claim obtained through such solicitor.

Tennessee (42) specifically includes as a ground of disbarment the seeking out, by the attorney, of persons having personal injury or other claims, or the employment of runners for such purposes

OREGON'S CRIMINAL SYNDICALISM ACT.

OREGON adopted and put in effect on February 9, 1919, an anti-syndicalism law, similar to that of the State of Washington. It provides: Criminal syndicalism is the doctrine which advocates crime, sabotage, violence, or other unlawful methods of terrorism as a means of accomplishing industrial or political reform. The advocacy of such doctrine, whether by word of mouth or writing, is a felony, punishable as in this act otherwise provided. Any person who (1) By word of mouth or writing, advocates or teaches the duty, necessity or propriety of crime, sabotage, violence, or other unlawful methods of terrorism as a means of accomplishing industrial or political reform; (2) Prints, publishes, edits, issues or knowingly circulates, sells, distributes or publicly displays any book, paper, document or written matter in any form containing or advocating, advising or teaching the doctrine that industrial or political reform should be brought about by crime, sabotage, violence, or other unlawful methods of terrorism; (3) Openly, wilfully and deliberately by word of mouth or writing, urges the commission or the attempt to commit crime, sabotage, violence or other unlawful methods of terrorism with intent to exemplify, spread or advocate the propriety or the doctrines of criminal syndicalism; (4) Organizes or helps to organize or become a member of or voluntarily assembles with any society, group or assemblage of persons formed to teach or advocate the doctrines of criminal syndicalism, is guilty of a felony and punishable by imprisonment in the State prison for not more than ten years or by a fine of not more than $5,000, or by both

AMERICAN HARBORS FOR AMERICANS.

IN 1912 when there was some discussion in the United States as to Japan's plans in regard to purchasing and colonizing lands on the west coast of Mexico Senator H. C. Lodge, of Massachusetts, introduced in the United States Senate on July 31, the following resolution:

"Resolved, That when any harbor or other place in the American continents is so situated that the occupation thereof for naval or military purposes might threaten the communications or the safety of the United States, the Government of the United States could not see without grave concern the possession of such harbor or other place by any corporation or association which has such a relation to another Government, not American, as to give that Government practical power of control for naval or military purposes."

The above resolution was passed by the Senate (51 to 4, 39 not voting), on August 2, 1912, and is in effect, with all the force of a United States act or statute, until repealed.

CHIEF NEW YORK STATE LEGISLATION IN 1919.

Aircraft Insurance—Chapters 391, 392 and 393 Empower Marine and Fire Insurance companies to insure risks in connection with airplanes, seaplanes, dirigibles, &c , and Casualty companies to insure against loss or damage to aircraft, or resulting from use.

Americanization—Chapter 617 amends Education law. Appropriates $100,000, authorizes Commissioner of Education to divide State into zones, appoint directors, teachers and necessary employees for instruction and education of illiterates and non-English speaking persons.

Assumed Names—Chapter 224 amends Penal law. (Subd. 1, sec 440) Provides information to be certified to County Clerks by persons conducting business under an assumed name; must include true full name or names of person or persons, with post office address or addresses; age of any who may be infants; certificate must be executed and acknowledged; if there be more than one all must execute and acknowledge.

Autos on Speedway—Chapter 511. Opens N. Y City Speedway to autos with discretion to Park Commissioner of Manhattan and Richmond to exclude merchandise and freight trucks.

Banks' Fiduciary Powers—Chapter 159 amends Banking law Adds new section permitting banks by special authorization of Superintendent of Banks to act as trustee, executor, &c., or in any other fiduciary capacity in which trust companies are permitted to act; requires such banks to deposit additional securities and exempts them from giving fiduciary bonds unless court or officer making appointment shall require it; separate set of books and records to be kept of such fiduciary accounts and assets segregated

Board of Purchase—Chapter 321 amends Greater New York City charter; authorizes the Mayor to create a Board of Purchase, to consist of not less than three persons, who shall be Commissioners of Departments or members of boards appointed by the Mayor; this board to have jurisdiction over purchases for all city departments, boards, bureaus or offices, and to serve without pay.

Boys' Uniforms—Chapter 407 amends Military law. Authorizes Military Training Commission, in its discretion, to prescribe uniform style and color of clothing and equipment for boys, 16 to 19, under military training.

Bureau of Women in Industry—Chapter 85, amends Section 42 of Labor law. Creates a new bureau; appropriates for Chief of Bureau, $2,500; for five investigators at $1,500, and a stenographer at $900.

Business Corporation Tax—Chapter 628 amends Tax law (chap. 60, consol. L.). Increases tax to four and one-half per cent of entire net income Former tax was three per cent and some exemptions in calculation of net income heretofore permitted are now omitted.

Canals—Chapter 137. Appropriates $6,500,000 for barge canal terminals. Chapter 73 appropriates $10,000 and certain miscellaneous receipts for barge canal traffic Chapter 72 appropriates nearly $500,000 for Erie, Oswego and Champlain canals.

Corn Borer Pest—Chapter 17. Appropriates $75,000 to Department of Farms and Markets for extermination of European corn borer

Conductorettes—Chapter 583 amends Labor law and regulates employment of women on street, surface, electric, subway and elevated railroads; forbids employment of females under 21; limits time of occupation to six days or 54 hours in any one week; 9 hours in any one day; hours to be reckoned from time of reporting for duty to time of release for the day; forbids employment before 6 A M., or after 10 P. M.; provides for dressing rooms, drinking water, toilet facilities, and one hour for meals, unless State Industrial Commission permits a shorter time.

Deserted Wives—Chapter 265 provides that deserted wives may apply directly to magistrates (instead of having to go to Commissioner of Charities), and transfers Bureau of Domestic Relations from Department of Charities to Magistrates' court

Dispossessing Tenants—Chapter 512, as amended at Special Session. Provides for 20 days' notice to monthly tenant by landlord of election to terminate tenancy as a prerequisite to hold-over proceedings. Chapter 639 permits tenants to answer orally.

Act passed at Special Session permits tenant of room or apartment in tenement to have a stay of not over 20 days upon depositing in court amount of rent for permit of stay at rate fixed by landlord for month immediately prior to issuing of warrant.

Extra Fare—Chapter 153 amends Railroad law by forbidding collection of extra charge for fares paid on train from passengers getting on at stations where ticket offices are not open during half hour previous to schedule time for departure from such station

Evaporated Apples—Chapter 219 defines standard "evaporated apples containing not more than 24 per cent of water or fluids as determined by drying for four hours at temperature of boiling water."

Firearms Licenses—Chapter 413, provides for coupons on licenses to carry arms, seller to detach and preserve such coupons on sales for identifying purposes

Food Supply Act—Passed in 1917 is repealed (chapter 139); State Food Commission (chapter 64); Office of Ice Comptroller (chapter 86), and State Council of National Defence (chapter 123) are abolished.

Free Peddling Licenses—Chapter 42, provides for issuing free to veterans of the World War licenses to peddle or solicit trade upon presentation of certificate of honorable discharge; licenses to be personal and not transferable

Hours of Labor—Chapter 582 amends Labor law. Prohibits employment of children under 16 in factories more than 48 hours in any one week, and excepts from limitations of hours in Labor law for women those employed as writers or reporters in newspaper offices.

Improving Roads—Chapter 163. Appropriates $375,000 for State's share of cost of constructing and improving rural post roads. (U S. by act of Congress, July 11, 1916, aiding)

Industrial Aid Bureaus—Chapter 404 Authorizes the establishment of industrial aid bureaus by Municipal Corporations and the furnishing of assistance to unemployed during the war readjustment period.

Labor Law Amended—Chapter 402 Defines "mercantile establishment," as any place *where one or more persons are employed* where goods, wares or merchandise are offered for sale and shall include any building, shed or structure, or any part thereof, which is occupied in connection with such establishment.

Lots on Instalments—Chapter 521 Makes person or firms that sell real estate by instalments trustee for it until delivery of deed or title; failure to make such delivery presumptive evidence of misappropriation

Marking Thread—Chapter 475. Provides for honest labelling of cotton, silk and linen thread.

Married Women's Estates—Chapter 295 amends existing law as to distribution of property of deceased married women by omitting the words: "leaving descendants then surviving"

Milk and Cream—Chapter 199 Defines milk and cream as meaning a mixture containing at least 10 per cent of milk fat.

Mirrors on Rural Autos—Chapter 378 provides for mirror or reflecting device on motor vehicles operating on public highways outside of cities of first and second class, to enable operator to see condition of traffic in rear

Motor Vehicle Regulation—Chapter 472. Restricts operation of motor vehicles in N. Y City to persons over 18, licensed as operators or chauffeurs; applicants for license to pass examination both oral and written and, as to character and past record; examiners to be appointed by Secretary of State. Ten day permits, renewable up to 30 days, may be issued to persons desiring to become operators. Persons residing out of the city but in State may drive a motor vehicle in the city not to exceed ten days in any one year without a license.

Mexican Border Service—Chapter 204. Appropriates $1,000 and empowers Adjutant General to

CHIEF NEW YORK STATE LEGISLATION IN 1919—*Continued*

provide service badges and ribbons for officers and enlisted men who served on the Mexican border in Mexico between June 16, 1916, and April 5, 1917.

Partnership—Chapter 408. Enacts a uniform partnership law in lieu of chapter 44, laws of 1909, constituting chapter 39 of the Consolidated laws.

Personal Income Tax—Chapter 627 amends Tax law, constituting chapter 60 of Consolidated laws. Taxes net incomes 1 per cent. up to $10,000; 2 per cent. up to $50,000; 3 per cent. over $50,000. Single men exempt up to $1,000; married men up to $2,000; and $200 for each additional dependent. State employees not exempt; Federal are. Act applies to non-residents Partnerships must file returns but members are taxed as individuals. Corporations are not included Net income means gross income, less deductions allowed Comptroller may require inventories (forms and methods as to U S. Revenue act of 1918).

Private Wharves—Chapter 341. Empowers Commissioner of Docks, N. Y. City, to order repairs to piers, bulkheads, or wharves, expense to be assessed against owners.

Public Service Commissioner—Chapter 263. Reorganizes Public Service Commission of First District by making it consist of one instead of five members; terms five years from February 1 of year of appointment. Commissioner may appoint and remove two deputy commissioners (at $7,500); may appoint examiners, or may designate officers in service of commission as examiners.

Savings Banks—Chapter 97 amends Banking law by permitting savings banks to borrow money for the purpose of purchasing stocks or bonds or interest-bearing notes or obligations of the United States

Savings Banks—Act passed at Special Session. Prohibits banks from investing in bonds and mortgages except on report of committee who shall certify to value of premises mortgaged or to be mortgaged; such report to be filed and preserved upon records of the corporation

Second Hand Autos—Chapter 379. Provides for re-registering by purchaser of second-hand motor vehicle; requires seller to endorse upon certificate of registration name and address of buyer and date of delivery.

State Aid for Employment Service—Chapter 155. Appropriates $50,000 for use of State Industrial Commission to establish and maintain during current fiscal year additional employment offices and branch offices.

State Prisons Manufactures—Chapter 236. Appropriates $75,000 and authorizes Prison Superintendent to provide for the manufacture of street and highway signs, motor vehicle number plates and similar devices in State prisons

Stock to Employees—Chapter 308. Authorizes corporations to issue stock to employees with consent of stockholders; where consent is by a majority vote at annual stockholders' meeting, an objecting stockholder may demand payment for his stock, the act providing for an appraisal of same.

Stream Pollution—Chapter 615 Appropriates $10,000 to investigate pollution of rivers, lakes, streams, bays, and harbors by sewage, factory waste, &c , and methods to eliminate same to prevent contamination of sources of drinking water or fish supplies.

Sunday Baseball—Chapter 260, and moving pictures, chapter 257, permit the playing of base ball and the exhibition of moving pictures after 2 P. M on Sundays unless prohibited by local ordinance

Teachers' Pay—Chapter 645. Provides an increase in pay approximately $100 a year each, and for annual increments which vary in different cities and grades

Tenement House Hall Lights—Chapter 446. Requires lights in halls where natural light is insufficient to read names on letter boxes within eight feet.

Vehicular Tunnel Bill—Chapter 178. Appropriates $1,000,000 as New York State's first half of first instalment of $2,000,000 for building a tunnel from Canal Street and North River in Manhattan to Jersey City.

War Ribbon and Medal—Chapter 122. Provides for service ribbons for citizens of State who entered U. S. service in war with Germany as volunteers or otherwise, and for medals of honor for veterans or to families of such as died.

War Service Credit—Chapter 11. Provides that active U. S service of National Guard or Naval Militia men in time of war, or under a call or draft of the President, shall count as if such service had been rendered in the State

Wills—Chapter 293 Provides that a will made prior to marriage shall be deemed revoked as to surviving wife, husband or issue, unless provided for in will, or statement in will showing intention not to provide.

Women Elevator Operators—Chapter 544 amends Labor law. Provides one day of rest in seven; prohibits employment of males under 16, females under 18; limits hours of women to 6 days or 54 hours in any one week; not more than 9 hours in any one day; prohibits employment before 7 A. M. or after 10 P. M., except when run where women work between 6 and 7; requires seats, wash room facilities and 45 minutes for noon-day meal.

Workmen's Compensation—Death payments, chapter 498 To section 33 is added: in case of death of injured employee to whom was due not over $250, amount shall be payable to surviving wife or husband; if none, to surviving child or children of deceased under 18; if no surviving wife, husband or children, then to dependents of deceased, or to any of them as Commission may direct.

An Agreement Between Employer and Employee—Chapter 629 amends sections 20, 20-A and 25. Provides that employer must report agreement within 10 days; intervals of payment not over two weeks; employer must notify commission of last regular payment within 16 days; lapses in payments are penalized by adding 10 per cent , and failures to pay after award, by 20 per cent. of unpaid amounts, and failure to notify of last regular payment by additional $100 to Commission, one-half for previous disability fund, one-half for Commission's expenses. These penalties are a substitute for former provision giving Commission discretion to impose 10 per cent. additional in cases of unfair dealing or bad faith.

NARCOTIC DRUG CONTROL.

The Department of Narcotic Drug Control, created by chapter 639 of the Laws of 1918, superseded on February 1, 1919, the Bureau of Habit Forming Drugs under the State Board of Health. Under the new law every physician, druggist, dentist, veterinarian, hospital, sanatorium or other institution, wholesaler or manufacturer, prescribing, administering, dispensing, selling or manufacruting cocaine, opium or its derivations must, during January, 1919, file an application and receive from the Department a certificate of authority to deal in habit-forming drugs. This registration was for the balance of the State fiscal year and required no fee . Thereafter, during June in each year he shall in like manner register with the Department and for this and each subsequent registration shall pay the Department a fee of $1.

Drug addicts in N. Y. City were required to register at No. 128 Prince Street, the local office of the Department. Each addict got a card identifying the holder

BIRTH STONES.

January—Garnet. February—Amethyst March—Bloodstone and aquamarine. April—Diamond. May—Emerald. June—Pearl and moonstone. July—Ruby. August—Sardonyx and peridot. September—Sapphire. October—Opal and tourmaline. November—Topaz. December—Turquoise and lapis-lazuli

UNITED STATES CUSTOMS DUTIES.

(The following table covers only the articles of principal importance imported.)
(ad val.—ad valorem; n.s p.f.—not specially provided for.)
* Effective March 1, 1914

ARTICLES.	Rates of Duty Under Law of 1909.	Rates of Duty Under Law of 1913.
SCHEDULE A—CHEMICALS, OILS AND PAINTS.		
Acids, n.s p.f.	25 p.c. ad val.	15 p.c. ad val.
Alcoholic compounds, n.s p.f.	60c. lb. and 25 p.c. ad val.	10c. lb. and 20 p.c. ad val. to 40c. lb. and 20 p.c. ad val.
Alkalies, alkaloids, and all chemical and medicinal compounds, preparations, mixtures and salts, and combinations thereof	25 p.c. ad val.	15 p.c. ad val.
Ammonia, carbonate of, and muriate of	¾c. lb.	¾c. lb.
Coal-tar products, not medicinal and not colors or dyes	Free list.	15 p.c. ad val. and 2½c. lb.
All colors, dyes, or stains, whether soluble or not in water, color acids, color bases, color lakes, photographic chemicals, medicinals, flavors, synthetic phenolic resin. or explosives, not otherwise specially provided for in this title, when obtained, derived, or manufactured in whole or in part from any of the products provided for in Groups I. and II. (see below), natural alizarin and indigo, and colors, dyes, or color lakes obtained, derived, or manufactured therefrom	.....	30 p. c. ad val. and 5c. lb.
Group I. Acenaphthene, anthracene having a purity of less than twenty-five per centum, benzol, carbazol having a purity of less than twenty-five per centum, cresol, cumol, fluorene, metacresol having a purity of less than ninety per centum, methylanthracene, methylnaphthalene, naphthalene having a solidifying point less than seventy-nine degrees centigrade, orthocresol having a purity of less than ninety per centum, paracresol having a purity of less than ninety per centum, pyridin, quinolin, toluol, xylol, crude coal tar, pitch of coal tar, dead or cresote oil, anthracene oil, all other distillates which on being subjected to distillation yield in the portion below two hundred degrees centigrade a quantity of tar acids less than five per centum of the original distillate, and all other products that are found naturally in coal tar, whether produced or obtained from coal tar or other source, and not otherwise specially provided for in this title		Exempt from duty.
Group II. Amidonaphthol, amidophenol, amidosalicylic acid, anilin oil, anilin salts, anthracene having a purity of twenty-five per centum or more, anthraquinone, benzoic acid, benzaldehyde, benzylchloride, benzidin, binitrobenzol, binitrochlorobenzol, binitronaphthalene, binitrotoluol, carbazol having a purity of twenty-five per centum or more, chlorophthalic acid, cumidin, dimethylanilin, dinaisidin, dioxynaphthalene, diphenylamin, metacresol having a purity of ninety per centum or more, methylanthraquinone. metanilic acid, naphthalene having a solidifying point of seventy-nine degrees centigrade or above, naphthylamin, naphthol, nahpthylenediamin, nitrobenzol, nitrotoluol, nitronaphthalene, nitranilin, nitrophenylenediamin, nitrotoluylenediamin, orthocresol having a purity of ninety per centum or more, paracresol having a purity of ninety per centum or more, phenol, phthalic acid, phthalic anhydride, phenylenediamin, phenylnaththylamin, resorcin, salicylic acid, sulphanilic acid, toluidin, tolidin, toluylenediamin, xylidin, or any sulphoacid or sulphoacid salt of any of the foregoing, all similar products obtained, derived, or manufactured in whole or in part from the products provided for in Group I, and all distillates which on being subjected to distillation yield in the portion distilling below two hundred degrees centigrade a quantity of tar acids equal to or more than five per centum of the original distillate, all the foregoing not colors, dyes, or stains, photographic chemicals, medicinals, flavors, or explosives, and not otherwise provided for in this title	.....	15 p. c. ad val. and 2½c. lb.
Drugs	1¼c. lb. and 10 p.c. ad val.	10 p.c. ad val.
Drugs and medicines in pills, capsules, etc.	.....	25 p.c. ad val.
Glue, value not above 10c. per pound	2½c. lb.	1c. lb.
Oil, castor, gals.	35c. gal.	12c gal.
Oil, olive in bottles, etc., gals	50c gal.	30c. gal.
Oil, whale, gals.	8c gal.	5c. gal.
Opium, crude and not adulterated, containing 9 per cent. and over of morphia, lbs.	$1.50 lb.	$3 lb.
Paints, colors, pigments, etc.	30 p c. ad val.	15 to 20 p.c. ad val.
Perfumery, cosmetics, containing alcohol	60c. lb. and 50 p.c ad val.	40c. lb. and 60 p.c. ad val.
Perfumery, cosmetics, not containing alcohol	60 p.c. ad val.	60 p.c. ad val.
Soap, castile and unperfumed toilet soap	1¼c. lb.	10 p.c. ad val.
Soap, perfumed toilet	50 p.c. ad val.	30 p.c. ad val.
Soda, bicarbonate of	5-8c. lb.	¼c. lb.
Sponges, not advanced in value by chemical processes	20 p.c. ad val.	10 p.c. ad val.
Talcum	.....	15 p.c. ad val.
SCHEDULE B—EARTHS, EARTHENWARE & GLASSWARE.		
Cement	8c. 100 lbs.	10 p.c. ad val.
Earthenware, porcelain, decorated	60 p.c. ad val.	20 to 55 p.c. ad val.
Earthenware, common, not ornamented	25 p.c. ad val.	15 p.c. ad val.
Glassware, decorated or cut	60 p.c. ad val.	45 p.c. ad val.

ARTICLES.	RATES OF DUTY UNDER Law of 1909.	Law of 1913.
Marble, manufactures of, except for jewelry, n s p f	50 p.c. ad val.	45 p.c. ad val.
Opera and field glasses, and frames for same	45 p.c. ad val.	35 p c. ad val.
Spectacles and eyeglasses, and frames for same	Graduated rate.	35 p.c. ad val.

Wood alcohol.
Wood pulp
Wool, n.s.p.f.
Works of art, originals or for certain institutions.
Wrought iron or steel nails, n.s p f.

LITIGATION OF CUSTOMS CLAIMS.

(By the Board of United States General Appraisers.)

A statutory judicial remedy is given by the Customs Practise Act of June 10, 1890, and supplements thereto, for the return of money illegally exacted by the administrative customs officials, before a special statutory Court of Customs Claims called the Board of United States General Appraisers. If the valuation by the local appraiser of imported merchandise upon which an ad valorem duty is assessed is disputed by the importer he may appeal for a re-valuation (or re-appraisement as it is called) within ten days after the local appraiser has made the assessment. If the Importer is dissatisfied with the classification by the Collector of Customs at the port of entry, he may file a protest in writing within thirty days with such Collector, who thereupon must forward the papers to the Board, and the case is regularly docketed

There is no limitation upon the amount involved in such litigation It covers and includes merchandise imported by Parcel Post and claims arising from the assessment ano classification of baggage not exempt from duty. The trial of the case is usually had at the port of entry or some nearby place. Regular dockets for the trial of such cases are held at New York, Philadelphia, Boston, Baltimore, Chicago, Cincinnati, St. Louis, St. Paul, Seattle, Portland, San Francisco and Los Angeles In addition special dockets are held in other customs districts at the convenience and on request of the importers' attorneys. There are no court costs and the procedure is simple and expeditious yet includes all the safeguards and protections of an ordinary court trial Numerous claims against the Government, arising from the administration of the customs laws, are thus litigated and involve in the aggregate large sums of money. Reappraisement cases are heard by a single member of the Board with an appeal by either the Government or the importer from his judgment to a board of three. Classification cases, including contests over the legality of an appraisement, the legality of any administrative regulation promulgated by the Secretary of the Treasury, or the legality of other administrative action resulting in the levy of an excessive rate or amount of duty by the Collector of Customs, are decided by the Classification Board. An appeal lies from this Board's judgment to the Court of Customs Appeals at Washington from whence certiorari lies to the Supreme Court of the United States in treaty cases, constitutional cases and other cases which the Attorney General certifies as of sufficient importance.

The Clerk of the Board is De Witt P Dutcher, 641 Washington Street, New York, N.Y. The Board consists of Jerre B. Sullivan (President) of Iowa, Byron S. Walte of Michigan, Eugene G. Hay of Minnesota, William B. Howell of New Jersey, Israel F. Fischer of New York, Samuel B. Cooper of Texas, Charles P. McClelland of New York, George Stewart Brown of Maryland, and William C. Adamson of Georgia. The U. S. Court of Customs Appeals consists of Robert M. Montgomery, Presiding Judge; James M. Smith, Orion M. Barber, Marion De Vries, and George E Martin, Associate Judges. Clerk, Arthur B. Sheldon.

Old law, normal tax exemption, $3,000 for single persons; new law, $1,000. Table does not take account of $200 exemption for each dependent child

INCOME TAX TABLE—WAR REVENUE LAW OF 1918.

(This law was approved by the President February 24, 1919)

NOTE—The table shows the tax payable by a married person, taking no notice of the $200 exemption for each dependent child. The total surtax is the total of the instalments for the income considered. A single person is allowed a personal exemption of $1,000 on income; a married person living with husband or wife, $2,000.

* Thousands.

WAR REVENUE ACT OF 1918.

(Approved by the President February 24, 1919.)

THIS act imposes income taxes as shown in the table above.

For citizens or residents of the United States on first $4,000 of taxable income for 1918 6 per cent.; for subsequent years 4 per cent.

In computing net income individuals are allowed as credits, dividends from corporations whose net income is taxable, dividends out of taxable earnings or profits from personal service corporations, and interest on United States obligations and those of a State, Territory, or political subdivision, or District of Columbia, and on bonds issued by the War Finance Corporation, and securities of Federal Farm Loan Act.

No deductions are allowed for personal, living, or family expenses; nor for moneys paid out for permanent improvements to, or restorations of, property.

Life insurance is taxed 8 cents on each $100 of insurance or fractional part; on weekly or monthly payment insurance not in excess of $500, 40 per cent. of first weekly, or 20 per cent of first monthly premium; casualty insurance, 1 cent on each dollar (or fractional part) of premium; 40 per cent of first weekly, or 20 per cent. of first monthly premium.

Further deductions allowed in computing net income are: Ordinary and necessary expenses of carrying on trade or business, including salaries and other compensation paid for personal services and rentals; interest paid (or accrued) on indebtedness; United States, State and local taxes (except income, war-profits, and excess profits taxes); losses during taxable year not compensated for by insurance (but in case of non-resident aliens only as to transactions or property within the United States); worthless debts; a reasonable allowance for wear and tear of trade or business property, and a reasonable amount for amortization for buildings, machinery, equipment, etc., for production of articles for war purposes, and for vessels for carrying articles or men; in case of mines, gas or oil wells; other natural deposits and timber; a reasonable amount for depletion and depreciation of improvements; gifts to religious, charitable, scientific or educational societies, or for prevention of cruelty to animals or children, or to vocational rehabilitation fund.

Upon net incomes over the first $4,000 the rate is 12 per cent. in 1918, and 8 per cent. subsequent years; such rates, and inclusive of the first $4,000, apply to other than citizens or residents.

Partners in business co-partnership and stockholders in personal service corporations are liable for income tax as individuals.

The normal tax and surtax, as given above, apply to income of estates or property held in trust, the fiduciary being responsible for making the return

CORPORATIONS.

Practically the same amount of income taxes is imposed on corporations as on individuals, viz, for 1918, 12 per cent. of net income in excess of interest on United States obligations and bonds of War Finance Corporation, excluding war profits and excess profits taxes; 10 per cent. in subsequent years, and practically the same deductions (i e., necessary trade or business expenses, salaries, rentals, etc). There is an exemption of $2,000 allowed to domestic corporations instead of $4,000, as allowed to citizen and resident individuals.

Organizations exempt from taxation are chiefly those not run for profit, such as agricultural, labor, horticultural, scientific, educational, charitable and religious; for prevention of cruelty to children, and to animals; Chambers of Commerce, Boards of Trade, fraternal societies, civic and social welfare leagues, mutual or co-operative fire, cyclone and hail insurance companies, clubs for pleasure and recreation, mutual savings and co-operative banks without capital, cemetery companies for members only, domestic and national building and loan associations, Federal land banks, and personal service corporations (i. e , those whose income is due to activities of its stockholders and in which capital is not a producing factor).

Provision is made for re-examination and credit for return of overpaid taxes

RETURNS.

Every individual having a net income of over $1,000, if single, or if married and not living with husband or wife, must make a return, under oath, of gross income itemized, and deductions and allowances claimed. Where aggregate net income of husband and wife is over $2,000 each must make a return unless each is included in a single joint return.

Partnerships must make returns, which shall include names and addresses of partners and amounts of distributive shares, sworn to by any one of the partners.

Every fiduciary (except receivers in possession of part only of property of individuals), must make a return for the individual, estate, or trust for which he acts.

Returns are to be made on or before March 15, or on or before the fifteenth day of third month following close of fiscal year. Commissioner may extend the time for making returns and may require inventories to be made.

A foreign corporation's gross income includes only income from sources within the United States.

Corporation returns must be sworn to by the president or vice-president, and by the treasurer or assistant treasurer. Agent of foreign corporation, if there is one in United States and no office or place of business, must make return.

WHEN PAYABLE.

Taxes are payable in four instalments—The first at filing of return; second, fifteenth day of third month; third, fifteenth day of sixth month; fourth, fifteenth day of ninth month.

In cases of understatements if return is made in good faith and without fault of taxpayer no penalty is added; if through negligence 5% of deficiency and 1% per month on amount of deficiency is added; if false or fradulent with intent to evade the tax 50% of deficiency is added.

On taxes unpaid when due and for ten days after notice and demand by collector 5% on amount due and unpaid and interest at 1% per month is added.

Failure to pay, make return, or give information makes one liable to penalty of not over $1,000; if wilful, to fine up to $10,000, or imprisonment up to one year, or both.

Corporations may be required by the Commissioner to render return of payments of dividends, with names and addresses of stockholders and number of shares held.

Brokers may be required to make a return of names of customers, their profits and losses. Similarly, individuals, corporations, and partnerships, making payments of interest, rent, salaries, profits, etc , to others, may be required to make returns.

Returns upon which tax has been determined by the Commissioner are public records, but open to inspection only upon order of the President, and under rules and regulations prescribed by the Secretary and approved by the President.

Bona fide stockholders of record owning 1% or more of outstanding stock, upon making request of the Commissioner, are permitted to examine the annual income returns of such corporations and its subsidiaries. Punishment is provided for unlawful disclosures of information thus obtained.

WAR PROFITS AND EXCESS PROFITS TAX.

Upon net income of corporation for 1918 (in addition to other taxes imposed by this act), first 30% of amount of net income in excess of excess-profits credit (viz., an exemption of $3,000 plus 8% of invested capital), and not in excess of 20% of invested capital; second, 65% of amount of net income in excess of 20% of invested capital; the sum, if any, by which 80% of the amount of the net income in excess of the war profits credit exceeds the amount of the tax computed under first and second.

"Pre-war period" means calendar years 1911, 1912, and 1913.

War Profits Credit: 1. Exemption of $3,000. 2 Amount equal to average net income for pre-war period, plus or minus, 10% of the difference between the average invested capital for the pre-war period and the invested capital for the taxable year. If no income for pre-war period specific exemption of $3,000 and amount equal to 10% of invested capital for the taxable year; if corporation was not in existence for at least one year during pre-war period specific exemption of $3,000 and amount equal to same percentage of invested capital of taxpayer for taxable year as average percentage of net income to invested capital for prewar period of corporation engaged in trade or business of same general nature; in no case to be less than 10% of the invested capital of taxpayer for taxable year.

For the taxable year 1919 20% of amount of net income in excess of excess-profits credit and not in excess of 20% of invested capital, 40% of amount of net income in excess of 20% of invested capital; but, for 1919 and after, from corporations deriving a net income of over $10,000 from any Government contract or contracts made between April 6, 1917, and November 11, 1918, the proportion of net income due to Government contracts shall be taxed at same rates as corporation taxes of 1918; the proportion of net income not due to Government contracts shall be taxed at rates of corporation taxes of 1919.

Net losses, proved by evidence satisfactory to the Commissioner for any taxable year, may be deducted from net income of preceding taxable year and taxation for that year redetermined; amount found due to be credited or refunded.

Payment of Tax at Source: Individuals, corporations, and partnerships, having control of rent, salaries, wages, etc., fixed or determinable annual or periodical profits and income of non-resident alien individuals, shall deduct and withhold a tax equal to 8%; in the case of foreign corporations not engaged in trade or business within the United States, and not having any office or place of business in United States, 10% withheld.

Affiliated corporations shall make consolidated returns under regulations prescribed by Commissioner of Internal Revenue, with approval of Secretary of Treasury.

ESTATE TRANSFERS.

Percentages of value of net estate imposed upon transfer of decedents, resident or non-resident, dying after passage of this act: Not in excess of $50,000, 1%; $50,000 to $150,000, 2%; $150,000 to $250,000, 3%; $250,000 to $450,000, 4%; $450,000 to $750,000, 6%; $750,000 to $1,000,000, 8%; $1,000,000 to $1,500,000, 10%; $1,500,000 to $2,000,000, 12%; $2,000,000 to $3,000,000, 14%; $3,000,000 to $4,000,000, 16%; $4,000,000 to $5,000,000, 18%; $5,000,000 to $8,000,000, 20%; $8,000,000 to $10,000,000, 22%; in excess of $10,000,000, 25%.

These taxes do not apply to estate of any decedent who has died or may die while serving in United States military or naval forces, or from injuries received or disease contracted while in such service.

Deductions and Exemptions From Estate Transfer Tax: In general, funeral, and administration expenses, claims against estate, unpaid mortgages, etc., identifiable shares of estates of persons who have died within five years prior to decedent; bequests, legacies, gifts, etc., to charities and for public purposes.

In cases of non-residents funeral and administration expenses are to be apportioned as against property in and not in United States.

TRANSPORTATION.

Three per cent. on freight by rail, water, or other mechanical motor power; 1 cent for each 20 cents (or fraction) paid for carriage of freight; 8% of passenger fares where ticket or order is sold in United States. (Commutation less than 30 miles and fares not over 42 cents, exempt); 8% on parlor and sleeping car seats and berths; 8% on pipeline oil carriage; 5 cents per message, telegraph, cable, etc , 14 to 50 cents; over 50 cents, 10 cents.

Insurance Taxes: Marine, inland, fire, and casualty, 1 cent on each dollar (or fraction), of premium.

BEVERAGES.

On all distilled spirits now in bond or that have been or may hereafter be produced or imported into United States, $2.20 (if for beverage purposes, $6 40) on each proof gallon, to be paid by distiller or importer when withdrawn.

On all perfumes hereafter imported into United States containing distilled spirits, $1 10 per wine gallon.

No distilled spirits produced after October 31, 1917, shall be imported into United States from any foreign country (unless imported for other than beverage purposes).

Upon distilled spirits (for beverage purposes), on which internal revenue tax has been paid, a floor tax of $3.20 on each proof gallon.

On distilled spirits and wines hereafter rectified, purified, or refined, 30 cents on each proof gallon; on such heretofore produced, 15 cents floor tax. On beer, ale, porter, etc., containing ½% or more alcohol, $6 per barrel of not over 31 gallons. On wines containing up to 14% alcohol, 16 cents per wine gallon; 14 to 21%, 40 cents; 21 to 24%, $1; wines containing more than 24% are classed as distilled spirits. On each bottle of champagne or sparkling wine (when sold or removed for consumption or sale), 12 cents per half pint; on carbonated wine, liquors, cordials, etc., 6 cents per half pint. Grape juice, ginger ale, sarsaparilla, etc , 10% of price for which sold; mineral and table waters, 2 cents per gallon; ice cream sodas, sundaes, etc., 1 cent for each 10 cents or fraction.

HOME MADE WINES.

Wines produced for the family use of duly registered producer, not sold or removed from place of manufacture and not exceeding in any case 200 gallons per year, are free from taxation, subject to regulations prescribed by Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury.

TOBACCO.

Tax on Cigars, Tobacco, Etc.: On cigars weighing not over 3 pounds per 1,000, $1.50 per 1,000; over 3 pounds, to retail at not over 5 cents each, $4 per 1,000; at 5 to 8, $6; 8 to 15, $9; 15 to 20, $12; at more than 20 cents each, $15 per 1,000. On cigarettes, not over 3 pounds per 1,000, $3 per 1,000; over 3 pounds, $7.20; on tobacco and snuff, 18 cents per pound; cigarette papers, 25 to 50 papers, half cent; 50 to 100 papers, 1 cent; more than 100, half cent for each 50; on tubes, 1 cent for each 50 tubes.

THEATRES AND SHOWS

Taxes on Admissions and Dues: For admissions, 1 cent for each 10 cents or fraction; on tickets sold at newsstands, hotels, etc , at not to exceed 50 cents advance, 5% of the advanced price; if advance over 50 cents, 50%; 1½ cents on admissions to cabarets, roof gardens, etc.

CLUBS.

Where dues or initiation fees of social, athletic or sporting clubs amount to more than $10, 10%; life members to pay at active membership rates annually.

EXCISE TAXES.

Automobile trucks, including tires, 3%; other automobiles and motorcycles, 5%; automobile tires sold to other than manufacturer or producer, 5%; pianos, organs, and phonographs and records, 5%; sporting goods, 10%; chewing gum, 3%; cameras, 10%; films, except movies, 5%; candy, 5%; firearms and ammunition, 10%; hunting and bowie knives, 10%; dirks, daggers, stilettos, brass knuckles, 100%; electric fans, 5%; thermos bottles, 5%; meerschaum and amber pipes and holders, humidors, etc., 10%; vending machines, 5%; weighing machines, 10%; livery and riding boots and garments, 10%; fur garments, 10%;

WAR REVENUE ACT OF 1918—*Continued.*

yachts and motor boats (pleasure), 10%; soaps and powders, 3%; sculptures and paintings, 10% (does not apply to sales by the artist or to a museum).

If tax is not paid when due there shall be added a penalty of 5%, together with interest at the rate of 1% for each full month.

On and after May 1, 1919, there shall be a tax equivalent to 10% of so much of the amount paid for any of the following articles as is in excess of the price hereinafter specified:

Carpets and rugs, $5 per square yard; picture frames, $10 each; trunks, $50 each; valises, travelling bags, suit cases, hat boxes, and fitted toilet cases, $25 each; purses, pocketbooks, shopping and hand bags, $7.50 each; portable lighting fixtures, lamps and lamp shades, $25 each; umbrellas, parasols, and sun shades, $4 each; fans, $1 each; house or smoking coats or jackets, and bath or lounging robes, $7.50 each; men's waistcoats, sold separately from suits, $5 each; women's hats, $15 each; men's hats, $5 each; men's caps, $2 each; shoes and slippers, $10 per pair; men's neckties, $2 each; men's hose, $1 per pair; women's hose, $2 per pair; men's shirts, $3 each; men's, women's, misses', and boys' pajamas, night gowns, and underwear, $5 each; and kimonos, petticoats, and waists, $15 each.

The tax imposed by this section shall not apply to any article if such article is made of, or ornamented, mounted, or fitted with, precious metals or imitations thereof or ivory, or to any article made of fur on the hide or pelt, or of which any such fur is the component material of chief value.

On jewelry, real or imitation, pearls, precious stones and imitations, articles made of, ornamented, mounted or fitted with, precious metals or imitations thereof, or ivory (not including surgical instruments); watches, clocks, opera glasses, lorgnettes, marine and field glasses and binoculars, when sold by dealer for consumption or use, 5% of price for which sold.

For leasing or licensing motion picture films, 5% of total rentals earned during preceding month.

PERFUMES, PILLS, POWDERS.

A tax of 1 cent for each 25 cents (or fraction) paid for toilet articles and proprietary medicines when sold by dealer for consumption or use: *Provided*, That the provisions of this section shall not apply to the sale of vaccines and bacterines which are not advertised to the general lay public, nor to the sale by a physician in personal attendance upon a patient of medicinal preparations not so advertised.

SPECIAL TAXES.

Domestic Corporations: $1 for each $1,000 in excess of $5,000 of fair average value of capital stock for preceding year; foreign corporations, $1 for each $1,000 of average capital employed in business in United States.

In computing the tax, deposits and reserve funds required by law to be kept by insurance companies are not included.

Brokers, $50; if value of seat or exchange membership $2,000 to $5,000, $100; over $5,000, $150; pawnbrokers, $100; ship brokers, $50; Custom House brokers, $50; proprietors of theatres, museums, and concert halls, seating not over 250, $50; 250 to 500, $100; 500 to 800, $150; over 800, $150.

In cities, towns and villages of 5,000 or less, one half of above for theatres, museums, and concert halls.

Circuses, $100; other public exhibitions or shows, $15 (not applicable to Chautauquas, industrial fairs or exhibitions under auspices of religious or charitable bodies).

Bowling alleys and billiard rooms, $10 per alley or table; shooting galleries, $20; riding academies, $100; hiring out automobiles, each auto $10; if seating more than 7, $20.

Brewers, distillers, wholesale and retail liquor, and malt liquor dealers, manufacturers of stills, for Federal licenses in places where such business is contrary to State or local laws, $1,000.

Manufacturers of tobacco, annual sales not over 50,000 pounds, $6; 50,000 to 100,000 pounds, $12; 100,000 to 200,000, $24; over 200,000, $24, and 16 cents per 1000 (or fraction) on excess. Cigar manufacturers up to 50,000 cigars, $4; 50,000 to 100,000, $6; 100,000 to 200,000, $12; 200,000 to 400,000, $24; over 400,000, $24 and 10 cents per 1,000 (or fraction); cigarettes, 6 cents per 10,000 (or fraction).

Yachts, pleasure, motor, sailing boats, length not over 50 feet, $1 for each foot; 50 to 100, $2 per foot; over 100, $4 per foot; motor boats not over 5 net tons with fixed engines, $10. (Boat taxes to be paid July 1, or at time of purchase.)

Opium: Importers and dealers in opium and compounds or derivatives must register name or style with district collector.

Importers, manufacturers, producers or compounders, $24 per year; wholesale dealers, $12; retail, $6; physicians, dentists, veterinary surgeons, $3.

STAMP TAXES

On bonds, certificates of indebtedness, corporate securities, 5 cents on each $100 of face value (or fraction); indemnity and surety bonds, policies of guaranty and fidelity insurance, and all other bonds not otherwise provided for, 50 cents; on each original issue of capital stock, 5 cents on each $100 (or fraction) stamps to be affixed to stock-books, not to certificates; on sales or transfers, 2 cents on each $100; Produce Exchange sales, for each $100, 2 cents; promissory notes, and drafts, up to $100, 2 cents, and 2 cents on each additional $100; deeds (real estate) $100 to $500, 50 cents, for each additional $500, 50 cents; Custom House entries, up to $100, 25 cents; $100 to $500, 50 cents, over $500, $1; for withdrawals, 50 cents; passage tickets (on vessels), sold or issued in U. S. to place not in U. S., Canada or Mexico, $10 to $30, $1; $30 to $60, $3; over $60, $5; proxies for voting at election of officers, or at business meetings, 10 cents; powers of attorney, 25 cents (not applicable to pensions, back-pay-bounty, or claims from U. S., or to those required in bankruptcy cases); playing cards, 8 cents per pack; parcel post packages, 1 cent for each 25 cents of postage.

CHILD LABOR EMPLOYMENT TAX.

Persons operating mines in which children under 16 are or have been permitted to work during any part of taxable year; or mill, cannery, work-shop or factory in which children under 14 have been permitted to work; or between 14 and 16, more than 8 hours per day, or more than 6 days in any week; or after 7 P. M., or before 6 A. M., in addition to all other taxes, 10% of entire net profits.

In computing net profits, deductions from gross amount allowed of cost of raw materials, running expenses (rentals, repairs, maintenance, heat, power, insurance, management, salaries and depreciation, interest on business debts or loans, taxes, losses).

BRITISH INCOME TAX PAYERS.

UNDER the new British Income Tax Law the returns (1918-1919), showed that 3,406,000 persons were chargeable (out of a total population of over 45,000,000) with the tax, and 1,940,000 others were relieved of the tax by abatements and allowances. The super-tax payers numbered 59,100, of whom 36,535 had a super-income of $12,177 to $24,332; 906 had a super-income of $97,331 to $121,665, and 148 had an income exceeding $486,666. Of the ordinary tax payers, 28,900 had an income of $9,734 to $12,166; 900,000 had an income of $633 to $779; 820,000 had an income of $780 to $973; and 443,000 had an income of $974 to $1,216.

The net incomes reported on separate returns made by husband and wife in 1916 are combined and included as one return in the figures for the several classes. In 1914, 1915, and 1917 the returns of married women filed separately are included in their individual income classes independent of husband's income.

PRODUCTION OF DISTILLED SPIRITS, 1917.

(In tax, gallons, 1916 production figures in parenthesis.)

California and Nevada, 17,851,482 (11,845,251); Connecticut, 132,054 (127,215); Rhode Island, 224 (237); Hawaii, 14,010 (13,672); Illinois, 79,320,617 (66,868,865); Indiana, 43,361,275 (51,108,395); Kentucky, 36,441,777 (33,254,130); Louisiana and Mississippi, 26,545,832 (23,291,661); Maryland, Pennsylvania, 24,965,320 (3,327,842); District of Columbia, 608,812 (1,664,389); Massachusetts, 12,511,238 (11,609,189); Michigan, 819,907 (2,575,375); Missouri, 289,660 (194,172); Montana, Idaho and Utah, 244,772 (52,386); Nebraska, 2,938,594 (2,476,219); New Jersey, 54,493 (56,158); New Mexico and Arizona, 314 (296); New York, 13,856,053 (13,802,024); Ohio, 10,114,572 (12,448,348); Pennsylvania, 12,190,763 (14,408,130); South Carolina, 1,159,308 (1,179,890); Texas, 13,904; Virginia, 122,957 (547,560); Wisconsin, 2,527,244 (2,428,460). Total, 286,085,463 (253,283,273).

Wyoming produced 259 gallons in 1917. The total for United States includes 8,521,097 gallons of fruit brandy.

Note—Since September 10, 1917, distillation of spirits for beverage purposes has been prohibited, and no grain has been lawfully used since then in making beverage spirits.

The amount of whiskey held in bond in Government warehouses on September 1, 1918, was between 100,000,000 gallons and 120,000,000 gallons. There was also estimated to be in the hands of dealers, tax paid, approximately 30,000,000 gallons at that time.

Grain used in making distilled spirits in United States in 1917: Corn, 33,973,268 bushels; rye, 2,375,439 bushels; malt, 4,239,677 bushels; wheat, 2,533 bushels; barley, 148 bushels; oats, 6,730 bushels; other materials, 72,172 bushels; molasses, 112,497,633 gallons; dilute saccharine liquid, 78,462,969 gallons.

The estimated average yield per bushel of grain used for the production of spirits, was 4.62+ gallons of spirits. The estimated average yield per gallon of commercial molasses used for the production of spirits was 0.757+ of a gallon. The average yield per gallon of commercial molasses used for the production of rum was 0.788+ of a gallon. The average yield per gallon of dilute liquid containing small quantities of saccharine matter used for the production of spirits was 0.39+ of a gallon

GALLONS OF SPIRITS RECTIFIED, YEAR ENDED JUNE 30, 1917.

(The figures represent gallons.)

a Consolidated and reported above as excise taxes, revenue act 1917.

NOTE—Collections from sale of parcel post and other adhesive stamps for the fiscal year 1919 reported by the Postmaster General under revenue act of 1918, not included, amounted to $10,199,466

Beer brewed in the United States was estimated at 58,633,624 barrels in 1916; 60,817,379 barrels in 1917; 42,000,000 barrels in 1918; and 30,000,000 barrels in 1919.

WHAT AMERICANS DRINK.

[SOURCE—The production of domestic wines has been estimated by the Department of Agriculture by J. W. Schopp of Bonfortis Wine and Spirit Circular (Inc.), New York, and others. The production of domestic spirituous and malt liquors has been derived from the reports of the Commissioner of Internal Revenue. The table does not include for any year withdrawals of distilled spirits for scientific purposes and for use of the United States, or since 1906 withdrawals for denaturation, free of tax. For 1916 these amounts were 2,745,790 and 84,532,253 tax gallons, respectively.]

NOTE—Owing to changes in the internal revenue laws, spirits distilled from fruits cannot be separately stated in 1918. This applies also to 1918 figures in second column of the table.

Consumption per capita in gallons: Distilled spirits (1850) 2.24; (1900) 1.28; (1917) 1.60; (1918) 1.12. Wines (1850) 0.27; (1900) 0.39; (1917) 0.41; (1918) 0.28. Malt liquors (1850) 1.58; (1900) 16.09; (1917) 17.95; (1918) 14.59. Total for all kinds (1850) 4.08; (1900) 17.76; (1917) 19.95; (1918) 16.0.

According to Section 3,249, United States Revised Statutes, "proof spirits shall be held to be that alcoholic liquor which contains one-half its volume of alcohol of a specific gravity of 0.7939 at 60° Fahrenheit." The official gallon prescribed is one containing 231 cubic inches, or 58,372.2 grains, equal to 8.3389 pounds of distilled water at its maximum density, weighed in air of temperature of 62° Fahrenheit and barometric pressure of 30 inches. The taxable gallon differs from the proof gallon by reason of the fact that in computing taxable gallons under Section 3,251, Revised Statutes, all fractional parts of a gallon less than one-tenth are excluded.

THE NATIONAL PROHIBITION ACT.

(THIS act, also known as the Prohibition Enforcement Measure, was introduced in the House June 27, 1919, and was passed there July 22 by 287 to 100. It passed the Senate, with amendments, September 5. In final form the conference bill passed the Senate October 8, and the House October 10, by 230 to 69. President Wilson vetoed the bill October 27, holding that war time prohibition was no longer necessary. The House at once repassed the bill, 176 to 55. The Senate also overrode the veto, October 28, by a vote of 65 to 20.)

AN ACT—To prohibit intoxicating beverages, and to regulate the manufacture, production, use, and sale of high-proof spirits for other than beverage purposes, and to insure an ample supply of alcohol and promote its use in scientific research and in the development of fuel, dye, and other lawful industries.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that the short title of this act shall be the "National Prohibition Act."

TITLE I.

TO PROVIDE FOR THE ENFORCEMENT OF WAR PROHIBITION.

The term "War Prohibition Act" used in this act shall mean the provisions of any act or acts prohibiting the sale and manufacture of intoxicating liquors until the conclusion of the present war and thereafter until the termination of demobilization, the date of which shall be determined and proclaimed by the President of the United States. The words "beer, wine, or other intoxicating malt or vinous liquors" in the War Prohibition Act shall be hereafter construed to mean any such beverages which contain one-half of 1 per centum or more of alcohol by volume: *Provided*, That the foregoing definition shall not extend to dealcoholized wine nor to any beverage or liquid produced by the process by which beer, ale, porter, or wine is produced, if it contains less than one-half of 1 per centum of alcohol by volume, and is made as prescribed in section 37 of Title II. of this act, and is otherwise denominated than as beer, ale, or porter, and is contained and sold in, or from, such sealed and labeled bottles, casks, or containers as the Commissioner may by regulation prescribe.

SEC. 2. The Commissioner of Internal Revenue, his assistants, agents, and inspectors, shall investigate and report violations of the War Prohibition Act to the United States Attorney for the district in which committed, who shall be charged with the duty of prosecuting, subject to the direction of the Attorney-General, the offenders as in the case of other offenses against laws of the United States; and such Commissioner of Internal Revenue, his assistants, agents, and inspectors may swear out warrants before United States Commissioners or other officers or courts authorized to issue the same for the apprehension of such offenders, and may, subject to the control of the said United States Attorney, conduct the prosecution at the committing trial for the purpose of having the offenders held for the action of a Grand Jury.

SEC. 3. Any room, house, building, boat, vehicle, structure, or place of any kind where intoxicating liquor is sold, manufactured, kept for sale, or bartered in violation of the War Prohibition Act, and all intoxicating liquor and all property kept and used in maintaining such a place, is hereby declared to be a public and common nuisance, and any person who maintains or assists in maintaining such public and common nuisance shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not less than $100 nor more than $1,000, or be imprisoned for not less than thirty days or more than one year, or both. If a person has knowledge that his property is occupied or used in violation of the provisions of the War Prohibition Act and suffers the same to be so used, such property shall be subject to a lien for and may be sold to pay all fines and costs assessed against the occupant of such building or property for any violation of the War Prohibition Act occurring after the passage hereof, which said lien shall attach from the time of the filing of notice of the commencement of the suit in the office where the records of the transfer of real estate are kept; and any such lien may be established and enforced by legal action instituted for that purpose in any court having jurisdiction. Any violation of this title upon any leased premises by the lessee or occupant thereof shall, at the option of the lessor, work a forfeiture of the lease.

SEC. 4. The United States Attorney for the district where such nuisance as is defined in this act exists, or any officer designated by him or the Attorney-General of the United States, may prosecute a suit in equity in the name of the United States to abate and enjoin the same. Actions in equity to enjoin and abate such nuisances may be brought in any court having jurisdiction to hear and determine equity causes. The jurisdiction of the courts of the United States under this section shall be concurrent with that of the courts of the several States.

If it be made to appear by affidavit, or other evidence under oath, to the satisfaction of the court, or judge in vacation, that the nuisance complained of exists, a temporary writ of injunction shall forthwith issue restraining the defendant or defendants from conducting or permitting the continuance of such nuisance until the conclusion of the trial. Where a temporary injunction is prayed for, the court may issue an order restraining the defendants and all other persons from removing or in any way interfering with the liquor or fixtures, or other things used in connection with the violation constituting the nuisance. No bond shall be required as a condition for making any order or issuing any writ of injunction under this act. If the court shall find the property involved was being unlawfully used as aforesaid at or about the time alleged in the petition, the court shall order that no liquors shall be manufactured, sold, bartered, or stored in such room, house, building, boat, vehicle, structure, or places of any kind, for a period of not exceeding one year, or during the war and the period of demobilization. Whenever an action to enjoin a nuisance shall have been brought pursuant to the provisions of this act, if the owner, lessee, tenant, or occupant appears and pays all costs of the proceedings and files a bond, with sureties to be approved by the clerk of the court in which the action is brought, in the liquidated sum of not less than $500 nor more than $1,000, conditioned that he will immediately abate said nuisance and prevent the same from being established or kept therein a period of one year thereafter, or during the war and period of demobilization, the court, or in vacation the judge, may, if satisfied of his good faith, direct by appropriate order that the property, if already closed or held under the order of abatement, be delivered to said owner, and said order of abatement canceled, so far as the same may relate to said property; or if said bond be given and costs therein paid before judgment on an order of abatement, the action shall be thereby abated as to said room, house, building, boat, vehicle, structure, or place only. The release of the property under the provisions of this section shall not release it from any judgment, lien, penalty, or liability to which it may be subject by law.

In the case of the violation of any injunction, temporary or permanent, granted pursuant to the provisions of this title, the court, or in vacation a judge thereof, may summarily try and punish the defendant. The proceedings for punishment for contempt shall be commenced by filing with the clerk of the court from which such injunction issued information under oath setting out the alleged facts constituting the violation, whereupon the court or judge shall forthwith cause a warrant to issue under which the defendant shall be arrested. The trial may be had upon affidavits, or either party may demand the production and oral examination of the witnesses. Any person found guilty of contempt under the provisions of this section shall be punished by a fine of not less than $500 nor more than $1,000, or by imprisonment of not less than thirty days nor more than twelve months, or by both fine and imprisonment.

SEC. 5. The Commissioner of Internal Revenue, his assistants, agents, and inspectors, and all other officers of the United States whose duty it is to enforce criminal laws, shall have all the power for the enforcement of the War Prohibition Act or any provisions thereof which is conferred by law for the enforcement of existing laws relating to the manufacture or sale of intoxicating liquors under the laws of the United States.

SEC. 6. If any section or provision of this act shall be held to be invalid, it is hereby provided that all other provisions of this act which are not expressly held to be invalid shall continue in full force and effect.

SEC. 7. None of the provisions of this act shall be construed to repeal any of the provisions of the "War Prohibition Act," or to limit or annul any order or regulation prohibiting the manufacture, sale, or

disposition of intoxicating liquors within certain prescribed zones or districts, nor shall the provisions of this act be construed to prohibit the use of the power of the military or naval authorities to enforce the regulations of the President or Secretary of War or Navy issued in pursuance of law, prohibiting the manufacture, use, possession, sale, or other disposition of intoxicating liquors during the period of the war and demobilization thereafter.

TITLE II

Prohibition of Intoxicating Beverages.

Sec. 1. When used in Title II. and Title III. of this act (1) the word "liquor" or the phrase "intoxicating liquor" shall be construed to include alcohol, brandy, whiskey, rum, gin, beer, ale, porter, and wine, and in addition thereto any spirituous, vinous, malt, or fermented liquor, liquids, and compounds, whether medicated, proprietary, patented, or not, and by whatever name called, containing one-half of 1 per centum or more of alcohol by volume which are fit for use for beverage purposes: *Provided*, That the foregoing definition shall not extend to dealcoholized wine nor to any beverage or liquid produced by the process by which beer, ale, porter, or wine is produced, if it contains less than one-half of 1 per centum of alcohol by volume, and is made as prescribed in Section 37 of this title, and is otherwise denominated than as beer, ale, or porter, and is contained and sold in, or from, such sealed and labeled bottles, casks, or containers as the Commissioner may by regulation prescribe.

(2) The word "person" shall mean and include natural persons, associations, co-partnerships, and corporations

(3) The word "commissioner" shall mean Commissioner of Internal Revenue.

(4) The term "application" shall mean a formal written request supported by a verified statement of facts showing that the Commissioner may grant the request.

(5) The term "permit" shall mean a formal written authorization by the Commissioner setting forth specifically therein the things that are authorized.

(6) The term "bond" shall mean an obligation authorized or required by or under this act or any regulation, executed in such form and for such a penal sum as may be required by a court, the Commissioner, or prescribed by regulation.

(7) The term "regulation" shall mean any regulation prescribed by the Commissioner with the approval of the Secretary of the Treasury for carrying out the provisions of this act, and the Commissioner is authorized to make such regulations

Any act authorized to be done by the Commissioner may be performed by any assistant or agent designated by him for that purpose. Records required to be filed with the Commissioner may be filed with an Assistant Commissioner or other person designated by the Commissioner to receive such records.

Sec. 2 The Commissioner of Internal Revenue, his assistants, agents, and inspectors shall investigate and report violations of this act to the United States Attorney for the district in which committed, who is hereby charged with the duty of prosecuting the offenders, subject to the direction of the Attorney-General, as in the case of other offenses against the laws of the United States; and such Commissioner of Internal Revenue, his assistants, agents, and inspectors may swear out warrants before United States Commissioners or other officers or courts authorized to issue the same for the apprehension of such offenders, and may, subject to the control of the said United States Attorney, conduct the prosecution at the committing trial for the purpose of having the offenders held for the action of a Grand Jury. Section 1014, of the Revised Statutes of the United States, is hereby made applicable in the enforcement of this act. Officers mentioned in said Section 1014 are authorized to issue search warrants under the limitations provided in Title XI. of the act approved June 15, 1917 (Fortieth Statutes at Large, Page 217, et seq.).

Sec. 3. No person shall on or after the date when the Eighteenth Amendment to the Constitution of the United States goes into effect, manufacture, sell, barter, transport, import, export, deliver, furnish, or possess any intoxicating liquor except as authorized in this act, and all the provisions of this act shall be liberally construed to the end that the use of intoxicating liquor as a beverage may be prevented.

Liquor for non-beverage purposes and wine for sacramental purposes may be manufactured, purchased, sold, bartered, transported, imported, exported, delivered, furnished, and possessed, but only as herein provided, and the Commissioner may, upon application, issue permits therefor: *Provided*, That nothing in this act shall prohibit the purchase and sale of warehouse receipts covering distilled spirits on deposit in Government bonded warehouses, and no special tax liability shall attach to the business of purchasing and selling such warehouse receipts.

Sec. 4. The articles enumerated in this section shall not, after having been manufactured and prepared for the market, be subject to the provisions of this act if they correspond with the following descriptions and limitations, namely:

(a) Denatured alcohol or denatured rum produced and used as provided by laws and regulations now or hereafter in force.

(b) Medicinal preparations manufactured in accordance with formulas prescribed by the United States Pharmacopœia, National Formulary, or the American Institute of Homeopathy that are unfit for use for beverage purposes

(c) Patented, patent, and proprietary medicines that are unfit for use for beverage purposes.

(d) Toilet, medicinal, and antiseptic preparations and solutions that are unfit for use for beverage purposes.

(e) Flavoring extracts and syrups that are unfit for use as a beverage, or for intoxicating beverage purposes.

(f) Vinegar and preserved sweet cider.

A person who manufactures any of the articles mentioned in this section may purchase and possess liquor for that purpose, but he shall secure permits to manufacture such articles and to purchase such liquor, give the bonds, keep the records, and make the reports specified in this act and as directed by the Commissioner. No such manufacturer shall sell, use, or dispose of any liquor otherwise than as an ingredient of the articles authorized to be manufactured therefrom. No more alcohol shall be used in the manufacture of any extract, syrup, or the articles named in paragraphs b, c, and d of this section, which may be used for beverage purposes than the quantity necessary for extraction or solution of the elements contained therein and for the preservation of the article.

Any person who shall knowingly sell any of the articles mentioned in Paragraphs a, b, c, and d of this section for beverage purposes, or any extract or syrup for intoxicating beverage purposes, or who shall sell any of the same under circumstances from which the seller might reasonably deduce the intention of the purchaser to use them for such purposes, or shall sell any beverage containing one-half of 1 per centum or more of alcohol by volume in which any extract, syrup, or other article is used as an ingredient, shall be subject to the penalties provided in Section 29 of this Title. If the Commissioner shall find after notice and hearing as provided for in Section 5 of this Title, that any person has sold any flavoring extract, syrup, or beverage in violation of this paragraph, he shall notify such person, and any known principal for whom the sale was made, to desist from selling such article; and it shall thereupon be unlawful for a period of one year thereafter for any person so notified to sell any such extract, syrup, or beverage without making an application for, giving a bond, and obtaining a permit so to do, which permit may be issued upon such conditions as the Commissioner may deem necessary to prevent such illegal sales, and in addition the Commissioner shall require a record and report of sales.

Sec 5. Whenever the Commissioner has reason to believe that any article mentioned in Section 4 does not correspond with the descriptions and limitations therein provided he shall cause an analysis of

said article to be made, and if, upon such analysis, the Commissioner shall find that said article does not so correspond, he shall give not less than fifteen days' notice in writing to the person who is the manufacturer thereof to show cause why said article should not be dealt with as an intoxicating liquor, such notice to be served personally or by registered mail, as the Commissioner may determine, and shall specify the time when, the place where, and the name of the agent or official before whom such person is required to appear.

If the manufacturer of said article fails to show to the satisfaction of the Commissioner that the article corresponds to the descriptions and limitations provided in Section 4 of this Title, his permit to manufacture and sell such article shall be revoked. The manufacturer may by appropriate proceeding in a court of equity have the action of the Commissioner reviewed, and the court may affirm, modify, or reverse the finding of the Commissioner as the facts and law of the case may warrant, and during the pendency of such proceedings may restrain the manufacture, sale, or other disposition of such article.

SEC. 6. No one shall manufacture, sell, purchase, transport, or prescribe any liquor without first obtaining a permit from the Commissioner so to do, except that a person may, without a permit, purchase and use liquor for medicinal purposes when prescribed by a physician as herein provided, and except that any person who in the opinion of the Commissioner is conducting a bona fide hospital or sanatorium engaged in the treatment of persons suffering from alcoholism, may, under such rules, regulations, and conditions as the Commissioner shall prescribe, purchase, and use, in accordance with the methods in use in such institution, liquor, to be administered to the patients of such institution under the direction of a duly qualified physician employed by such institution.

All permits to manufacture, prescribe, sell, or transport liquor, may be issued for one year, and shall expire on the 31st day of December next succeeding the issuance thereof: *Provided*, That the Commissioner may without formal application or new bond extend any permit granted under this act or laws now in force after August 31 in any year to December 31 of the succeeding year: *Provided further*, That permits to purchase liquor for the purpose of manufacturing or selling as provided in this act shall not be in force to exceed ninety days from the day of issuance. A permit to purchase liquor for any other purpose shall not be in force to exceed thirty days Permits to purchase liquor shall specify the quantity and kind to be purchased and the purpose for which it is to be used. No permit shall be issued to any person who within one year prior to the application therefor or issuance thereof shall have violated the terms of any permit issued under this Title or any law of the United States or of any State regulating traffic in liquor. No permit shall be issued to any one to sell liquor at retail, unless the sale is to be made through a pharmacist designated in the permit and duly licensed under the laws of his State to compound and dispense medicine prescribed by a duly licensed physician. No one shall be given a permit to prescribe liquor unless he is a physician duly licensed to practice medicine and actively engaged in the practice of such profession. Every permit shall be in writing, dated when issued, and signed by the Commissioner or his authorized agent. It shall give the name and address of the person to whom it is issued and shall designate and limit the acts that are permitted and the time when and place where such acts may be performed. No permit shall be issued until a verified, written application shall have been made therefor, setting forth the qualification of the applicant and the purpose for which the liquor is to be used.

The Commissioner may prescribe the form of all permits and applications and the facts to be set forth therein. Before any permit is granted the Commissioner may require a bond in such form and amount as he may prescribe to insure compliance with the terms of the permit and the provisions of this title. In the event of the refusal by the Commissioner of any application for a permit, the applicant may have a review of his decision before a court of equity in the manner provided in Section 5 hereof.

Nothing in this title shall be held to apply to the manufacture, sale, transportation, importation, possession, or distribution of wine for sacramental purposes, or like religious rites, except Section 6 (save as the same requires a permit to purchase), and Section 10 hereof, and the provisions of this act prescribing penalties for the violation of either of said sections. No person to whom a permit may be issued to manufacture, transport, import, or sell wines for sacramental purposes or like religious rites shall sell, barter, exchange, or furnish any such to any person not a rabbi, minister of the gospel, priest, or an officer duly authorized for the purpose by any church or congregation, nor to any such except upon an application duly subscribed by him, which application, authenticated as regulations may prescribe, shall be filed and preserved by the seller. The head of any conference or diocese or other ecclesiastical jurisdiction may designate any rabbi, minister, or priest to supervise the manufacture of wine to be used for the purposes and rites in this section mentioned, and the person so designated may, in the discretion of the Commissioner, be granted a permit to supervise such manufacture.

SEC. 7. No one but a physician holding a permit to prescribe liquor shall issue any prescription for liquor. And no physician shall prescribe liquor unless after careful physical examination of the person for whose use such prescription is sought, or if such examination is found impracticable, then upon the best information obtainable, he in good faith believes that the use of such liquor as a medicine by such person is necessary and will afford relief to him from some known ailment. Not more than a pint of spirituous liquor to be taken internally shall be prescribed for use by the same person within any period of ten days and no prescription shall be filled more than once. Any pharmacist filling a prescription shall at the time indorse upon it over his own signature the word "canceled," together with the date when the liquor was delivered, and then make the same a part of the record that he is required to keep as herein provided.

Every physician who issues a prescription for liquor shall keep a record, alphabetically arranged in a book prescribed by the Commissioner, which shall show the date of issue, amount prescribed, to whom issued, the purpose or ailment for which it is to be used and directions for use, stating the amount and frequency of the dose.

SEC. 8. The Commissioner shall cause to be printed blanks for the prescriptions herein required, and he shall furnish the same, free of cost, to physicians holding permits to prescribe. The prescription blanks shall be printed in book form and shall be numbered consecutively from one to one hundred, and each book shall be given a number, and the stubs in each book shall carry the same numbers as and be copies of the prescriptions. The books containing such stubs shall be returned to the Commissioner when the prescription blanks have been used, or sooner if directed by the Commissioner. All unused, mutilated, or defaced blanks shall be returned with the book. No physician shall prescribe and no pharmacist shall fill any prescription for liquor except on blanks so provided, except in cases of emergency, in which event a record and report shall be made and kept as in other cases.

SEC 9. If at any time there shall be filed with the Commissioner a complaint under oath setting forth facts showing, or if the Commissioner has reason to believe, that any person who has a permit is not in good faith conforming to the provisions of this act, or has violated the laws of any State relating to intoxicating liquor, the Commissioner or his agent shall immediately issue an order citing such person to appear before him on a day named not more than thirty and not less than fifteen days from the date of service upon such permittee of a copy of the citation, which citation shall be accompanied by a copy of such complaint, or in the event that the proceedings be initiated by the Commissioner, with a statement of the facts constituting the violation charged, at which time a hearing shall be had unless continued for cause. Such hearings shall be held within the judicial district and within fifty miles of the place where the offense is alleged to have occurred, unless the parties agree on another place If it be found that such person has been guilty of wilfully violating any such laws, as charged, or has not in good faith conformed to the provisions of this act, such permit shall be revoked, and no permit shall be granted to such person within one year thereafter. Should the permit be revoked by the Commissioner, the permittee may have a review of his decision before a court of equity in the manner provided in Section 5 hereof. During the pendency of such action such permit shall be temporarily revoked.

SEC. 10. No person shall manufacture, purchase for sale, sell, or transport any liquor without making at the time a permanent record thereof showing in detail the amount and kind of liquor manufactured, purchased, sold, or transported, together with the names and addresses of the persons to whom sold, in case of sale, and the consignor and consignee in case of transportation, and the time and place of such manufacture, sale, or transportation. The Commissioner may prescribe the form of such record, which shall at all times be open to inspection as in this act provided.

SEC. 11. All manufacturers and wholesale or retail druggists shall keep as a part of the records required of them a copy of all permits to purchase on which a sale of any liquor is made, and no manufacturer or wholesale druggist shall sell or otherwise dispose of any liquor except at wholesale, and only to persons having permits to purchase in such quantities.

SEC. 12. All persons manufacturing liquor for sale under the provisions of this title shall securely and permanently attach to every container thereof, as the same is manufactured, a label stating name of manufacturer, kind and quantity of liquor contained therein, and the date of its manufacture, together with the number of the permit authorizing the manufacture thereof; and all persons possessing such liquor in wholesale quantities shall securely keep and maintain such label thereon; and all persons selling at wholesale shall attach to every package of liquor, when sold, a label setting forth the kind and quantity of liquor contained therein, by whom manufactured, the date of sale, and the person to whom sold; which label shall likewise be kept and maintained thereon until the liquor is used for the purpose for which such sale was authorized.

SEC. 13. It shall be the duty of every carrier to make a record at the place of shipment of the receipt of any liquor transported, and he shall deliver liquor only to persons who present to the carrier a verified copy of a permit to purchase, which shall be made a part of the carrier's permanent record at the office from which delivery is made.

The agent of the common carrier is hereby authorized to administer the oath to the consignee in verification of the copy of the permit presented, who, if not personally known to the agent, shall be identified before the delivery of the liquor to him. The name and address of the person identifying the consignee shall be included in the record.

SEC. 14. It shall be unlawful for a person to use or induce any carrier, or any agent or employé thereof, to carry or ship any package or receptacle containing liquor without notifying the carrier of the true nature and character of the shipment. No carrier shall transport nor shall any person receive liquor from a carrier unless there appears on the outside of the package containing such liquor the following information:

Name and address of the consignor or seller, name and address of the consignee, kind and quantity of liquor contained therein, and number of the permit to purchase or ship the same, together with the name and address of the person using the permit.

SEC. 15. It shall be unlawful for any consignee to accept or receive any package containing any liquor upon which appears a statement known to him to be false, or for any carrier or other person to consign, ship, transport, or deliver any such package, knowing such statement to be false.

SEC. 16. It shall be unlawful to give to any carrier or any officer, agent, or person acting or assuming to act for such carrier an order requiring the delivery to any person of any liquor or package containing liquor consigned to, or purporting or claimed to be consigned to, a person when the purpose of the order is to enable any person not an actual bona fide consignee to obtain such liquor.

SEC. 17. It shall be unlawful to advertise anywhere, or by any means or method, liquor, or the manufacture, sale, keeping for sale, or furnishing of the same, or where, how, from whom, or at what price the same may be obtained. No one shall permit any sign or billboard containing such advertisement to remain upon one's premises. But nothing herein shall prohibit manufacturers and wholesale druggists holding permits to sell liquor from furnishing price lists, with description of liquor for sale, to persons permitted to purchase liquor, or from advertising alcohol in business publications, or trade journals circulating generally among manufacturers of lawful alcoholic perfumes, toilet preparations, flavoring extracts, medicinal preparations, and like articles: *Provided, however*, That nothing in this act or in the act making appropriations for the Post Office Department, approved March 3, 1917 (Thirty-ninth Statutes at Large, Part 1, Page 1058, et seq.), shall apply to newspapers published in foreign countries when mailed to this country.

SEC. 18. It shall be unlawful to advertise, manufacture, sell, or possess for sale any utensil, contrivance, machine, preparation, compound, tablet, substance, formula direction, or recipe advertised, designed, or intended for use in the unlawful manufacture of intoxicating liquor.

SEC. 19. No person shall solicit or receive, nor knowingly permit his employé to solicit or receive, from any person any order for liquor or give any information of how liquor may be obtained in violation of this act.

SEC. 20. Any person who shall be injured in person, property, means of support, or otherwise by any intoxicated person, or by reason of the intoxication of any person, whether resulting in his death or not, shall have a right of action against any person who shall, by unlawfully selling to or unlawfully assisting in procuring liquor for such intoxicated person, have caused or contributed to such intoxication, and in any such action such person shall have a right to recover actual and exemplary damages. In case of the death of either party, the action or right of action given by this section shall survive to or against his or her executor or administrator, and the amount so recovered by either wife or child shall be his or her sole and separate property. Such action may be brought in any court of competent jurisdiction. In any case where parents shall be entitled to such damages, either the father or mother may sue alone therefor, but recovery by one of such parties shall be a bar to suit brought by the other.

SEC. 21. Any room, house, building, boat, vehicle, structure, or place where intoxicating liquor is manufactured, sold, kept, or bartered in violation of this title, and all intoxicating liquor and property kept and used in maintaining the same, is hereby declared to be a common nuisance, and any person who maintains such a common nuisance shall be guilty of a misdemeanor and upon conviction thereof shall be fined not more than $1,000, or be imprisoned for not more than one year, or both. If a person has knowledge or reason to believe that his room, house, building, boat, vehicle, structure, or place is occupied or used for the manufacture or sale of liquor contrary to the provision of this title, and suffers the same to be so occupied or used, such room, house, building, boat, vehicle, structure, or place shall be subject to a lien for and may be sold to pay all fines and costs assessed against the person guilty of such nuisance for such violation, and any such lien may be enforced by action in any court having jurisdiction.

SEC. 22. An action to enjoin any nuisance defined in this title may be brought in the name of the United States by the Attorney General of the United States or by any United States attorney or any prosecuting attorney of any State or any subdivision thereof or by the Commissioner or his deputies or assistants. Such action shall be brought and tried as an action in equity and may be brought in any court having jurisdiction to hear and determine equity cases If it is made to appear by affidavits or otherwise, to the satisfaction of the court, or judge in vacation, that such nuisance exists, a temporary writ of injunction shall forthwith issue restraining the defendant from conducting or permitting the continuance of such nuisance until the conclusion of the trial. If a temporary injunction is prayed for, the court may issue an order restraining the defendant and all other persons from removing or in any way interfering with the liquor or fixtures, or other things used in connection with the violation of this act constituting such nuisance No bond shall be required in instituting such proceedings. It shall not be necessary for the court to find the property involved was being unlawfully used as aforesaid at the time of the hearing, but on finding that the material allegations of the petition are true, the court shall order that no liquors shall be manufactured, sold, bartered, or stored in such room, house, building, boat, vehicle, structure, or place, or any part thereof. And upon judgment of the court ordering such nuisance to be abated, the court may

order that the room, house, building, structure, boat, vehicle, or place shall not be occupied or used for one year thereafter; but the court may, in its discretion, permit it to be occupied or used if the owner, lessee, tenant, or occupant thereof shall give bond with sufficient surety, to be approved by the court making the order, in the penal and liquidated sum of not less than $500 nor more than $1,000, payable to the United States, and conditioned that intoxicating liquor will not thereafter be manufactured, sold, bartered, kept, or otherwise disposed of therein or thereon, and that he will pay all fines, costs, and damages that may be assessed for any violation of this title upon said property.

SEC. 23. That any person who shall, with intent to effect a sale of liquor, by himself, his employé, servant, or agent, for himself or any person, company, or corporation, keep or carry around on his person, or in a vehicle, or other conveyance whatever, or leave in a place for another to secure, any liquor, or who shall travel to solicit, or solicit, or take, or accept orders for the sale, shipment, or delivery of liquor in violation of this title is guilty of a nuisance and may be restrained by injunction, temporary and permanent, from doing or continuing to do any of said acts or things.

In such proceedings it shall not be necessary to show any intention on the part of the accused to continue such violations if the action is brought within sixty days following any such violation of the law.

For removing and selling property in enforcing this act the officer shall be entitled to charge and receive the same fee as the Sheriff of the County would receive for levying upon and selling property under execution, and for closing the premises and keeping them closed a reasonable sum shall be allowed by the court.

Any violation of this title upon any leased premises by the lessee or occupant thereof shall, at the option of the lessor, work a forfeiture of the lease.

SEC. 24. In the case of the violation of any injunction, temporary or permanent, granted pursuant to the provisions of this title, the court, or in vacation a judge thereof, may summarily try and punish the defendant. The proceedings for punishment for contempt shall be commenced by filing with the clerk of the court from which such injunction issued information under oath setting out the alleged facts constituting the violation, whereupon the court or judge shall forthwith cause a warrant to issue under which the defendant shall be arrested. The trial may be had upon affidavits, or either party may demand the production and oral examination of the witnesses. Any person found guilty of contempt under the provisions of this section shall be punished by a fine of not less than $500 nor more than $1,000, or by imprisonment of not less than thirty days nor more than twelve months, or by both fine and imprisonment.

SEC. 25. It shall be unlawful to have or possess any liquor or property designed for the manufacture of liquor intended for use in violating this title or which has been so used, and no property rights shall exist in any such liquor or property. A search warrant may issue as provided in Title XI. of public law numbered 24 of the Sixty-fifth Congress, approved June 15, 1917, and such liquor, the containers thereof, and such property so seized shall be subject to such disposition as the court may make thereof. If it is found that such liquor or property was so unlawfully held or possessed, or had been so unlawfully used, the liquor and all property designed for the unlawful manufacture of liquor shall be destroyed unless the court shall otherwise order No search warrant shall issue to search any private dwelling occupied as such unless it is being used for the unlawful sale of intoxicating liquor, or unless it is in part used for some business purpose such as a store, shop, saloon, restaurant, hotel, or boarding house The term "private dwelling" shall be construed to include the room or rooms used and occupied not transiently but solely as a residence in an apartment house, hotel, or boarding house. The property seized on any such warrant shall not be taken from the officer seizing the same on any writ of replevin or other like process.

SEC. 26. When the Commissioner, his assistants, inspectors, or any officer of the law shall discover any person in the act of transporting in violation of the law, intoxicating liquors in any wagon, buggy, automobile, water or air craft, or other vehicle, it shall be his duty to seize any and all intoxicating liquors found therein being transported contrary to law. Whenever intoxicating liquors transported or possessed illegally shall be seized by an officer he shall take possession of the vehicle and team or automobile, boat, air or water craft, or any other conveyance, and shall arrest any person in charge thereof. Such officer shall at once proceed against the person arrested under the provisions of this title in any court having competent jurisdiction; but the said vehicle or conveyance shall be returned to the owner upon execution by him of a good and valid bond, with sufficient sureties, in a sum double the value of the property, which said bond shall be approved by said officer and shall be conditioned to return said property to the custody of said officer on the day of trial to abide the judgment of the court. The court upon conviction of the person so arrested shall order the liquor destroyed, and unless good cause to the contrary is shown by the owner, shall order a sale by public auction of the property seized, and the officer making the sale, after deducting the expenses of keeping the property, the fee for the seizure, and the cost of the sale, shall pay all liens, according to their priorities, which are established, by intervention or otherwise, at said hearing or in other proceeding brought for said purpose, as being bona fide and as having been created without the lienor having any notice that the carrying vehicle was being used or was to be used for illegal transportation of liquor, and shall pay the balance of the proceeds into the Treasury of the United States as miscellaneous receipts. All liens against property sold under the provisions of this section shall be transferred from the property to the proceeds of the sale of the property. If, however, no one shall be found claiming the team, vehicle, water, or air craft, or automobile, the taking of the same, with a description thereof, shall be advertised in some newspaper published in the city or county where taken, or if there be no newspaper published in such city or county, in a newspaper having circulation in the county, once a week for two weeks, and by handbills posted in three public places near the place of seizure, and if no claimant shall appear within ten days after the last publication of the advertisement, the property shall be sold and the proceeds, after deducting the expenses and costs, shall be paid into the Treasury of the United States as miscellaneous receipts.

SEC 27. In all cases in which intoxicating liquors may be subject to be destroyed under the provisions of this act the court shall have jurisdiction upon the application of the United States Attorney to order them delivered to any department or agency of the United States Government for medicinal, mechanical, or scientific uses, or to order the same sold at private sale for such purposes to any person having a permit to purchase liquor the proceeds to be covered into the Treasury of the United States to the credit of miscellaneous receipts, and all liquor heretofore seized in any suit or proceeding brought for violation of law may likewise be so disposed of, it not claimed within sixty days from the date this section takes effect.

SEC. 28. The Commissioner, his assistants, agents, and inspectors, and all other officers of the United States, whose duty it is to enforce criminal laws, shall have all the power and protection in the enforcement of this act or any provisions thereof which is conferred by law for the enforcement of existing laws relating to the manufacture or sale of intoxicating liquors under the law of the United States.

SEC 29. Any person who manufactures or sells liquor in violation of this title shall for a first offense be fined not more than $1,000, or imprisoned not exceeding six months, and for a second or subsequent offense shall be fined not less than $200 nor more than $2,000, and be imprisoned not less than one month nor more than five years.

Any person violating the provisions of any permit, or who makes any false record, report, or affidavit required by this title, or violates any of the provisions of this title, for which offense a special penalty is not prescribed, shall be fined for a first offense not more than $500; for a second offense not less than $100 nor more than $1,000, or be imprisoned not more than ninety days; for any subsequent offense he shall be fined not less than $500 and be imprisoned not less than three months nor more than two years. It shall be the duty of the prosecuting officer to ascertain whether the defendant has been previously convicted, and to plead the prior conviction in the affidavit, information, or indictment. The penalties provided in this act against the manufacture of liquor without a permit shall not apply to a person for manufacturing

nonintoxicating cider and fruit juices exclusively for use in his home, but such cider and fruit juices shall not be sold or delivered except to persons having permits to manufacture vinegar.

SEC. 30. No person shall be excused, on the ground that it may tend to incriminate him or subject him to a penalty or forfeiture, from attending and testifying, or producing books, papers, documents, and other evidence in obedience to a subpoena of any court in any suit or proceeding based upon or growing out of any alleged violation of this act; but no natural person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing as to which, in obedience to a subpœna and under oath, he may so testify or produce evidence, but no person shall be exempt from prosecution and punishment for perjury committed in so testifying.

SEC. 31 In case of a sale of liquor where the delivery thereof was made by a common or other carrier the sale and delivery shall be deemed to be made in the county or district wherein the delivery was made by such carrier to the consignee, his agent or employe, or in the county or district wherein the sale was made, or from which the shipment was made, and prosecution for such sale or delivery may be had in any such county or district.

SEC. 32. In any affidavit, information, or indictment for the violation of this act, separate offenses may be united in separate counts and the defendant may be tried on all at one trial and the penalty for all offenses may be imposed. It shall not be necessary in any affidavit, information, or indictment to give the name of the purchaser or to include any defensive negative averments, but it shall be sufficient to state that the act complained of was then and there prohibited and unlawful, but this provision shall not be construed to preclude the trial court from directing the furnishing the defendant a bill of particulars when it deems it proper to do so.

SEC. 33. After February 1, 1920, the possession of liquors by any person not legally permitted under this title to possess liquor shall be prima facie evidence that such liquor is kept for the purpose of being sold, bartered, exchanged, given away, furnished, or otherwise disposed of in violation of the provision of this title. Every person legally permitted under this title to have liquor shall report to the Commissioner within ten days after the date when the Eighteenth Amendment of the Constitution of the United States goes into effect, the kind and amount of intoxicating liquors in his possession. But it shall not be unlawful to possess liquors in one's private dwelling while the same is occupied and used by him as his dwelling only and such liquor need not be reported, provided such liquors are for use only for the personal consumption of the owner thereof and his family residing in such dwelling and of his bona fide guests when entertained by him therein; and the burden of proof shall be upon the possessor in any action concerning the same to prove that such liquor was lawfully acquired, possessed, and used.

SEC. 34. All records and reports kept or filed under the provisions of this act shall be subject to inspection at any reasonable hour by the Commissioner or any of his agents or by any public prosecutor or by any person designated by him, or by any peace officer in the State where the record is kept, and copies of such records and reports duly certified by the person with whom kept or filed may be introduced in evidence with like effect as the originals thereof, and verified copies of such reports shall be furnished to the Commissioner when called for.

SEC. 35. All provisions of law that are inconsistent with this act are repealed only to the extent of such inconsistency and the regulations herein provided for the manufacture or traffic in intoxicating liquor shall be construed as in addition to existing laws. This act shall not relieve any one from paying any taxes or other charges imposed upon the manufacture or traffic in such liquor. No liquor revenue stamps or tax receipts for any illegal manufacture or sale shall be issued in advance, but upon evidence of such illegal manufacture or sale a tax shall be assessed against, and collected from, the person responsible for such illegal manufacture or sale in double the amount now provided by law, with an additional penalty of $500 on retail dealers and $1,000 on manufacturers. The payment of such tax or penalty shall give no right to engage in the manufacture or sale of such liquor, or relieve any one from criminal liability, nor shall this act relieve any person from any liability, civil or criminal, heretofore or hereafter incurred under existing laws.

The Commissioner, with the approval of the Secretary of the Treasury, may compromise any civil cause arising under this title before bringing action in court; and with the approval of the Attorney General he may compromise any such cause after action thereon has been commenced.

SEC. 36. If any provision of this act shall be held invalid it shall not be construed to invalidate other provisions of the act.

SEC. 37. Nothing herein shall prevent the storage in United States bonded warehouses of all liquor manufactured prior to the taking effect of this act, or prevent the transportation of such liquor to such warehouses or to any wholesale druggist for sale to such druggist for purposes not prohibited when the tax is paid, and permits may be issued therefor

A manufacturer of any beverage containing less than one-half of 1 per centum of alcohol by volume may, on making application and giving such bond as the Commissioner shall prescribe, be given a permit to develop in the manufacture thereof by the usual methods of fermentation and fortification or otherwise a liquid such as beer, ale, porter, or wine, containing more than one-half of 1 per centum of alcohol by volume, but before any such liquid is withdrawn from the factory or otherwise disposed of the alcoholic contents thereof shall under such rules and regulations as the Commissioner may prescribe be reduced below such one-half of 1 per centum of alcohol; *Provided*, That such liquid may be removed and transported, under bond and under such regulations as the Commissioner may prescribe, from one bonded plant or warehouse to another for the purpose of having the alcohol extracted therefrom. And such liquids may be developed, under permit, by persons other than the manufacturers of beverages containing less than one-half of 1 per centum of alcohol by volume, and sold to such manufacturers for conversion into such beverages. The alcohol removed from such liquid, if evaporated and not condensed and saved, shall not be subject to tax; if saved, it shall be subject to the same law as other alcoholic liquors

Credit shall be allowed on the tax due on any alcohol so saved to the amount of any tax paid upon distilled spirits or brandy used in the fortification of the liquor from which the same is saved.

When fortified wines are made and used for the production of nonbeverage alcohol and dealcoholized wines containing less than one-half of 1 per centum of alcohol by volume, no tax shall be assessed or paid on the spirits used in such fortification, and such dealcoholized wines produced under the provisions of this act, whether carbonated or not, shall not be subject to the tax on artificially carbonated or sparkling wines, but shall be subject to the tax on still wines only.

In any case where the manufacturer is charged with manufacturing or selling for beverage purposes any malt, vinous, or fermented liquids containing one-half of 1 per centum or more of alcohol by volume, or in any case where the manufacturer, having been permitted by the Commissioner to develop a liquid such as ale, beer, porter, or wine containing more than one-half of 1 per centum of alcohol by volume in the manner and for the purpose herein provided, is charged with failure to reduce the alcoholic content of any such liquid below such one-half of 1 per centum before withdrawing the same from the factory, then in either such case the burden of proof shall be on such manufacturer to show that such liquid so manufactured, sold, or withdrawn contains less than one-half of 1 per centum of alcohol by volume. In any suit or proceeding involving the alcoholic content of any beverage, the reasonable expense of analysis of such beverage shall be taxed as costs in the case.

SEC. 38. The Commissioner of Internal Revenue and the Attorney General of the United States are hereby respectively authorized to appoint and employ such assistants, experts, clerks, and other employes in the District of Columbia or elsewhere, and to purchase such supplies and equipment as they may deem necessary for the enforcement of the provisions of this act, but such assistants, experts, clerks, and other

employes, except such executive officers as may be appointed by the Commissioner or the Attorney General to have immediate direction of the enforcement of the provisions of this act, and persons authorized to issue permits, and agents and inspectors in the field service, shall be appointed under the rules and regulations prescribed by the Civil Service Act: *Provided*, That the Commissioner and Attorney General in making such appointments shall give preference to those who have served in the military or naval service in the recent war, if otherwise qualified, and there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, such sum as may be required for the enforcement of this act, including personal services in the District of Columbia, and for the fiscal year ending June 30, 1920, there is hereby appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $2,000,000 for the use of the Commissioner of Internal Revenue and $100,000 for the use of the Department of Justice for the enforcement of the provisions of this act, including personal services in the District of Columbia, and necessary printing and binding

SEC. 39. In all cases wherein the property of any citizen is proceeded against or wherein a judgment affecting it might be rendered, and the citizen is not the one who in person violated the provisions of the law, summons must be issued in due form and served personally, if said person is to be found within the jurisdiction of the court.

TITLE III.

INDUSTRIAL ALCOHOL.

SEC. 1. When used in this title—

The term "alcohol" means that substance known as ethyl alcohol, hydrated oxide of ethyl, or spirit of wine, from whatever source or whatever processes produced.

The term "container" includes any receptacle, vessel, or form of package, tank, or conduit used or capable of use for holding, storing, transferring, or shipment of alcohol.

INDUSTRIAL ALCOHOL PLANTS AND WAREHOUSES.

SEC. 2. Any person now producing alcohol shall, within thirty days after the passage of this act, make application to the Commissioner for registration of his industrial alcohol plant, and as soon thereafter as practicable the premises shall be bonded and permit may issue for the operation of such plant, and any person hereafter establishing a plant for the production of alcohol shall likewise before operation make application, file bond, and receive permit.

SEC 3. Warehouses for the storage and distribution of alcohol to be used exclusively for other than beverage purposes may be established upon filing of application and bonds, and issuance of permit at such places, either in connection with the manufacturing plant or elsewhere, as the Commissioner may determine; and the entry and storage of alcohol therein, and the withdrawals of alcohol therefrom shall be made in such containers and by such means as the Commissioner by regulation may prescribe.

SEC. 4. Alcohol produced at any registered industrial alcohol plant or stored in any bonded warehouse may be transferred under regulations to any other registered industrial alcohol plant or bonded warehouse for any lawful purpose.

SEC. 5. Any tax imposed by law upon alcohol shall attach to such alcohol as soon as it is in existence as such, and all proprietors of industrial alcohol plants and bonded warehouses shall be jointly and severally liable for any and all taxes on any and all alcohol produced thereat or stored therein. Such taxes shall be a first lien on such alcohol and the premises and plant in which such alcohol is produced or stored, together with all improvements and appurtenances thereunto belonging or in any wise appertaining.

SEC. 6. Any distilled spirits produced and fit for beverage purposes remaining in any bonded warehouse on or before the date when the Eighteenth Amendment of the Constitution of the United States goes into effect, may, under regulations, be withdrawn therefrom either for denaturation at any bonded denaturing plant or for deposit in a bonded warehouse established under this act; and when so withdrawn, if not suitable as to proof, purity, or quality for other than beverage purposes, such distilled spirits shall be redistilled, purified, and changed in proof so as to render such spirits suitable for other purposes, and having been so treated may thereafter be denatured or sold in accordance with the provisions of this act.

SEC. 7 Any distillery or bonded warehouse heretofore legally established may, upon filing application and bond and the granting of permit, be operated as an industrial alcohol plant or bonded warehouse under the provisions of this title and regulations made thereunder.

SEC. 8. Alcohol may be produced at any industrial alcohol plant established under the provisions of this title from any raw materials or by any processes suitable for the production of alcohol, and, under regulations, may be used at any industrial alcohol plant or bonded warehouse or sold or disposed of for any lawful purpose, as in this act provided.

SEC. 9. Industrial alcohol plants and bonded warehouses established under the provisions of this title shall be exempt from the provisions of Sections 3154, 3244, 3258, 3259, 3260, 3263, 3264, 3266, 3267, 3268, 3269, 3271, 3273, 3274, 3275, 3279, 3280, 3283, 3284, 3285, 3286, 3287, 3288, 3289, 3290, 3291, 3292, 3293, 3294, 3295, 3302, 3303, 3307, 3308, 3309, 3310, 3311, 3312, 3313, 3314, and 3327 of the Revised Statutes; Sections 48 to 60, inclusive, and Sections 62 and 67 of the Act of August 27, 1894 (Twenty-eighth Statutes, Pages 563 to 568), and from such other provisions of existing laws relating to distillers and bonded warehouses as may, by regulations, be declared inapplicable to industrial alcohol plants and bonded warehouses established under this act.

Regulations may be made embodying any provision of the sections above enumerated.

TAX-FREE ALCOHOL.

SEC 10. Upon the filing of application and bond and issuance of permit denaturing plants may be established upon the premises of any industrial alcohol plant, or elsewhere, and shall be used exclusively for the denaturation of alcohol by the admixture of such denaturing materials as shall render the alcohol, or any compound in which it is authorized to be used, unfit for use as an intoxicating beverage.

Alcohol lawfully denatured may, under regulations, be sold free of tax either for domestic use or for export.

Nothing in this act shall be construed to require manufacturers of distilled vinegar to raise the proof of any alcohol used in such manufacture or to denature the same.

SEC. 11. Alcohol produced at any industrial alcohol plant or stored in any bonded warehouse may, under regulations, be withdrawn tax free as provided by existing law from such plant or warehouse for transfer to any denaturing plant for denaturation, or may, under regulations, before or after denaturation, be removed from any such plant or warehouse for any lawful tax-free purpose.

Spirits of less proof than 160 degrees may, under regulations, be deemed to be alcohol for the purpose of denaturation, under the provisions of this title.

Alcohol may be withdrawn, under regulations, from any industrial plant or bonded warehouse tax free by the United States or any Governmental agency thereof, or by the several States and Territories or any municipal subdivision thereof or by the District of Columbia, or for the use of any scientific university or college of learning, any laboratory for use exclusively in scientific research, or for use in any hospital or sanitarium.

But any person permitted to obtain alcohol tax free, except the United States and the several States and Territories and subdivisions thereof, and the District of Columbia, shall first apply for and secure a permit to purchase the same and give the bonds prescribed under Title II. of this act, but alcohol withdrawn for nonbeverage purposes for use of the United States and the several States, Territories, and subdivisions thereof, and the District of Columbia may be purchased and withdrawn subject only to such regulations as may be prescribed.

THE NATIONAL PROHIBITION ACT—*Continued*

GENERAL PROVISIONS.

SEC. 12. The penalties provided in this title shall be in addition to any penalties provided in Title II. of this act, unless expressly otherwise therein provided.

SEC. 13. The Commissioner shall from time to time issue regulations respecting the establishment, bonding, and operation of industrial alcohol plants, denaturing plants and bonded warehouses authorized herein, and the distribution, sale, export, and use of alcohol which may be necessary, advisable, or proper, to secure the revenue, to prevent diversion of the alcohol to illegal uses, and to place the nonbeverage alcohol industry and other industries using such alcohol as a chemical raw material or for other lawful purpose upon the highest possible plane of scientific and commercial efficiency consistent with the interests of the Government, and which shall insure an ample supply of such alcohol and promote its use in scientific research and the development of fuels, dyes, and other lawful products

SEC. 14. Whenever any alcohol is lost by evaporation or other shrinkage, leakage, casualty, or unavoidable cause during distillation, redistillation, denaturation, withdrawal, piping, shipment, warehousing, storage, packing, transfer, or recovery of any such alcohol the Commissioner may remit or refund any tax incurred under existing law upon such alcohol, provided he is satisfied that the alcohol has not been diverted to any illegal use: *Provided, also*, That such allowance shall not be granted if the person claiming same is indemnified against such loss by a valid claim of insurance.

SEC. 15. Whoever operates an industrial alcohol plant or a denaturing plant without complying with the provisions of this title and lawful regulations made thereunder, or whoever withdraws or attempts to withdraw or secure tax free any alcohol subject to tax, or whoever otherwise violates any of the provisions of this title or of regulations lawfully made thereunder shall be liable, for the first offense, to a penalty of not exceeding $1,000, or imprisonment not exceeding thirty days, or both, and for a second or cognate offense to a penalty of not less than $100 nor more than $10,000, and to imprisonment of not less than thirty days nor more than one year. It shall be lawful for the Commissioner in all cases of second or cognate offense to refuse to issue for a period of one year a permit for the manufacture or use of alcohol upon the premises of any person responsible in any degree for the violation.

SEC. 16. Any tax payable upon alcohol under existing law may be collected either by assessment or by stamp as regulations shall provide; and if by stamp, regulations shall issue prescribing the kind of stamp to be used and the manner of affixing and canceling the same

SEC. 17. When any property is seized for violation of this title it may be released to the claimant or to any intervening party, in the discretion of Commissioner, on a bond given and approved

SEC. 18. All administrative provisions of internal-revenue law, including those relating to assessment, collection, abatement, and refund of taxes and penalties, and the seizure and forfeiture of property, are made applicable to this title in so far as they are not inconsistent with the provisions thereof.

SEC. 19. All prior statutes relating to alcohol as defined in this title are hereby repealed in so far as they are inconsistent with the provisions of this title.

SEC. 20. That it shall be unlawful to import or introduce into the Canal Zone, or to manufacture, sell, give away, dispose of, transport, or have in one's possession or under one's control within the Canal Zone, any alcoholic, fermented, brewed, distilled, vinous, malt, or spirituous liquors, except for sacramental, scientific, pharmaceutical, industrial, or medicinal purposes, under regulations to be made by the President, and any such liquors within the Canal Zone in violation hereof shall be forfeited to the United States and seized: *Provided*, That this section shall not apply to liquor in transit through the Panama Canal or on the Panama Railroad.

That each and every violation of any of the provisions of this section shall be punished by a fine of not more than $1,000, or imprisonment not exceeding six months for a first offense, and by a fine not less than $200, nor more than $2,000, and imprisonment not less than one month nor more than five years for a second or subsequent offense.

That all offenses heretofore committed within the Canal Zone may be prosecuted and all penalties therefor enforced in the same manner and to the same extent as if this act had not been passed.

SEC. 21. Titles I and III and Sections 1, 27, 37 and 38 of Title II. of this act shall take effect and be in force from and after the passage and approval of the act. The other sections of Title II. shall take effect and be in force from and after the date when the Eighteenth Amendment of the Constitution of the United States goes into effect.

THE SINGLE TAX.

THE following is from a statement of the single tax principle, by Henry George.

We assert as our fundamental principle the self-evident truth enunciated in the Declaration of American Independence, that all men are created equal and are endowed by their Creator with certain inalienable rights. We hold that all men are equally entitled to the use and enjoyment of what God has created and of what is gained by the general growth and improvement of the community of which they are a part The single tax, therefore, would—

1st. Take the weight of taxation off the agricultural districts, where land has little or no value, irrespective of improvements, and put it on towns and cities, where bare land rises to a value of millions of dollars per acre.

2d. Dispense with a multiplicity of taxes and a horde of tax-gatherers, simplify government, and greatly reduce its cost.

3d. Do away with the fraud, corruption, and gross inequality inseparable from our present methods of taxation, which allow the rich to escape while they grind the poor. Land cannot be hid or carried off, and its value can be ascertained with greater ease and certainty than any other.

4th. Give us with all the world as perfect freedom of trade as now exists between the States of the Union, thus enabling our people to share through free exchanges in all the advantages which nature has given to other countries, or which the peculiar skill of other peoples has enabled them to attain. It would destroy the trusts, monopolies, and corruptions which are the outgrowths of the tariff. It would do away with the fines and penalties now levied on any one who improves a farm, erects a house, builds a machine, or in any way adds to the general stock of wealth. It would leave every one free to apply labor or expend capital in production or exchange without fine or restriction.

5th. It would, on the other hand, by taking for public use that value which attaches to land by reason of the growth and improvement of the community, make the holding of land unprofitable to the mere owner and profitable only to the user It would thus make it impossible for speculators and monopolists to hold natural opportunities unused or only half used, and would throw open to labor the illimitable field of employment which the earth offers to man. It would thus solve the labor problem, do away with involuntary poverty, raise wages in all occupations to the full earnings of labor, make overproduction impossible until all human wants are satisfied, render labor-saving inventions a blessing to all, and cause such an enormous production and such an equitable distribution of wealth as would give to all comfort, leisure, and participation in the advantages of an advancing civilization, in securing to each individual equal right to the use of the earth. It is also a proper function of society to maintain and control all public ways for the transportation of persons and property, and the transmission of intelligence; and also to maintain and control all public ways in cities for furnishing water, gas, and all other things that necessarily require use of common ways.

WORKMEN'S COMPENSATION LAWS OF STATES AND TERRITORIES.

Note—Injuries covered as a rule are personal injuries arising out of and in course of employment **not due to wilful intention to injure self or another, or to intoxication.** Maine adds unless habit of intoxication was known to the employer. Colorado, Massachusetts, Michigan, Oregon, Pennsylvania, Washington, Wisconsin, and Wyoming do not specify intoxication as an exception. Illinois, Montana, and Ohio make no exception, neither wilful injury nor intoxication. Delaware, Indiana, Kansas, Louisiana, South Dakota, Oklahoma, Virginia, and Vermont make an exception also of employee's failure to use reasonable safety appliances. Delaware, Hawaii, Idaho, and New York include diseases contracted as insured against. Kentucky excepts results of pre-existing diseases. Arizona covers injuries caused by failure of employer or his agents to exercise due care or to comply with any law affecting the employment. Utah includes injuries occurring outside of the State, and injuries caused by the wilful act of a third person directed against an employee because of his employment. Oklahoma does not cover fatal injuries.

ALASKA, 1915.

Administrative System—The courts. **Security for Compensation**—Attachment pending action, or employer may deposit cash or bond with court. **Employments Covered**—Elective, as to mining operations having five or more employees. **Waiting Period**—Two weeks. **Medical and Surgical Provisions**—Only in fatal cases involving no dependents, maximum, $150. **Compensation for Disability; Total,** (a) **Temporary:** (b) **Permanent**—(a) 50% of wages during disability, maximum, 6 months. (b) $3,600; $1,200 additional for wife, and $600 for each child under 16; if single, $600 for each dependent parent, maximum, $6,000. **Partial,** (a) **Temporary**—(a) 50% of wages; maximum period, 6 months; maximum amount, $4,800. If permanent, lump sums proportioned to number of dependents, ranging from $120 to $3,000, less payments for temporary disability. **Death Benefits;** (a) **Dependents.** (b) **No Dependents**—(a) $3,000 to widow or minor orphan; $600 to each child under 16 and to dependent parents, maximum, $6,000; if single, $1,200 to each dependent parent. (b) $150 for burial; $150 for other expenses between death and burial.

ALABAMA, 1919.

(To take effect January 1, 1920.)

Adm. Sys.—Circuit Courts with appeal to Supreme Court, and Insurance and Compensation Commissioners. **Sec. for Comp.**—Right to compensation, and award has same preference as other unpaid wages. **Employ.**—Where sixteen or more are regularly employed, excluding casuals, domestic servants, farm laborers, common carriers engaged in interstate commerce, and municipalities (cities, towns, villages, school districts); but municipalities and employers of less than sixteen may elect to come under provisions of act. **Wait.**—Five days. **Med. and Surg.**—Reasonably necessary medical and surgical treatment and attention, medicine, supplies, and apparatus during first sixty days of disability, not to exceed $100 **Comp. for Dis.: Temp. Total**—Fifty per cent. of average weekly wages, not less than $5, nor more than $12; during disability not more than 300 weeks. **Temp. Partial**—Fifty per cent. of difference between amount earned before injury and after; during disability not more than 300 weeks **Perm. Total**—Fifty per cent. Schedule of rates of payment according to extent and character of injury **Perm. Partial**—Fifty per cent. of average weekly wages ($5 to $12) for 550 weeks, reduced to $5 after 400 weeks; increased 5% for each totally dependent child; not over 60%, and per week to not over $15. **Death Ben.**—To dependent widow or husband and no child, 30%; widow or husband and one child, 40%; widow or husband and 2 or 3 children, 50%; 4 or more children, 60%; to dependent orphan, 30%; 10% added for each additional orphan, not to exceed 60%, dependent husband and no child, 25%; if no husband, widow or child, to one parent, 25%; to two, 35%; grandparent, brother, sister, mother-in-law, or father-in-law, to one, 20%; more than one, 25%. Total compensation not to exceed $5,000. Expenses of last illness and burial not to exceed $100.

ARIZONA, 1912.

Adm. Sys.—Agreement; arbitration; reference to Attorney-General; courts. **Sec. for Comp.**—A judgment is collectible without relief from valuation or appraisement laws, and has same preference as unpaid wages or claim for personal services. **Employ.**—All especially dangerous employments. Elective as to other industries. "Especially dangerous" as specified in law include building and running of railroads, mining, using, making, or working near explosives; places where power machinery is used; working on derricks and scaffolds, etc. **Wait.**—Two weeks. **Med. and Surg.**—In fatal cases where there are no dependents the reasonable expenses of medical attendance and burial. **Comp. for Dis.; Total**—A semi-monthly payment equal to one-half the wage decrease Fifty per cent. of semi-monthly earnings during time unable to work at any gainful occupation. The total for partial or total disability caused by a single injury not to exceed $4,000. **Death Ben.; (a) Depen.**—(a) To persons wholly dependent, a lump sum equal to 2,400 times one-half the daily wages or earnings of the deceased; not to exceed $4,000. payments to children to cease at 18 years of age See under column for medical and surgical provisions for death cases where there are no dependents

CALIFORNIA, 1918.

Adm. Sys.—State Industrial Accident Commission. Subject to limited review by the courts. **Sec. for Comp.**—Insurance is required. Policies inure directly to benefit of employee, who also has first lien on amounts due employer. Self-insurers may be required to give bond or deposit securities. Claims or awards have same preference as those for wages. **Employ.**—All excepting agriculture and domestic service, which may come under the act by joint election. **Wait.**—Ten days. **Med. and Surg.**—Such medical, surgical, and hospital treatment as may reasonably be required to cure and relieve. In case of death, the reasonable expense of burial, not exceeding $100. **Compen. for Dis.; Total,** (a) **Temp.:** (b) **Perm.**—(a) 65% of average weekly earnings during such disability. (b) When the degree of disability reaches or exceeds 70%, after the expiration of 240 weeks, a further benefit varying from 10 to 40% of the weekly earnings is payable during the remainder of life. **Part.,** (a) **Temp.:** (b) **Perm.**—(a) 65% of weekly loss of wages during such disability. (b) 55% of average weekly earnings, for periods varying from 4 to 240 weeks, according to the degree of the disability. In case of permanent incapacity or death a lump sum may be substituted for benefits, to equal the present value of the benefits computed at 6%. Average weekly earnings shall be considered as not less than $6.41, nor more than $32.05. **Death Ben.;** To persons wholly dependent, three times the annual earnings of the deceased; not less than $1,000, nor more than $5,000, payable at least monthly in instalments equal to 65% of the wages. Payments to children to cease at 18 years of age unless mentally or physically incapacitated. If only partial dependents survive, three times the annual contribution of the deceased to their support, subject to same limitations as above. If there are no dependents, payment to State Treasury of $350 is made by the employer Disability payments and burial expenses to be considered as parts of above totals.

COLORADO, 1917.

Adm. Sys.—Industrial Commission, with limited appeal to the courts. **Sec. for Comp.**—Insurance is required. Insurers are primarily liable to a workman or his beneficiaries. Notice to employer is notice to insurer. Claims are not assignable, and payments are exempt from attachment or execution. **Employ.**—All except interstate commerce and domestic and agricultural labor in which four or more are employed

in which employers elect to come under the act, but lose no defences if they do not Public service under State, municipalities, school or irrigation district, etc **Wait.**—Two weeks. **Med. and Surg.**—Medical and surgical assistance for first 30 days not more than $100 in value. In death cases where there are no dependents, $75 for funeral expenses. **Compen. for Dis.; Total**—Fifty per cent. of weekly wages during continuance, $5 minimum, $8 maximum; full wages if less than $5. **Part.**—Fifty per cent. of the weekly wage decrease, $8 maximum. Total not to exceed $2,080. Special schedule for specified injuries, 50% of weekly wages for periods ranging from 4 to 208 weeks. Facial disfigurements may be compensated for in an amount not exceeding $500 Payments may be commuted to a lump sum after 6 months. **Death Ben.**—To persons wholly dependent 50% of the weekly wages for 6 years, $8 maximum; total not to exceed $2,500, nor to be less than $1,000. If death occurs during receipt of disability benefits any unaccrued and unpaid remainder goes to dependents; if only partial, dependents

CONNECTICUT, 1914.

Adm. Sys.—Compensation Commissioners. Appeals from findings and awards to the Superior Court of the county **Sec. for Comp.**—Employer must furnish proof of solvency and financial disability, file security, or insure in approved stock or mutual companies or associations. Payments are not assignable, are exempt from execution, and have same preference as wage debts **Employ.**—All industries in which five or more persons are employed, in absence of contrary election by employer. **Wait**—Seven days. **Med. and Surg.**—Medical and surgical aid and hospital service during such time as needed $100 for burial expenses. **Compen. for Dis.: Total**—For total disability a weekly compensation equal to one-half the employee's earnings, not more than $14 nor less than $5 weekly, or for longer than 520 weeks **Part.: (a) Temp.; (b) Perm.**—(a) A weekly compensation equal to one-half the wage loss, but not more than $14 per week or for longer than 312 weeks (b) For specified injuries one-half the average weekly earnings for fixed periods in lieu of all other payments. Lump sum payments may be approved by the commissioner, provided they equal the value of the compensations **Death Ben.**—To persons wholly dependent, a weekly compensation equal to one-half the earnings of the deceased employee If only partial dependents survive, a weekly compensation determined according to the measure of dependence, not exceeding one-half the earnings of the deceased employee. Compensation shall in no case be more than $14, nor less than $5 weekly, and shall not continue longer than 312 weeks A widow's or widower's dependence ceases upon remarriage, and a child's upon reaching 18 years of age, unless physically or mentally incapacitated If a widow or dependent widower dies during the term of benefit payments, subsequent payments go to other dependents, if any.

DELAWARE, 1918.

Adm. Sys.—Industrial Accident Commission of three, whose award is final, unless appeal is taken to the Supreme Court of the county within 10 days **Sec. for Comp.**—Insurance in a stock or mutual company, or deposit of security, indemnity or bond. **Employ.**—All except domestic servants, farm and casual laborers, outworkers, State officers, and servants and employees in interstate or foreign commerce. **Wait.**—Fourteen days **Med. and Surg.**—Medical care up to $25 during waiting period; $100 for burial. **Compen. for Dis.; Total**—Fifty per cent. of wages for 270 weeks, and thereafter 20%. **Death Ben.**—For a dependent widow or widower, 25% of wages, with additional percentages up to 60%, in proportion to the number of dependents and children under 16

HAWAII, 1917.

Adm. Sys.—Industrial Accident Boards for each county; appeals to courts. **Sec. for Comp.**—Payments are preferred the same as wage claims Employees have direct recourse to insuring company. Insolvency of employer does not release insurer **Employ**—All public and all industrial employment for pecuniary gain. **Wait.**—Seven days. **Med. and Surg.**—Reasonable surgical, medical and hospital services during disability, not exceeding $150; $100 funeral expenses if death within 6 months. **Compen. for Dis.; Total**—Sixty per cent. of weekly wages $3 minimum, $18 maximum, for not longer than 312 weeks; total not to exceed $5,000. If wages are less than $3 full wages will be paid unless disability is permanent, when $3 will be paid. **Partial**—Fifty per cent of wage decrease $12 maximum, not over 312 weeks; total not to exceed $5,000. Fixed awards for specified injuries in lieu of all other benefits. Payments may be commuted to one or more lump sums in any case **Death Ben.**—To widow or dependent widower alone, 40% of average weekly wages; if one or two dependent children, 50%; if three or more, 60%; 30% to one or two orphans; 10% additional for each child in excess of two; total not to exceed 50%. If no consort or child, but other dependents, 25% to 40% Payments to widow to cease on death or remarriage, and to widower on termination of disability or remarriage; to children reaching 16, unless incapable of self-support, then to 18; to other beneficiaries on termination of disability. No payments except to children for more than 312 weeks Wages not less than $5 nor over $36

IDAHO, 1918.

Adm. Sys.—Industrial Accident Board of three. Awards final, unless appeal is taken to the District Court within 30 days. **Sec. for Comp.**—Private employers must either insure in the State Insurance Fund or deposit security in form of a surety fund or guaranty contract. **Employ.**—All public and private carried on for pecuniary gain. Employees injured outside the State are covered, as well as those hired outside the State if they would be entitled under law of State where hired Agricultural, domestic and casual employees, outworkers, employees of charitable organizations and members of employer's family, although excluded may be included by agreement. **Wait.**—Seven days. **Med. and Surg.**—Medical care for a reasonable time, charges being limited to those which prevail in community for similar treatment of persons of a like standard of living. In death case, $100 for burial, and if there are no dependents employer must pay $1,000 to Industrial Administration Fund. **Compen. for Dis.: Total**—Fifty-five per cent of average weekly wages for 400 weeks, and $6 per week thereafter. **Death Ben.**—To dependent widow or widower, 45% of average weekly wages, with additional percentages up to 55%, in proportion to the number of dependents and children under 18

ILLINOIS, 1917.

Adm. Sys.—Disputes determined by the Industrial Board through an arbitrator or arbitration committee, subject to review by the board. Questions of law may be reviewed by the courts. **Sec. for Comp.**—Awards constitute liens on all property of employer within the county paramount to all other claims, except wages, taxes, mortgages or trust deeds. Injured employees are subrogated to right of insolvent employer to insurance. **Employ.**—Building trades; construction excavating and electrical work; transportation; mining and quarrying; work with or about explosives, molten metals, injurious gases or vapors or corrosive acids, and all enterprises in which the law requires protective devices. Other employers may elect, but forfeit no defenses if they do not. **Wait.**—Six days **Med. and Surg.**—Medical and surgical aid for not over 8 weeks, not over $200. If no dependents, a burial benefit not over $150. **Compen. for Dis.; Total**—Fifty per cent. of employee's weekly earnings, $6 minimum, $12 maximum, during disability, or until payments equal a death benefit; thereafter, if the disability is permanent, a sum annually equal to 8% of a death benefit, not less than $10 per month. **Partial, (b) Perm.**—(b) 50% of loss of earning capacity, not more than $12 per week. For certain specific injuries (mutilations, etc.), a benefit of 50% of weekly wages for fixed periods, in addition to temporary total disability. The basis of 50% is to be increased 5% for each child under 16 years of age, maximum 65%. The minimum of $6 per week is to be increased for each such child, the total not to exceed $750. The maximum of $12 is to be increased $1

for each child, the total not to exceed $15. For serious and permanent disfigurement, not causing incapacity and not otherwise compensated, a sum not exceeding one-fourth the death benefits. No payments are to extend beyond 8 years, except in case of permanent total incapacity. **Death Ben.**—To persons wholly dependent, a sum equal to 4 years' earnings, not less than $1,650 (to a widow with one child under 16, $1,750, if two or more children, $1,850), nor more than $3,500 (to a widow with one child under 16, $3,750, and if two or more children, $4,000). If only dependent collateral heirs survive, such a percentage of the above sum as the support rendered the last two years was of the earnings of deceased. Lump sum payments for either death or disability may be substituted by the Industrial Board for periodic payments. Provision also for education and rehabilitation is made.

INDIANA, 1917.

Adm. Sys.—Industrial Board, with appeals to courts on questions of law. **Sec. for Comp.**—Contracts of insurance must enure directly to benefit of persons entitled to payments under an award. Payments have same preference and priority as unpaid wages, and are exempt from claims of creditors. Insurance required, or proof of financial ability to meet payments **Employ.**—All except interstate and foreign commerce, for which Federal laws make provision; railroad employees engaged in train service, and domestic and agricultural labor, unless employer makes contrary election; compulsory as to State and its municipalities. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital services for first 30 days, and longer at option of employer; employee must accept unless otherwise ordered by Industrial Board; $100 for funeral expenses, if death from the injury occurs within 300 weeks. **Compen. for Dis.: Total**—Fifty-five per cent. of wages for not more than 500 weeks **Partial**—Fifty per cent of wage loss for not more than 300 weeks. For certain specified injuries, 55% of wages for designated periods ranging from 15 to 200 weeks Wage basis and total amounts are limited as for death benefits. Any payments may be commuted to a lump sum after 26 weeks. **Death Ben.**—To persons wholly dependent, 50% of weekly wages; to those partially dependent, amounts proportionate to decedent's contribution to their support. Term of payment limited to 300 weeks. Payments cease on remarriage of widow or dependent widowers, or on children attaining the age of 18 years, unless mentally or physically disabled for earning. Wages are to be considered as not above $24 nor less than $10 weekly, no total to exceed $5,000.

IOWA, 1917.

Adm. Sys.—Committees of Arbitration, with the Industrial Commissioner as Chairman; limited appeals to courts. **Sec. for Comp.**—Employers must insure in approved companies or mutual associations, furnish proof of financial ability, deposit security or contract with employees. Claim for compensation is first lien If insured is incapable, insurer must settle direct with beneficiary. **Employ.**—All industries except agriculture and domestic service, in absence of contrary election by employer. Compulsory as to State and municipalities. **Wait.**—Two weeks **Med. and Surg.**—Reasonable surgical, medical and hospital services, and supplies for first 4 weeks, not exceeding $100. Reasonable expenses of last sickness, and burial not to exceed $100. **Compen. for Dis.: Total, (a) Temp.: (b) Part.**—(a) 50% of wages, not more than $10 nor less than $6 (unless wages are less than $6, then full wages), for not more than 300 weeks (b) The same as for temporary disability, to be paid for a period of not more than 400 weeks. **Partial, (b) Perm.**—(b) Specified maimings—50% of average weekly wages for fixed periods, beginning with the date of injury Payments for total temporary and total permanent disability for fifth, sixth, and seventh weeks are 83⅓% of the weekly earnings. If disability continues beyond those dates, but only 50% after the seventh week. Lump sum payments may be substituted on approval of the Industrial Commissioner and an order of the court **Death Ben.**—To persons wholly dependent, a weekly payment equal to 50% of the wages, but not more than $10 nor less than $5 per week, for 300 weeks. If only partial dependents survive, such a proportion of the above as the amounts contributed by the employee to such partial dependents bear to his annual earnings. If employee was a minor whose earnings were received by the parent, a sum to the parent equal to two-thirds of the amount provided for persons wholly dependent If the spouse dies during compensation period, unpaid benefits go to other dependents if any; if she remarries and there are no dependent children, payments cease.

KANSAS, 1917.

Adm. Sys.—Disputes not settled by agreement may be referred to arbitration, subject to an appeal to the courts. **Sec. for Comp.**—Lump sums awarded by the court may be secured by order of the court by a bond. If employer was insured, insurer is subrogated to the rights and duties of the employer Claims and awards are not assignable or subject to execution, etc. **Employ.**—Railways, factories, quarries, electrical, building or engineering work, laundries, natural gas plants, county and municipal work, employments requiring the use of dangerous explosive or inflammable materials, if employing five or more, and mines; employers in other industries and those employing less than five persons may also elect. **Wait** — One week. **Med. and Surg.**—On demand, medical, surgical and hospital treatment, not over $150 in value, for not more than 50 days. If no dependents, a reasonable expense for burial, not exceeding $150 **Compen. for Dis.: Total**—Payments during incapacity, after the first week, equal to 60% of the earnings, not less than $6 nor more than $15 per week. **Partial**—Sixty per cent. of wage loss during incapacity, after first week. Lump sums equal to 50% of the wages for specified periods are to paid for designated injuries in lieu of all other compensation. No payments for total or partial disability shall extend for over 8 years. After 6 months lump sum payments may be substituted at the employer's option, the sum to be agreed upon or determined by the court. **Death Ben.**—To persons wholly dependent, a sum equal to 3 years' earnings of the deceased, not less than $1,400 nor more than $3,800. For non-resident alien beneficiaries (except in Canada) the maximum is $750. If only partial dependents survive, a sum proportionate to the injury to such dependents Compensation ceases upon the marriage of any dependent or when a minor becomes 18, unless physically or mentally incapable of wage earning.

KENTUCKY, 1916.

Adm. Sys.—Workmen's Compensation Board, a member thereof, or a referee appointed by it. Limited appeals to courts. **Sec. for Comp.**—Employers accepting act must insure in a stock or mutual company or the State Employees' Insurance Association, or give proof of financial ability Policies must provide for direct liability to beneficiaries. Self-insurers must furnish bond or other security. Benefits have same priority as wages and are not subject to assignment or attachment. **Employ.**—All except domestic service and farm labor where three or more are employed; excepted industries may become subject to act by joint application of employers and employees. **Wait.**—Seven days. **Med. and Surg.**—Medical, surgical and hospital aid for 90 days, unless another period is fixed by the board, not to exceed $100 Reasonable burial expenses, not over $75. **Compen. for Dis.; Total**—Sixty-five per cent. of average weekly wages for 8 years, not over $12 nor less than $5; total not to exceed $5,000. **Partial**—Sixty-five per cent of the weekly wage loss, not to exceed $12, for not more than 335 weeks; total not to exceed $4,000 Compensation periods are fixed for specified injuries. Lump sums may be awarded after six months, if approved by the board. **Death Ben.**—To persons wholly dependent, 65% of the average weekly earnings, not more than $12 nor less than $5 per week for 335 weeks; total not to exceed $4,000. If only partial dependents survive, a proportion of the amount for total dependency, determined by the degree of dependence. If no dependents, $100 to the personal representative. Payments to a widow or widower cease on remarriage, and to a child on reaching the age of 16, unless incapacitated for wage earning Payments thus terminated go to other beneficiaries, if any.

LOUISIANA, 1915.

Adm. Sys.—Disputes are settled by Judges of the courts in simple, summary procedure. **Sec. for Comp.**—Insurance not required. Policies must give claimants right to direct payment Compensation payments have same preference as wage debts **Employ.**—Hazardous trades, businesses or occupations in absence of contrary election; extensive list, and others may be so adjudged or brought within act by voluntary agreement. Compulsory as to State employees, its municipalities and public boards. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical, surgical, and hospital service, not over $100. $100 expenses of last sickness and burial. **Comp. for Dis.: Total**—Fifty per cent. of the weekly wages, $3 minimum, $10 maximum, for not more than 400 weeks. **Partial**—Fifty per cent. of the wage loss, not over $10, for not more than 400 weeks. Fixed schedule for specified injuries for periods from 10 to 150 weeks. Payments in any case may be commuted to a lump sum on agreement of the parties and approved by the courts. **Death Ben.**—To widow or dependent widower alone, 25% of weekly wages, 40% if one child, 50% if two or more. If one child alone, 25%, 40% for two, 50% for three or more For one dependent parent, 25%; for two, 50%. If one brother or sister, 25%, and 10% for each other. The total in no case to exceed 50%, $3 minimum, $10 maximum, for not over 300 weeks. Payment to any beneficiary ceases on death or marriage; to children on reaching the age of 18, unless mentally or physically incapacitated.

MAINE, 1917.

Adm. Sys.—Industrial Accident Commission; appeals to courts on questions of law. **Sec. for Comp.**—Insurance required unless employer gives proof of solvency and makes deposit or bond to secure payments. Claims have same preference as wages debts. **Employ.**—All except agricultural and domestic labor, and seamen in interstate or foreign commerce, in which more than five are employed, if employer elects. Abrogation of defenses does not affect cutting, hauling, driving, or rafting of logs. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical and hospital services during first two weeks, not over $30, unless by agreement or order of commission a larger amount is provided for. If no dependents, not over $200 for last sickness and burial. **Comp. for Dis.; Total**—Fifty per cent. of the wages, for not more than 500 weeks. $4 minimum, $10 maximum, total not to exceed $3,000. **Partial**—Fifty per cent. of the weekly wage loss, not over $10, for not more than 300 weeks. For specified injuries causing permanent partial disability, 50% of the wages for various fixed periods, then compensation on basis of wage loss, if any, for not more than 300 weeks in all. Lump sum payments may be approved by the commission, after weekly payments, for not less than six months. **Death Ben.**—To persons wholly dependent, 50% of weekly wages for 300 weeks, $4 minimum, $10 maximum. If only partial dependents survive, amounts proportionate to their degree of dependency for 300 weeks. If only one wholly dependent and more than one partly dependent, payments are to be divided according to the relative extent of dependency. Payments to children cease at age of 18, unless mentally or physically incapacitated for earning a living.

MARYLAND, 1914.

Adm. Sys.—Industrial Accident Commission, with appeal to the courts **Sec. for Comp.**—Insurance in State fund, stock, or mutual company, or proof of financial ability is required. Policies must permit action by commission to secure payments to persons entitled. Payments not assignable, nor subject to execution or attachment **Employ.**—Extra hazardous (enumerated list); others by joint election of employer and employees Farm and domestic labor, country blacksmiths and wheelwrights are excluded. **Wait.**—Two weeks. **Med. and Surg.**—Medical, surgical, etc , not over $150. Funeral expenses not over $75. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages, $5 minimum, $12 maximum for not over eight years, total not to exceed $5,000. If wages are less than $5, full wages will be paid. **Partial**—Fifty per cent. of weekly wage loss, $12 maximum, total not over $3,000; specific periods for specified maimings. Where the injured employee is a learner, with prospect of increase of wages, this fact may be considered in fixing awards. Payments may, in the discretion of the commission, be made in part or in whole in lump sums. **Death Ben.**—To persons wholly dependent, 50% of the weekly wages for eight years, not more than $4,250 nor less than $1,000. To persons partly dependent, 50% of the weekly wages for such portion of eight years as the commission may fix, amount not to exceed $3,000. If no dependents, funeral expenses only. Payments to widow close on remarriage, and to children on reaching the age of 16, unless mentally or physically incapacitated.

MASSACHUSETTS, 1917.

Adm. Sys.—On request of either party, Industrial Accident Board calls for a committee of arbitration, whose decision is subject to review by the Industrial Accident Board. **Sec. for Comp.**—Employer must become a subscriber of the State Employees' Insurance Association or insure in some authorized liability insurance company. All risks must be insured in approved companies Payments are not subject to assignment, attachment or execution. **Employ.**—All industries, if the employer so elects. The State shall, and any county, city, town or district accepting this act may, compensate its laborers, workmen and mechanics. **Wait.**—Ten days. **Med. and Surg.**—Reasonable medical and hospital services, and medicines as needed, for the first two weeks, and in unusual cases, for a longer period, in the discretion of the board. Reasonable expenses of burial, not over $100. If dependents survive, this sum shall be deducted from the compensation payable. **Comp. for Dis.; Total**—A sum equal to two-thirds the average weekly wages, not less than $5 nor over $14 per week, not exceeding 500 weeks nor $4,000. **Partial**—Two-thirds the wage loss, not over $10 per week and for not longer than 500 weeks. In specified injuries (mutilations, etc.), two-thirds the weekly wages, not exceeding $10 nor less than $5 per week, for fixed periods, in addition to other compensation. Lump sum payments may be substituted in whole or part, after payments for injury or death have been made for not less than six months. **Death Ben.**—To persons wholly dependent, weekly payment equal to two-thirds the average weekly wages of the deceased employee, not less than $5 nor more than $10, for a period of 500 weeks, the total not to exceed $4,000. If only partial dependents survive, a sum proportionate to the portion of the earnings contributed to their support by the deceased employee. Children cease to be dependents at 18, unless mentally or physically incapacitated from earning a living. If no dependents, payment to State treasury of $100 is made by the employer.

MICHIGAN, 1917.

Adm. Sys.—Either party may request Industrial Accident Board to appoint a committee of arbitration, whose decisions are subject to review by the board The Supreme Court may review questions of law. **Sec. for Comp.**—Employers must insure with the State or in approved companies, or furnish proof of financial ability. Claims are a first lien on all property of employer. **Employ.**—All industries if employer elects; compulsory as to the State and its municipalities, public boards, etc. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical and hospital services for the first three weeks. If no dependents, the reasonable expense of the last sickness and burial, not exceeding $200. **Comp. for Dis : Total**—A weekly payment equal to one-half the earnings, not less than $4 nor more than $10 per week, nor for a period longer than 500 weeks from the date of the injury, and not exceeding $4,000. **Partial**—A weekly payment equal to one-half the wage loss, not over $10 per week nor for longer than 300 weeks. For certain specified injuries (mutilation, etc.), 50% of average weekly earnings for fixed periods Payments begin with the fifteenth day after the injury, but if the disability continues for eight weeks or longer, compensation is computed from the date of the injury. After six months lump sums may be substituted for weekly payments. **Death Ben.**—To persons wholly dependent, a weekly payment equal to one-half the deceased workman's earnings,

not less than $4 nor more than $10 per week for a period of 300 weeks. If only partial dependents survive such proportion of the above as the amount of previous contributions bears to such earnings.

MINNESOTA, 1917.

Adm. Sys.—Judge of the District Court determines dispute in a summary manner, subject to review by Supreme Court on questions of law. **Sec. for Comp.**—Employers may insure or maintain co-operative schemes. Insured workmen have an equitable lien on any policy falling due. Claims have same preference as unpaid wages. **Employ.**—All excepting common carriers by steam railroad and farm and domestic service, in absence of contrary election by employers. **Wait.**—One week. **Med. and Surg.**—Reasonable medical and surgical treatment, not exceeding 90 days nor $100, unless ordered in exceptional cases, when limit is $200 $100 funeral expenses **Comp. for Dis.: Total**—Sixty per cent. of wages. **Partial**, (a) **Temp.**: (b) **Perm.**—(a) 60% of the wage loss. (b) For specified permanent partial disability (mutilations, etc), 50% of the earnings for fixed period. Payments for death may not be more than $11 per week, and for disability not more than $12, nor less than $6 50, unless wages are less than $6 50, when amount of wages is paid. Payments may not extend beyond 300 weeks, except for permanent total disability, when the maximum is 400 weeks, with payments of not more than $6.50 per week thereafter for 150 weeks, the total not to exceed $5,000. Lump sums may be substituted for periodical payments, but in case of compensation for death, permanent total disability, or certain maimings, the consent of the court must be obtained. **Death Ben.**—To a widow alone, 35% of monthly wages of deceased, increasing to 60% if four or more children; to a dependent husband alone, 25%; to a dependent orphan, 40%, with 10% additional for each additional orphan, with a maximum of 60% to the dependent parent or parents, if no dependent widow, widower, or children, 30% if one parent and 40% if both survive; if none of the foregoing, but a brother, sister, grandparent, mother-in-law, or father-in-law is wholly dependent, if but one such relative, 25%, or if more than one, 30%, divided equally. If only partial dependents survive, that proportion of benefits provided for actual dependents which contributions bore to wages earned. Payments continue for not more than 300 weeks, and cease upon marriage or when sixteen, unless mentally or physically incapacitated. There is provision also for education and rehabilitation of persons incapacitated or handicapped by injuries. If no dependents, payment to State treasury of $100 is made by employer.

MISSOURI, 1919.

Adm. Sys.—Commission. **Sec. for Comp.**—Insurance required unless capacity to pay one's own risks is shown. **Employ.**—All except casual, farm labor and domestic service, where five or more employees; officials of political subdivisions not covered **Wait.**—One week. **Med. Ben.**—Forty-eight days. **Comp. for Dis.**—66⅔% of average earnings; 40% for total perm.; maximum wages, $15 per week; minimum, $6; maximum duration, 400 weeks. **Death Ben.**—300 weeks.

MONTANA, 1915.

Adm. Sys.—Proceedings to determine disputes must be instituted before the Board and not elsewhere; limited appeals to courts. **Sec. for Comp.**—Employer may carry his own insurance on proof of financial ability; may insure in any company in State, or may contribute to State fund. Liabilities under act are first lien upon any deposit, and on other property pro-rata with other lienable claims. **Employ.**—All inherently hazardous works and occupations, including manufactures, construction work, transportation and repair of means thereof, and any hazardous occupations not enumerated, in which employers elect, but not including agricultural, domestic or casual labor. **Wait.**—Two weeks **Med. and Surg.**—Medical and hospital services during first two weeks. not over $50, unless there is a hospital contract. $75 for funeral expenses, if death occurs within six months **Comp. for Dis.: Total**, (a) **Temp.**; (b) **Perm.**—(a) 50% of wages during disability, $10 maximum, $6 minimum, unless wages are less than $6, when full wages will be paid, for not more than 300 weeks. (b) Same scale as above for 400 weeks, then $5 per week, while disability continues. **Partial**, (a) **Temp**; (b) **Perm.**—(a) 50% of wage loss, wages and benefits not to exceed $10 nor fall below $6, unless wages were less than $6; payments to continue not more than 150 weeks for permanent cases, and 50 weeks where disability is temporary. (b) For maimings, compensation of same scale and limits as in total temporary, for terms ranging from 3 to 200 weeks. **Death Ben.**—To widow, widower, child, or children under 16, or invalid child over 16, 50% of wages of the deceased if residents of the United States, if not, 25%, unless otherwise required by treaty. To major dependents (father or mother), in case there are no beneficiaries, 40% To minor dependents (brothers or sisters actually dependent), if no beneficiary or major dependent, 30%. Non-resident alien dependents receive nothing unless required by treaty. Terms of payments may not exceed 400 weeks, $10 maximum, $6 minimum; if wages less than $6 then full wages. Payments cease on remarriage of widow or widower, or when child, brother, or sister reaches the age of 16, unless an invalid.

NEBRASKA, 1917.

Adm. Sys.—Compensation Commissioner; appeal to District Court of county, with further appeal to Supreme Court. **Sec. for Comp.**—Employer must insure or give proof of financial ability. Policies must inure directly to beneficiaries. Awards have same preference as wage claims **Employ.**—All industries, except domestic service, agriculture, and interstate or foreign commerce in absence of contrary election. Exempt employees may make affirmative election. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital service during first 21 days, not over $200. Time may be extended in cases of dismemberment or major operations. A reasonable sum, not over $100, for expenses of last sickness and burial. **Comp. for Dis : Total**—66⅔% of the weekly wages, not less than $6 nor more than $12 per week for 300 weeks; thereafter, while disability lasts, 45%, not less than $4 50 nor more than $9. If weekly wages are less than minimum, full wages are paid **Partial**—66⅔% of loss of earning capacity, not over $12 per week nor for more than 300 weeks. For certain specified injuries (mutilations, etc.), 66⅔% of wages for fixed periods in lieu of other payments, $12 maximum, $6 minimum, unless wages are less than $6, when full wages are to be paid. Payments begin with the eighth day, but if disability continues six weeks or more compensation is computed from date of injury. Lump sums may be substituted for periodic payments, but if for death or permanent disability, the approval of the court must be obtained. **Death Ben.**—To persons wholly dependent, 66⅔% of the employee's wages, not less than $6 nor more than $12; not exceeding 350 weeks; if wages were less than $6, full wages. If only partial dependents survive, a proportion of the above corresponding to the relation the contribution of deceased to their support bore to his wages Compensation to children ceases when they reach 16, unless mentally or physically incapacitated from earning.

NEVADA, 1917.

Adm. Sys.—Industrial Commission. **Sec. for Comp.**—Employers must insure in State Insurance Fund. State management of fund and collection of premiums by the State. Payments not assignable, exempt from attachment, etc **Employ.**—All except domestic and farm labor, provided the employer elects; compulsory as to the State and its municipalities. **Wait.**—Seven days **Med. and Surg.**—Reasonable medical, surgical, and hospital aid for 90 days, but may be extended to one year by the Industrial Commission. Burial expenses not to exceed $125. **Comp. for Dis.: Total**—One-half the average monthly wages, not less than $20 nor more than $70 for twelve months, and not over $60 thereafter. **Partial**—One-half the loss of earning capacity, not more than $40 per month for not more than sixty months; wages in excess of $140 need not be considered. For certain specific injuries (mutilations, etc), a monthly payment equal to one-half the monthly wages, not less than $20 nor more than $60 for fixed periods, in

addition to payments for temporary total disability. No compensation is payable for the first week of disability, but if it continues three weeks or longer compensation is paid from the date of the injury. The Industrial Commission may permit the substitution of lump sums for monthly payments in an amount not exceeding $5,000. **Death Ben.**—To widow or dependent widower, 30% of the average wages, with 10% additional for each child under eighteen years of age, total not to exceed 66⅔%. If only children survive, they receive 15% each, the total not to exceed 66⅔%. If there are none of the foregoing dependent parents may receive 25% of the average monthly wage during dependency; if dependent brothers or sisters under eighteen, 20% for one and 30% if more than one, other cases according to the facts. Payments to a widow or dependent widower cease on remarriage, but the widow shall receive two years' benefits in a lump sum Payments to children cease at eighteen, unless incapable Payments to non-resident aliens 60% of above. No excess of wages over $120 per month considered. No lump sum settlements allowed for wido chw,ildren, or the wholly dependent.

NEW HAMPSHIRE, 1912.

Adm. Sys.—Disputes settled by agreement or action in equity. **Sec. for Comp.**—No provision for insurance Employer must satisfy Commissioner of Labor of financial ability or file a bond. Payments have same preferences as claims for unpaid wages, or for personal services. **Employ.**—Industries dangerous to life or limb, including operation and maintenance of steam and electric roads, work in shops, mills, factories, etc , employing five or more; work about quarries, mines, foundries. **Wait.**—Two weeks **Med. and Surg.**—If no dependents, expenses of medical care and burial not in excess of $100. **Comp. for Dis.: Total**—Beginning with the fifteenth day, a sum not exceeding 50% of average weekly earnings. **Partial**—A sum not in excess of 50% of loss of earning capacity In no case is compensation to exceed $10 a week, nor run for a longer period than 300 weeks The court may determine the amount of lump sums payable as a substitute for weekly payments. **Death Ben.**—To persons wholly dependent, a sum equal to 150 times the average weekly earnings of deceased, not to exceed $3,000 If only partial dependents survive, such proportion of the above as corresponds to the portion of wages contributed to their support.

NEW JERSEY, 1914.

Adm. Sys.—Judge of Court of Common Pleas settles disputes in summary manner, subject to review on questions of law in Supreme Court. Workmen's Compensation Bureau by amendment of 1918. **Sec. for Comp.**—Employers must furnish proof of financial ability or insure Policies must be for benefit of employees Right of compensation has same preference as claim for unpaid wages **Employ.**—All employments in absence of contrary election. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical and hospital services for first two weeks, not over $50. Expense of last sickness and of burial, not exceeding $100 for burial. **Comp. for Dis.: Total**, (a) **Temp**; (b) **Perm.**—(a) 50% of wages, payable during disability, but not beyond 300 weeks. (b) 50% of wages during such disability, not beyond 400 weeks **Partial**, (b) **Perm.**—(b) For certain specific injuries (mutilations, etc.), 50% of wages during fixed periods All weekly payments are subject to the same rule as to maximum and minimum as for death benefits. A lump sum payment may be substituted at the discretion of the Court of Common Pleas. **Death Ben.**—To one dependent, 35% of the wages of the deceased, and for each additional dependent 5% additional, the total not to exceed 60%, payable for not more than 300 weeks. Compensation not to be less than $5 nor more than $10 per week, unless the earnings are less than $5, when full wages are paid. Payments to widows cease on remarriage, to orphans at eighteen, unless mentally or physically deficient. Provision is made also for education and rehabilitation. If no dependents, payment to State treasury of $400 is made by the employer.

NEW MEXICO, 1917.

Adm. Sys.—District courts. **Sec. for Comp.**—Employer must file bond or certificate of guarantee, mutual, or other insurance, unless he can satisfy the Judge he is solvent **Employ.**—Extra hazardous (enumerated), where four or more are employed, or where work is carried on upon a derrick, scaffolding, pole, or other structure ten or more feet above the surface of the ground; others by election **Wait.**—Twenty-one days. **Med. and Surg.**—Medical care up to $50, during "waiting" period of 21 days $50 for funeral expenses **Comp. for Total Dis.**—Fifty per cent of earnings for 520 weeks. Compensation is increased 50% if caused by employer's failure to provide safety devices provided by law, and decreased 50% if caused by the employees' failure to observe a statutory regulation concerning safety, or to use a safety device provided. **Death Ben.**—To a dependent widow or widower, 40% of earnings, 5% additional for each child up to 60%, and proportionate amounts for other dependents

NEW YORK, 1918.

Adm. Sys.—State Industrial Commission, with limited appeals to the courts. **Sec. for Comp.**—Employer must give proof of financial ability, or must insure in State fund or mutual or stock company. Policies must inure directly to beneficiary. Payments have same preference as unpaid wages. **Employ.**—All industries employing four or more employees, except domestic service and agricultural pursuits. **Wait.**—Two weeks. **Med. and Surg.**—Medical and surgical treatment and hospital services for sixty days, costs to be approved by the commission. $100 for funeral expenses **Comp. for Dis.: Total**—66⅔% of wages during continuance **Partial**—66⅔% of wage loss. For specified permanent partial disabilities (mutilations, etc), 66⅔% of wages for fixed periods, separate provision for disfigurements. The foregoing payments may not be less than $5 nor more than $15 per week, except for certain malmings the maximum may be $20. Payments begin on the fifteenth day, but if the disability continues for more than forty-nine days compensation is allowed from the beginning. **Death Ben.**—To a widow or dependent widower alone, 30% of wages of deceased, 10% additional for each child under eighteen; dependent orphans under eighteen receive 15% each, and dependent parents, brothers, or sisters, 15% each; aggregate payments in no case to exceed 66⅔%. Payments to widow or widower cease on death or remarriage; payments to children, brothers and sisters at eighteen, and to parents when dependence ceases In computing the above benefits no wages in excess of $100 monthly are considered

NORTH DAKOTA, 1919.

Adm. Sys.—Workmen's Compensation Bureau. **Sec. for Comp.**—Insurance compulsory; self-insurance not permitted. **Employ.**—All public and private, other than agricultural and domestic service, and common carriers by railroad (which may come in by election). **Comp. for Dis.**—66⅔% of wages during total, and 66⅔% of wage loss during temporary partial. **Death Ben.**—To widow or dependent widower until death or remarriage; to children up to eighteen; payments to parents until death, remarriage or cessation of dependency; to other beneficiaries, eight years, not to exceed $20, nor less than $6 per week; funeral benefit up to $100.

OHIO, 1917.

Adm. Sys.—Industrial Commission; limited appeal to civil courts. **Sec. for Comp.**—State Insurance Fund. Employers must insure or give proof of ability to pay benefits. Non-insurers must give bond or security. Insurance is under State control. Claims have same preference as on tax judgments. **Employ.**—All employing five or more regularly; also establishments employing less than five, if employer elects to pay premiums. **Wait.**—One week. **Med. and Surg.**—Medical, hospital, etc , not over $200, but more may be allowed in case of necessity. Burial expenses not to exceed $150. If no dependents, medical and hospital services, not over $200, and burial expenses as above. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(a) Weekly payments of 66⅔% of average weekly wages during disability, not less than $5 nor

more than $12; but not for longer than six years, nor exceeding $3,750 (b) A weekly payment as above, continuing until death. **Partial, (a) Temp.; (b) Perm.**—(a) 66⅔% of loss of earning capacity during continuance, but not exceeding $12 per week, or a total of $3,750. (b) In certain specified injuries (mutilations, etc.), 66⅔% of wages for fixed periods, with the same maximum and minimum limitations as noted above, in addition to payments during temporary total disability. In all cases, if wages are less than prescribed minimum, then total wages are paid as compensation; an expected increase in wages may be given consideration. **Death Ben.**—To persons wholly dependent, 66⅔% of the average weekly earnings of the deceased for eight years, not less than $2,000 nor more than $5,000. If only partial dependents survive, a proportionate sum to continue for all or such portion of the period of eight years as the Industrial Commission may determine in each case, not exceeding a maximum of $5,000.

OKLAHOMA, 1915.

Adm. Sys.—Industrial Commission. Appeals to the Supreme Court. **Sec. for Comp.**—Insurance companies or fund systems must be approved by the commission. Claims cannot be assigned, and payments are exempt from levy, execution, etc. **Employ.**—"Hazardous" (enumerated list and general clause), in which more than two are employed; agriculture, stock raising, retail stores, and interstate railways not included; work by State or municipalities is included. **Wait.**—Two weeks **Med. and Surg.**—Necessary medical, surgical, or other treatment for first fifteen days. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(a) 50% of average weekly wages for not more than 300 weeks. (b) 50% of average weekly wages for not more than 500 weeks. **Partial, (b) Perm.**—(b) 50% of wage loss for not more than 300 weeks; for specified injuries, 50% of weekly wages for fixed periods in lieu of other compensation. Payments may not exceed $10 per week nor be less than $6, unless wages were less than $6, when full wages will be paid. Periodical payments may be commuted to lump sums, and aliens who are non-residents may have payments commuted to lump sums equal to one-half of the value of the present worth

OREGON, 1916.

Adm. Sys.—State Accident Industrial Commission. Review by Circuit Court. Appeals from Circuit Court as in other civil cases. **Sec. for Comp.**—Insurance under State control. State gives subsidy, employer deducts 1% from employee's daily earnings, and contributes this and a percentage of monthly payroll. **Employ.**—All hazardous occupations, factories, mills, and workshops using machinery; mines, quarries, wharves and docks, dredges, engineering, telephone, telegraph, electric light, etc All in absence of contrary election. **Med. and Surg.**—Transportation, medical, surgical, and hospital expenses, not exceeding $250. Burial expenses not to exceed $100. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(b) Monthly payments as follows: If unmarried, $30; if with wife or invalid husband, but no child under sixteen, $35; if husband is not an invalid, $30; if married or a widow or widower with a child or children under sixteen, $6 additional for each child until sixteen, total monthly payments not to exceed $50 (a) Above payments apply during disability, increased 50% for first six months, but in no case to exceed 60% of monthly wages. **Partial, (a) Temp.; (b) Perm.**—(a) A proportionate amount, corresponding to loss of earning power for not exceeding two years (b) For certain specified injuries (mutilations, etc.), monthly payments of $25 per month payable for fixed periods, less any time for which compensation was paid for total disability. A lump sum at the option of the injured person is provided in some cases. Partial lump sum payments to any beneficiary may be substituted at the discretion of the commission. **Death Ben.**—To widow or invalid widower, a monthly payment of $30, and to each child under sixteen (daughters eighteen), $6 a month, the total monthly not to exceed $50 To orphans under sixteen (daughters eighteen), a monthly payment of $15 each, the total not to exceed $50 To other dependents, there being none of the foregoing, a monthly payment to each of 50% of the average support received during the preceding year, but not to exceed $30 a month in all. To parents of an unmarried minor, a monthly payment of $25, until such time as he would have been twenty-one, after which time compensation shall be paid according to average support. Payments to widow or widower until death or remarriage. On remarriage of widow a lump sum of $300. Payments to a male child cease at sixteen, to a female at eighteen, unless an invalid.

PENNSYLVANIA, 1916.

Adm. Sys.—Workmen's Compensation Board. Appeal to courts **Sec. for Comp.**—Employers must insure in State Fund, a stock or mutual company, or give proof of financial ability. Agreements are filed with a prothonotary, if approved becomes a lien as a judgment. A separate act provides for direct payments to beneficiaries. **Employ.**—All, unless employer elects to contrary. Agricultural and domestic employees are excluded. **Wait.**—Fourteen days. **Med. and Surg.**—Reasonable medical, surgical, and hospital expenses for first fourteen days, cost not to exceed $25, unless major surgical operation is necessary, when $75 is the maximum. $100 funeral expenses **Comp. for Dis.: Total**—Fifty per cent. of weekly wages for 500 weeks, $5 minimum, $10 maximum, total not to exceed $4,000; if wages are less than $5, full wages will be paid. **Partial**—Fifty per cent. of weekly wage loss, $10 maximum, for not over 300 weeks; fixed periods for specified injuries, $5 minimum, $10 maximum, full wages if less than $5. Payments may be computed to lump sum. **Death Ben.**—Forty per cent. of weekly wages to widow or dependent widower, 5% additional for each child, total not to exceed 60%; if no parent, 25%; if one or two children, 10% additional for each child in excess of two, total not to exceed 60% if no consort or child under sixteen, but dependent parent, brothers, or sisters, 15% to 25% of wages. Payments cease on death, remarriage of widow or widower, or child, brother or sister at sixteen, not to continue beyond 300 weeks, unless for children under sixteen, when 15% will be paid for one, and 10% additional for each additional child, total not to exceed 50%. Basic wages are not less than $10 nor more than $20 weekly.

PORTO RICO, 1917.

Adm. Sys.—Workmen's Relief Commission, with limited appeals to the courts. **Sec. for Comp.**—A Workmen's Relief Trust Fund is administered by the Treasurer of the island. Rights not assignable, nor subject to attachment. **Employ.**—All employing five or more, except domestic service and agricultural work without mechanically driven machinery, and common carriers by railroad **Med. and Surg.**—Necessary medical attendance and such medicines and necessary food as the Workmen's Relief Commission may prescribe; food supplies granted to be deducted from the award. Burial expenses not exceeding $40. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(a) An amount equal to three-quarters of the weekly wages, not less than $3 nor more than $7, for not more than 104 weeks (b) The sum of $1,500, and an amount equal to three-quarters of the weekly wages, not less than $3 nor more than $7, for a maximum of 208 weeks. **Partial, (b) Perm.**—(b) Payment is to be made proportionate to permanent total, following payments under temporary total disability. The time and manner of payments are to be determined by the Workman's Relief Commission **Death Ben.**—Any balance of the sums the deceased workman would have received if the injuries had not proved fatal Benefits may be apportioned among the dependent legal heirs by the Workmen's Relief Commission.

RHODE ISLAND, 1917.

Adm. Sys.—Any party interested may petition Superior Court. Appeals to the Supreme Court. **Sec. for Comp.**—Employer must insure, give proof of financial ability, or furnish security or bond. Insurers directly liable to claimants. Beneficiaries have first lien. **Employ.**—All except domestic service and agriculture, if employer elects. Defenses in suits for damages not abrogated unless more than five persons employed. **Wait.**—Two weeks. **Med. and Surg.**—Necessary medical and surgical care and hospital

services for the first four weeks. If no dependents, the expense of the last sickness and burial, not over $200. **Comp. for Dis.: Total**—A weekly payment equal to one-half the wages, not less than $4 nor more than $10 per week, for not more than 500 weeks. **Partial**—A weekly payment equal to one-half the loss of earning power, not exceeding $10 per week, for not longer than 300 weeks. For certain specified injuries (mutilations, etc.), in addition to above, one-half the wages, weekly payments to be not less than $4 nor more than $10 per week, for fixed periods Payments begin on the fifteenth day, but if incapacity extends beyond four weeks they begin with date of injury Lump sum payments may be substituted by order of the Superior Court after compensation has been paid for six months for either death or injury. **Death Ben.**—To persons wholly dependent, a weekly payment equal to one-half the average weekly earnings, not less than $4 nor more than $10 per week, for a period of 300 weeks. If only partial dependents survive, a sum proportionate to the amount which the annual contributions bear to the annual earnings of the deceased, for not over 300 weeks. Payments to children cease on their reaching eighteen unless physically or mentally incapacitated. Provision is made also for education and rehabilitation.

SOUTH DAKOTA, 1917.

Adm. Sys.—Industrial Commissioner. Arbitration Committee, one representative of each side and the Industrial Commissioner. **Sec. for Comp.**—Insurance required unless employer can furnish proof of financial ability, when security may be required. **Employ**—All except domestic, farm and casual laborers, and employees in interstate and foreign commerce. **Walt.**—Fourteen days. **Med. and Surg.**—Medical care up to $100, for four weeks. If no dependents, $150 for burial. **Comp. for Total Dis.**—Fifty per cent. of earnings up to a maximum of $3,000, or four times average annual earnings **Death Ben.**—In death cases practically the same as for total disability.

TENNESSEE, 1919.

Adm. Sys.—The Courts. **Sec. for Comp.**—Insurance is required. Self-insurers may be required to give a bond, or file security; policies inure directly to benefit of employés; same preference as for unpaid wages and exemption from claims of creditors. **Employ.**—Employees where ten or more employees are regularly employed, other than of State, counties thereof, and municipal corporations; except those engaged in agriculture, domestic service, coal mines, common carriers doing interstate business, casual employees. Employers of less than ten, mine operators and State and municipalities may accept provisions. **Wait.**—Ten days. **Med. and Surg.**—Such medical and surgical treatment, medicines, supplies and apparatus as may be reasonably required, for thirty days after notice by employee to employer of accident. In case of death, reasonable burial expenses up to $100. **Comp. for Dis.: Total. (a) Temp.**—Fifty per cent. of average weekly wages up to $11 per week; minimum, $5 per week; during disability, not to exceed 300 weeks. **(b) Temp. Part.**—Fifty per cent. of difference between amount earned at time of injury and amount since able to earn; not to exceed 300 weeks; special schedule for specified injuries. **Perm. Total**—Fifty per cent. of average weekly wages, not exceeding 550 weeks, not over $5 per week after 400 weeks; total not to exceed $5,000. **Death Ben.**—To widow, 30% of average weekly wages; to widow and one dependent child, 40%; to widow and two or more dependent children, 50%; to dependent orphan, 30%, and 10% additional for additional orphans, not to exceed 50%; to dependent husband, 20%; to a parent, 25%; to two parents, 35%; if no widow, child, husband, or parent, to dependent grandparent, brother, sister, mother-in-law, or father-in-law, if but one, 25%, if two or more, 35%. This compensation during dependency for not more than 400 weeks.

TEXAS, 1917.

Adm. Sys.—Industrial Accident Board. Appeals to courts. **Sec. for Comp.**—Employers must insure. Compensation is payable directly by the insurance association. Benefits are unassignable, and exempt from garnishment attachment, etc. **Employ.**—All except domestic and farm labor, railways operated as common carriers, and vessels in interstate and foreign commerce. **Wait.**—One week. **Med. and Surg.**—Medical and hospital care for first two weeks and hospital care for two additional weeks if necessary. If no beneficiaries or creditors, expenses of last illness and a funeral benefit not over $100. **Comp. for Dis.: Total**—Sixty per cent of average weekly wages, not less than $5 nor more than $15, for not more than 401 weeks. **Partial**—Sixty per cent. of loss of earning power, not over $15 per week nor more than 300 weeks For certain specified injuries (mutilations, etc.), an additional compensation equal to 60% of the average weekly wages for fixed periods, not less than $5 nor more than $15 per week, in lieu of all other compensation. A lump sum payment may be substituted for weekly payments in cases of death or total permanent disability, subject to the approval of the Industrial Accident Board. **Death Ben.**—To the legal beneficiary a weekly payment equal to 60% of his wages, not less than $5 nor more than $15, for a period of 360 weeks, distributed according to law governing property distribution.

UTAH, 1917.

Adm. Sys.—Industrial Commission. **Sec. for Comp.**—Employers must insure or be liable to respond in damages. **Employ.**—Public and private employers of four or more. Agricultural, domestic and casual laborers, elected officials, and employees in interstate and foreign commerce are excluded. **Wait.**—Ten days. **Med. and Surg.**—Medical care up to $200. $150 for burial. **Comp. for Total Dis.**—Fifty-five per cent. of average weekly wages for five years, and 40% thereafter. **Death Ben.**—Dependents are paid 55% of wages for a maximum period of six years.

VERMONT, 1917.

Adm. Sys.—Commissioner of Industries. Appeal to courts. **Sec. for Comp.**—Insurance required unless deposit of security or proof of financial responsibility. Employees have direct recourse to insurer. Compensation rights are preferred claims. **Employ.**—All industrial establishments in which more than ten are employed, commerce as far as permissible under Federal laws, domestic and casual labor excluded. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital service for fourteen days, not over $100. $100 for funeral expenses if death within two years. **Comp. for Dis.: Total**—Fifty per cent of weekly wages for not more than 260 weeks, $3 minimum, $12.50 maximum, total not to exceed $4,000. If wages less than $3, full wages will be paid. **Partial**—Fifty per cent. of wage decrease, maximum $10, for not more than 260 weeks. For certain specified injuries, 50% of weekly wages, but not more than $10 for designated periods running from 4 to 170 weeks. Payments may be commuted to one or more lump sums in any case. **Death Ben.**—To dependent widow or widower, 33⅓% of weekly wages, 40% if there be one or two children, 45% if more than two; if no parent, 25% to one or two children, 10% additional for each child in excess of two, total not to exceed 40%; if no consort or child under eighteen, and dependent parent, grandparent, or grandchild, 15% to 25%. Payments to widow cease on death or remarriage; to widower on remarriage or cessation of dependency; to children on reaching eighteen, unless incapable, in no case to exceed 260 weeks or $3,500. Payments to other classes end in 208 weeks at most. Basic wages not less than $5 weekly.

VIRGINIA, 1918.

Adm. Sys.—State Commission of three. **Sec. for Comp.**—Policies inure directly to employee. Claims or awards have same preference as those for wages. **Employ.**—All except domestic service and farm labor, and steam railroads; includes public employment. **Wait.**—Fourteen days. **Med. and Surg.**

—Medical and surgical aid by employers for thirty days Funeral expenses not over $100. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages, maximum $10, minimum $5, total for disability not over 500 weeks or $4,000. **Partial, (a) Temp.; (b) Perm.**—(b) Act has schedule for permanent partial, loss of thumb so much, index finger so much, and so on. (a) 50% of weekly loss during disability, not more than $10 nor over 300 weeks. **Death Ben.**—Not more than 300 weeks or $4,000. 50% of average weekly wages to dependents.

WASHINGTON, 1917.

Adm. Sys.—Industrial Insurance Department. Review by Superior Court. Appeals from Superior Court as in other civil cases. **Sec. for Comp.**—Accident fund, under State control. **Employ.**—All extra-hazardous employment, including mills, factories, workshops where machinery is used; blast furnaces, mines, quarries, and wharves, engineering, logging, lumbering, building trades, telegraph, telephone, and electric lights, etc. Railroads are excluded. **Wait.**—Eight days **Med. and Surg.**—Proper and necessary medical and surgical services, and hospital care if injuries temporary; if permanent, until awards are made on basis of nature of disability. Expenses of burial not over $75. **Comp. for Dis.: Total (a) Temp.; (b) Perm.**—(b) If unmarried, $20 per month; if with a wife or invalid husband, but no child under sixteen, $25 per month; if husband not an invalid, $15 per month; if married or a widow or widower with a child or children under sixteen, $5 additional for each child, total not to exceed $35; if so helpless as to require attendant, $20 per month, in addition to other benefits. (a) Payments as for (b) during disability, increased by 50% for first six months, but in no case to exceed 60% of monthly wages. **Partial, (a) Temp.; (b) Perm.**—(a) Payment as for total disability continues in proportion to loss of earning power, provided this exceeds 5%. (b) For specified permanent partial disabilities, lump sums ranging from $500 to $2,000; others to be compensated proportionately; if the injured person is a minor, the parents receive an additional sum equal to 10% of the award to the injured person. Monthly payments may be converted into a lump sum, payment not over $4,000, in case of death or permanent total disability. No benefits are to be paid for the first eight days, unless the disability continues for more than thirty days. **Death Ben.**—To widow or invalid widower, a monthly payment of $20; to each child under sixteen, $5 per month, total not over $35; if no parent, $10 to each child under sixteen, total not to exceed $35 To other dependents, if none above survive, a monthly payment equal to 50% of the average amount previously contributed, total not to exceed $20. To the parent or parents of unmarried minor, a monthly payment of $20, until he would have been twenty-one. Payments to widow or widower continue until death or remarriage, and to a child under sixteen. If a widow remarries she receives a lump sum of $240.

WEST VIRGINIA, 1915.

Adm. Sys.—Compensation Commissioner; limited appeal to Supreme Court. **Sec. for Comp.**—Insurance through a State fund. Employers of approved ability may carry own risks, giving bond. Payments only to beneficiaries, and exempt from claims of creditors, attachment or execution. **Employ.**—All except domestic or agricultural labor, if the employer becomes a member of the State Insurance Fund. **Wait.**—One week. **Med. and Surg.**—Medical, nurse and hospital services, not over $150 ($300 in special cases). Reasonable funeral expenses, not over $75. **Comp. for Dis.: Total**—For permanent total disability (85% or above); 50% of the average weekly wages during life. **Partial, (a) Temp ; (b) Perm.**—(a) 50% of loss of earning capacity, not more than $10 per week nor exceeding 26 weeks, except that for certain ununited fractures, etc., may be fifty-two weeks. (b) 50% of wages for periods varying with degree of disability (from 10 to 70%), from 30 to 210 weeks; from 70 to 85% disability, 40% of wages for life. Lump sum payments may be substituted for periodic payments in case of either injury or death. **Death Ben.**—To widow or invalid widower, $20 per month and $5 per month additional for each child under the age of legal employment, total not to exceed $35 per month. To orphan child or children, $10 each per month until fifteen, total not over $30 per month. To other persons wholly dependent, if no widow, widower, or child, 50% of average monthly support received from deceased during preceding year, not exceeding $20 per month for six years. If deceased was a single minor, to a dependent parent 50% of earnings, not over $6 per week until he would have become twenty-one. If only partial dependents survive, compensation computed. Payments to widow or widower cease on remarriage, and to children at fifteen. If widow or widower remarry within two years, to be paid 20% of balance of 10 years.

WISCONSIN, 1917.

Adm. Sys.—Industrial Commission; limited review by the courts **Sec. for Comp.**—Employer must give proof of financial ability or insure. Claims have preference, are non-assignable, and exempt from attachment or execution. Commission may require deposits, purchase of annuities, or the giving of bonds. **Employ.**—All, if the employer elects Election is presumed where there are three or more employees, except as to agriculture and railroads. **Wait.**—One week. **Med. and Surg.**—Medical, surgical, and hospital treatment for ninety days, and for such additional time as will in judgment of commission lessen the period of compensation. Christian Science healing permitted if both employer and employee agree. Occupational disease is subject to compensation same as industrial accidents. Artificial limbs supplied. Reasonable expense of burial, up to $100. **Comp. for Dis.: Total**—Sixty-five per cent. of average weekly earnings. **Partial**—Sixty-five per cent. of loss of earning power. For certain specific injuries (mutilations, etc.), a sum equal to 65% of average weekly earnings for fixed periods, ranging from 6 to 320 weeks, which include the time for healing. For serious permanent disfigurement, a lump sum may be allowed, not over $750. Payments begin with the eighth day, but if disability continues for twenty-eight days, benefits are payable for first seven days. In case of temporary or partial disability, aggregate compensation not over four years' earnings; for permanent total disabilities payments are limited—nine to fifteen years, according to age of injured person Lump sum payments may be substituted at any time after six months. **Death Ben.**—To persons wholly dependent, a sum equal to four years' earnings, but which when added to any prior compensation will not exceed six years' earnings. If only partial dependents survive, a sum not to exceed four times the amount provided for their support during the preceding year. All payments are to be made in weekly instalments equal to 65% of the average weekly earnings. Dependence of children ceases at eighteen, unless physically or mentally incapacitated.

WYOMING, 1917.

Adm. Sys.—Disputes settled by District Courts of the counties, with appeal to the Supreme Court of the State. **Sec. for Comp.**—Insurance in State fund required. Insurance under State control. Payments not assignable, nor subject to attachment, execution, etc. **Employ.**—Extra-hazardous (enumerated list), in which three or more are employed, interstate railroads excepted; use of explosives and work ten feet above ground included. **Wait.**—Ten days **Med. and Surg.**—None $50 for funeral expenses, unless other arrangement exists under agreement. **Comp. for Dis.: Total (a) Temp.; (b) Perm.**—(b) Lump sum of $1,400 if single, $1,600 if wife or invalid husband, and a sum equal to $60 per year for each child until sixteen years old, total for children not to exceed one and one-half times the sum allowed the injured workman. (a) $18 per month if single, $24 if married, and $5 per month for each child under sixteen, total monthly payment not over $35, and aggregate not to exceed the amount payable if the disability were permanent. **Partial (b) Perm.**—(b) Fixed lump sums for specified injuries, others in proportion. No payments for first ten days unless the disability continues for more than thirty days. **Death Ben.**—Lump sum payment of $1,200 to widow or invalid widower, and an additional sum equal to $60 per year until sixteen for each child, total for children not to exceed one and one-half times the payments

COMPENSATION LAWS OF THE VARIOUS STATES—*Continued*

to surviving spouse. If there are dependent parents and no spouse and no child under sixteen, a sum equal to 50% of one year's contribution, not exceeding $500 Payments to non-resident aliens, beneficiaries are limited to 33⅓% of the above amounts, and only the widow and children under sixteen are considered.

UNITED STATES, 1916.

Adm. Sys.—United States Employees Compensation Commission. **Sec. for Comp.**—No provision for insurance. Payments made from special compensation fund. **Employ.**—All civilian employments of the United States Government and the Panama Railroad. **Wait.**—Three days. **Med. and Surg.**—Reasonable medical, surgical, and hospital services and supplies. $100 burial expenses, and transportation of bodies of residents of the United States dying away from home, if relations desire it. **Comp. for Dis.: Total**—66⅔% of the monthly pay during continuance of the disability. **Partial**—66⅔% of the difference in wage earning capacity due to such disability. Payments are subject to the same maximum and minimum amounts as in case of death. Payments on account of death, or permanent disability, may be computed to a lump sum. **Death Ben.**—To widow or dependent widower alone, 35% of the monthly wages, with 10% additional for each child, total not to exceed 66⅔%. To dependent parents, 25% if one, 40% if both are dependent If there is a widow, widower, or child, the parents' rights are subordinate, and the total awards may not exceed 66⅔% Other dependent relatives receive benefits in smaller amounts, subject to claims of foregoing. Payments to widow or widower terminate on death or remarriage, to a child on marriage, reaching eighteen. Payments to other beneficiaries in no case extend beyond eight years. All payments subject to maximum of $66 67 per month, and minimum of $33 33, unless actual earnings are less, when compensation will equal earnings

WIDOWED MOTHERS' PENSIONS

(For tabulated provisions of the various acts prior to 1917, see Almanac of that year)

The Maine law provides: Cities and towns shall aid necessitous mothers, capable of bringing up children, at home. Aid in money or supplies not to exceed $10 per month for one child under 14, $4 for each additional child. State Board consists of State Board of Charities and Correction, Municipal Board of Overseers of Poor, unless towns provide special board Applications made to Municipal Board, which investigates and reports to State Board, which decides Deserted wives must first proceed against husbands . Towns and cities furnishing aid reimbursed by State to extent of one-half. Five years' residence in State requisite

The Texas law, approved by Governor, March 29, 1917, provides: Widow, bona fide resident of State 5, of county 2 years, mother of child under 16, presents verified petition to County Commissioners (County Judge acts as chairman), containing data in detail as to death of husband, births of children, residences for 5 years, when and where married, what property she or children possess (including future or contingent interests), names and residences of husband's relatives. If board concludes, after examination, that widow may become a county charge, orders, not more than $12 per month for one child, $18 for two, $4 for each additional. Board may revoke order and cancel relief for cause Its action in all cases final

COMPULSORY WORK LEGISLATION IN THE UNITED STATES AND CANADA.

(By the United States Department of Labor)

The adoption of laws looking toward the useful employment of all the working forces of the population as a war emergency measure has received its most influential indorsement by the act of the Legislature of New York, whose bill on this subject was approved by Governor Whitman on May 13, 1918. West Virginia was the first State to enact a law of this type, except for a Kansas enactment that refusal to accept employment should be included in the definition of "vagrancy," followed by Maryland in the same year (1917), while in 1918 New Jersey, Kentucky, Massachusetts, Rhode Island, Delaware, and New York took similar steps An order in council, April 4, 1918, brings the Dominion of Canada under similar regulation. Habitual idleness or refusal to accept obtainable work is included in the definitions of "sedition" in Nebraska

The New York statute applies to all able-bodied males between the ages of 18 and 50, requiring them to "be habitually and regularly engaged in some lawful, useful, and recognized business, profession, occupation, trade or employment until the termination of the war." Such employment must continue for at least 36 hours per week, noncompliance with the law being punishable by a fine of $100 or three months' imprisonment, or both. Loitering in the streets, saloons, poolrooms, stores, etc , is considered prima facie evidence of violation of the act. Persons out of employment by reason of labor disputes and students are exempt from the operation of the law, but a claim of sufficient income for self-support and the support of dependents will not suffice The Governor's approval was accompanied by a memorandum stating that the object of the measure was to require contributions by all able-bodied males toward a remedying of the conditions due to the present shortage of labor. Some doubt as to constitutionality was admitted, yet the measure was held to be justified if it would produce any advantage, however small, in view of the conditions involved in the prosecution of the war Another point mentioned was the protection of the State against undesirable persons who might enter it to escape the operations of the law of New Jersey

LABOR LEGISLATION IN 1919.

Michigan created an Industrial Relations Commission Massachusetts authorized manufacturing corporations to provide for representation of their employés on their boards of directors. The State of Washington established a State Safety Board. The eight-hour day on public work was legalized in Minnesota, Nevada, and Wyoming

Night work for women and children was prohibited in Connecticut. Existing laws limiting the hours of women are extended to new occupations in New York, California, Ohio, Oklahoma, and Massachusetts. North Dakota limits the work day for women in specified employments to eight and one-half hours a day or forty-eight hours a week, and requires one day of rest in seven. Utah reduces women's work to eight hours a day California makes special provision for those women who work for more than one employer, so as to confine the total hours for all employers to the eight-hour limit fixed for women's work. Massachusetts authorizes the industrial commission to require employers to keep a record for a period not exceeding six months of the hours of their women workers.

Laws forbidding child labor were enacted in North Carolina, South Carolina, Missouri, and West Virginia The West Virginia law also forbids the employment of children in dangerous or injurious employments. Missouri forbade the employment of girls under eighteen as messengers. New Jersey outlawed employment of children under sixteen for over forty-two hours a week in school seasons. North Dakota created a board to regulate employment of women and children.

STRIKES AND LOCKOUTS IN THE UNITED STATES, 1916-17-18.

In September, 1919, occurred the biggest strike in the United States since the war began—the lockout and walkout of employés in the rolling mills and foundries of the U. S. Steel Corporation, in which over 200,000 men were involved.

There were port and ship workers' strikes all over the country.

The year 1919 also was marked by the assembling, at Washington, first of President Wilson's National Industrial Conference, and then of the International Labor Conference under the terms of the Peace Treaty.

CO-OPERATIVE MOVEMENTS IN THE UNITED STATES.

(Data by the United States Department of Labor.)

Certain of the early co-operative schemes were linked up with some visionary theory doomed to failure; others were failures almost from the start, as in aiming at the abolition of profits they sold at cost and were thus unable to make a financial success of the venture. This was the fate of the stores established by the Workingmen's Protective Union the middle of the last century. At the close of the Civil War the movement was taken up, officially, by the labor unions, but as the stores did not hold to the Rochdale principles and were only buying agencies, the movement lost vitality. The Patrons of Husbandry and the Knights of Labor organized productive and distributive organizations on a large scale, but while the co-operative principle was held to by the leaders, the majority saw only the immediate material benefits, the stores becoming commission houses, and in time the movement was merged in the modern labor movement of strikes and legislation. Farmers' creameries have followed co-operative lines more closely than have the farmers' elevators. It is estimated there are 2,000 cheese factories and 3,000 co-operative creameries in the United States. Co-operative live-stock selling associations are numerous, and Wisconsin has at least 130. Co-operative meat-packing plants are increasing. A good deal has been done in the marketing of fruit co-operatively, there being more than a thousand fruit growers' associations throughout the country.

AMERICAN FEDERATION OF LABOR.

Executive Council—President, Samuel Gompers; Secretary, Frank Morrison; Treasurer, Daniel J. Tobin, 222 E. Michigan St., Indianapolis, Ind.; First Vice-President, James Duncan, 25 School Street, Quincy, Mass.; Second Vice-President, Jos. F. Valentine, Commercial Tribune Bldg., Cincinnati, Ohio; Third Vice-President, Frank Duffy, Carpenters' Bldg., Indianapolis, Ind.; Fourth Vice-President, William Green, 1102-8 Merchants' Bank Bldg., Indianapolis, Ind ; Fifth Vice-President, W. D. Mahon, 104 East High Street, Detroit, Mich.; Sixth Vice-President, T. A. Rickert, 175 West Washington St., Chicago, Ill.; Seventh Vice-President, Jacob Fischer, 222 East Michigan Street, Indianapolis, Ind ; Eighth Vice-President, Matthew Woll, 6111 Bishop Street, Chicago, Ill.

Headquarters, A. F. of L. Building, Washington, D. C

In the Federation are 111 national and international unions, representing 34,000 local unions, 5 departments, 46 State branches, 801 city centrals, and 823 local trade and Federal labor unions.

The building trades, metal trades, mining, railroad and union label trades departments are all at Washington.

THE RAILWAY BROTHERHOODS.

Brotherhood of Locomotive Engineers, President, Warren S. Stone, B. of L. E. Building, Cleveland, Ohio.

Brotherhood of Locomotive Firemen and Enginemen, President, W. S. Carter, 901 Guardian Building, Cleveland, Ohio.

Brotherhood of Railroad Trainmen, A. E. King, American Trust Building, Cleveland, Ohio.

Order of Railway Conductors of America, C E Whitney, The Masonic Temple, Cedar Rapids, Iowa.

STATE BRANCHES, A. F. OF L.

State branches and central bodies of the A. F. of L. are maintained for legislative and educational purposes, and they have no power to call strikes or negotiate wages or working conditions. Following are the chief officers of the State branches:

Alabama. Lewis Bowen, Birmingham.
Arizona. George D. Smith, Globe.
Arkansas. L. H. Moore, Fifth and Scott streets, Little Rock.
California. Paul Scharrenberg, 525 Market street, San Francisco.
Colorado. Ed Anderson, Denver.
Connecticut. I. M. Ornburn, 215 Meadow street, New Haven.
Florida. L. R Campbell, Tampa.
Georgia. J. A. McCann, Atlanta.
Idaho. Al Reynolds, Labor Temple, Boisé.
Illinois. Victor A Olander, 164-166 West Washington street, Chicago.
Indiana. Adolph J. Fritz, 29 South Delaware street, Indianapolis.
Iowa. Earl C. Willey, Sioux City.
Kansas. Charles Hamlin, 600 South Esplanade, Leavenworth.
Kentucky. Peter J. Campbell, Louisville.
Louisiana. Ernest H. Zwally, Shreveport
Maine. H. B. Brawn, Pejepscot
Maryland-District of Columbia Newton A. James, 606 Fifth street Northwest, Washington, D. C.
Massachusetts. Martin T. Joyce, Old South Building, Boston.
Michigan. Perry J. Ward, 49 Buhl Block, Detroit.
Minnesota. George W. Lawson, 75 West Seventh street, St Paul.
Mississippi. Jos. W. Jones, Meridian.
Missouri. F. W. Brand, Roth Bldg , St. Joseph.
Montana. O. M. Partelow, Butte.
Nebraska. Frank M. Coffey, Labor Bureau, State Capitol, Lincoln.
New Hampshire. Chas. H. Bean, Jr , Franklin.
New Jersey. Henry F. Hilfers, 68 South Orange avenue, Newark.
New Mexico. Jos. J. Votew, 113 West Lead avenue, Albuquerque.
New York Edw. A. Bates, Jones Building, Utica.
North Carolina. C. G. Worley, Asheville.
North Dakota. Conrad Meyer, Fargo.
Ohio. Thomas J. Donnelly, Columbus Savings and Trust Building, Columbus
Oklahoma. Ollie S. Wilson; Patterson Building, Oklahoma City.
Oregon, Ed. J Stack, Oregonian Building, Portland.
Pennsylvania. C. F. Quinn, Commonwealth Trust Company Building, Harrisburg
Porto Rico. Free Federation of Workingmen. Rafael Alonso, San Juan.
Rhode Island. Lawrence A. Grace, 268 Weybosset street, Providence.
South Carolina. John L. Davis, Columbia.
Tennessee. W. C. Birthwright, 316 Third avenue north, Nashville.
Texas. Geo. H. Slater, 2911 Avenue N½, Galveston.
Utah. J. H. Lamont, Labor Temple, Salt Lake City.
Vermont. Alexander Ironside, 33 Ayers street, Barre.
Virginia. Frank S. Lyon, 126 Twenty-sixth street, Newport News.
Washington. Charles Perry Taylor, Tacoma.
West Virginia. James L. Pauley, 610 Ohio avenue, Charleston.
Wisconsin. J. J. Handley, 207 Brisbane Hall, Milwaukee.
Wyoming. William A. James, Mine Workers' Building, Cheyenne.

BROTHERHOOD OF LOCOMOTIVE ENGINEERS.

(Headquarters, Cleveland, Ohio).

Grand Chief Engineer—Warren S Stone. *First Grand Engineer*—W B. Prenter. *Second Grand Assistant Engineer*—J. C Currie, Jersey City. *President Insurance Department*—W. E. Futch, Cleveland

The latest statement of membership is as follows:

GERMAN FREE TRADE UNIONS.

German free-trade unions number about 4,000,000, of whom 3,000,000 are classified as follows: Metal workers, 1,006,993; factory workers, 400,000; transport workers, 272,000; building trades, 270,000; railway men, 250,000; woodworkers, 222,043; textile workers, 210,669; miners, 200,000; municipal workers, 166,155; agricultural laborers, 150,000; shop clerks, 135,000; tailors, 62,941; printers, 50,342.

Causes of labor unrest are thus summarized by a British conference: Suspicion, fear of unemployment, unfair division of profits and products, status in industry, extremist propaganda, economic fallacies.

West Virginia, M. V. Brown, Pliny.
Wisconsin, Mrs Edith K. Reik, Rhinelander.
Wyoming, Mrs G E. Gladfelter, Slater.

ALASKA FUR SEAL TRADE.

Uncle Sam now receives about $1,000,000 annual revenue from his Alaska fur seal service, according to H. M. Smith, Commissioner of Fisheries of the Department of Commerce. For several years the killing of seals was stopped by law, but by an act of Congress in 1917 it was resumed to a limited extent in 1918 under official supervision By the new methods only the surplus males are killed. The herds off the Pribyloff Islands are estimated to be made up of about 525,000 seals, and the number killed during 1918 was about 35,000. The skins, after being prepared for use, were sold at an average of $50 each. The change in the plan of marketing has been of greatest benefit, Commissioner Smith says. The old plan was to send raw skins to London and sell them for $10 apiece. They were prepared in England for commercial use, and when sent back to this country a duty of about 75 per cent was exacted.

OIL SHALES OF COLORADO.

These oil-producing shales in northwestern Colorado have been examined with sufficient detail to warrant the estimate that there are 39 townships (1,400 square miles) underlain by an average thickness of 53 feet of shale in beds 3 feet or more in thickness, which, according to field tests, will on distillation yield an average of 25 gallons of crude oil per ton of shale. The crude oil thus obtained will give under ordinary refining practice approximately 9½ per cent gasoline, and doubtless much larger amounts by modern cracking processes. There is in northeastern Utah an oil-shale area approximately equal to that in Colorado, and it is estimated that the shale in this State will have equal thickness and quality, thus doubling the total possible yield.

U. S. NATURALIZATION LAWS.

(Revised by the Commissioner of Naturalization Department of Labor.)

THE following courts alone have the power to naturalize aliens: United States District Courts in the States and Territories; also all courts of record in any State or Territory having a seal, a clerk, and jurisdiction in actions at law or equity, or law and equity, in which the amount in controversy is unlimited.

The power to naturalize is limited to persons residing within the geographical limits of the respective courts.

Any alien, white, or of African nativity or descent, is required, if he desires to become naturalized, to file a declaration of intention in the clerk's office of a court having jurisdiction, and such declaration may not be filed until the alien has reached the age of eighteen. This declaration must contain information as to the name, age, occupation, time and place of arrival in the United States and must further show that it is the declarant's *bona fide* intention to become a citizen of the United States and to renounce forever all allegiance and fidelity to any foreign prince, potentate, state or sovereignty, and particularly to the one of which he may be at the time a citizen or subject.

The widow, and children who are under age at the time that an alien who has made his declaration of intention has died, without having secured a certificate of naturalization, are exempted from the necessity of filing a declaration of intention

PETITIONS FOR NATURALIZATION.

Not less than two years after an alien has filed his declaration of intention, and after not less than five years' continuous residence in the United States, he may file a petition for citizenship in any one of the courts which has jurisdiction over the place in which he resides, provided he has lived at least one year continuously, immediately prior to the filing of such petition, in the State or Territory in which such place is located This petition must be signed by the petitioner in his own handwriting and shall give his full name, place of residence, occupation, place of birth and the date thereof, the place from which he emigrated, and the date and place of his arrival in the United States. If such arrival occurred subsequent to the passage of the act of June 29, 1906, he must secure a certificate from the Department of Labor showing the fact of such arrival and the date and place thereof, for filing with the clerk of the court to be attached to his petition. If he is married he must state the name of his wife and, if possible, the country of her nativity and her place of residence at the time of the filing of his petition, and, if he has children, the name, date and place of birth and present place of residence of each living child. The petition must set forth that he is not a disbeliever in or opposed to organized government, or a member of or affiliated with any organization or body of persons teaching disbelief in or opposition to organized government, that he is not a polygamist or a believer in the practice of polygamy, and that he absolutely and forever renounces all allegiance and fidelity to any foreign country of which he may, at the time of filing such petition, be a citizen or subject. This petition must be verified at the time it is filed by the affidavit of two credible witnesses, who are citizens of the United States and who shall state that they have known the petitioner during his entire residence (not exceeding five years) in the State in which the petition is filed, which must be not less than one year, and that they have known him to be a resident of the United States continuously during the five years immediately preceding the filing of the petition; that during such time he acted as a man of good moral character, attached to the principles of the Constitution of the United States and well disposed to the good order and happiness of the same. If a portion of the five years has been passed by the petitioner in some other State than that in which he resides at the time of filing his petition the affidavit of the witnesses may verify so much of the petitioner's residence as has been passed in the State (not less than one year), and the portion of said five years' residence out of the State may be shown by depositions at the time of hearing on the petition.

No petition may be heard until the expiration of at least ninety days after it is filed nor within thirty days preceding a general election. At the hearing upon a petition, which shall be at a date fixed by order of the court, the witnesses are required to again attend and testify in open court so that the Judge or Judges thereof may be satisfied that the petitioner is qualified and that he has complied with all the requirements of the law.

MILITARY SERVICE A SHORT-CUT TO UNITED STATES NATURALIZATION.

The act of May 9 1918 in reference to naturalization of honorably discharged soldiers and sailors who served during the present war, has been superseded by the act of July 19, 1919, as follows: "Any person of foreign birth, who served in the military or naval forces of the United States during the present war, after final examination and acceptance by the said military or naval authorities, and shall have been honorably discharged after such acceptance and service, shall have the benefits of the seventh sub-division of Section 4, of the act of June 29, 1906 34 Statutes at Large, Part 1, Page 596, as amended, and shall not be required to pay any fee therefor; and this provision shall continue for the period of one year after all of the American troops are returned to the United States."

The above described "benefits" are: Exemption from declaration of intention and certificate of arrival; exemption from $4.00 fee; exemption from proof of United States residence for five years and State residence for one year. An applicant for naturalization under this statute must first appear before a naturalization examiner with his honorable discharge and two citizens to identify him as the person named therein and, after passing the required preliminary examination, he may file his petition for naturalization and be heard immediately by any naturalization court.

In cases of applicants in military or naval service petitions may be filed in the most convenient court without proof of residence within its jurisdiction. Honorable discharges or certificates of service are deemed *prima facie* proof as to residence and character, and the petition of a person in actual service may be heard immediately even though within thirty days of an election. Aliens in the military or naval service of the United States abroad (i. e., "not within the jurisdiction of any court authorized to naturalize aliens" —wording of statute), may file petitions without appearing in person, and may take the oath of allegiance by written verification. Service by aliens on vessels of other than American registry is not accepted as residence within the United States.

Alien seamen who have sailed three years on United States merchant or fishing vessels are protected as American citizens after declaring intention of becoming such. (This means that aliens who have sailed three years or more on American vessels may claim protection as American citizens by simply asking for it and, at the same time, declaring their intention of becoming citizens.) Aliens honorably discharged on account of disability in performance of duty while in military or naval service during the war or at its termination, may be relieved of the necessity of proving continuous five years' residence. Citizens having lost citizenship by entering the service of the Allies may resume citizenship by taking the oath of allegiance.

A subject of an enemy country may, by the eleventh subdivision of the act of May 9, 1918, become naturalized during war-time by the following means: He should make his petition for naturalization in the customary manner, and thereafter have the clerk of court serve on the Commissioner of Naturalization the special ninety-day alien enemy notice required by the statute. If the applicant's declaration of intention was less than two years old when war was declared with his native country he must be excepted by the President, through the Department of Justice, from the alien enemy classification before he may secure final hearing. In all such cases the objection of the Government to the final hearing of the application must be withdrawn before he may become naturalized.

UNITED STATES ALIEN IMMIGRATION STATISTICS.

(By Anthony Caminetti, U. S. Commissioner of Immigration Figures denoting immigration for the years 1832, 1843, 1850, and 1857 represent respectively 15 month, 9 month, 15 month, and 6 month periods.)

Under 16 years in 1918, also 16 to 44 years.

In year (fiscal) 1919, debarred numbered 8,626; deported, 3,102.

The second deported column, after 1910, includes persons deported without time limit; 1911, 71; 1912, 54; 1913, 79; 1914, 215; 1915, 196; 1916, 249. For the years prior to 1895 the figures in the last two columns are for persons over 16 years; for 1895 to date for persons 14 years of age and over. "Under 14 years" includes those under 15 until 1899; "14 to 45" means 15 to 50 until 1899; "45 and over" means 40 and over until 1899.

IMMIGRATION 1820-60 BY COUNTRIES.

The United States Census Bureau estimated in 1860 that 3,250,000 natives of Great Britain and Ireland had settled in the United States since 1814, of whom 55,000 came between 1815 and 1819. From 1776 to 1820 the total immigration is now estimated at 250,000. Thousands, in former days, entered the United States by way of Canada, and so were not included in the custom-house returns. The official returns in 1860 were as follows:

UNITED STATES IMMIGRATION, 1820-1860.

BIRTH PLACE OF IMMIGRANT.	1820 to 1830.	1831 to 1840.	1841 to 1850.	1851 to 1860.	BIRTH PLACE OF IMMIGRANT.	1820 to 1830.	1831 to 1840.	1841 to 1850.	1851 to 1860.

PASSPORT REGULATIONS.

1. AUTHORITY TO ISSUE—Section 4075 of the Revised Statutes of the United States, as amended by the act of Congress approved June 14, 1902, provides that "the Secretary of State may grant and issue passports, and cause passports to be granted, issued, and verified in foreign countries by such diplomatic or consular officers of the United States, and by such chief or other executive officer of the insular possessions of the United States, and under such rules as the President shall designate and prescribe for and on behalf of the United States." The following rules are accordingly prescribed for the granting and issuing of passports in the United States:

2. TO WHOM PASSPORTS ARE ISSUED—Section 4076 of the Revised Statutes of the United States (U. S. Comp. Stat., 1901, 2765) provides that "no passport shall be granted or issued to or verified for any other persons than those owing allegiance, whether citizens or not, to the United States."

3. BY WHOM ISSUED AND REFUSAL TO ISSUE—No one but the Secretary of State may grant and issue passports in the United States (Rev. Stat., Secs. 4075, 4078) and he is empowered to refuse them in his discretion. Passports are not issued by American diplomatic and consular officers abroad, except in cases of emergency; and a citizen who is abroad and desires to procure a passport must apply therefor through the nearest diplomatic or consular officer to the Secrretary of State. Applications for passports by persons in Porto Rico or the Philippines should be made to the chief executives of those islands. The evidence required of such applicants is similar to that required of applicants in the United States.

4. FEE—By act of Congress approved March 23, 1888, a fee of two dollars is required to be collected for every citizen's passport issued. That amount in currency or postal money order should accompany each application made by a citizen of the United States. Orders should be made payable to the Disbursing Clerk of the Department of State. Draft or checks will not be accepted.

5. APPLICATIONS: AFFIDAVIT OF APPLICANT—A person who is entitled to receive a passport, if within the United States, must submit a written application, in duplicate, in the form of an affidavit, to the Secretary of State. The application should be made by the person to whom the passport is to be issued and signed by him, as it is not proper for one person to apply for another. The affidavit must be made before a clerk of a Federal court or of a State court authorized by the act of Congress of June 29, 1906, to naturalize aliens, within the jurisdiction of which the applicant or his witness resides, and the seal of the court must be affixed; *but in any place where there is a Federal court the affidavit must be made before a clerk of such court*, unless there is in such place an agent of the Department of State, in which case the Secretary may, in his discretion, require the application to be made before such agent.

The applicant must state from what point he intends to leave the United States, and the date of his intended departure, and also, if by a port of the United States, by what ship he intends to sail.

(*c*) PHOTOGRAPHS—The application must also be accompanied by duplicate photographs of the applicant, on thin paper, unmounted, and not larger in size than three by three inches. One must be attached to the back of application by the clerk of court or the department's agent before whom the application is made, with an impression of such officer's seal so placed as to cover part of the photograph but not the features, and the other sent loose, to be attached to the passport by the department. The loose photograph must be signed by the applicant across its face, so as not to obscure the features, and the signature thereon must correspond to the applicant's signature affixed to the application. *Photographs on cardboard or postcards will not be accepted.*

(*d*) WITNESS—The application must be supported by an affidavit of at least one credible witness, who has known the applicant at least two years, stating that the applicant is the person he represents himself to be and that the facts stated in the application are true to the best of the witness's knowledge and belief. This affidavit must be made before the clerk of court or the department's agent before whom the application is executed, and the witness must accompany the applicant when he makes his application. The witness must be an American citizen, established in a recognized profession or business and having his office or place of business within the jurisdiction of the court or the department's agent (e. g., a clergyman, lawyer, physician, banker, broker, real estate dealer, or merchant). The witness, in signing the application, should state the nature of his profession or business and his professional or business address. *No lawyer or other person will be accepted as witness to a passport application if he has received or expects to receive a fee for his services in connection therewith.*

6. NATIVE CITIZEN—An application containing the information indicated by rule 5 will be sufficient evidence in the case of a native citizen; except that a person born in the United States in a place where births are recorded will be required to submit a birth certificate with his application. If a birth certificate is not obtainable, the application must be supported by an affidavit of the physician who attended the birth or affidavits of parents or other reputable persons having actual knowledge of the applicant's birth in this country. Passports issued by the Department of State or its diplomatic or consular representatives are intended for identification and protection in foreign countries and not to facilitate entry into the United States, immigration being under the supervision of the Department of Labor.

7. A PERSON BORN ABROAD WHOSE FATHER WAS A NATIVE CITIZEN OF THE UNITED STATES—In addition to the statements required by rule 5, his application must show that his father was born in the United States, resided therein, and was a citizen at the time of the applicant's birth. In such case evidence of the father's birth in this country, similar to that required in section 6, above, should be submitted.

8. NATURALIZED CITIZEN—In addition to the statements required by rule 5, a naturalized citizen must transmit his certificate of naturalization, or a duly certified copy of the court record thereof, with his application. It will be returned to him after inspection. He must state in his affidavit when and from what port he emigrated to this country and, if possible, what ship he sailed on, where he has lived since his arrival in the United States, when and before what court he was naturalized, and that he is the identical person described in the certificate of naturalization. The signature to the application should conform in orthography to the applicant's name as written in his certificate of naturalization, or an explanation of the difference should be submitted.

9. WOMAN'S APPLICATION—If she is unmarried, in addition to the statements required by rule 5, she should state that she has never been married. If she is the wife of a native citizen of the United States, the fact should be made to appear in her application, which should be made according to the form prescribed for a native citizen, whether she was born in this country or abroad. If she is the wife of a naturalized citizen, in addition to the statements required by rule 5 she must transmit for inspection her husband's certificate of naturalization or a certified copy of the court record thereof, must state that she is the wife of the person described therein, and must set forth the facts of his birth, emigration, naturalization, and residence, as required in the rules governing the application of a naturalized citizen. She should sign her own Christian name, with the family name of her husband. (Thus, Mary Doe; not Mrs. John Doe.) A married woman's citizenship follows that of her husband. It is essential, therefore, that a woman's marital relation be indicated in her application for a passport, and that in the case of a married woman her husband's citizenship be established, unless a widow or divorced in which case she is privileged to make her choice. A divorcee must submit the official decree issued by the court.

PASSPORT REGULATIONS—*Continued.*

10. THE CHILD OF A NATURALIZED CITIZEN CLAIMING CITIZENSHIP THROUGH THE NATURALIZATION OF THE PARENT—In addition to the statements required by rule 5 the applicant must state that he or she is the son or daughter, as the case may be, of the person described in the certificate of naturalization, which must be submitted for inspection, and must set forth the facts of emigration, naturalization, and residence, as required in the rules governing the application of a naturalized citizen.

11. A RESIDENT OF AN INSULAR POSSESSION OF THE UNITED STATES WHO OWES ALLEGIANCE TO THE UNITED STATES—In addition to the statements required by rule 5, he must state that he owes allegiance to the United States and that he does not acknowledge allegiance to any other government, and must submit affidavits from at least two credible witnesses who are able to corroborate his statements as to birth, residence, and loyalty. No fee is required for the issuance by the Department of State of an insular passport.

12. EXPIRATION OF PASSPORT—*A passport expires eighteen months from the date of its issuance, but must be renewed each six months.* A new one will be issued upon a new application, accompanied by the old passport.

13. WIFE, MINOR CHILDREN, AND SERVANTS—When the applicant is accompanied by his wife, minor children, and maid servant, who is a citizen of the United States, it will be sufficient to state the fact, giving their names in full, the dates and places of their births, and the allegiance of the servant, when one passport will suffice for all those under twenty-one years of age. In such case, however, photographs of each person should accompany the passport application. For a man servant or any other person in the party a separate passport will be required. A woman's passport may include her minor children and maid servant under the above-named conditions. (The term "maid servant" does not include a governess, tutor, pupil, companion, or person holding like relation to the applicant for a passport.)

14. TITLES—Professional and other titles will not be inserted in passports.

15. SURRENDER OF OLD PASSPORTS—An applicant for a new passport who holds an expired or unexpired passport or passports should submit the latter to the clerk of court or agent of the Department of State before whom he executes his application for a new passport. In such case the clerk of court or agent of the Department of State will cancel the old passport by cutting out a piece of the seal thereon and stamping, or writing in indelible ink, the word "Cancelled," across the face of the passport, which may then be returned to the applicant. After cancelling an old passport the official who takes the application should make a notation on the margin thereof, giving the number and date of issuance of the passport cancelled.

16. BLANK FORMS OF APPLICATION—They will be furnished by the department free of charge to persons who desire to apply for passports. Supplies of blank applications are also furnished by the department to clerks of courts and are held by the department's agents.

CUSTOM HOUSE EXAMINATION OF BAGGAGE FROM ABROAD.

1. A declaration is required of every passenger; but the senior member of a family may declare for the entire family if the members thereof are all residents of the same country and have their baggage placed under the same letter on the pier. Your baggage will not be examined until you have prepared and delivered to the customs officers a declaration on this form.

2. Penalties under U. S. Revised Statutes 2802 and 3082—Failure to declare any article which should be declared subjects it to seizure and the passenger to criminal prosecution. The offering of gratuities to customs officers is a violation of the law.

3. Residence—Persons arriving in the United States are divided as follows: (*a*) Returning residents of the United States and (*b*) all persons other than returning residents of the United States; and their declarations must be made accordingly. Citizens of the United States shall be deemed to be returning residents of the United States, unless they present satisfactory evidence that they have given up their residence in the United States and have acquired an actual bona fide residence in a foreign country. Residence of a wife follows that of her husband and the residence of a minor child that of its parents.

4. Returning residents of the United States must declare all articles obtained abroad in any manner This includes articles obtained by purchase, gift, exchange or otherwise; articles worn or carried on the person as well as those in the baggage; used articles as well as new, and trunks and other containers obtained abroad. Commissions for others and articles intended directly or indirectly for sale must be so described in the declaration. Articles which may be included in the $100 exemption must not be omitted from the declaration. The actual cost of repairs or alterations made abroad on any article taken out of the United States must be declared. Personal or household effects returned in the same condition shall be admitted free of duty upon their identity being established, provided that such articles as were obtained abroad on a previous trip were properly declared when originally imported.

5. All persons other than returning residents of the United States may bring in free of duty necessary and appropriate wearing apparel, articles of personal adornment, toilet articles, and similar personal effects actually owned by them and intended for their own wear and use. All other articles in their baggage or on their person must be declared. Household effects, foodstuffs, cigars and cigarettes, tools of trade, articles owned by others or intended for others or for sale or for business or professional use are among the items required to be declared.

6. The actual cost of declared articles must be stated in all declarations or the foreign market value thereof if obtained otherwise than by purchase If articles have depreciated in value through wear or use, the attention of the appraising officer should be called to such fact at the time of the examination Articles are appraised at their value in their condition as imported. Passengers dissatisfied with values placed upon dutiable articles may make demand for reappraisement to the officer in charge on the pier, but no such demand can be entertained after the articles have been removed from customs custody.

7. Cigars, cigarettes, tobacco and liquors must be declared Adult passengers may be allowed free of duty and internal revenue tax 50 cigars or 300 cigarettes or 3 pounds of smoking tobacco, if not for sale.

8. Merchandise or samples of merchandise, foreign or domestic, accompanying a passenger as baggage, whether the property of himself or another, must be declared as merchandise in this entry. A statement of the number of such packages and of the general character of the contents and the total value thereof will be sufficient.

9. Theatrical scenery, property and apparel and all other articles, foreign or domestic, which may be intended for use on the stage or for exhibition purposes, must be declared. Each package and its contents must be described

10 All dogs must be declared. Collies, shepherd or sheep, and police dogs are subject to quarantine.

11. Bonded Baggage—Baggage may be forwarded in bond. Passengers should specify on the declaration, in the space "Entry," the number of such packages, the general character and total value of the contents and the destination of the packages to be bonded.

12. The following articles are prohibited: Cuttings or parts of sugar cane and plants and seeds, except vegetable and flower seeds, unless a permit has been previously obtained from the Department of Agriculture, Washington, D. C.; smoking opium; fur-seal skins taken in the waters of the North Pacific Ocean. and garments made in whole or in part from such skins; algrettes; osprey plumes, and the feathers or parts of wild birds. Such articles must be delivered to the customs officers on the pier.

FOOD PROFITEERING CONTROL ACT AMENDMENTS.

(Approved October 22, 1919.)

TITLE I.

SECTION 1 of the Act entitled "An Act to provide further for the national security and defence by encouraging the production, conserving the supply, and controlling the distribution of food products and fuel," approved August 10, 1917, is hereby amended to read as follows:

"That by reason of the existence of a state of war, it is essential to the national security and defence for the successful prosecution of the war and for the support and maintenance of the Army and Navy, to assure an adequate supply and equitable distribution, and to facilitate the movement of foods, feeds, wearing apparel, containers primarily designed or intended for containing foods, feeds, or fertilizers; fuel, including fuel oil and natural gas, and fertilizer and fertilizer ingredients, tools, utensils, implements, machinery, and equipment for the actual production of foods, feeds, and fuel, hereafter in this Act called necessaries; to prevent, locally or generally, scarcity, monopolization, hoarding, injurious speculation, manipulation, and private controls affecting such supply, distribution, and movement; and to establish and maintain governmental control of such necessaries during the war. For such purposes the instrumentalities, means, methods, powers, authorities, duties, obligations, and prohibitions hereinafter set forth are created, established, conferred, and prescribed The President is authorized to make such regulations and to issue such orders as are essential effectively to carry out the provisions of this Act."

Sec. 2. That section 4 of such Act of August 10, 1917, is hereby amended to read as follows:

"That it is hereby made unlawful for any person wilfully to destroy any necessaries for the purpose of enhancing the price or restricting the supply thereof; knowingly to commit waste or wilfully to permit preventable deterioration of any necessaries in or in connection with their production, manufacture, or distribution; to hoard, as defined in section 6 of this Act, any necessaries; to monopolize or attempt to monopolize, either locally or generally, any necessaries; to engage in any discriminatory and unfair, or any deceptive or wasteful practice or device, or to make any unjust or unreasonable rate or charge in handling or dealing in or with any necessaries; to conspire, combine, agree, or arrange with any other person, (a) to limit the facilities for transporting, producing, harvesting, manufacturing, supplying, storing, or dealing in any necessaries; (b) to restrict the supply of any necessaries; (c) to restrict distribution of any necessaries; (d) to prevent, limit, or lessen the manufacture or production of any necessaries in order to enhance the price thereof; or (e) to exact excessive prices for any necessaries, or to aid or abet the doing of any act made unlawful by this section. Any person violating any of the provisions of this section upon conviction thereof shall be fined not exceeding $5,000 or be imprisoned for not more than two years, or both: *Provided*, That this section shall not apply to any farmer, gardener, horticulturist, vineyardist, planter, ranchman, dairyman, stockman, or other agriculturist, with respect to the farm products produced or raised upon land owned, leased, or cultivated by him: *Provided further*, That nothing in this Act shall be construed to forbid or make unlawful collective bargaining by any co-operative association or other association of farmers, dairymen, gardeners, or other producers of farm products with respect to the farm products produced or raised by its members upon land owned, leased, or cultivated by them."

Sec. 3 That sections 8 and 9 of the Act entitled "An Act to provide further for the national security and defence by encouraging the production, conserving the supply, and controlling the distribution of food products and fuel," approved August 10, 1917, be, and the same are hereby repealed: *Provided*, That any offence committed in violation of said sections 8 and 9, prior to the passage of this Act, may be prosecuted and the penalties prescribed therein enforced in the same manner and with the same effect as if this Act had not been passed.

THE PASSING OF AMERICA'S FOREIGN TRADE IN LIQUORS.

(By the Division of Statistics, United States Bureau Foreign and Domestic Commerce, November, 1919)

THE total value of the import trade of the United States in spirituous liquors during the fiscal year 1914 was $20,347,546, which dropped to $13,404,903 in 1915, following the outbreak of the war, but recovered to $16,685,356 in 1916, and a further gain to $17,679,132 in 1917. Following the entry of the United States into the war and the enforcement of the act approved November 21, 1918, prohibiting the importation into this country of distilled, malt, vinous, or other intoxicating liquors during the continuance of the war and the period of demobilization, imports dropped to $11,655,093 in 1918, with a further decline to $2,119,422 in 1919. The total value of this class of imports for the first eight months of 1919 was $516,214, or at the rate of $774,324 for the complete year. Domestic exports of spirits, wines, and malt liquors in 1914 amounted to $4,134,420, or about 23 per cent. of the value of the corresponding imports. The most remarkable development in the export trade since 1914 was the shipment of enormous quantities of alcohol to Europe, chiefly France, which brought the total values to $12,577,611 in 1916 and $20,883,227 in 1917. War-time restrictions reduced exports to $8,836,678 in 1918. The increase in this class of exports to $12,911,968 in 1919 was doubtless due to the national prohibition legislation, effective next January. This effort to unload in foreign markets American stocks now on hand is also apparent in the exports for the eight months ending August, 1919, amounting to $9,989,058, as compared with $5,883,013 for the corresponding period in 1918 and $8,417,178 in 1917.

A continuation of this export trade is not improbable, as at the end of August, 1919, there were remaining in bonded customs warehouses 194,746 proof gallons of imported distilled spirits, and in bonded distillery warehouses, on July 31, the following stocks of domestic spirits: Whisky, 63,310,485 gallons; rum, 756,430 gallons; gin, 1,544,447; high wines, 7,858; alcohol, 2,969,102; neutral or cologne spirits, 2,452,078; brandy, 1,171,762; a total of 72,212,162 gallons, of which 67,734,143 gallons were spirits produced prior to September 9, 1917, and 4,478,019 gallons spirits produced subsequent to that date

Of bottled malt liquors exported from the United States during the eight months ending with August, 144,890 dozen quarts went to Cuba, 115,541 dozen quarts went to the Dutch East Indies, 53,005 dozen quarts to the Dominican Republic, 42,284 dozen quarts to China, 41,667 dozen quarts to British West Africa, 45,304 dozen quarts to the Belgian Congo, and smaller amounts to other countries. The shortage of coal and gasoline in Europe has apparently led to an increasing utilization of American alcohol for industrial purposes. Of nearly nine million proof gallons of alcohol (including pure, neutral, or cologne spirits) exported to all countries in the eight months ending August, 6,593,233 proof gallons, or about 74 per cent., were shipped to France. In the same period Switzerland took 409,422 proof gallons; Greece, 502,486 proof gallons; Turkey in Europe, 456,545 proof gallons, and Denmark, 256,125 gallons. Of the total exports of rum, valued at $119,229, in the eight-month period under review, $43,463 worth was shipped in July to British Africa.

Paradoxical as shipping coals to Newcastle are the exports of Bourbon whisky to Scotland and Ireland—25,085 proof gallons to Scotland in July and 69,741 proof gallons to Ireland during July and August. During the eight-month period, Mexico received 17,671 proof gallons of Bourbon whisky; the Philippines, 4,295 proof gallons, and Japan, 5,462 proof gallons. With regard to quantity, England was the principal purchaser of American rye whisky in the first eight months of this year, receiving 26,437 proof gallons.

Besides the 303,311 widows on the roll in 1919, there were 4,689 dependents, 2,241 minors, 917 helpless children, and 129 nurses. Of the total number of pensioners on June 30, 1919, there were 271,391 Civil War soldiers, as against 298,808 a year before. Of the widows, 293,244 were of the Civil War, as against 288,815 a year before. To pensioners in foreign countries were paid $1,188,188, as against $983,687 the year before. In the year ended June 30, 1919, there were 27,703 Civil War soldiers who died, as against 30,466 in the previous year.

The largest number of Civil War soldiers on the pension roll—745,822—was in the year ended June 30, 1898. On June 30, 1919, there were surviving 81 widows of the War of 1812, and also 215 soldiers and 2,739 widows of the war with Mexico, as well as 28,251 pensioners of the war with Spain.

INFORMATION AS TO SOLDIERS' PENSIONS.

(By Gaylord M. Saltzgaber, Commissioner.)

(1) Section 312, Act of October 6, 1917 (as amended), provides that existing pension laws shall not be applicable after that date to persons then in or thereafter entering the active military or naval service, except so far as rights under any such law shall have theretofore accrued Hence, the Bureau of Pensions has no jurisdiction as to claims based on a military or naval service which terminated after October 5, 1917. Such claims are adjudicated by the Bureau of War Risk Insurance, Treasury Department, Washington, D. C., and all correspondence relating thereto should be addressed to that bureau.

(2) Any officer or enlisted or appointed man of the Army, Navy, or Marine Corps of the United States, disabled by a wound, injury, or disease incurred in line of duty since March 4, 1861, in a term of service which ended prior to October 6, 1917, may be entitled to pension on account thereof under the provisions of Section 4692, Revised Statutes. Rates range from $6 to $100 per month, according to the degree of disability established. Pension commences from date of filing of declaration (Form 3-001), except in claims of certain insane persons.

(3) Any such officer or enlisted or appointed man, who served for a period of ninety days or more during the Civil War and was honorably discharged, may be entitled to a pension from date of filing of declaration (Form 3-014), under the Act of May 11, 1912, amended by the Act of June 10, 1918, as follows: "Section 6. That from and after the passage of this act the rate of pension for any person who served ninety days or more in the military or naval service of the United States during the Civil War, now on the roll or hereafter to be placed on the pension roll and entitled to receive a less rate than hereinafter provided, shall be $30 per month. In case such a person has reached the age of seventy-two years and served six months, the rate shall be $32 per month; one year, $35 per month; one and a half years, $38 per month; two years or over, $40 per month: *Provided*, That this act shall not be so construed as to reduce any pension under any act, public or private: *Provided further*, That no pension attorney, claim agent, or other person, shall be entitled to receive any compensation for presenting any claim to the Bureau of Pensions under this act, except in application for original pension by persons who have not heretofore received a pension." A rate of $30 per month, without regard to applicant's age or length of service, is provided by the Act of May 11, 1912, from date of filing of application (Form 3-014), for inability to perform manual labor from a cause incurred in line of duty.

(4) Pensioners on the roll under the Act of May 11, 1912, are granted the increase of pension provided by the Act of June 10, 1918, without application of any kind on their part, the increases being made automatically. Soldiers and sailors of the Civil War pensioned at lower rates under some law other than the Act of May 11, 1912, must file an application (Form 3-014) under said act (if entitled under the Act of June 10, 1918) to receive the benefits of the new law, unless they were formerly pensioned under the Act of May 11, 1912, in which case a written request will be sufficient.

(5) The Act of March 4, 1913, which provided that pensions granted under the Act of May 11, 1912, on account of age and length of service should be automatically increased from the dates upon which pensioners attained the age of sixty-six, seventy, or seventy-five years, is now applicable only to claims filed prior to June 10, 1918.

INFORMATION AS TO WIDOWS' PENSIONS.

(1) Under the provisions of the Act of April 19, 1908, as amended by the Act of September 8, 1916, the widow of an officer or enlisted man of the Army, Navy, or Marine Corps of the United States, who served therein at least ninety days during the Civil War and was honorably discharged, may be entitled to pension, without regard to the cause of his death or her financial status, provided she was married to him prior to June 27, 1905. The rate of pension subsequent to October 6, 1917, is $25 per month, and $2 additional for each of his children under the age of sixteen years Pension, if allowed, commences from the date of filing a valid declaration in the bureau. (Application Blank No. 3-015.)

(2) Under the provisions of Sections 4702 and 4703, Revised Statutes of the United States, the widow of an officer or enlisted man of the Army, Navy, or Marine Corps of the United States, whose death resulted from disability incurred in the service in line of duty, may be entitled to a pension from the date of his death, regardless of the date of her marriage to him or her financial status. The rate of pension ranges from $12 to $30 per month, according to the rank of the soldier or sailor, with $2 additional for each of his children under the age of sixteen years. (Application Blank No. 3-006.)

UNITED STATES PENSION STATISTICS.—*Continued.*

(3) Under the Acts of July 27, 1892, June 27, 1902, May 30, 1908, and March 4, 1917, the widow of an officer or enlisted man who served in any of the Indian wars, disturbances, or campaigns, mentioned in said acts, for the period stated therein, may be entitled to pension from date of approval of the act giving her a pensionable status, or, where soldier died subsequent to such date, from date of his death. No grant is made for minor children. The provisions of said acts are printed on the application form. (Application Blank 3-028.)

(4) Under the provisions of the Act of July 16, 1918, the widow of an officer or enlisted man of the Army, Navy, or Marine Corps of the United States, who served therein at least ninety days in the war with Spain or the Philippine Insurrection or as a participant in the Chinese Boxer rebellion campaign and was honorably discharged therefrom, may be entitled to pension, if her marriage to him occurred prior to the passage of that act, without proving his death to be the result of his Army or Navy service, provided she has no means of support other than her daily labor and an actual net income not exceeding $250 a year. The rate of pension is $12 per month, and $2 additional for each of his children under the age of sixteen years. Pension, if allowed, commences from the date of filing a valid declaration in the bureau. (Application Blank No. 3-020.)

(5) The only general pension laws under which a widow may have title to pension based on service in the war with Spain or the Philippine Insurrection are Sections 4702 and 4703, Revised Statutes of the United States (see paragraph 2) and the Act of July 16, 1918 (see paragraph 4).

UNITED STATES BUREAU OF FISHERIES—DEPARTMENT OF COMMERCE.

The work of the Bureau of Fisheries comprises (1) the propagation of useful food fishes, including lobsters, oysters, and other shellfish, and their distribution to suitable waters; (2) the inquiry into the causes of decrease of food fishes in the lakes, rivers and coast waters of the United States, the study of the waters of the coast and interior in the interest of fish culture, and the investigation of the fishing grounds of the Atlantic, Gulf, and Pacific Coasts, with the view of determining their food resources and the development of the commercial fisheries; (3) the collection and compilation of the statistics of the fisheries and the study of methods of capture; apparatus and boats employed, of the methods of preservation of fishery products and the development of uses for the little used or neglected products. The bureau also has jurisdiction over the fur-seal herds and the salmon fisheries of Alaska. Office, Sixth and B Streets, Washington, D. C. The official force of the bureau is as follows: *Commissioner*—Hugh M. Smith. *Deputy Commissioner*—Henry F. Moore. *Chief Clerk*—I. H. Dunlap. Assistants in charge of division: *Inquiry Respecting Food Fishes*—Robert E. Coker. *Fish Culture*—Glen C. Leach. *Statistics and Methods*—Lewis Radcliffe. *Architect and Engineer*—Henry von Bayer.

UNITED STATES STEAMBOAT INSPECTION SERVICE.

(By George Uhler, Supervising Inspector General of that Bureau of United States Department Commerce.)

THE Steamboat Inspection Service by act of Congress, approved February 14, 1903, was transferred from the Treasury Department to the Department of Commerce. The transfer went into effect July 1, 1903. The Supervising Inspector General of the Steamboat Inspection Service, George Uhler, reported to the Secretary of Commerce for the fiscal year ended June 30, 1919: Number of annual certificates of inspection issued to domestic steam, motor vessels and barges, 7,134; number of certificates issued to foreign steamers, 273; total number of annual certificates of inspection issued to domestic and foreign, 7,407. Increase in number of certificates to domestic vessels from previous year, 346; increase in number of certificates to foreign vessels from previous year, 46, increase in number of certificates of all kinds of vessels from previous year, 392. Gross tonnage of domestic vessels, all kinds inspected, 9,128,911; increase over previous year, 2,282,555. Gross tonnage of foreign steamers inspected, 2,433,355; increase from previous year, 814,915. Number of officers' licenses issued, 28,069. Decrease in number of officers' licenses issued from previous year, 4,389. Number of new life preservers inspected, 435,337, of which number 8,311 were rejected. Increase in number of new life preservers inspected over previous year, 116,078. Increase in number of life preservers rejected over previous year, 2,837. Number of marine boiler plates inspected at the mills by assistant inspectors, 35,427.

CAUSES.	Lives Lost.	CAUSES.	Lives Lost.
Fire	45	Accidental drowning	115
Collision	47	Suicides	27
Explosions and escape of steam	21	Miscellaneous	28
Wrecks	1		
Foundered in storm	33	Total	543
Sinking	226		

Number of accidents resulting in loss of life, 194, a decrease of 23 over previous year. Decrease in number of lives lost over previous year, 43. During the year 323,317,657 passengers were carried on steam vessels that are required by law to report the number of passengers carried. Dividing this number by 202, the total number of passengers lost shows that 1,600,582 passengers were carried for each passenger lost. Number of lives directly saved by means of life-saving appliances required by law, 2,349.

LIFEBOAT REQUIREMENTS.

(By the Steamboat Inspection Service of the Department of Commerce.)

Every inspected steam vessel and motor vessel navigating the ocean, Great Lakes, lakes, bays, or sounds, except ferry-boats, are required to be provided with sufficient lifeboat and liferaft capacity to carry every person on board, except that in the case of steamers navigating coastwise, the Great Lakes, lakes, bays and sounds the required capacity is reduced on steamers navigating shallow waters near land and in the warm season of the year. Ferry-boats, garbes, and steam vessels navigating rivers are required to be provided with such boats and rafts as in the judgment of the inspectors may be necessary, a minimum lifeboat capacity being required for these classes of vessels.

LIFE-PRESERVER REQUIREMENTS.

Every inspected vessel, except feey-boats navigating rivers, is required to be provided with a life preserver (or float on river steamers) for adults for every person carried, and on every vessel navigating the ocean, Great Lakes, lakes other than the Great Lakes, bays, or sounds, in addition thereto, a number of life preservers suitable for children equal to at least 10 per cent of the total number of persons carried. Ferry-boats navigating rivers only are required to be provided with life-preservers or wooden floats according to deck measurement.

NUMBER OF VESSELS INSPECTED.

During the year ended June 30, 1919, the Steamboat Inspection Service inspected 5,880 domestic steam vessels, 709 motor vessels of over 15 gross tons, 17 passenger barges, and 528 sea-going barges, or a total of 7,134 domestic vessels inspected; also inspected 273 foreign passenger steam vessels.

UNITED STATES RECLAMATION SERVICE.

Arthur P. Davis, Director and Chief Engineer; Will R. King, Chief Counsel. Main office: 18th and F Streets N. W., Washington, D. C. Employees: Washington office, 100; West, 6,500 (varies). Expenditures per year about $8,000,000.

The Reclamation Service, organized in July, 1902, under the Reclamation Act of June 17, 1902, is engaged in the investigation, construction and operation of thirty irrigation projects aggregating 3,000,000 acres located in the seventeen arid and semi-arid States of the Far West, including Ariz., Cal., Col., Idaho, Kan., Mont., Nebr., Nev., N. M., N. Dak., Okla., Oreg., S. Dak., Utah, Wash., Wyo., and Tex. The funds for this work come largely from the sale of public lands; and the money expended is returned to the fund by easy payments of settlers, usually in twenty annual instalments without interest in accordance with the Reclamation Extension Act of August 13, 1914. A Western executive office is maintained at Denver. The Chief Counsel has an office in Washington and field offices in Denver and other points. The Service has built on the thirty projects over 12,000 miles of canals, ditches and drains, including 90,000 canal structures and involving the excavation of 164,000,000 cubic yards of materials. In connection with this work there have been constructed 100 storage and diversion dams, including the Arrowrock Dam, 349 feet high, the highest in the world, the Elephant Butte Dam on the Rio Grande forming the largest irrigation reservoir in the United States, of 2,600,000 acre-feet capacity, and the longest roller crest dam in the world, located on the Grand River in Colorado. The Service has built 95 tunnels, 976 miles of road, 83 miles of railroad, 3,000 miles of telephone line, a dozen power plants and 473 miles of transmission lines; and is also mining coal and has manufactured 1,500,000 barrels of cement and sand-cement. The total expenditures to date are about $147,000,000.

Over 125,000 persons are living on the 30,000 farms irrigated by the Service, and the value of the crops in 1918 on the 1,100,000 acres cropped was about $66,000,000. About 3,000,000 acres of land (60,000 farms) will be irrigated on the completion of these projects. Information in regard to farms open to settlement may be obtained by addressing Statistician, U. S. Reclamation Service, Washington, D. C.

The largest irrigable area is that of the Boise project, in Idaho, 327,552 acres; net cost of construction to June 30, 1918, was $11,688,830. The next is the North Platte, in Nebraska-Wyoming, 251,715 acres; cost, $9,265,320, to June 30, 1918. During construction, the irrigative projects have produced $6,534,184, reducing the net cost of construction to $115,164,177.

A few public land units on several projects are still available for settlers, but as a rule those are the less desirable, being mostly rough and broken.

UNITED STATES COAST AND GEODETIC SURVEY.

THE Coast and Geodetic Survey of the Department of Commerce is charged with the survey of the coasts of the United States and coasts under the jurisdiction thereof, and the publication of charts covering said coasts. This includes base measure, triangulation, topography and hydrography along said coasts; the survey of rivers to the head of tide water or ship navigation, deep sea soundings, temperature and current observations along said coasts and throughout the Gulf and Japan Streams, magnetic observations and researches and the publication of maps showing the variations of terrestrial magnetism; gravity research, determination of heights by precise leveling, the determination of geographic positions by astronomic observations for latitude, longitude and azimuth, and by triangulation to furnish reference points for State surveys and to co-ordinate governmental surveys, the determination of the shape and size of the earth and researches in isostasy, whereby information is obtained regarding variations from normal densities in the outer portions of the earth.

The results obtained are published in annual reports and in special publications; charts upon various scales, including sailing charts, general charts of the coast and harbor charts; tide tables issued annually in advance; coast pilots with sailing directions covering the navigable waters; notice to mariners issued weekly as a joint publication of the Coast and Geodetic Survey and the Bureau of Lighthouses, and containing current information necessary for safe navigation; catalogues of charts and publications, and such other publications as may be required to carry out the organic law governing the survey.

STATISTICS OF THE SURVEY AS OF AUGUST, 1919.

There are about 250,000 square miles of primary triangulation and 2,000 linear miles of primary traverse completed in the United States. There is about an equal amount of each still to be done to bring the primary work within fifty miles of every place in the United States. This is the minimum amount required to give adequate control to local surveys. There is tertiary triangulation along the whole coast of the United States proper but this needs constant revision due to changes in the shore line and to the loss of stations. The necessary triangulation in the Philippine Islands is nearly completed. Alaska, however, has only about one-third of its coast covered by tertiary triangulation and there is no primary triangulation in the interior of Alaska.

About 40,000 miles of precise levels have been completed in the United States and there are about 25,000 miles still to be done to bring the levels within fifty miles of every place in the United States. This is considered the minimum amount necessary to give adequate control for local level lines. There were about 10,000 square miles of primary triangulation, about 700 linear miles of precise traverse and about 1,500 linear miles of precise levels completed during the past fiscal year.

THE UNITED STATES GOVERNMENT PRINTING OFFICE.

IN this establishment practically all of the printing and binding for the Government is performed, with the exception of postage stamps, paper money, and bonds. The Public Printer is the executive officer of the Government Printing Office; is appointed by the President, and receives a salary of $6,000 a year. Directly, or through his principal officers, he purchases all the materials, paper, and machinery, subject to provisions of certain laws; disburses all moneys; appoints all officers and employees, and exercises general supervision over all affairs of the office. Cornelius Ford, of Hoboken, N. J., is the present Public Printer.

The superintendent of documents office serves as a bureau of information and is also the sales agency for Government publications. It prepares the official catalogues for the Government, and performs all mailing operations for the various departments and bureaus of the Government at Washington. Another function of the office is to supply designated depository libraries with the publications to which such designation entitles them, and it endeavors to serve the interests of all libraries so far as its limited stock will permit.

The Government Printing Office was really established in 1861, when John Defrees, at that time doing contract printing for Congress, sold his printing plant to the Government. That plant has gradually grown, by additions and new buildings, until at the present time it contains approximately 14 acres of floor space, and is well equipped with modern machinery for the rapid production of all classes of printing and binding. Congress appropriates money for the operation of this office, and of the amount of that appropriation each department and bureau is allotted a certain portion and may have work done to that amount. Work is performed at cost, and the output runs in value to over $12,000,000 a year. During one year the compensation of employees amounts to $6,500,000, and the value of paper used to $4,600,000; about 80,000 different jobs are handled, ranging from envelopes and blanks to sumptuously bound volumes in large editions; two and one-half billion ems of type are set; 260,000 forms are sent to press; three and one-fourth billion chargeable impressions are run from presses; over a billion postal cards are printed; 260,000,000 sheets are folded; 125,000,000 signatures are sewed, and 80,000,000 copies are ruled.

THE CIVIL SERVICE OF THE UNITED STATES.

THE latest full and complete Civil Service data—owing to the war—is as of June 30, 1916, when the total number of classified positions was as follows: Competitive, 30,020 in Washington, 266,906 outside Washington; excepted and non-competitive positions, 1,334 in Washington, 124,093 outside Washington; unclassified, 3,130 in Washington, 25,639 outside Washington. By another classification they were as follows: Presidential, in Washington, 993; outside Washington, 9,982; all others, in Washington, 34,484; outside Washington, 416,638; total (including 18,230 in Isthmian Canal Service, not counted anywhere above), 480,327.

The act requires the rules to provide, as nearly as the conditions of good administration will warrant, for open competitive practical examinations for testing the fitness of applicants for the classified service; for the filling of all vacancies by selections from among those graded highest; for the apportionment of appointments at Washington among the States upon the basis of population; for a period of probation before absolute appointment; that no person in the public service shall be obliged to contribute service or money for political purposes; that persons in the competitive service, while retaining the right to vote as they please or to express privately their political opinions, shall take no active part in political campaigns, and that no person in said service has any right to use his official authority or influence to coerce the political action of any person or body.

The expenditure for salaries in the Executive Civil Service is over $200,000,000 a year. The Civil Service act does not require the classification of persons appointed by the President and confirmed by the Senate or of persons employed merely as laborers or workmen. Many positions are excepted in part from the provisions of the rules for various reasons.

Persons seeking to be examined must file an application blank. The blank for the Departmental Service at Washington, Railway Mail Service, the Indian School Service, and the Government Printing Service should be requested directly of the Civil Service Commission at Washington. The blank for the Customs, Postal, or Internal Revenue Service should be requested of the Civil Service Board of Examiners at the office where service is sought.

Applicants for examination must be citizens of the United States and of the proper age. No person using intoxicating liquors to excess may be appointed. No discrimination is made on account of sex, color, or political or religious opinions. The limitations of age vary with the different services, but do not apply to any person honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds or sickness incurred in the line of duty.

Persons who served in the military or naval service of the United States, and were discharged by reason of disabilities resulting from wounds or sickness incurred in the line of duty, are, under the Civil Service rules, given certain preferences. They are released from all maximum age limitations, are eligible for appointment at a grade of 65, while all others are obliged to obtain a grade of 70, and are certified to appointing officers before all others. Subject to the other conditions of the rules, a veteran of the rebellion or of the war with Spain, or the widow of any such person, or any army nurse of either war, may be reinstated without regard to the length of time he or she has been separated from the service.

Examinations are also held for positions in the Philippines, Porto Rico, and Hawaii, and also for the Panama Canal service.

Under an executive order unclassified laborers are appointed after open, competitive examination upon their physical condition. This action is outside the Civil Service act. Here are amendments to the rules:

"1. A person separated without delinquency or misconduct from a competitive position, or from a position which he entered by transfer or promotion from a competitive position, may be reinstated in the department or office in which he formerly served upon certificate of the commission, subject to the following limitations:

"(a) The separation must have occurred within one year next preceding the date of the requisition of the nominating or appointing officer for such certificate; but this limitation shall not apply to a person who served in the Civil War or the war with Spain and was honorably discharged, or his widow, or an army nurse of either war.

"(b) No person may be reinstated to a position requiring an examination different from that required for the position from which he was separated without passing an appropriate examination.

"2. A person resigning a scientific, professional, or technical position in the competitive service in which he has acquired training and experience not to be acquired elsewhere, to enter the public service of a State, county, municipality, or foreign government in a similar capacity, may immediately upon the completion of such service be reinstated in the department in which he formerly served upon the certificate of the commission issued upon the requisition of the department dated within three years from the date of his separation from the competitive service."

GRETNA GREEN.

There was formerly a Gretna Green in Kentucky, where couples were united in matrimony in defiance of parental wishes, but the most famous Gretna Green, which still flourishes as a name, is a village in Scotland, less than a mile from the River Sark, which divides England and Scotland. Thither went eloping couples from England after Fleet Prison, London, ceased to function as a marriage resort. The ceremonies were performed by ministers serving time as debtors. In sixty years 7,000 marriages were recorded at Gretna Green, of which 800 were in 1855. Marriage by declaration still is legal in Scotland.

THE UNITED STATES CENSUS.

THE Constitution requires a census of the United States decennially. The first was in 1790 under the supervision of the President; subsequent censuses, to and including that of 1840, were under the Secretary of State In 1849 the census work was transferred to the newly organized Department of the Interior, where it remained until the passage, in 1903, of the act creating the Department of Commerce and Labor, by which the Census Bureau was transferred to the new department. Meanwhile Congress, March 6, 1902, had made the Census Office a permanent bureau. Since March 4, 1913, when the Department of Commerce and the Department of Labor were separately organized, the Bureau of the Census has been attached to the former. The work is divided into two branches, the decennial census and special statistical inquiries, the latter mostly made between the decennial censuses. The thirteenth decennial census was taken as of date April 15, 1910. It covered: (1) population, (2) agriculture, (3) manufactures, and (4) mines, quarries, and oil and gas wells. The cost of the census of 1910 was about $14,290,000, in addition to which $1,675,000 was spent in carrying on the annual investigations of the permanent bureau during the census period. Of this amount $7,200,000 represents the cost of collecting the data through over 70,000 paid enumerators, besides supervisiors, clerks, and special agents.

The Fourteenth Decennial Census will be taken as of January 1, 1920. It will cover: (1) population, (2) agriculture (including irrigation and drainage), (3) manufactures, (4) forestry and forest products, and (5) mines, quarries, and oil and gas wells. The cost of this census is estimated at $18,129,000, in addition to which $2,371,000 will be spent in carrying on the annual investigations of the Bureau during the three-year census period (July 1, 1919, to June 30, 1922). Of the first named amount, $10,000,000 covers the cost of collecting the data through approximately 90,000 enumerators, in addition to supervisors, clerks, and special agents.

The permanent work of the bureau is provided for by the Act of Congress approved March 6, 1902, and amendatory and supplemental acts, and include the gathering and publishing of statistical facts pertaining to the dependent, defective, and delinquent, classes; wealth, public indebtedness, and taxation; births and deaths; financial and other activities of cities; finances of States; religious bodies; transportation by water; electrical industries; Federal employés; cotton; and tobacco stocks. These inquiries are made at intervals ranging in length from ten years to two weeks. The census of manufactures, in addition to forming part of the decennial census, is taken in each mid-decennial year; and a biennial census of products of manufacturing industries will also be taken hereafter Special inquiries are made from time to time at the direction of the President, the Secretary of Commerce, or Congress

The Director of the Census is appointed by the President and receive $7,500 per annum during the three-year decennial census period and $6,000 during the seven "intercensal" years. The present Director is Sam. L Rogers, of North Carolina. The permanent organization includes a chief clerk, Thomas J. Fitzgerald; five chief statisticians—for Population, William C. Hunt; for Manufactures, Eugene F. Hartley; for Statistics of States and Cities, Starke M. Grogan; for Agriculture, Cotton and Tobacco, William L. Austin; and for Vital Statistics, William H. Davis; a geographer, Charles S. Sloane; and nine chiefs of division. The temporary census organization will be augmented by an assistant director, a chief statistician for revision and results, an appointment clerk, a disbursing clerk, eight chiefs of division, and ten statistical experts. The permanent employés of the bureau of Washington number approximately 900, and in addition about 700 special agents are employed intermittently in the South for the collection of cotton statistics. The total force of the bureau, including temporary employees, during the three-year decennial census period will number at its maximum about 4,000.

SANTO DOMINGO—HAYTI.

(From a National Geographic Society Bulletin)

THE name Hayti, or "High Island," is significant of the character of its topography. "Siro," once said a British Admiral to his king, George the Third, when asked about the island, "Hayti looks like that," and he crumpled up a piece of paper and placed it upon the table. A brief description though this may be, it well fitted the case. The island is about 400 miles long, 150 miles wide, and is about the size of the State of New York. It is irregular in shape and is intersected by three chains of mountains. Historically, Hayti, or Santo Domingo, is the senior of our own country, if we leave out of consideration the legendary reports concerning the visits of the Norsemen to our northern coasts 800 years ago, and we are somewhat indebted to this beautiful island for our own development. On Saint Nicholas Day (December 6), 1492, Columbus entered a port at the extreme west end of the Island of Santo Domingo or, as the whole island was then called by the aborigines, Hayti. The natives themselves called the port Bohio, but Columbus christened it, in honor of the day he was celebrating, Port Saint Nicholas, the name still existing as Saint Nicholas Mole.

Columbus now called the island Hispaniola in honor of the country which had sent him forth to discover it, and determined to build a permanent settlement, selecting a site on an elevated plain near a bay on the north coast. Here was established the first town in the New World, named Isabella But the course of empire was still south, and soon Santo Domingo City became the centre of the colonial activities.

A love affair connected with this city is interesting. One of the Spanish party, Miguel Dias, having got into difficulty with an officer, wounding him in combat, fled Finding shelter in an Indian village, he gave his heart to the young Caguisas, who was then governing the tribe His protestations met with favor, and the young Spaniard found himself the consort of a queen But he soon sighed for his old companions. The queen, fearing to lose him, gave him the secret of her vast wealth and, loading him with the precious metal, sent him back to the Spaniards to induce them to return with him and settle in her country. Dias delivered this message to Columbus, who immediately ordered an exploration of that part of the island to ascertain the truth of the Spaniard's report. Zameaca, after giving her all to her lover, who was thereby promoted to high honors in the colony, being the first alcalde of the new city, was so disheartened by the cruel treatment accorded her people that she fled from civilization and affluence to the wilds of the forests, leaving her two children and still faithful husband to mourn her loss, and was never heard from again.

PORTO RICO.

GOVERNOR, Arthur Yager; *Executive Secretary*, Ramón Siaca Pacheco; *Treasurer*, Jose E. Benedicto; *Auditor*, J. W. Bonner; *Acting Attorney-General*, Salvador Mestre; *Commissioner of Education*, Paul G. Miller; *Commissioner of the Interior*, Guillermo Estoves; *Commissioner of Agriculture and Labor*, Manuel Camuñas; *Commissioner of Health*, Alejandro Ruiz Soler.

Judiciary—Chief Justice, José C. Hernández; Justices, Emilio del Toro, Adolph G. Wolf, Pedro de Aldrey, and Harvey M. Hutchison; U. S. District Judge, Peter J. Hamilton; U. S. District Attorney, Miles M. Martin

Under the new Organic Act of March 2, 1917, the legislative power in Porto Rico is vested in a Legislature consisting of two Houses. The Senate consists of nineteen members elected for four years. The House of Representatives consists of thirty-nine members elected for a term of four years. The members of the Senate and House of Representatives receive $7.00 per day for ninety days of each session. Sessions are held biennially. The next session will be held the second Monday in February, 1921.

PORTO RICO—*Continued.*

THE island of Porto Rico, over which the flag of the United States was raised in token of formal possession on October 18, 1898, is the most eastern of the Greater Antilles in the West Indies and is separated on the east from the island of St. Thomas by a distance of about fifty miles, and from Hayti on the west by the Mona passage, seventy miles wide. Distances from San Juan, the capital, to important points are as follows: New York, 1,411 miles; Charleston, S. C., 1,200 miles; Key West, Fla., 1,050 miles; Havana, 1,000 miles.

The island is a parallelogram in general outline, 108 miles from the east to the west, and from 37 to 43 miles across, the area being about 3,604 square miles.

Porto Rico is unusually fertile, and its dominant industries are agriculture and lumbering. In elevated regions the vegetation of the temperate zone is not unknown. There are more than 500 varieties of trees found in the forests, and the plains are full of palm, orange, and other trees. The principal crops are sugar, coffee, tobacco, maize, oranges, bananas, rice pineapples and other fruits. The principal minerals are gold, carbonates, and sulphides of copper and magnetic oxide of iron in large quantities. Lignite is found at Utuado and Moca, and also yellow amber. A large variety of marbles, limestones, and other building stones are deposited on the island. There are salt works on the south coast, and at Cape Rojo on the west.

By a vote of the people Prohibition won in Porto Rico, July 16, 1917, by a majority of 38,000 in a total vote of 160,000, and took effect March 2, 1918. The public schools of the island were founded by the American administration, and they have been operating in a large way fifteen years, and only for those within the school age. Practically all of the men over 31 years of age are illiterate—and a very large per cent. of those under that age. Local boards of agriculture have been appointed all over the island, and in addition the island has been divided into ten agronomic districts and divisions, each in charge of an inspector or assistant to aid in the development of better farming. A forestry service was established by a law approved November 22, 1918, and a proclamation issued by the Governor May 28, 1918, setting apart as insular forests all the mangrive swamps on the coasts of Porto Rico and adjacent islands belonging to the local government.

PORTO RICAN BIRTH RATE UNUSUALLY HIGH.

Commenting on the Porto Rican death rate of 28.5 per 1000 population for the year ended June 30, 1917, the Commissioner of Health, A. Ruiz Soler, said: "Mortality in general is influenced by natality; but in many localities and countries these statistics are contradictory, for a low birth rate may coincide with a high death rate and vice versa; or low natality with low mortality; or high natality with high mortality, which is Porto Rico's case. To maintain the balance of population in any country, it is necessary to begin on the biologic basis of 400 children between one and five years of age for every thousand women between the ages of fifteen and forty-five. The following table gives a comparison of Porto Rico and other countries in this respect:

France, 409 children for every 1,000 women.
England, 439 children for every 1,000 women.
United States, 492 children for every 1,000 women.
Sweden, 522 children for every 1,000 women.
Germany, 535 children for every 1,000 women.
Porto Rico, 725 children for every 1,000 women.

THE PHILIPPINES.

THE Philippine Islands, lying off the southern coast of Asia, between Formosa and Borneo, in longitude 116° 40′ and 126° 34′ E., and latitude 4° 40′ and 21° 3′ N., embrace 3,141 islands and islets, of which only 1,668 are named. The total land area is about 115,026 square miles. The two islands with areas exceeding 10,000 square miles each are Luzon, 40,969, being about the size of New York, and Mindanao with 36,292 square miles. The only other islands having areas of over 1,000 square miles are:

Samar. . .	5,031	Paragua...	4,027	Cebu	1,762
Negros....	4,881	Mindoro...	3,851	Bohol	1,441
Panay. ..	4,011	Leyte.. .	2,722	Masbate. .	1,236

The climate is one of the best in the tropics. The islands extend from 5° to 21° north latitude, and Manila is in 14° 35′. The thermometer during July and August rarely goes below 79° or above 85°. The extreme ranges in a year are said to be 61° and 97°, and the annual mean 81°.

Although agriculture is the chief occupation of the Filipinos, yet only one-ninth of the surface is under cultivation. The soil is very fertile, and even after deducting the mountainous areas it is probable that the area of cultivation can be very largely extended and that the islands can support a population equal to that of Japan.

The chief products are hemp, rice, corn, sugar, tobacco, cocoanuts, and cacao. hemp being the most important commercial product and constituting 43 per cent of the value of all exports. Coffee and cotton were formerly produced in large quantities—the former for export and the latter for home consumption; but the coffee plant has been almost exterminated by insects and the home-made cotton cloths have been driven out by the competition of those imported from England The rice and corn are principally produced in Luzon and Mindoro and are consumed in the islands The cacao is raised in the southern islands, the best quality of it at Mindanao. The sugar cane is raised in the Visayas. The hemp is produced in Southern Luzon, Mindoro, the Visayas, and Mindanao. It is nearly all exported in bales. Tobacco is raised in many of the islands, especially Luzon and Negros.

Racially the people are principally of Malay stock. The civilized tribes are practically all adherents of the Catholic Church, the religion being introduced into the country by the Spaniards when they took possession of the islands in 1565. The Moros are Mohammedans and the other wild peoples have no recognized religious beliefs. The wild tribes form about 10 per cent. of the entire population.

There are about twenty-five different tribes in the islands speaking some one of nineteen dialects, the most populous tribe being the Visayans, who constitute 47 per cent. of the entire civilized population; second, Tagalogs 20 per cent; third, Ilocanos, about 10 per cent.; Bicols 7 per cent.; Pangasinan, 6 per cent.; Pampangan, 5 per cent.; Cagayan, 3 per cent., and Zambalan, 2 per cent.

CIVIL GOVERNMENT OF THE PHILIPPINES.

On July 1, 1902, Congress passed (chapter 1369) An act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands and for other purposes." Under this act complete civil government was established in the archipelago, except that portion inhabited by Moros, comprising part of Mindanao and the Sulu Islands, and the office of Military Governor was terminated. Wm. H. Taft was appointed Civil Governor by the President the title being subsequently changed to that of Governor-General. Governor Taft was succeeded by Luke E. Wright in December, 1903, by Henry Clay Ide in 1905, James F. Smith in 1906, W Cameron Forbes in 1909, and Francis Burton Harrison in 1913. The Government was composed of a Civil Governor and seven Commissioners, of whom four were Americans and three Filipinos. By act of Congress approved May 11, 1908, the commission was increased by one member, appointed by the President, making the commission nine members in all, including the Governor-General, who was President of the commission.

By the Act of Congress approved August 29, 1916, the Philippine Commission was abolished, there being substituted as the Upper House of the Legislature a Senate composed of 24 members, and instead of the Assembly, a House of Representatives of 90 members, elected triennially.

CUBA.

THE island of Cuba is 760 miles long, and its width varies from about 25 miles to 100 miles. Its area comprises 45,881 square miles, or about that of Pennsylvania. It has numerous safe and commodious harbors, that of Havana being one of the largest and finest in the world. Measuring from points of nearest approach to its neighbors, Cuba is about 100 miles from Key West, Fla., north; 54 miles from Hayti, east; 130 miles from Yucatan, west, and 85 miles from Jamaica, south. There are 2,360 miles of railway line and 200 miles of electric railways.

The two principal agricultural staples of the island are sugar and tobacco. It also produces in considerable quantities fruits, vegetables, timber and metals, mainly iron, manganese and copper ore, and is adapted to coffee and cotton raising. It has 1,246 miles of shaded roads. The average fluctuation of the temperature is 12 degrees. The average in January is 70.3; July, 82.4; extremes, 60 to 92.

The Government is republican in form. The President, who is chosen by popular suffrage, serves four years and appoints his own Cabinet. The Congress consists of a Senate and House of Representatives, one Representative being chosen for every 25,000 inhabitants, as nearly as possible. The provinces, of which there are six, corresponding to the American States, elect their own Governors and control their own internal affairs.

The Isle of Pines, which, under the generally accepted survey, is supposed to have an area of 614.34 square marine miles, or about 521,381 acres, is situated off the south coast of Western Cuba, its nearest point to the larger island being about 34½ statute miles distant, while the island itself and its adjacent keys form the southern barrier of the Gulf of Batabano, a bight which extends northward to an extent sufficient to make Habana Province, to which the Isle of Pines is officially attached, the narrowest part of Cuba. The Isle of Pines is practically the only land southward of Cuba to Panama, from which it is distant about 850 miles; it is 230 miles almost due east of Cape Cartuche, Yucatan, and 370 miles northwest of the island of Jamaica.

TUTUILA (AMERICAN SAMOA).

TUTUILA, the Samoan island which, with its attendant islets of Manu'a, Olosega, Ofu, Aunuu and Rose, became a possession of the United States by virtue of the tripartite treaty with Great Britain and Germany in 1899, covers, according to the Bureau of Statistics of the Department of Commerce, 55 square miles, and has (by census of February 1, 1912) 7,251 inhabitants. It possesses the most valuable island harbor, Pago-Pago, in the South Pacific, and perhaps in the entire Pacific Ocean. Commercially the island is unimportant, but is extremely valuable in its relations to the commerce of any nation desiring to cultivate trans-Pacific commerce.

Ex-Chief Justice Chambers, of Samoa, says of Pago-Pago that "The harbor could hold the entire naval force of the United States, and is so perfectly arranged that only two vessels can enter at the same time. The coaling station, being surrounded by high bluffs, cannot be reached by shells from outside." Capacity of coaling station, 4,200 tons.

The Samoan Islands, in the South Pacific, are fourteen in number and lie in a direct line drawn from San Francisco to Auckland, New Zealand. Tutuila is 4,160 miles from San Francisco, 2,263 miles from Hawaii, 1,580 miles from Auckland, 2,354 miles from Sydney, and 4,200 miles from Manila. The inhabitants are native Polynesians and Christians of different denominations.

WAKE AND OTHER SMALL PACIFIC ISLANDS.

THE United States flag was hoisted over Wake Island on July 4, 1898, by Gen. F. V. Greene, commanding Second Detachment Philippine expedition. It is a small island in the direct route from Hawaii to Hongkong, about 2,000 miles from the first and 3,000 miles from the second.

The United States possesses a number of scattered small islands in the Pacific. The largest are Christmas, Gallego, Starbuck, Penrhyn, Phoenix, Palmyra, Howland, Baker, Johnston, Gardner, Midway, Morell, and Marcus Islands. The Midway Islands are occupied by a colony of telegraphers.

The Santa Barbara group is a part of California, and the Aleutian chain, extending from the peninsula of Kamchatka in Asiatic Russia to the promontory in North America which separates Bering Sea from the North Pacific, is a part of Alaska

HAWAII.

HAWAII was annexed to the United States by joint resolution of Congress July 7, 1898 A bill to create Hawaii a Territory of the United States was passed by Congress and approved April 30, 1900.

The area of the several islands of the Hawaiian group is as follows: Hawaii, 4,210 square miles; Maui, 760; Oahu, 600; Kauai, 590; Molokai, 270; Lanai, 150; Niihau, 97; Kahoolawe, 63. Total, 6,740 square miles.

At the time of the discovery of the islands by Capt. Cook, in 1778, the native population was about 200,000. This has steadily decreased, so that at the census of 1910 the native born numbered but 98,157. Total foreign born (1910), 93,752.

GUAM.

THE island of Guam, the largest of the Marianas, was ceded by Spain by article 2 of the Treaty of Paris, December 10, 1898. It lies between latitudes 13° 13' and 13° 39' north and longitudes 144° 37' and 144° 58' east. Area estimated, 225 square miles. Distance from Manila, 1,506 miles; from San Francisco, 5,044 miles. The inhabitants call themselves Chamorros, but the present generation are a mixed race with the Malay strain predominating. Their language, a Polynesian tongue, is also called Chamorro. About 10 per cent. speak English. Instruction in the English language is compulsory in the public schools. The northern half of the island is a plateau from 400 to 600 feet in height and is, except where cleared for cultivation, wooded. The southern half is broken by hills from 1,200 to 1,300 feet high. They are barren, but the valleys between are fertile, and streams traverse this portion. There are no perennial streams in the northern half of the island, which is composed of coralliferous limestone, the southern half of volcanic clays. The productions are cocoanuts, corn, rice, tobacco, cocoa and tropical fruits. Only the dried meat of the cocoanut (copra) is exported.

The total population, July 1, 1918, exclusive of officers and enlisted men of the Navy and Marine Corps and their families was 14,344, of whom 14,124 were classed as "natives." Of the foreign born population only 69 were Americans. Death rate per thousand was 17.6; birth rate, 47.2. Guam is under the Navy Department, as a naval station. The Governor is a naval officer, designated by the President. Capt. Roy C. Smith, named May 30, 1916. A marine barracks, naval hospital and station ship are maintained. The Commercial Pacific Cable Company has a cable station in Guam, and cables from Manila, Yokohama, Midway and Yap Islands are landed here. The United States Department of Agriculture has an experiment station here. The port of entry is Apra, which is closed to foreign vessels, except by permit from the United States Government. Apra is commodious, but unimproved. Capital, Agana, in the north central part, on the western coast; population (estimated), 9,000.

NEW YORK STATE MUSEUM.

(Prepared by the Museum for the Almanac)

The title, New York State Museum, is the statutory name of a scientific research organization. Historically it is the outcome of the great Natural History Survey of the State of New York organized in 1836. The nucleus of these now extensive collections are the scientific materials brought together during the existence of that survey. Under the present statute the 'New York State Museum' includes the work of the State Geologist and his associates, who together form the Geological Survey of the State of New York; that of the State Botanist and his staff, of the State Entomologist and his staff; the Zoologist and the Archaeologist. The museum collections, as such originate partly from the materials acquired for the researches of these officials and partly from special additions made to exemplify the resources of the State of New York. The State Museum is alternately known as the Department of Science of the University of the State of New York, and; as such, is under the administrative control of that university. The collections of the museum are arranged on a floor space of about 100,000 square feet on the upper floors of the State Education Building at Albany. These collections form what has been planned and worked out as an essentially State or provincial museum exhibiting the natural resources of animal and plant life, the mineral wealth, geological history, and aboriginal culture of New York State. It has not planned to receive, nor does it especially welcome, material from outside the State, unless this is adapted to illuminate the scientific problems of the State itself. The collections are open free on every week day, 9 A. M. to 5 P. M., and on Sundays, October 1 to May 1, 2 to 5 P M

Hall of Minerals—The general collection of about 5,000 specimens is supplemented by a very extensive and complete collection of minerals from New York State, probably the best in existence. There are probably in this hall about 14,000 specimens on exhibition

Hall of Geology—The collections here illustrate the rock structure and the mineral wealth of the State, especially the application of minerals ores and rocks to commerce and the industrial arts.

Hall of Fossils—This hall includes vertebrates and invertebrates and the long continued researches of the Geological Survey have made the collection of invertebrate fossils, and the corresponding classification of the rocks of New York the standard of comparison for the world. The use of restorations of extinct animal life, with relief maps, reconstructions &c, has helped to visualize the appearance of these.

Hall of Zoology—The animal life of New York is exhibited in this hall, the larger mammals in habitat groups and the smaller mammals birds fishes, reptiles and mollusks in extensive series of well-mounted specimens. The collection of birds eggs is one of the largest in America. This section also contains a representative gathering of insects, arranged to illustrate their economic relations to agriculture and forestry The section of Botany maintains an herbarium of upward of 100,000 specimens of New York plants.

Halls of Archaeology and Ethnology—These contain six large groups representing the customs and habits of the Iroquois Indians in their natural state, before the advent of the white man These figures have been cast from the best available representatives among the surviving Iroquois and mounted amid actual accessories and against painted backgrounds. They depict the hunt, warfare, council ceremony, industries and agriculture of the New York aborigines The collections of relics of Indian life in New York are the most extensive in existence, and these collections, with the groups referred to, fill the mezzanine floors.

Publications:—The museum issues general and special publications on the natural resources of the State, in the form of bulletins memoirs and annual reports. These now number about 350 and each can be obtained on payment of a small fee.

The museum owns three parcels of real estate, presented by citizens for preserving their geological interest: 1—The Clark Reservation near Syracuse, a tract of 104 acres characterized by its extraordinary display of abandoned cataracts and gorges produced by the flow of the post-glacial waters; 2—Stark's Knob Reservation, or Volcano, near Schuylerville; 3—The Lester Park, or Cryptozoon Ledge in the town of Greenfield, west of Saratoga Springs. The Legislature grants $55,000 a year for maintenance.

SMITHSONIAN INSTITUTION.

Ex-Officio Presiding Officer of the Institution — Woodrow Wilson, President of the United States. *Chancellor of the Institution*—Edward Douglass White, Chief Justice of the United States. *Secretary of the Institution*—Charles D. Walcott. *Assistant Secretary*—Charles G. Abbott. *Administrative Ass't to Sec. in Charge Nat. Museum*—William de C. Ravenel. *Board of Regents*—Edward Douglass White, Chief Justice of the United States, Chancellor, Thomas R. Marshall, Vice-President of the United States; Henry Cabot Lodge, member of the Senate; Robert S. Brookings, citizen of Missouri; Charles S. Thomas, member of the Senate; Scott Ferris, member of the House of Representatives; Lemuel P. Padgett, member of the House of Representatives; Frank L. Greene, member of the House of Representatives; Alexander Graham Bell, citizen of Washington, D. C.; Charles F Choate, Jr., citizen of Massachusetts; George Gray, citizen of Delaware; John B. Henderson, Jr., citizen of Washington, D. C.; Henry White, citizen of Maryland.

The Institution at Washington, D. C., was established by statute in 1846, under the terms of the will of James Smithson, who bequeathed his fortune in 1826 to the United States to found an institution for the "increase and diffusion of knowledge among men." From the income of the fund a building, known as the Smithsonian Building, was erected on land given by the United States. The Institution is legally an establishment having as its members the President of the United States, the Vice-President, the Chief Justice, and the President's Cabinet. It is governed by a Board of Regents, consisting of the Vice-President, the Chief Justice, three members of the United States Senate, three members of the House of Representatives, and six citizens of the United States appointed by joint resolution of Congress. It is under the immediate direction of the Secretary of the Smithsonian Institution, who is the executive officer of the board and the director of the Institution's activities. The Institution maintains a library, numbering about 300,000 volumes, which is deposited in the Library of Congress and which consists mainly of the transactions of learned societies, and scientific periodicals. While the body of the library is deposited in the Library of Congress and accessible to all its readers, a working library is maintained at the Institution. The Regents are empowered to accept gifts without action of Congress, in furtherance of the purposes of the Institution, and to administer trusts in accord therewith.

The Institution has charge of the National Museum, the National Gallery of Art, the International Exchange Service, the Bureau of American Ethnology, the National Zoological Park, the Astrophysical Observatory, and the United States Regional Bureau for the International Catalogue of Scientific Literature.

THE UNITED STATES NATIONAL MUSEUM is the depository of the national collections. It is rich in the natural history, geology, paleontology, archæology and ethnology of America, and has collections of American history (including large war collections illustrative of the part taken by the United States in the recent conflict), as well as many series relating to the arts and the industrial arts. It is an educational and a research museum, and issues scientific publications The National Gallery of Art consists of the collections of etchings and engravings of George P. Marsh, the collections of Charles L. Freer, containing paintings and etchings by Whistler, and examples of Oriental art; the Harriet Lane Johnston collection, including works of a number of the greatest English portrait painters, and the collection of William T. Evans, of one hundred and fifty-one paintings, representing one hundred and six American artists. The National Museum occupies two special structures, built in 1881 and 1911, containing 650,000 square feet of floor space There are 6,274 articles in the Freer collection. The amount of the annual appropriations made by Congress for the support of the museum for the fiscal year 1920 was $307,500 for the preservation and maintenance of the collections, the necessary exhibitions, storage and office furniture, heating and lighting the building, and repairs to same. In addition to this there was appropriated for publications, binding of books, etc , $37,500, to be expended under the direction of the Public Printer. The buildings are opened to the public 9 A. M to 4.30 P. M. week days, and in addition the new building at the foot of Tenth Street is opened Sundays, 1.30 P. M. to 4.30 P. M.

THE BUREAU OF ETHNOLOGY, for the study of the American Indian; THE INTERNATIONAL EXCHANGES, for the exchange of governmental and scientific publications between the United States and foreign countries; THE ASTROPHYSICAL OBSERVATORY, for the investigation of solar phenomena; THE NATIONAL ZOOLOGICAL PARK at Washington, containing about 1,400 animals; and the Regional Bureau of the INTERNATIONAL CATALOGUE OF SCIENTIFIC LITERATURE, for the preparation of a classified index to the current scientific literature of the United States, are also branches of the Institution.

NATIONAL ACADEMY OF SCIENCES.

THERE are 180 living members, comprising investigators in every department of science. The geographical distribution of members, embracing all parts of the United States, corresponds closely with the educational and scientific facilities of different sections of the country. The National Academy has often been called into the service of the Government. Committees appointed in accordance with acts of Congress at the request of joint commissions and committees of Congress, of the President of the United States, and of the various Departments of the National Government, have reported on a great variety of subjects. From time to time trust funds have been established, the incomes of which are devoted to the award of medals or to grants for research. The will of Alexander Dallas Bache, first President of the Academy, directed that the residue of his estate, after the death of his wife, should be paid over to the National Academy of Sciences for the "prosecution of researches in physical and natural science by assisting experimentalists and observers" Other trusts have been left to the Academy. In all more than $124,000 has been disbursed by the Academy from the income of trust funds in direct aid of scientific research. A recent gift was that of the late Mrs. Henry Draper, who left to the Academy a bequest of $25,000, the income of which is to be used for publication or other purposes.

Officers: *President*—Chas. D. Walcott, Smithsonian Institution, Washington, D. C. *Vice-President*—A. A. Michelson, Chicago University. *Home Secretary*—Charles G. Abbott, Smithsonian Institution. *Foreign Secretary*—George E. Hale, Solar Observatory, Office, Pasadena, Cal. *Treasurer*—Frederick L. Ransome, U. S. Geological Survey, Washington, D. C. *National Research Council*—James R. Angell, *Chairman*, Washington, D. C.

THE CINCINNATI MUSEUM OF ART.

(By the Director, J H. Gest)

THE Cincinnati Museum Association, organized in 1880, and incorporated in 1881, gives exhibitions during the year, and has collections of modern American art which include the pictures, sculpture and etchings of Frank Duveneck; paintings, studies, drawings and etchings by Robert Blum; as well as a representation of the other leading American painters and sculptors. Gathering of casts of Greek sculpture and of carved Ivory from the Roman to the Renaissance periods is installed in the Schmidlapp Building, and there is a large group of American Archaeology. The decorative arts are represented, the department of metal work including, besides the Elkington reproductions, a group of original armor and the Conner collection of original silver. The museum holds also the Doane collection of musical instruments, the Longworth gathering of India shawls, and the exhibition of Rookwood pottery, the Cincinnati art industry with which the museum and its school, the Art Academy of Cincinnati, are closely connected. There is a reference library.

BOSTON MUSEUM OF FINE ARTS.

The Museum of Fine Arts, Boston, was incorporated February 4, 1870. The first section of the Museum building in Copley Square was dedicated July 3, 1876, and the next day it was opened to the public. The original building was twice enlarged. The first section of the present building on Huntington Avenue was opened November 15, 1909. The total cost of land, building, and installation was $2,900,000. The second section of the proposed completed building, the Robert Dawson Evans Galleries for Paintings, the gift of Mrs. Evans, was opened February 3, 1915. It cost $1,000,000. The annual running expenses are $185,000. The Museum receives no city or State aid, its funds for running expenses and for purchases being derived entirely from private gifts and bequests. Admission is free whenever the Museum is open: 9 A. M. to 5 P. M. week days, 1 P. M. to 5 P. M. Sundays.

The Museum possesses collections illustrating the art of Ancient Egypt, Greece, and Rome, the art of mediaeval, Renaissance and modern Europe, American art, and the art of Asia. Its gathering of Egyptian and Greek sculpture, and Greek vases and terra cottas is the finest in this country; its assemblages of the art of China and Japan are unequaled except by the imperial collections of Japan; its collection of the art of India is the only one in this country; and its collection of paintings and drawings from India is superior even to the one in the British Museum; the textiles, numbering over 7,000 pieces, are recognized as the best comprehensive representative collection in this country; the paintings, of which over 700 are exhibited, include, besides examples of the old masters, some of the most famous and most popular Colonial and contemporary American pictures.

FIELD MUSEUM OF NATURAL HISTORY, CHICAGO.

Field Museum of Natural History, established 1894, at the close of the World's Columbian Exposition of 1893, occupies the temporary building erected for Fine Arts in Jackson Park, the Exposition site. The founding of a scientific institution of this character in Chicago was made possible by a gift of $1,000,000 by Marshall Field, whose name the institution bears, and who on his death January 6, 1906, bequeathed a further $8,000,000, of which $4,000,000 was for the erection of a permanent building, and $4,000,000 for endowment. The sum of $1,200,000 has been donated by other individuals, and there is an annual income from other sources than endowment of approximately $50,000.

The nucleus of the exhibition material was gathered by gift and purchase at the World's Columbian Exposition. Several departments created at the organization have been abandoned, until, after a lapse of twenty-five years and expenditure of over $6,500,000, the Museum is now divided into five departments: Anthropology, botany, geology, zoology, and the N. W. Harris Public School Extension. Many expeditions for the purpose of obtaining study, exhibition, and exchange material and data have been dispatched to all parts of the world. The results have been published by the Museum from time to time. It has a working library of 70,000 titles, an extensive exchange system, fully equipped departmental laboratories, an herbarium of 560,000 sheets, study collections of mammals, birds, fishes, reptiles and insects reaching many thousand specimens, a large two story taxidermy section, a printing shop, illustration studio, assaying and lapidary rooms, &c. In North American, Philippine, Chinese and Tibetan ethnology, in meteorites, in the world's mineralogy, in economic botany, the Museum is particularly prominent, while its series of mounted mammals and birds and plant reproduction furnish examples of advanced museum methods. The present building covers nine acres, and is open to the public on all days except Christmas and Thanksgiving. A small admission fee is charged except on Saturdays and Sundays, when admission is free to all. Students, scholars and teachers are admitted free at all times.

The Museum is incorporated under Illinois State law, and the administrative control rests in a board of fifteen trustees. The new building is located in Grant Park, on the lake, south of Twelfth Street extended. Its occupation is probable during 1920. The interior is 750 feet by 350 feet, but with the exterior outer lines of the entire building, including entrances and terrace, the structure covers about eleven acres of ground.

CORCORAN GALLERY OF ART, WASHINGTON, D. C.

The Corcoran Gallery of Art, at Washington, D. C., founded and endowed by the late William Wilson Corcoran in 1869, solely for encouraging American genius in the fine arts, is a private corporation controlled by a self-perpetuating board of nine trustees. The original home of the institution was at Pennsylvania Avenue and 17th Street; but in 1897 its collections were transferred to the present building, designed by Ernest Flagg of New York, and located at New York Avenue and 17th Street, N. W. The value of the building and grounds connected therewith is $1,000,000, and the present value of the collections is estimated at $1,500,000. The endowment fund amounts to $1,000,000.

The collection of paintings is particularly representative of American artists. In addition the gallery has examples of the French, Dutch, English, and other schools. The sculptures include casts from the antique and the Renaissance, and modern works, as well as original works in marble and bronze. There are over 100 original bronzes by Antoine-Louis Barye, French sculptor of animals. It is open to the public: Mondays, 12 M. to 4.30 P. M.; other week days, 9 A. M to 4.30 P. M; Sundays, 1 30 to 4 30 P. M.

THE CITY ART MUSEUM OF ST. LOUIS.

The City Art Museum of St. Louis was established in 1879, and became a municipal institution in 1907. The building is in Forest Park, 160x350 feet, with 44 galleries on three floors. The collections include paintings, prints, sculpture, textiles, ceramics, metal work, furniture and other objects. The modern paintings are comprehensive, by artists of America, France, Holland, Spain, England, Russia, Sweden, Belgium and other countries. There is a small group of Old Masters. In the print department are etchings, engravings and woodcuts by old and modern masters. The sculptures are chiefly examples by American artists, supplemented by collections of casts from the antique and from masterpieces of the Renaissance. Among the Chinese Ceramics are specimens from the Han Dynasty downward, and examples of the Sung, Ming, and K'ang-Hsi periods. There are also groups of Chinese bronzes, jades and other carved stones, lacquer, glass, textiles, &c., as well as objects illustrative of the decorative arts of ancient Greece and Egypt, and of Japan, Korea and Persia. The Museum is open daily, except Christmas and New Year's Days, 10 A. M. to 5 P. M. Admission free.

BUFFALO FINE ARTS ACADEMY.

The Buffalo Fine Arts Academy was organized November 11, 1862, and incorporated December 4, same year. The building occupied by the organization was a gift from Mr. John Joseph Albright. It is a white marble structure two hundred and fifty feet long (north and south) and one hundred and fifty feet deep (east and west). Its central feature is based on the east porch of the Erectheum, on the Acropolis at Athens—perhaps the purest type of Ionic architecture. The City of Buffalo has been contributing toward the support of the Institution since 1909. The permanent collection of the Academy consists of 200 paintings, 800 engravings and etchings, and 56 sculptures, including casts. The total membership is 540. During each year several special exhibitions are given; a quarterly art journal is published. Lectures are given. Special efforts are made to interest the public and the school children. Several foreign exhibits brought over by the director, Cornelia B. Sage Quinton, and passed on to other museums after being first shown at the Albright Art Gallery, have made Buffalo noted in art circles. They included: Exhibition of paintings and sculpture by the Société Nouvelle of France, of which Rodin was president; exhibition of French textiles; exhibition of the work (sculpture) by the great Constantin Meunier and others; the exhibition of American sculpture, held at the Albright Art Gallery in 1916.

INDEPENDENCE HALL NATIONAL MUSEUM, PHILADELPHIA.

(Data Supplied by Wilfred Jordan, the Curator.)

INDEPENDENCE HALL was at first called "The State House of Pennsylvania." It now comprises the main or central building (Independence Hall), two arcades connecting it with two two-story buildings called the Wings, and two separate corner buildings, one, Congress Hall, the other, Old City Hall, one on the corner of Fifth Street and the other on the corner of Sixth Street, facing on Chestnut Street, Philadelphia. The State House group of buildings was designed and built by Andrew Hamilton, a Philadelphia lawyer, who bought the land, for which he created a trust. Congress and City Hall were in Hamilton's original scheme of the State House group, but were not built until after the close of the Revolution. The group of buildings covers a frontage of 396 feet on Chestnut Street.

The original building (Independence Hall) in the group was begun in 1732 and was opened and first put to use in September, 1736, when William Allen, Mayor and prominent merchant of Philadelphia, gave a dinner to the citizens. In October, 1736, the Legislature, of which Benjamin Franklin was clerk, moved into the completed part of the structure, then known as the "East Room." In June, 1753, Pass & Stow placed in position in the State House steeple the Liberty Bell, weighing 2,080 pounds. In 1752 a clock was ordered, and in 1759 it was placed and paid for. The State House was practically completed in the latter year. Here are some of the historical events that have taken place in Independence Hall:

June 15, 1775, Washington accepted his appointment as General of the Continental Army

July 4, 1776, Colonies issued the Declaration of Independence.

July 15, 1776, convention to form a new Constitution for Pennsylvania met here.

September 11 and October 4, 1777, American officers captured at the Battles of Brandywine and Germantown were held prisoners in the building by the British.

Congress, which had left Philadelphia in September, 1777, and which convened in Independence Hall March 4, 1777, left again on September 18, 1777; returned July 2, 1778, and continued to sit there until the close of the Revolution.

July 9, 1778, the Articles of Federation and Union between the States were signed in Declaration Chamber by eight States. The five remaining States signed later, the last, Maryland, on March 1, 1781.

May 14, 1787, the Federal Convention to frame a Constitution for the United States assembled, sitting until September.

December 13, 1787, the Pennsylvania Convention met to ratify the Philadelphia Constitution.

In 1824 Lafayette was given a reception there.

December 6, 1790, the Congress of the United States occupied the County Building, now known as Congress Hall, one of the Independence Hall group, and remained there until the seat of Government was removed to Washington in 1800.

March 4, 1793, George Washington was inaugurated in Congress Hall, at the beginning of his second term as President; and John Adams was inaugurated there March 4, 1797. The House of Representatives occupied the lower floor and the Senate the second floor.

February 7, 1791, the Supreme Court of the United States held its first session on the second floor of the City Building, now known as Old City Hall, one of the Independence Hall group, and stayed there until August 15, 1800. The Supreme Court of Pennsylvania sat on the second floor of the building also The City Building was used as the municipal headquarters until March 27, 1895.

In 1816 the City of Philadelphia bought the entire property.

There are many historic oil portraits in the National Portrait Gallery, including Washington and other early American public men.

Independence Hall was formally thrown open as a public historical museum July 4, 1876, although parts of this building were used as a museum as early as 1790. Cost of its annual upkeep is $25,000. Its art collection, made up in the main of original pictures of celebrities of Colonial and Revolutionary times, is worth over $500,000. The museum collection consists of furniture, manuscripts, musical instruments, water colors, missiles, maps, coins, currency, weapons, metals, prints, wearing apparel, utensils, and books.

There are no pay days. The National Museum is open to the public daily throughout the year, from 9 A. M. to 4 P. M., Sundays, 1 to 4 P. M., except Christmas and Thanksgiving. The National Museum, Independence Hall group, is located on the south side of Chestnut Street, between Fifth and Sixth Streets, and can be reached from the central hotel district and the railroad stations by trolleys or subway trains A series of free bulletins are issued, which will be mailed upon request.

EDUCATION IN THE AMERICAN COLONIES.

ALASKA—The native public schools, 71, with 3,500 pupils, are under the United States Bureau of Education, Interior Department, and are managed locally from Seattle, Wash. There are 3 Russian parochial schools The Presbyterian Church supports an industrial school at Sitka. There are several Roman Catholic parochial schools at Juneau and Douglas. Public schools for whites have 87 teachers and 1,800 pupils Citizenship night schools at the chief towns have an attendance of 120 men and 60 women. There are also general night schools, with an attendance of 300. There are 46 schools for mixed breeds, with 58 teachers and 1,180 pupils. The public schools spend over $172,000 a year.

CANAL ZONE—There are 17 public school buildings in the Canal Zone, with 1,764 pupils in the white schools and 1,010 in the colored schools. There are high schools. School property is valued at $550,000, and yearly expenditures are over $140,000.

HAWAII—The public schools have over 800 teachers and over 34,000 pupils. There is a normal school at Honolulu, and there are high schools and Summer schools. Of the public school pupils, 3,200 are pure Hawaiian, 3,800 part Hawaiian, 850 American, 5,000 Portuguese, 15,000 Japanese, 3,300 Chinese, the rest, scattering.

PHILIPPINES—There are over 671,000 public school pupils in 4,700 schools, with 13,000 teachers. Over 12,000 students attend secondary schools. Yearly educational expenditures exceed $4,000,000. About 3 per cent. of the teachers are American. Forty per cent. of pupils are girls. There are industrial and agricultural schools.

PORTO RICO—There are 427,666 children of legal school age (5 to 18 years), and 215,819 of compulsory school age (8 to 14 years). The enrolment is over 142,000, of whom 80,000 are males and 113,462 are white. In private schools are 7,200. There are over 2,700 teachers. The property is assessed at $244,000,000, and the yearly expenditures exceed $2,300,000. The University of Porto Rico has over 1,200 students.

VIRGIN ISLANDS—There are over 2,500 pupils, of whom 1,800 are white, in 20 schools, not including 20 private (Roman Catholic) schools.

SALE OF THE ROBERT HOE LIBRARY.

Part I.—April 24-May 5, 1911, $997,366.00; Part II.—January 8-19, 1912, $471,619 25; Part III.—April 15-16, 1912, $200,150 50; Part IV.—November 11-22, 1912, $262,920 85; total, $1,932,056.60.

SALE OF THE FREDERIC R. HALSEY PRINTS.

November 1, 1916-April 26, 1917. I.—Americana, $54,157.50; II.—Sporting prints, $39,371.00; III.—French engravings of the eighteenth century, $114,531.00; IV.—English stipple engravings, $56,387.50; V.—English mezzotints, $59,454.00; VI.—Nineteenth century prints, $24,432.00; VII.—Old masters, $13,862.00; VIII.—Napoleon and French Revolution, $7,900.00; IX.—French eighteenth century, $7,149.25; total, $377,244.25.

Of the summer schools, 107 were run by universities, 136 by colleges, and 142 by normal schools. Of the teachers, 4,488 were women. Of the students, 126,917 were women.

FEDERAL VOCATIONAL EDUCATION.

Two classes of persons are eligible for Federal vocational education, *first*, those who have served in the U. S. military or naval forces (including authorized training camps), whether enlisted, drafted, or appointed, who have left the service voluntarily and honorably (i. e., through discharge, resignation, or furlough); who have incurred a disability due to such service, or whose existing disability has been increased or aggravated; *second*, persons disabled under circumstances entitling them after discharge to compensation, and who are not included in the first class.

To secure Federal vocational education a person must first establish his eligibility under either of the above classes, and which. His disability must be of such a nature as to cause him to need vocational rehabilitation to overcome the handicap of disability and his physical and mental condition such as to make vocational rehabilitation feasible.

Having established his eligibility, he must next be advised by a skilled vocational adviser as to the occupation for which he should have vocational training. This involves inquiry as to inclination, special aptitude, business, trade, or professional experience, and whether his injuries preclude his continuing his pre-war pursuits. Having obtained the advice of the vocational adviser, the applicant's case is referred to the office of the district wherein he makes his permanent home. The recommendation of this district staff, made after investigation, is sent to the Central Office at Washington, D. C., for final action. If a favorable decision is reached, the applicant is sent to a Receiving Station. There he may be set at certain work, or he may be tried at a variety of work until aptitude in some direction is shown. The pursuits in which training may be had are various; agriculture, commerce, industry, transportation, the professions and so on, farms, offices, manufacturing establishments and industrial shops are open for trial.

AMOUNT EXPENDED FOR HIGHER EDUCATION.

The amount expended for higher education for each $1,000 of wealth, ranges from $3.88 in Delaware to $0.19 in Oklahoma, $0.74 in New York, $0.39 in New Jersey. The amount for State-supported higher education ranges from $0.82 in Wyoming to $0.05 in Louisiana, $0.10 in New York, $0.06 in New Jersey.

THE SCHOOL OF JOURNALISM.

(From a Statement Prepared by J. W. Cunliffe, Acting Director)

THE School of Journalism in Columbia University, endowed by Joseph Pulitzer, opened September 30, 1912. In September, 1913, the school entered its new building, for which $500,000 was provided by Mr. Pulitzer's bequest. The building is excellently equipped in every way for training in journalistic work, and contains a reference library, files of a hundred daily papers, American and foreign, and a morgue of 500,000 newspaper clippings made under the supervision of Dr. Talcott Williams during the last thirty years. No step in professional education has attracted wider public attention or awakened a more general approval in the American press When Mr. Pulitzer proposed the school twelve years ago its plan, purposes, and need were all challenged. From the announcement of the appointment in February, 1912, of its Director, Talcott Williams, formerly of *The New York World* staff and for thirty-eight years in active journalism, to its successful opening and full operation the school has commanded the confidence of newspapers and journalists.

The plan of the school and its course of study were approved and at many points directed by an Advisory Board of eleven journalists, including Mr John Langdon Heaton of the editorial staff of *The New York World*, Mr. Ralph Pulitzer, President of the Press Publishing Company (The New York World), and Mr. George S. Johns, editor of the *St Louis Post-Dispatch*. The other members of this Advisory Board, of which President Butler of Columbia is a member, are S. B. Griffin, *Springfield Republican;* Victor Fremont Lawson, *Chicago Daily News;* Charles Ransom Miller, *New York Times;* Edward Page Mitchell, *The Sun*, New York; Melville Elijah Stone, *Associated Press*, New York; Charles H. Taylor, *Boston Globe;* Samuel Calvin Wells, *Philadelphia Press*, and Arthur M. Howe of the *Brooklyn Eagle*. The administrative work of the school is conducted by an Administrative Board, composed of President Butler, the Associate Director, Professor John W. Cunliffe, H E. Hawkes, Dean of Columbia College; Roscoe C. E. Brown, Professor of Journalism; Walter B. Pitkin, Associate Professor of Philosophy; Henry R. Seager, Professor of Political Economy, and Ashley H. Thorndike, Professor of English.

While there are universities and colleges which give courses in various phases of journalism and several which have schools of journalism, no other school has an endowment so large, beginning at $1,000,000 and enlarged by the final legacy of $1,000,000 from the Pulitzer estate; none has a course giving so much time to the solid study needed for the training of the journalist, and this has also the crowning advantage of a metropolis like New York in which to train men in getting news as well as writing it during the two years of professional study. This practical training in the work of the journalist in the greatest news centre of the country comes in the last two years, but a preliminary course is required, usually extending over two years of college work, including the study of history, political science, economics, natural science, and French or Spanish or German These studies follow the lines laid down by Mr. Joseph Pulitzer in his plan for the school. They are taught with the comprehensive thoroughness only possible in a great university. The work required is on a professional basis.

The number of students has shown a steady and rapid increase. There are now (November, 1919) 78 students in the First Professional Year, and 43 in the Second, 121 in all, in addition to a large number taking the pre-journalism curriculum in Columbia College and in Barnard College.

The Pulitzer prize for the American novel of 1919 best representing the wholesome atmosphere of American life and the highest standard of American manners and manhood, was awarded to Booth Tarkington for his "The Magnificent Ambersons." Henry Adams's "The Education of Henry Adams" won the prize for biography, teaching patriotism and unselfish service by eminent example.

COLLEGE FRATERNITIES (GREEK LETTER SOCIETIES).

(COLLEGE or place and year of founding are in parentheses. The first name is that of the president or chairman; the second that of the secretary.)

Inter-fraternity Conference, Jas. D. Livingston, 7 Pine St., New York City; Henry H. McCorkle, 100 Broadway, New York City.

Inter-medical Fraternity Conference, Dr. D. E. W. Wenstrand, 210 Wisconsin St., Milwaukee, Wis.; Dr. G. C. Taylor, Wells Bldg, Milwaukee, Wis.

Kappa Alpha, Northern (Union, 1825), R. G. Mead, 62 Cedar St., New York City; Theo. Gilman, Jr., 55 William St., New York City.

Kappa Alpha, Southern (Washington and Lee, 1865), H. B. Chiles, Lexington, Mo; W. B. Crawford, Kissimmee, Fla.

Kappa Alpha Psi (Indiana, 1910), W. E. Stewart, Champaign, Ill.; T. B. Mayo, Alton, Ill.

Kappa Delta Rho (Middlebury, 1905), A. M Ottman, Schenectady, N. Y.; I. H Houston, Goshen, N. Y.

Kappa Nu (Rochester, 1911), N L Sanow, 2987 Schubert Ave., Chicago, Ill.; H. S. Mackler, 978 Union Ave., New York City.

Kappa Sigma (U. of Va., 1869), W. F. Denious, Denver, Col.; H. M. Martin, Danville, Va.

Lambda Chi Alpha (Boston, 1909), W. A. Cole, Swansea, Mass.; H. L. Lemay, Pawtucket, R. I.

Phi Delta Theta (Miami, 1848), E. C. Henderson, Fulton, Mo.; G. D. Kieruff, 68 Post St., San Francisco, Cal.

Phi Epsilon Pi (City, N Y., 1902), Max Shlivek, 95 William St., New York City; Jesse Acker, 2394 Seventh Ave., New York City.

Phi Gamma Delta (Jefferson, 1848), Glen Miller, Salt Lake City, Utah; H. I. Brightman, 115 Broadway, New York City.

Phi Kappa (Brown, 1892), W. H. Hetznecker, St. Mary's, Pa.; W. J. Weber, Ellingwood, Kan.

Phi Kappa Psi (Wash. and Jeff., 1852), W. L. Sheppard, Commonwealth Trust Bldg., Philadelphia, Pa.; H. C. Williams, Garfield Bldg., Cleveland, Ohio.

Phi Kappa Sigma (U. of Pa., 1850), Hazeltine Smith, 326 Walnut St., Philadelphia, Pa; C. S. Wood, Real Estate Trust Bldg., Philadelphia, Pa.

Phi Kappa Tau (Miami, 1906), Dr. H. E. Hoagland, 49 Lafayette St., New York City; R. K. Bowers, Akron, Ohio.

Phi Sigma Delta (Columbia, 1910), L. J. Steinberg, 229 Belmont Ave, Newark, N. J.; Benj. Gluckman, 133 Howard Ave., Newark, N. J.

Phi Sigma Kappa (Mass. Agric. College, 1873), Dr. W. H. Conley, Metropolitan Hospital, New York City; John A. Love, Winchester, Mass.

Pi Kappa Alpha (U. of Va., 1868), John R. Perez, Hibernia Bldg., New Orleans, La.; John U. Field, Lexington, Ky.

Pi Kappa Phi (Charleston, 1904), John De Lorme Carroll, Lexington, S. C.; C. A. Carlisle, Culloden, Ga.

Pi Lambda Phi (Yale, 1895), Chas. Steiner, 596 Jackson Ave., Long Island City, N. Y.; A. M. Fabian, 729 Seventh Ave., New York City.

Psi Upsilon (Union, 1833), Herbert L. Bridgman, 604 Carlton Ave., Brooklyn, N. Y.; Geo. S. Coleman, P. O. Box 1720, New York City.

Sigma Alpha Epsilon (U. of Ala., 1856), Don R. Almy, 46 Cedar St., New York City; M. E. Holderness, Evanston, Ill.

Sigma Alpha Mu (City, N. Y., 1909), M. E. Reiburn, 277 Broadway, New York City; Jacob Kaplan, 277 Broadway, New York City.

Sigma Chi (Miami, 1855), W. C. Henning, 5909 Kennerly Ave., St. Louis, Mo; B. F. Adams, 638 Groveland Park, Chicago, Ill.

Sigma Nu (Va. Milit. Inst., 1869), Borden Burr, Birmingham, Ala., E. W. Dunlavy, Lemcke Bldg., Indianapolis, Ind.

Sigma Phi (Union, 1827) F. T. Wood, 165 Broadway, New York City; P. J. Ross, 66 Broadway, New York City.

Sigma Phi Sigma (U. of Pa., 1908), Mordecai Casson, Jr., Addison, N. Y.; A. H. Erb, Leonia, N. J.

Sigma Phi Epsilon (Richmond, Va., 1901), F. J. Knauss, Denver, Col.; W. L. Phillips, Richmond, Va.

Sigma Iota (La. State U., 1904), E. Roa, Baton Rouge, La.; Raul Antonglorgi, San German, Porto Rico.

Sigma Pi (Vincennes, 1897), W. D. Akers, Columbus, Ga.; R. B. Fall, Carrell, Minn.

Tau Delta Phi (City, N. Y., 1910), S. A. Levinson, 154 E. 113th St., New York City; Albert Cornhall, 25 Broad St., New York City.

Tau Kappa Epsilon (Ill. Wesleyan, 1899), O. G. Hoose, Bloomington, Ill.; J. A. Gehman, Oak Park, Ill.

Theta Alpha (Syracuse, 1909), H. V. Loomis, Groton, N. Y; J. C. Hurley, Moravia, N. Y.

Theta Chi (Norwich, 1856); Maj. E. V. Catuna, 76 William St., New York City; F. W. Ladue, Schenectady, N. Y.

Theta Delta Chi (Union, 1847), Seward Spoor, 149 Broadway, New York City; Carl Tombo, Hotel Adelphia, Philadelphia, Pa

Theta Xi (Rensselaer Poly.), W. W. Wiley, 432 Fourth Ave., New York City; F. G. Smith, 49 Liberty St., New York City.

Zeta Beta Tau (Jewish Theol Sem., 1898), Prof. R. J. H. Gottheil, Columbia Univ., New York City; A. T. Sapinsky, 135 Broadway, New York City.

Zeta Psi (N. Y. U., 1847), J. S Smith, 112 S. 4th St., Philadelphia, Pa.; Victor Sutro, 66 Broadway, New York City.

PROFESSIONAL.

AGRICULTURAL.

Alpha Gamma Rho (Ohio U., 1903), T. D. Harman, Jr., Pittsburgh, Pa.; Sleeter Bull, Urbana, Ill.

AGRICULTURAL, HONORARY.

Alpha Zeta (Ohio, U., 1897), Prof. C. B. Hutchinson, Cornell, Univ., Ithaca, N. Y; Prof. John Parker, Manhattan, Kan.

Gamma Sigma Delta (Ohio U., 1905), Prof. A. V. Storm, St. Paul, Minn.; Prof. L. H. Pammel, Ames, Iowa.

ARCHITECTURAL.

Alpha Rho Chi (U. of Ill., 1914), L. M. Bauer, Horton, Kan.; C. C. Cohagen, Great Falls, Mont.

Scarab (U. of Ill., 1909), R. P. Hoffman, 3635 Blaine Ave., St. Louis, Mo; G. W. McCumber, Champaign, Ill.

ARCHITECTURAL, HONORARY.

Tau Sigma Delta (U. of Mich., 1913), G. S. Underwood, Norfolk, Va.; C. W. Attwood, Toledo, Ohio.

CHEMICAL.

Alpha Chi Sigma (U. of Wis., 1902), Sec.-Treas., B. H. Ball, 1208 G St., N. W., Washington, D. C.

CHEMICAL, HONORARY.

Phi Lambda Upsilon (U. of Ill., 1899), G. D. Beal, Urbana, Ill.

CHEMICAL AND PHARMACEUTICAL.

Phi Delta Chi (U. of Mich., 1883), Azor Thurston, Columbus, Ohio; F. E. Ingram, Jr., 316 Vinewood Ave., Detroit, Mich.

COMMERCIAL.

Alpha Kappa Psi (N. Y. U., 1904), D. S. Duncan, Denver, Col.; G. R. Day, Denver, Col.

Delta Sigma Pi (N. Y. U., 1907), C. J. Ege, 160 Waverly Place, New York City; F. H. Miller, Woodcliff, N. J.

DENTISTRY.

Delta Sigma Delta (U of Mich., 1883), C. D. Lucas Indianapolis, Ind.; R. H. D. Swing, 1623 Walnut St., Philadelphia, Pa.

Psi Omega (Balto. Coll. D. S., 1892), Dr. M. M. Printz, 25 E. Washington St., Chicago, Ill.; Dr. Shirley Bowles, Washington, D. C.

Xi Psi Phi (U. of Mich., 1889), Dr. L. M. Waugh, 576 Fifth Ave., New York City; Dr. C. L. Storms, Buffalo, N. Y.

DRAMATIC.

Associated University Players (Chicago, 1914), V. H. Grossberg, Champaign, Ill.; D. E. E. Voight, Athens, Ohio.

ENGINEERING

Theta Tau (U. of Minn., 1904), E. J. Schrader, Yerington, Nev.; H. H. Hopkins, Jr., 164 N. Dearborn St., Chicago, Ill.

Triangle (U. of Ill., 1907), M. F. Rather, Dallas, Tex.; W. A. Knapp, West Lafayette, Ind.

ENGINEERING, HONORARY.

Eta Kappa Nu (U. of Ill., 1904), H. S. Cocklin, 1634 N. Sydenham, Philadelphia, Pa.; A. B. Zerby, Irwin, Pa.

Sigma Tau (U. of Neb., 1904), W. J. Wohlenburg, New Haven, Ct.; S. A. Smith, Manhattan, Kan.

Tau Beta Pi (Lehigh, 1885), Sec.-Treas., R. C. Matthews, Univ. of Tenn., Knoxville, Tenn.

FORENSIC.

Phi Alpha Tau (Boston, 1902), C. L. Clark, Lincoln, Neb.; W. B. Tripp, 30 Huntington Ave., Boston, Mass.

FORENSIC, HONORARY.

Delta Sigma Rho (at Chicago, 1906), J. F. T. O'Connor, Grand Forks, N. Dak.; S. B. Houck, Minneapolis, Minn.

Pi Kappa Delta (Ottawa U., Kan., 1912), J. R. MacArthur, Manhattan, Kan.; C. A. March, Sioux City, Iowa.

Tau Kappa Alpha (at Indianapolis, 1908), Chas. H. Brough, Little Rock, Ark.; E. J. Hecker, Indianapolis, Ind.

GRADUATE.

Phi Eta (U. of Pa., 1906), T. W. Van Metre, Columbia Univ., New York City; G. A. Betz, Univ. of Pa., Philadelphia, Pa.

LEGAL.

Delta Theta Phi (Chicago, 1901), Eugene Quigley, Cleveland, Ohio; Emery Weller, 27 Cedar St., New York City.

Gamma Eta Gamma (U. of Me., 1901), C. M. Moon, Rochester, N. Y.; C. W. Haller, Rochester, N. Y.

Phi Alpha Delta (Chicago, 1902), G. L. Stewart, 995 Market St., San Francisco, Cal.; G. S. Myers, Cleveland, Ohio.

Phi Delta Phi (U. of Mich., 1869), L. V. Stigall, St. Joseph, Mo.; E. A. Donnelly, Milwaukee, Wis.

Sigma Delta Kappa (U. of Mich., 1914), M. Foster Smith, Indianapolis, Ind.; Othuell Hitch, Indianapolis, Ind.

Sigma Nu Phi (Nat. U., 1903), E. S. Brashears, 710 14th St., N. W., Washington, D. C.; J. V. Morgan, So. Bldg., Washington, D. C.

LEGAL, HONORARY.

Order of the Coif, Dean W. E. Mikell, Univ. of Pa., Philadelphia, Pa.; Prof. W. W. Cook, Yale Univ., New Haven, Ct.

MEDICAL.

Alpha Kappa Kappa (Dartmouth, 1888), Dr. Geo. Cook, Concord, N. H.; Dr. A. B. Landrum, Columbus, Ohio.

Alpha Mu Pi Omega (U. of Pa., 1891), Dr. S. D. Risley, 2018 Chestnut St., Philadelphia, Pa.; Dr. H. A. Sutton, 314 S. 15th St., Philadelphia, Pa.

Sigma Xi (Cornell, 1886), Julius Stieglitz, Univ. of Chicago, Chicago, Ill.; H. B. Ward, Univ. of Ill., Urbana, Ill.

AMERICAN COLLEGE SORORITIES.

Following are the chief women's Greek Letter Societies, place or college, and date of founding are in parentheses. The first name is that of president; the second, that of secretary.

COLLEGIATE.

Achoth (U. of Neb., 1910), Florence Wise, Winfield, Iowa; Edna D. Green, Lincoln, Neb.

Alpha Chi Omega (De Pauw, 1885), Mrs. E. R. Loud, Albion, Mich.; Mary E. Griffith, "The Lenox," Washington, D. C.

Alpha Delta Pi (Wesleyan of Ga., 1851), Mrs. I. P. Smith, Berkeley, Cal.; Mrs. R. G. Smith, 43 High St., Passaic, N. J.

Alpha Gamma Delta (Syracuse, 1904), Louise Leonard, Somerset, Pa.; Gladys Branegan, Denton, Tex.

Alpha Kappa Psi (St. Mary's, Raleigh, N. C., 1900), Eleanor Thomas, Raleigh, N. C.; Regina Rambo, Marietta, Ga.

Alpha Omicron Pi (Barnard, 1897), Mrs. B. F. Stewart, Jr., Oakland, Cal.; Helen N. Henry, 430 W. 119th St., New York City.

Alpha Phi (Syracuse, 1872), Mrs. W. J. Henry, 214 Riverside Drive, New York City; Miss Paulo Kisco, Richmond Hill, Long Island, N. Y.

Alpha Xi Delta (Lombard, 1893), Polly Fenton, 1614 Grand Ave., Milwaukee, Wis.; Mrs. J. M. Knote, Mansfield, Ohio.

Beta Delta Pi (1887, Phila., 1916), Mrs. Lawrence Stryker, 55 W. 86th St., New York City; Eleanor Bonsall, 4410 Locust St., Philadelphia, Pa.

Beta Sigma Omicron (Christian, 1888), Erna B. Watson, Lexington, Ky.; Mary L. Dooley, Knoxville, Tenn.

Chi Omega (U. of Ark., 1895), Mrs. M. C. L. Collins, Lexington, Ky.; Annie Whiteside, Bell Buckle, Tenn.

Delta Delta Delta (Boston U., 1888), R. Louise Fitch, 1609 Sherman Ave., Chicago, Ill.; Helen Baisley, same address.

Delta Gamma (Warren, Miss., 1874), Mrs. P. J. Treat, Stanford Univ., Cal.; Mrs. E. W. Hawley, Minneapolis, Minn.

Delta Zeta (Miami, 1902), Martha L. Railsback, San Diego, Cal.; Rennie S. Smith, Hamilton, Ohio.

Eta Upsilon Gamma (Christian, 1901), Mrs. Monroe Cockrell, Kansas City, Mo.; Mrs. W. K. Cooper, Jerseyville, Ill.

Gamma Phi Beta (Syracuse, 1874), Carrie E. Morgan, Appleton, Wis.; Mrs. E. W. Ekblaw, Urbana, Ill.

Kappa Alpha Theta (De Pauw, 1870), Mrs. J. M. Mecklin, 12 Ellsworth Terrace, Pittsburgh, Pa.; L. Pearle Green, Ithaca, N. Y.

Kappa Delta (Va. State Nor., 1897), Marion D. Mullins, Fort Worth, Tex.; Effie Moncure, Shreveport, La.

Kappa Kappa Gamma (Monmouth, 1870), Mrs. P. R. Kolbe, Akron, Ohio; Mrs. E. K. Kemp, Denver, Col.

Phi Mu (Wesleyan, Ga., 1852), Nellie S. Hart, 3706 Prytania St., New Orleans, La.; Leah Sturdevant, 2269 Bathgate Ave., New York City.

Pi Beta Phi (Monmouth, 1867), Mrs. A. L. Tannahill, Lewiston, Iowa; Amy B. Onkin, Chapin, Ill.

Sigma Iota Chi (Alexandria, La., 1903), Mary McCrae, Rolla, Mo.; Grace Lauman, Breckenridge, Mo.

Sigma Kappa (Colby, 1874), Mrs. E. H. Weston, Rumford, Me.; Mrs. F. C. Battram, Oakland, Cal.

Zeta Tau Alpha (Va. State Nor., 1898), Dr. May A. Hopkins, Dallas, Tex.; Mrs. J. L. Bugg, Farmville, Va.

PROFESSIONAL.

ATHLETIC

Delta Psi Kappa (Nor. Coll., Indianapolis, 1916), Mrs. A. E. Metzger, Indianapolis, Ind.; Elsa Heilick, Elizabeth, N. J.

Phi Delta Pi (Nor. Coll., Indianapolis, 1917), Mae Paddock, Maplewood Ave., Cincinnati, Ohio; Martha Evans, Granite City, Ill.

HOME ECONOMICS.

Omicron Nu (E. Lansing, Mich., 1912), Dean Georgia L. White, E. Lansing, Mich.; Emily L. Castle, E. Lansing, Mich.

LEGAL.

Phi Delta Delta (U. of S. Cal., 1911), Orla J. Shontz, Los Angeles, Cal.; Eleanor Mack, Los Angeles, Cal.

MUSICAL.

Beta Pi Omega (Cinn. Coll. Music, 1914), Eliz. Shipley, Avondale, Cincinnati, Ohio; Helen E. Meyer, same address.

Sigma Alpha Iota (U. of Mich., 1903), Frieda Heider, Indianapolis, Ind.; Mabel Behrendt, Indianapolis, Ind.

Mu Phi Epsilon (Met. Coll. Mus., Cinn., 1903), Mrs. Wm. E. Wright, Youngstown, Ohio; Hattie A. Elliott, 130 Seward Ave., Detroit, Mich.

NORMAL.

Alpha Sigma Alpha (Va. State Nor., 1901), Mrs. W. H. Martin, 5 Cobden St., Roxbury, Mass.; Edith Gamble, Downing, Mo.

Delta Sigma Epsilon (O. State Nor., Oxford, 1914), Alice P. Hunt, Greeley, Col.; Mrs. Orley See, Sacramento, Cal.

Pi Kappa Sigma (Ypsilanti, 1894), Alice Lowden, Ypsilanti, Mich.; Frederica L. Bretch, 2314 California Ave., Pittsburgh, Pa.

Sigma Sigma Sigma (Va. State Nor., 1898), Mabel L. Walton, Woodstock, Va.; Hazel Green, Ypsilanti, Mich.

HONORARY.

JOURNALISTIC

Theta Sigma Phi (U. of Wash., 1909), Miss Marion Lewis, Lawrence, Kan.; Mrs. M. G. Stone, 66 E. 190th St., New York City.

MEDICAL.

Alpha Epsilon Iota (U. of Mich., 1890), Dr. Sarah I. Morris, Madison, Wis.; Dr. Caroline Hedjer, 29 E. Madison St., Chicago, Ill.

THE OATH OF HIPPOCRATES.

I swear by Apollo, the physician, and Aesculapius, and Health, and All-heal, and all the gods and goddesses, that, according to my ability and judgment, I will keep this oath and stipulation; to reckon him who taught me this art equally dear to me as my parents, to share my substance with him and relieve his necessities if required; to regard his offspring as on the same footing with my own brothers, and to teach them this art if they should wish to learn it, without fee or stipulation, and that by precept, lecture and every other mode of instruction I will impart a knowledge of the art to my own sons and to those of my teachers, and to disciples bound by a stipulation and oath, according to the law of medicine, but to none others. I will follow that method of treatment which, according to my ability and judgment, I consider for the benefit of my patients, and abstain from whatever is deleterious and mischievous. I will give no deadly medicine to any one if asked, nor suggest any such counsel; furthermore, I will not give to a woman an instrument to produce abortion. With purity and with holiness I will pass my life and practice my art. I will not cut a person who is suffering with a stone, but will leave this to be done by practitioners of this work. Into whatever houses I enter I will go into them for the benefit of the sick and will abstain from every voluntary act of mischief and corruption; and further from the seduction of females or males, bond or free. Whatever, in connection with my professional practice, or not in connection with it, I may see or hear in the lives of men which ought not to be spoken abroad, I will not divulge, as reckoning that all such should be kept secret. While I continue to keep this oath unviolated, may it be granted to me to enjoy life and the practice of the art, respected by all men at all times; but should I trespass and violate this oath, may the reverse be my lot.

THE ALFRED B. NOBEL PRIZES.

THE Swedish scientist Alfred B. Nobel, the inventor of dynamite, died in 1896, bequeathing his fortune, estimated at $9,000,000, to the founding of a fund, the interest of which should yearly be distributed to those who had mostly contributed to the benefit of mankind improvement during the year immediately preceding.

The Board of Directors of the Nobel Foundation, exclusively consisting of Swedes, must reside in Stockholm. The board has in its care the funds of the institution, and hands yearly over to the awarders of the prizes the amount to be given away. The value of each prize is on an average $40,000.

AMERICAN RHODES SCHOLARS.

(Appointed November 1. 1919. Men appointed as of 1918, enter Oxford Univ. Engl., January, 1920; those appointed as of 1919, enter Oxford, October, 1920)

ALABAMA—1918, J. Clifford Durr, Montgomery, Ala., representing Univ. of Ala. 1919, Charles G Williams, Birmingham, Ala., representing Howard Coll.

ARIZONA—1918, James A. Tong, representing Univ. of Ariz.

ARKANSAS—1918, Eugene Stevenson, Paragould, Ark., representing Hendrix Coll. 1919, Shelby McCloy, Monticello, Ark., representing Davidson Coll

CALIFORNIA—1918, Axel Berg Gravem, representing Univ. of Cal. 1919, William Ray Dennes, representing Univ. of Cal.

COLORADO—1918, George F. Willison, 1825 E. 25th Ave., Denver, Col., representing Univ. of Col. 1919, Walter E. Sikes, Union Theological Sem, New York, representing Denver Univ.

CONNECTICUT—1919, William Dwight Whitney, 13 Vanderbilt Hall, New Haven, Ct., representing Yale Univ.

DELAWARE—1918, F. Bayard Carter, Newark, Del., representing Del. Coll.

FLORIDA—1918, Thomas Myers Palmer: representing Univ of Fla

GEORGIA—1918, William B. Stubbs, Jr. Savannah, Ga., representing Emory Univ. 1919, Frank W. Harrald, Americus, Ga., representing Univ. of Ga.

IDAHO—1918, Walter E. Sandellus, 520 Hayes St., Moscow, Ida., representing Univ of Ida.

ILLINOIS—1919, Charles W. Carter, Jr., Aledo, Ill. representing Harvard Univ.

INDIANA—1919, E. R. Baltzell, Princeton, Ind., representing Indiana Univ.

IOWA—1919, Maxwell Haines Herriett, Grinnell. Ia., representing Grinnell Coll. 1918. Vergil Melvin Hanchor, Iowa City, Ia., representing Univ. of Ia.

KANSAS—1918. Davidson R. McBride, Wamego, Kan, representing Emporia Coll. 1919, Edward S. Mason Baxter Springs, Kan., representing Univ. of Kan.

KENTUCKY—1919, Ira C. Powers, 5705 Franklin Ave., Cleveland, O., representing Georgetown Coll.

LOUISIANA—1918, Philip Harold Jones, 736 Convention St., Baton Rouge La, representing Louisiana State Univ.

MAINE—1919, Phillip Dyer Crockett. Everett, Mass., representing Bowdoin Coll.

MARYLAND—1919, Frank V. Morley, 2032 Park Ave., Baltimore, Md., representing Johns Hopkins Univ.

MASSACHUSETTS—1919, Crane Brinton, Rhinebeck, N. Y, representing Harvard Univ.

MICHIGAN—1918, Ralph W. Carson, 1208 Willard St., Ann Arbor, Mich., representing Univ. of Michigan. 1919, selection postponed.

MINNESOTA—1918, Raymond W. Anderson, 1832 Carroll St., St. Paul, Minn, representing Univ. of Minn. 1919, Herbert E. Clefton, 2501 Irving Ave. So., Minneapolis, Minn., representing Univ. of Minn.

MISSISSIPPI—1918, Bryan England, West Point, Miss., representing Univ. of Miss. 1919, Louis M. Jiggetts, Canton, Miss, representing Univ. of Miss.

MISSOURI—1918, Raymond P. Brandt, St. Louis, Mo., representing Univ. of Mo. 1919, John G. Madden, 3605 Flora Ave., Kansas City Mo., representing Univ. of Mo.

MONTANA—1918, C K Streit, Missoula. Mont., representing Univ. of Mont.

NEBRASKA—1918, Ralph Timothy Wilson, 317 So. 15th St., Omaha, Neb., representing Creighton Univ. 1919, Alfred Irvin Reese, Sioux City, Ia., representing Univ. of Neb.

NEVADA—1918, Stanley M. Porgellis, 10 Oxford St., Cambridge, Mass., representing Univ. of Nev.

NEW HAMPSHIRE—1919, Harold Sanford Glendening, 1 Cannon St., Norwalk, Conn., representing Dartmouth Coll.

NEW JERSEY—1919, Chester A. Osler, Haverford. Pa., representing Haverford Coll.

NEW MEXICO—1918. Donovan M. Richardson, Roswell, N. Mex., representing Univ. of N. Mex.

NEW YORK—1919, Philip C. Jessup, 19 Oneida St., Utica, N. Y., representing Hamilton Coll.

NORTH CAROLINA—1918, Robert L. Humber, Jr., Greenfield, N. Car., representing Wake Forest Coll.

NORTH DAKOTA—1918, John Rea Bacher, 714 Fourth Ave., North, Fargo, N. Dak., representing Fargo Coll.

OHIO—1919, Clark L. Mock, 2100 E. 107th St., Cleveland, O., representing Western Reserve Univ.

OKLAHOMA—1918, Thomas O. McLaughlin, East Enid, Okla., representing Phillips Univ.

OREGON—1918, Stephenson Smith, P. O. Box 308, Toppenish, Wash., representing Reed Coll. 1919, Frank Cudworth Flint, Portland, Ore, representing Reed Coll.

PENNSYLVANIA—1919, John Murdock Clarke, 226 So. 38th St., Philadelphia, Pa., representing Univ. of Pa.

RHODE ISLAND—1919, Marshall N. Fulton, 712 High St. Keokuk, Ia., representing Brown Univ.

SOUTH CAROLINA—1918, F. P. McGowan, Jr., Laurens, S. Car., representing Univ. of S. Car.

SOUTH DAKOTA—1918, Bryton Barron, Sioux Falls, S. Dak., representing Sioux Falls Coll.

TENNESSEE—1919, William Y. Eliot, Nashville, Tenn., representing Vanderbilt Univ.

TEXAS—1918, Joseph D. Doty, Dallas, Tex., representing Southern Methodist Univ. 1919, George F. Thomas, Clayton, Kan, representing Southern Methodist Univ

UTAH—1918, John A. V. Davies, 1047 Third Ave., Salt Lake City, Utah, representing Princeton Univ.

VERMONT—1919, Boardman Marsh Bosworth, 471 W 145th St, New York City, representing Univ. of Vt.

VIRGINIA—1919, Arthur Kyle Davis, Jr., representing Univ. of Va.

WASHINGTON—1918, John M. Saunders, Moran School, Rolling Bay, Wash., representing Univ. of Wash 1919, Ford K Brown, 3950 First Ave., N. E., Seattle, Wash, representing Univ. of Wash.

WEST VIRGINIA—1918, Julian Lamar Hagan, Huntington, W. Va., representing W. Va. Univ.

WISCONSIN—1918, Elwyn Evans, Columbus Junction, Ia., representing Beloit Coll. 1919, LeRoy Burlingame, 222 No. Charter St, Madison, Wis., representing Univ of Wis.

WYOMING—1918, V Spicer, Law School, Berkeley, Cal., representing Univ of Wyo.

Frank Aydelotte, of the Massachusetts Institute of Technology, Cambridge, Mass., is the American secretary to the Rhodes Trustees.

PRINCIPAL CLUBS IN THE UNITED STATES.

THE date of organization is in parentheses, followed by the total number of members, resident and non-resident.

ATLANTA.

Atlanta Athletic, 37 Auburn Ave. (1898); 1,200; 115; Pres., Scott Hudson; Sec., J. T. North.

Capital City, Peachtree St. (1883); 866; 250; Pres., J. D. Robinson; Sec., E. R. Austin.

BALTIMORE.

Baltimore, 2 W Madison St. (1878); 428; 70; Pres., F. H. Burns; Sec., C. B. Reeves.

Maryland, 1 E. Eager St. (1858); 477; 154; Pres., H. M. Warfield; Sec. A. R. Riggs.

University, 801 N. Charles St. (1887); 361; 58; Pres. Dr. W. H. Welsh; Sec., Albert H. Buck.

BOSTON.

Algonquin, 217 Commonwealth Ave. (1886); 778; 116; Pres., F. W. Vabyan, Sec., E. D. Fullerton.

Harvard, 374 Commonwealth Ave.; 2,787; 1,621; Pres., Odin Roberts; Sec., S. N. Williams.

St. Botolph, 4 Newbury St. (1880); 452; 150; Pres., F. S. Converse; Sec., Ira Rich Kent.

Somerset, 42 Beacon St. (1852); 600; 50; Pres., Wm. Hooper; Sec., Samuel Hammond.

Tavern, 4 Boylston St. (1884); 125; 70; Pres., H. L. Higginson; Sec., Hobken Abbott.

Tennis and Racquet, 939 Boylston (1903); 500; 135; Pres., S. H. Hooper; Sec., G. D. Wells.

Union, 8 Park St. (1863); 750; 100; Pres., E. P. Saltonstall; Sec., R. D. Weston.

University, 270 Beacon St. (1891); 298; 106; Pres., J. W. Rollins; Sec., A. J. Selfridge.

BUFFALO.

Buffalo, 388 Delaware Ave. (1867); 750; 150; Pres., W. H. Daniels; Sec., A. B. Wright.

Saturn, 417 Delaware Ave. (1885); 400; 50; Pres., W. W. Smith; Sec., E. B. McKenna.

University Club, 546 Delaware Ave. (1894); 352; 121; Pres., G. D. Crafts; Sec., G. E. Anderson.

CHICAGO.

Chicago, 400 S. Michigan Ave. (1869); 850; 350; Pres., W. F. Blair; Sec., W. J. Louderback.

Union League, 69 W. Jackson St. (1879); 1,700; 550; Pres., Chas. W. Folds; Sec., Oren E. Taft.

University, 76 E. Monroe St. (1887); 2,307; 987; Pres., J. E. Otis; Sec., H. J. Dunbaugh.

CHARLESTON, S. C.

Carolina Yacht, East Bay (1889); 247; 42; Pres., R. F. Fraser; Sec., Wm. Heyward.

CINCINNATI.

Queen City, 7th & Elm Sts., s. w. c. (1874); 400; 135; Pres., Lawrence Maxwell; Sec., T. F. Wickham.

University, Broadway & 4th St. (1907); 325; 75; Pres., Charles P. Taft; Sec., S. W. Merrell.

CLEVELAND.

Union, 1211 Euclid Ave. (1872); 900; 150; Pres., C. E. Adams; Sec., W. G. Brown.

University, 3813 Euclid Ave. (1898); 576; 49; Pres., J. R. Mills; Sec., Phelps Chum.

DETROIT.

Detroit Athletic, John R. & Madison (1913); 2,500; 750; Pres., H. B. Joy; Sec., E. A. Hughes.

Detroit, Fort and Cass Sts. (1882); 750; 150; Pres., A. W. Russel; Sec., H. W. Frost.

LOS ANGELES.

California, 5th and Hill Sts. (1888); 797; 144; Pres., W. H. Davis; Sec., Hansen Meore.

Jonathan, 6th and Main Sts. (1895); 700; 200; Pres., F. B. Silverwood; Sec. J. C. Bendler.

University, 6th and Hill Sts., s. w. c. (1898); 736; 93; Pres., E. S. Williams; Sec., S. C. Lyday.

MINNEAPOLIS.

Minikahda, Minneapolis, Minn. (1898); 900; 50; Pres., E. J. Carpenter; Sec., H. C. MacKall.

Minneapolis, Minneapolis, Minn. (1883); 700; 300; Pres., B. S. Bull; Sec., C. B. Mills.

NEW ORLEANS.

Audobon, Walnut St. (1899); 485; none; Pres., W. S. Penick; Sec., F. C. Johnson.

Louisiana, 110 Carondelet St. (1874); 118; Pres., J. G. O'Kelley; Sec., Benj. Crump, Jr.

Southern Yacht, W. E., Lake Pont. (1849); 2,450; 50; Pres., Com. P. S. Benedict; Sec., W. H. Parham.

Stratford, 313 St. Charles St. (1890); 112; Pres., A. M. Pratt; Sec., H. J. S. Harris.

PHILADELPHIA.

Art, 220 S. Broad St. (1887); 699; 132; Pres., W. B. Linn; Sec., S. W. Cooper.

Penn, 720 Locust St. (1875); 152; 9; Pres., Charlemagne Tower; Sec., C. J. Cohen.

Philadelphia, 1501 Walnut St. (1834); 550; Pres., C. B. Newbold; Sec., S. W. Keith.

Princeton, 1223 Locust St. (1898); 375; 225; Pres., Malcolm Lloyd, Jr.; Sec., W. W. N. Righter.

Union League, Broad & Sansom (1862); 3,000; none; Pres., E. S. Stuart; Sec., J. W. Hamer.

University, 1510 Walnut St. (1881); 956; 215; Pres., John Cadwalader; Sec., A. H. Carver.

PITTSBURGH.

Luquesne, 325 Sixth Ave. (1881); 1,506; 590; Pres., A. L. Humphrey; Sec., C. W. Kibben.

Pittsburgh, 425 Penn. Ave. (1879); 236; 55; Pres., H. R. Rea; Sec., Hay Walker.

University, Grant Blvd., nr. 5th. (1890); 590; 140; Pres., W. M. Kennedy; Sec., G. R. Gibbons.

PORTLAND, ORE.

Irvington, 22nd and Thompson (1899); 685; 20; Pres. W. J. Hofmann; Sec., R. G. E. Cornish.

Multnomah Amateur Ath., 501 Salmon (1891); 4,725; 844; Pres., W. W. Banks; Sec., Harry Fischer.

University, 275 Sixth St. (1901); 305; 196; Pres., H. C. Campbell; Sec., Chas. A. Hart.

PROVIDENCE.

Art, 11 Thomas St. (1880); 496; 42; Pres. S. R. Burleigh; Sec. G. L. Cooke.

University, 219 Benefit St. (1899); 467; 71; Pres., J. H. Appleton; Sec., C. C. Remington.

RICHMOND.

Commonwealth, 401 W. Franklin St. (1890); 452; 143; Pres. E. G. Leigh, Jr.; Sec., L. D. Aylett.

Westmoreland, 601 E. Grace St. (1877); 500; 250; Pres. J. S. Eggleston; Sec., R. A. Lancaster.

ST. LOUIS.

Noonday, 319 N. 4th St. (1893); 475; 36; Pres. C. R. Scudder; Sec. E. L. Ray.

Raequet, 476 N. Kingshighway (1906); 354; 51; Pres., G. S. Kennerly; Sec., E. F. Williams.

St. Louis, 3663 Lindell St. (1878); 600; 200; Pres., B. F. Bush; Sec., J. E. Bishop.

ST. PAUL.

University, Summit and Ramsey (1910); 332; 340; Pres., A. W. Lindeke; Sec., P. J. Beale.

SAN FRANCISCO.

Family, 545 Powell (1902) 200; 60; Pres., J. W. Dorsey; Sec., A. W. Follansbee, Jr.

Olympic, 524 Post St. (1860); 2,520; 374; Pres. W. F. Humphrey; Sec., F. J. Foran.

SAVANNAH.

Chatham Hunt, Savannah (1906); 12, 1; Pres., F. M. Chisholm; Sec., H. D. Stevens, Jr.

SEATTLE.

College, 422 Seneca St. (1910); 367; 56; Pres., L. Howard-Smith; Sec., V. A. Kocley.

WASHINGTON, D. C.

Alibi, 1806 I St., n. w. (1884); 41; 16; Pres., Maj. Marcellus Bailey; Sec., J. F. Wilkins.

Army and Navy, Washington, D. C. (1885); 911; 4,903; Pres., Maj. Frank McIntyre; Sec., Col. C. M. Eby.

Italic dioceses are archdioceses. Archbishops, 14; bishops, 97; secular clergy, 15,052; religious clergy, 5,536; total clergy, 20,588; churches with resident priests, 10,460; missions with churches, 5,537; total churches, 15,997; seminaries, 110; seminary students, 7,865; colleges for boys, 215; academies for girls, 674; parishes with schools, 5,788; orphan asylums, 294; orphans, 46,069; homes for the aged, 116.

ROMAN CATHOLIC HIERARCHY.

AT the head of the Roman Catholic Church is the SUPREME PONTIFF, BENEDICT XV., Giacomo della Chiesa, born at Genoa, Italy, November 21, 1854; made Archbishop of Bologna, December 18, 1907; Cardinal May 25, 1914; elected Pope, as successor of Pius X., September 3, 1914, crowned September 6, 1914. The Pontiff is, in orders, a Bishop. His ecclesiastical title is: His Holiness, the Pope; Bishop of Rome and Vicar of Jesus Christ; Successor of St. Peter, Prince of the Apostles; Supreme Pontiff of the Universal Church; Patriarch of the West; Primate of Italy; Archbishop and Metropolitan of the Roman Province; Sovereign of the Temporal Dominions of the Holy Roman Church.

THE COLLEGE OF CARDINALS.

NOTE—The College of Cardinals, when complete, is made up of 70 members, of whom 6 are Cardinal Bishops, 50 are Cardinal-Priests, and 14 are Cardinal-Deacons. The College is the Senate of the Roman Church. They advise the Pope and elect his successor. The Cardinal-Bishops take their titles from the Suburbau Sees of Rome: Porto and Santa Rufina, Albano, Palestrina, Sabina, Frascati, and Velletri.

NAME.	Office or Dignity.	Nationality	Year of Birth.	Year of Creation
Cardinal-Bishops:—				
Vincenzo Vannutelli	Bishop of Palestrina, Arch-priest of Patr. Liberian Basilica, Datary of The Pope	Italian	1836	1889

The chapters column does not cover branches and auxiliaries. In addition to above, 2,320,636 articles valued at $2,100,925, were produced and not recorded by divisions. The entire total includes—Surgical dressings, 306,966,759 ($14,637,909); hospital garments, 17,462,400 ($22,969,585); hospital supplies, 14,211,439 ($5,966,854); refugee garments, 6,328,982 ($7,779,056); articles for soldiers and sailors, 23,328,831 ($41,858,275); unclassed articles, 3,279,053 ($766,316). The nurses column does not include 4,960 who enrolled prior to January 1, 1918. Paid workers, 12,704; volunteers, 1,921.

NATIONAL WAR WORK COUNCIL OF THE YOUNG MEN'S CHRISTIAN ASSOCIATIONS OF THE UNITED STATES.

(Prepared for THE ALMANAC by the Organization.)

THE National War Work Council of the Young Men's Christian Associations of the United States was organized April 28, 1917, at the recommendation of the International Committee, following the tendering of its services on the day the United States entered the war and acceptance by President Wilson in a special executive order to the Army and Navy Departments. Present budgets of the National War Work Council provide for its active continuance until January 1, 1920. As soon thereafter as its emergency work is virtually completed, this phase of association activity will be returned to administration by the International Committee.

General offices 347 Madison Avenue, New York City. Officers: *Chairman*—William Sloane. *Vice-Chairman*—William Fellowes Morgan. *Treasurer*—Cleveland H. Dodge. *General Secretary*—John R. Mott. *Associate General Secretaries*—F. S. Brockman, J. S. Tichenor, C. R. Towson, and O. V. Hibbard.

Receipts and Expenditures—Financial report made to the War Department, April 26, 1917, to April 1, 1919, shows $125,282,859 54 received through contributions and interest, including the three Y. M. C. A. war work fund campaigns. Expenditures, totaling $97,817,005 50, follow:

In the United States..	$30,187,108 83	National Headquarters expenses, including campaigns and recruiting...	$6,221,304.31
With the A. E. F.	46,999,415.91		
With Allied armies and war prisoners..	14,409,175.95		

In the budget for the period, October 1, 1918, to January 1, 1920, approved by the War and Navy Departments, the National War Work Council reported the following planned expenditures totaling $119,342,042:

In the United States	$23,274,042.00	With the Allied armies and war prisoners	$20,365,000.00
In insular possessions	565,000.00	Contingent fund	2,406,000.00
With the A. E. F.	67,732,000 00		

Activities Overseas—Speaking of the various war welfare work organizations Secretary of War Baker said on May 16, 1919: "The Y. M. C. A., by reason of its longer establishment, its larger experience and its larger facilities, had the greater part of this work to do, especially abroad. It was an integral part of the army." Gen. Pershing said: "It has been a large aid in the accomplishments of the American army;" and its vast organization overseas is to some degree indicated from the following facts: Operated 3,356 huts, 1,800 for the A. E. F. alone; sent overseas more than 12,000 secretaries, including 2,500 women workers; operated the army post exchanges or canteens at the request of Gen. Pershing, at a loss of $2,432,689.70; free canteen service to March 31, 1919, totaled $1,794,771; organized and turned over to the army after the armistice its $3,000,000 A. E. F. university system now adopted permanently by the army; organized and conducted the "Inter-Allied Championships," in co-partnership with the A. E. F., constructing the Pershing Stadium near Paris for that purpose, and supplied free athletic equipment valued at over $2,500,000; conducted 33 army leave areas; showed over 56,000,000 feet of moving picture film monthly at 9,354 free showings; sent overseas 609 of America's best theatrical talent, giving more than 100 free entertainments daily; sent overseas more than 700 of America's leading preachers and distributed free over 5,000,000 testaments; remittance bureau sent home free $20,104,080.01 in money orders for the A. E. F.; and distributed free writing paper and newspapers costing over $2,500,000.

The American Young Men's Christian Association maintained similar service for the French army through the Foyer du Soldat, for the Italian army through the Casa del Soldato, and for the loyal Russian, Portuguese, Czecho-Slovak, Polish, Japanese, Chinese, Greek, and Siamese armies. The Y. M. C. A. served the American and Allied prisoners all over the world. It gave service to the American and French navies. In spite of the fact that welfare workers were non-combatants, 10 Y. M. C. A. workers, two of them women, were killed by shell-fire or gas, 133 were wounded, 104 were decorated for bravery, and 214 others were officially cited in army orders.

Activities: Home—In 874 specially constructed buildings at army and navy training stations, camps and cantonments, the Y. M. C. A. carried on its service programme in the United States and insular possessions. Construction and equipment cost $7,887,633 36 to March 1, 1919. Its operating expenses to that date totaled $20,225,947.96. It will continue its service at home until demobilization is complete, and plans to resume its regular work for soldiers, sailors and marines, which was inaugurated at the time of the Spanish-American War and largely increased during mobilization on the Mexican border.

INTERNAT. COMMITTEE, YOUNG MEN S CHRISTIAN ASSOCIATIONS OF NORTH AMERICA.

(Revised to November 1, 1919.)

General Offices, 347 Madison Avenue, New York City. Officers: *Chairman*—Alfred E. Marling. *Vice-Chairman*—William Sloane, James W. Speers, William D. Murray, Abner Kingman, Lucian C Warner. *Treasurer*—B. H. Fancher. *General Secretary*—John R. Mott *Associate General Secretaries*—Fletcher S. Brockman, E. T. Colton, C. K. Calhoun, E C. Jenkins. *Consulting General Secretary*—Richard C. Morse. The International Committee, incorporated April 16, 1883, is now composed of 115 representative business men scattered throughout North America. It is the agent of the International Convention of Young Men's Christian Associations, charged with encouraging, promoting and supervising welfare work among men and boys. During 1919, for the purpose of rendering largest helpful co-operation with State and local associations, the United States was divided into five territorial or regional divisions, as follows:

Eastern, Central, Southern, Western, and Pacific

HOME WORK.

Organization—The home work of the International Committee is divided into 11 departments: City, county, student, railroad, army and navy, colored, industrial, boys', physical, educational and religious; and six bureaus: Business, building, secretarial, records, association press and association men. The foreign work is under the direction of its own department. The European war and rehabilitation work comes under the immediate supervision of the executive committee, and the National War Work Council. Under the general supervision of the International Committee there are 2,077 Young Men's Christian Associations, with 5,076 paid officers, 72,779 directors and volunteer committeemen, and 739,438 members, or an increase of approximately 20,000 members since the United States entered the World War; and 165,442 members were in army or navy service in 1919. Of the total membership 181,656 are boys.

Property and Funds—Total net property and funds paid in is $107,830,387, or 6.25 per cent of the total property of all religious bodies in the United States. Contributions toward current expenses for the past year totaled $6,021,400; and total current operating expenses, local and supervisory, were $29,537,200; an increase of 19.2 per cent. over the preceding year. These financial data do not include war work figures.

Activities—Service of the association includes many activities, among the more important of which are: Social, there having been 61,771 socials and entertainments; employment, situations were secured for 82,311 men, an increase of 9.2 per cent. over the previous year; physical, 269,721 men and boys having been under trained directors in regular gymnasium classes; educational, in which 86,734 members pursued courses of study, largely in evening and vocational classes; Bible study, 129,638 men and boys having been in organized classes; 37,825 decisions for the Christian life were recorded, and 5,397 are known to have united with the church of their choice as a direct result of association effort.

NATIONAL WAR WORK COUNCIL OF THE YOUNG MEN'S CHRISTIAN ASSOCIATIONS OF THE UNITED STATES—*Continued.*

FOREIGN WORK.

Foreign work of the International Committee, projected in the mission fields following the Cleveland International Convention of 1881, required a budget of $1,289,218.18 in 1919. The appointment of the World Commission of the North American Associations, a commission of one hundred members representing all parts of the United States and Canada, authorized in 1919, is under way for the purpose of promoting the world-wide programme of the association. In Japan, in China, in India, in the Turkish Empire, and in South America, national and international organizations have been formed to direct the association movement. These associations have abroad over 600 employed secretaries, 184 of whom are maintained by the International Committee. The first foreign association was organized at Tungchow College, China, in 1885, and the permanent work has spread in 1919 to 19 countries under foreign department direction (not including war work of the National War Work Council in 44 countries, nor foreign work of the British National Council.) Permanent association work in any country is undertaken only in response to the call of the missionaries of that country.

YOUNG MEN'S CHRISTIAN ASSOCIATION OF THE CITY OF NEW YORK.

General office, 2 West 45th Street, Room 1,402, New York City. Officers: *President*—William M. Kingsley. *Treasurer*—John Sloane. *General Secretary*—Walter T. Black. *Comptroller*—Henry M. Orne. The association maintains work for men and boys at 46 points: 24 general activities, 12 student, 5 railroad, and 5 army.

Branches of the Association: 1. Twenty-third Street, 215 West 23d Street. 2. West Side, 318 West 57th Street. 3. Harlem, 5 West 125th Street. 4. East Side, 153 East 86th Street. 5. Institute, 222 Bowery, near Prince Street. 6. Washington Heights, 531 West 155th Street, near Broadway. 7. Bronx Union, 470 East 161st Street, corner Washington Avenue. 8. Intercollegiate, 2929 Broadway, 129 Lexington Avenue, etc. 9. French, 109 West 54th Street. 10. Army, Forts Jay, Wadsworth, Wood, Slocum, and Schuyler, office, 2 West 45th Street. 11. West 135th Street (for colored men), 181 West 135th Street, and 252 West 53d Street. 12. Bowery, 8 East Third Street, near the Bowery. 13. Railroad, New York Central and New Haven lines, 309 Park Avenue, corner 49th Street, West 72d Street and North River, Mott Haven, 355 East 150th Street, and New Durham, N. J., Railroad Men's Building. 14. Railroad, Pennsylvania Railroad, Eighth Avenue and 32d Street.

College associations affiliated with the Intercollegiate Branch: Club Houses—129 Lexington Avenue and 346 West 57th Street; for Chinese, 558 West 113th Street; for Japanese, 633 West 115th Street; office, 2929 Broadway. 1. College of the City of New York. 2 College of Physicians and Surgeons. 3. Columbia University. 4. Cornell University Medical College. 5 New York University. 6. Union Theological Seminary. 7. University and Bellevue Hospital Medical College.

The membership is 26,224, including 3,303 boys. There are 803 employes, including 186 paid teachers. There are 12,066 gymnasium members, and 5,639 physical examinations were given, 3,335 members served on committees, 10,635 students in evening educational classes, 209,182 books drawn from libraries, lodgings furnished to 729,909, 2,244,692 meals supplied, 9,084 situations secured, 5,115 religious meetings attended by 884,032, sleeping accommodations for 2,436 men, and men directed to rooms outside of buildings, 15,110. Three months' free membership privileges offered to all soldiers, sailors, and marines. The net expenses for the year 1918 were $1,086,718.

STATE EXECUTIVE COMMITTEE, Y. M. C. A.

The State Executive Committee of the Young Men's Christian Associations of the State of New York has its general office at 2 West 45th Street, Room 1001, New York City. *Chairman*—William M. Kingsley. *Treasurer*—Samuel Woolverton. *State Secretaries*—Frank W. Pearsall and Fred. I. Eldridge. This committee was incorporated under the laws of New York, April 14, 1886, having for its object "the establishing and assisting Young Men's Christian Associations, and generally to provide for the spiritual, intellectual, physical and social well-being of young men in accordance with the aims and methods of Young Men's Christian Associations of the State of New York." Besides these activities the State Committee owns and operates Camp Dudley at Westport-on-Lake-Champlain, as a Summer camp for boys. The membership in the State is 79,145, divided as follows: General, 62,862, of which 15,949 are boys; railroad, 12,180; student, 1,424; county and small town, 1,839; colored, 840 Property holdings and funds paid in amount to $15,287,301. A triennial meeting of the State association, comprising the 161 associations in the State, is held in February.

KNIGHTS OF COLUMBUS WAR ACTIVITIES.

(Compiled by the Supreme Board of Directors)

Expended in war relief work, June 30, 1918, to June 30, 1919.	$16,794,552
Expended on work in the United States	5,468,061
Spent on work overseas	9,550,083
Paid out for free creature comforts	7,000,000
Expenses of administration, collection, and distribution	166,617

The $5,468,060.79 expended for activities in the United States is apportioned among the following subdivisions: Building programme, including new construction and additions, rentals, operation and maintenance and equipment, $1,203,022.85. The Knights had 178 buildings and 14 tents in the Eastern-Northeastern Department, 89 buildings and 5 tents in the Southeastern Department, 152 buildings and 7 tents in the Central-Southern Department and 42 buildings and 6 tents in the Western Department, making a total of 461 buildings and 32 tents Eleven buildings were being constructed, at permanent army posts, on June 30, 1919.

Personnel expense, including salaries, travelling expenses, uniforms and other personal equipment, but excluding headquarters staff, cost the Knights $1,046,860 11 for a total personnel of 1,134 Activities or service programme, including athletics and sports, motion pictures and other entertainments, educational, social and employment service, cost $745,659.00. Motor transport service cost $170,244.01 On supplies, for free distribution, including stationery, periodicals, tobacco, food and candy and miscellaneous supplies such as soap, shaving materials, etc., the Knights spent $1,063,368.63. Freight and insurance cost the Knights $92,411.53, and general administration $138,058.18; this item covered salaries and expenses of headquarters staff, publicity, and rents and office supplies and incidental expense. Other disbursements, including funds at offices of department directors and camps and hospitals to meet the hourly needs of operations, amounted to $908,616.48.

For their overseas work the Knights, in the year ending June 30, spent $9,550,082.62. Of this amount $50,294.41 was spent on building and equipment; $623,700.01 on personnel expense; $438,438.19 on athletics, social and moving picture entertainments, etc.; $110,032 83 for motor transport service; $4,562,982.06 for supplies for free distribution; $166,933.31 for freight and insurance; $89,253.51 for general administration, and $3,508,448.30 for disbursements to overseas commissioners for expenditure overseas on operations. Overseas the Knights maintained 125 huts and clubs of substantial size, while other more or less ephemeral clubs were equipped and maintained to bring the total number of K-C points of contact with the troops

KNIGHTS OF COLUMBUS WAR ACTIVITIES—*Continued.*

to 250. Of these clubs, 32 were in Germany, 4 in Italy and 9 in the British Isles, and 1 in Antwerp. In Siberia the K. of C. had several secretaries. The Knights recently opened clubs in Panama, Hawaii, Alaska, and clubs have been operated in Cuba and Porto Rico and large quantities of goods shipped to Hayti. All this latter work is now included in the domestic department. The Knights sent 1,075 workers overseas out of a total number of 7,414 applicants. New York State led with 292, Massachusetts supplied 116, Illinois 93, Pennsylvania 61, Connecticut 49, Indiana 38. Every State in the Union was represented in the overseas ranks of the K. of C.

The total amount expended by the Knights on free creature comforts during the year was within a few dollars of $7,000,000, an amount greater than that spent for a similar purpose by all the other organizations participating in the United War Drive Fund combined. This includes the comforts distributed on transports by the 108 K. of C. secretaries engaged in transport work. This sum represents goods purchased in this country. Overseas the Knights purchased vast quantities of supplies for free distribution. Items included in the list are 900,000,000 beef cubes, 618,000,000 cigarettes, 3,750,000 pipes, 546,851 pounds of pipe tobacco, 3,000,000 pounds of candy.

For collection, care and general administration of their funds the Knights spent $166,616.76—2.63 per cent. of entire disbursements, a sum exceeded by the total discounts accruing from prompt payment of merchandise bills. The money expended during the year by the Knights from their pre-drive fund, distinct from the United Fund, was distributed through the different avenues of expenditure in a proportion generally relative to their disbursements of money received on their quota in the United Fund. The Knights state that they will continue, without charge, their work for the temporal and spiritual welfare of all men in the Nation's service.

THE SALVATION ARMY'S WAR ACTIVITIES.

(Prepared for THE ALMANAC by the National Headquarters Staff, 122 West 14th Street, New York.)

THE work of the Salvation Army with the American Expeditionary Forces won the encomiums of private and General alike. The lads and lassies with the apple pies and doughnuts, no less than spiritual ministrations, came very close to the heart of the American doughboy. The Salvationists are a mobile force. The Army keeps its people fit for service. When the war began it was ready. A telegram from Commander Evangeline Booth was despatched to President Wilson, placing at his disposal the services of the Salvation Army in any capacity. This offer was acknowledged and acceptance assured. Organization proceeded.

A National War Board was created, with headquarters in New York, and a supplementary war board at Chicago. Following this came the organization of the War Service League, with its knitting and sewing circles. Large quantities of sweaters, helmets, hose, comfort kits, etc., were produced, being largely distributed through the Red Cross. The loss of life amongst the American forces was anticipated. Condolence cards were prepared and mailed to relations and friends. Then the Salvation Army turned its attention to the camps and cantonments on home soil. Huts and hostels were erected adjacent to these. Canteens were established. Paper, envelopes, postals, pens, and ink were available. Libraries were established with the co-operation of the American Library Association. Huts and hostels and other war service institutions were to be found at the debarkation points, where Salvationists met the transports regularly. Good hotel accommodations were provided. Workers distributed chocolate bars, oranges, doughnuts, postal cards, etc. A special form of service was the sending free of telegrams to relatives and friends of the home-coming soldiers. These amounted to thousands every day. These forms of service included visitations by Salvation Army women to the base hospitals, and the supplying of civilian clothing to demobilized men to the value of many thousands of dollars. The United States Navy men and marines were served on the same basis as the soldiers. Clubs were established for the former in such cities as Brooklyn, Norfolk, Newport News, Charleston, and Boston. The Salvation Army joined hands with other welfare agencies in welcoming the fleet to New York. Sightseeing automobiles were supplied.

The work overseas, under the leadership of Lieut. Col. W. S. Barker, was eulogized by the American Expeditionary Forces, headed by Gen. Pershing. The Salvation Army women were as fully trained for this work as were the men. When the United States forces moved to the battle zones the Salvation Army women moved with them, constantly under fire and in danger of being gassed. The story of the apple pies and doughnuts has been widely told. The co-operation of the military authorities often supplied the necessary field range, and a captured German kitchen more than once provided the required larder. The space allotment in transports allowed the Salvation Army to send across supplies to the extent of 500 tons a month. As much as 120 tons of flour was shipped in a month—this in addition to the supplies purchased in Paris. In nine months nearly 600 tons of chocolate bars went across. A banking department was established. Thousands of dollars of soldiers' money were remitted to relatives at home without charge. Graves have been decorated and services held by Salvationists on Decoration Day. Many inquiries for missing men were received and investigation instituted, frequently with satisfactory results. A number of ambulances were supplied by the Salvation Army and accepted by the Government. After demobilization the Salvation Army's free employment agencies in various cities did a large work in placing demobilized soldiers.

National War Board of the Salvation Army: Commander Evangeline C. Booth, *President;* Commissioner Thomas Estill, *Vice-President;* Col. William Peart, *Chairman;* Col. Wm. S. Reinhardsen, *Secretary and Treasurer;* Col. E. J. Parker, *War Service Secretary,* Col. Alex. M. Damon, Lieut. Col. W. F. Jenkins, Lieut. Col. Thos. Stanyon, Brig. Chas. Welte. (West) Commissioner Thomas Estill, *Chairman;* Col. S. Gauntlett, Lieut. Col. A. T. Brewer, Lieut. Col. John T. Fynn, Brig. W. J. Dart, Brig. F. Agnew.

General Staff in France: Lieut. Col. W. S. Barker, *Director of Salvation Army Work with the American Expeditionary Forces;* Brig. W. O. Hunter, *General Secretary;* Staff Capt. W. S. Hammond, *Accountant;* Ensign M. Benson, *Purchasing Agent;* Brig. J. Atkins, *Acting Chaplain,* Ensign Ethel Renton, *Secretary.* Zone Majors: Brig. W. Bourne, Brig. E. White, Brig. Geo. Anderson, Brig. M. Pickering, Major Horace Dodd, Major A. S. Norris, Major E. Quirk, Staff Capt. W. Halpin, Staff Capt. W. Turner, Adjt. Guy Case, Ensign C. Hickey.

INTERNATIONAL STATISTICS.

FARM LOAN DIRECTORY.

Location: Treasury Department, Washington, D. C. Members of Board—Carter Glass, Secretary of the Treasury and Chairman Ex-Officio; George W. Norris, Farm Loan Commissioner; Asbury F. Lever, W. S. A. Smith and Charles E. Lobdell; Secretary, W. W. Flannagan.

THE FEDERAL LAND BANKS.

District No. 1.—Springfield, Mass., serving Maine, Mass., Vt., N. Hamp., Rhode Island, Conn., New Jersey, and New York

District No. 2.—Baltimore, Md., serving Penn., W. Virginia, Maryland, Delaware, Virginia, and D. of C.

District No. 3—Columbia, S C, serving N. C., S. C., Ga., and Fla.

District No. 4.—Louisville, Ky., serving Ind., O., Ky., and Tenn.

District No. 5—New Orleans, La, serving La., Miss., and Ala.

District No. 6—St. Louis, Mo. serving Ill., Mo., and Ark.

District No. 7.—St. Paul, Minn., serving N. Dak. Minn., Wis., and Mich.

District No. 8—Omaha, Nebr., serving Wyo., Nebr., S. Dak., and Iowa.

District No. 9.—Wichita, Kans., serving New Mexico, Kans., Colo., and Okla.

District No. 10.—Houston, Tex., serving Texas.

District No. 11.—Berkeley, Calif serving Calif., Nev., Utah, and Ariz.

District No 12.—Spokane, Wash., serving Idaho, Wash, Mont., and Oreg.

These banks are engaged in lending money to farmers on first mortgages on farm lands at a rate of 5½ per cent. The mortgages are repayable on the amortization or installment plan through periods ranging from 5 to 40 years. Loans may be made up to 50 per cent of the appraised value of the land plus 20 per cent of the value of the permanent insurable improvements for approved agricultural purposes.

In the year ending July 31, 1919, the Federal Land Banks made 94,815 loans totalling $244,653,871. The largest loans were in the Omaha, St. Paul, Spokane, Wichita, Houston and St. Louis districts. On the date named above, the banks held $59,584,581 in U. S. Government bonds and securities. Their capital stock was $20,565,185 and were authorized to issue $286,000,000 in Farm Loan bonds. Net earnings were $719,551. There are Joint Stock Land Banks at Sioux City, Ia.; Charleston, W. Va.; Indianapolis, Chicago, Salina, Kan.; Memphis, Tenn; Lincoln, Nebr.; Milwaukee, Ft. Wayne, Ind.; Minneapolis, Monticello, Ill.; Helena, Mont.; Fremont, Nebr.; Des Moines, Houston, Omaha, Norfolk, Redwood Falls, Minn.; Dallas, Tex.; Richmond, and Wichita, Kan. In the year named they loaned $34,145,217; held $5,738,570 in U. S. Government securities; had $6,397,300 of capital stock, and were authorized to issue $35,555,000 in Farm Loan bonds.

Figures for 1916, 1917, and 1918 are from Bradstreet's. New York means Manhattan and Bronx, and the figures do not include alterations.

Building contracts awarded during the first half of 1919 in that portion of the United States east of the Mississippi River and north of the Ohio River totalled $989,904,000, according to statistics compiled by the F. W. Dodge Company. This indicates an increase of 23% over the similar periods of the five years preceding.

In the New York and Northern New Jersey District, of the total amount of building started from January 1, 1919, to June 1, 1919, 43% was residential, and 13½% industrial. In Manhattan, there has been a great amount of changing of old houses and stores into modern apartments. In the suburban districts around New York City, the building of small houses has developed to large proportions. Contracts awarded in full calendar years in the district east of the Mississippi River and north of the Ohio River were valued in dollars as follows:—1918, 1,689,242,000; 1917, 1,618,157,000; 1916, 1,356,939,397; 1915, 940,089,334.

The biggest fire in 1918 amounted to a loss of $25,000,000, at the Gillespie munition plant at Morgan, N. J., near Perth Amboy, in October.

RECORD OF NEW INCORPORATIONS.

Following are the comparative figures as specially compiled by The Journal of Commerce and Commercial Bulletin of companies incorporated in the Eastern States during the last three years with an authorized capital of $1,000,000 or more:

	1918	1917.	1916.		1918.	1917.	1916.
Jan	$209,285,000	$244,450,000	$270,995,000	Aug	$77,975,000	$382,100,000	$113,472,000
Feb	120,650,000	283,815,000	365,995,300	Sept	132,925,000	202,500,000	164,700,000
Mar	128,620,000	281,000,000	194,750,000	Oct	57,665,000	308,513,700	303,768,700
Apr	169,375,000	361,510,000	166,650,000	Nov	94,260,000	285,590,000	260,407,800
May	213,372,000	388,481,000	209,735,000	Dec	68,200,000	186,350,000	230,850,000
June	144,400,000	352,584,000	264,350,000				
July	90,725,000	416,350,000	217,662,500	Total	$1,507,452,000	$3,693,243,700	$2,669,246,300

STANDARD OIL EARNINGS AND DIVIDENDS.

Year (Calendar.)	Earn'gs Before Deducting Fed. Taxes	Federal Taxes Paid and Accrued.	Earnings After Deducting Fed. Taxes.	Dividends Paid.
1912	$35,397,717.37	$289,830.33	$35,107,887.04	$19,667,660 00
1913	46,168,955 06	477,085.57	45,691,869.49	59,002,980 00
1914	31,798,849 62	341,215 45	31,457,634.17	19,667,660 00
1915	61,396,922.73	619,679.39	60,777,243.34	19,667,660 00
1916	72,426,692.36	1,634,633.19	70,792,059.17	19,667,660 00
1917	105,785,858 91	25,019,916.97	80,765,941.94	19,667,660 00
1918	101,614,143.84	44,330,359.15	57,283,784.69	19,667,660.00

Under "Dividends Paid" for 1913 is included distribution of $40 per share from repayments by former subsidiaries of cash previously advanced by this company 1918 taxes subject to adjustment.

CIVIL WAR AND WORLD WAR PRICES COMPARED.

(By the War Industries Board.)

The movement of prices in the two great wars is strikingly similar on the whole. The chief differences in movement are the following: (*a*) The rise began earlier in the Civil War. The median rose from 96 to 100 in the first six months of the Civil War, while in the later case the median did not change from its pre-war level until the end of a year of hostilities. (*b*) The rise was more extreme in the Civil War. The highest point touched was 216 in January, 1865. This is 49 points higher than the median on the corresponding date in the present war (177 in January, 1918). (*c*) The fall began earlier in the Civil War. A drop of 26 points had occurred when Lee surrendered in April, 1865. The German surrender came in the Autumn of the corresponding year and was not preceded, so far as we know, by a decline of prices.

BUSINESS FAILURES IN UNITED STATES, JAN.-JUNE, 1919.

The following data, taken from R. G. Dun & Co's. Review, cover the first half of 1919.

FARMERS' MUTUAL FIRE INSURANCE COMPANIES.

Nearly 2,000 farmers' mutual fire insurance companies in the United States in 1918 had a total of $6,000,000,000 of insurance in force. These companies are organized in all States except Florida, Louisiana, New Mexico, Arizona, and Nevada, more than four-fifths of them being located in the Middle Atlantic and North Central States. Of the 1,161 companies replying to questionnaires, 124 were incorporated by special acts of Congress, while 967 were incorporated under general statute and 21 existed as voluntary associations without incorporation. The smallest membership of any company was 25 and the largest was 32,438, the average membership being 1,532. Nearly four-fifths of the 1,161 companies reporting on membership were organizations of less than 2,000 members. The prevailing plan is to allow each member one vote, regardless of the amount of insurance or number of policies held. More than four-fifths of the companies follow this plan. The average, as well as the most common, number of directors for the companies reporting was nine, the favorite term for directors being either one or three years. In a number of laws more recently enacted it is specifically prescribed that the term of a director shall be three years, and that one-third of the number shall be elected each year.

Thirty-three companies insured against fire only, 958 against fire and lightning, and 170 gave combined protection covering fire, lightning, and windstorms.

EARLY AMERICAN LIFE INSURANCE COMPANIES.

The first life-assurance society in England in 1698 and the first in the United States in 1759 were both designed for the relief of the widows and orphans of deceased clergymen. The former was called The Mercers' Company, for the Benefit of the Widows of Clergymen and Others, and for Settling of Jointures and Annuities; and the latter, The Corporation for the Relief of Poor and Distressed Presbyterian Ministers, and of the Poor and Distressed Widows and Children of Presbyterian Ministers, under a charter from the Proprietary Government of Pennsylvania, in Philadelphia. Another society was chartered by Pennsylvania, February 7, 1769, under the name of The Corporation for the Relief of the Widows and Children of Clergymen of the Church of England in America. In 1812 The Pennsylvania Company for Insurance Upon Lives and Granting Annuities was organized in Philadelphia under a charter from the Legislature, with a capital of $500,000. It issued its first policy in 1813. The third company established was the Massachusetts Hospital Life Insurance Company of Boston, incorporated by the Legislature in 1818. The next was The New York Life Insurance and Trust Company, incorporated by the Legislature April 1, 1830, with a capital of $1,000,000. The Girard Life Insurance Company of Philadelphia was incorporated in 1836.

Sugar, Cuba, good.....	.06¼	.08¼	.10	.12	.19	.13	.10	.11⅞
Wool, fleece.....	.30	.50	.60	.75	.95	.75	.65	.60

There were still further fractional advances in July and August in prices, a high point, or peak, being reached in wholesale prices about August 1. On October 1, wholesale food prices were about 7 per cent. less than on August 1, and the whole list of articles of use, including food, was about 2 per cent. below August 1. Then began another upward move, due, it was alleged by some, to the steel and soft coal and other strikes, which lessened production

COMPARATIVE WHOLESALE PRICES OF COMMODITIES.

THE following data from "Bradstreet's Journal" show ruling prices on November 1, for commodities.

COMMODITIES	1914.	1915.	1916.	1917.	1918.	1919.
FOODSTUFFS, ETC.

The 1919 figures are as of August 1, when a peak in wholesale prices was reached.

The increase in cost of living in June, 1919, over July, 1914, was 75 per cent., and advanced to 80 per cent. in many foods on August 1, 1919.

BUILDING AND LOAN ASSOCIATIONS.

(By H. F. Cellarius, Cincinnati, O., Secretary United States League of Local Building and Loan Associations.)

THE following statistical table shows, by States, the number of associations, total membership, and total assets for States in which accurate statistics are compiled by State Supervisors. The data for other States are consolidated under "Other States," and the figures given are estimated. 1918-1919:

	STATES.	No. of Associat'ns	Total Membership.	Total Assets.		STATES.	No. of Associat'ns	Total Membership.	Total Assets.
1	Ohio	723	842,754	$359,559,538	23	West Virginia	52	23,530	$8,890,789
2	Pennsylvania	2,124	725,000	355,000,000	24	Minnesota	64	21,800	8,890,021
3	New Jersey	792	348,805	169,308,867	25	Colorado	38	15,483	7,823,972
4	Massachusetts	186	247,224	140,201,034	26	Maine	38	15,057	7,251,168

U. S. INCOME TAX REGULATIONS.

Regulations 45, relating to Income Tax and War Profits and Excess Profits Tax under the Revenue Act of 1918, approved April 17, 1919, contain the following provisions of interest to building associations:

Art. 54. Examples of Constructive Receipt—An amount credited to shareholders of a building and loan association, when such credit passes without restriction to the shareholder, has a taxable status as income for the year of the credit. Where the amount of such accumulations does not become available to the shareholder until the maturity of a share, the amount of any share in excess of the aggregate amount paid in by the shareholder is income for the year of the maturity of the share.

Art. 515. Building and Loan Associations—A building and loan association entitled to exemption is one organized pursuant to the laws of the United States or of some territory thereof, which accumulates funds to be loaned to its members and to be repaid in small periodical instalments. The statute requires that the members of the association shall share in its profits on substantially the same footing. Subject to this requirement, it does not prevent exemption that the association issued prepaid stock entitled to a specific percentage of profits. Where, however, the association issues paid-up stock, the holders of which are entitled to a fixed dividend and also to a share in the profits with all the other holders of stock, it is not exempt.

Regulations 55. Stamp taxes on documents, approved June 11, 1919, contain the following applicable to building and loan associations:

Art. 80. Deeds of Building and Loan Associations—Deeds of building and loan associations conveying realty are taxable.

Art. 90. Deed to Building and Loan Association—A deed transferring title to property to a building and loan association for the purpose of securing a loan on the property so conveyed, which property is immediately reconveyed to its owner, is not subject to tax, the deed of reconveyance being likewise exempt.

Art. 124. Proxies to Vote Stock of Building and Loan Associations—Proxies for the purpose of voting the stock of building and loan associations are taxable.

N. Y. STATE WORKMEN'S COMPENSATION INSURANCE FUND.

(Its condition, as of January 1, 1918, and 1919.)

NATIONAL WEALTH.

ESTIMATES of National wealth depend upon the theory behind the estimate. They vary considerably for that reason. In some countries, where the income of the nation is the basis of calculation, it is multiplied sometimes by 5, sometimes by as much as 7, to produce a total expressive of national wealth. Most countries found their calculation on the total valuation of all forms of property without regard to income therefrom. This is the custom in the United States. In Germany, France, and other European countries, foreign investments by the inhabitants are included in the total of property valuations. The argument against basing estimates of National wealth on income is that when crops, for example, are scarce, they rise in price out of proportion to their scarcity and give, for that and other fundamental reasons, a false notion of actual permanent national wealth In 1900, 1904, and 1912 the Census Bureau at Washington estimated the national wealth of the United States on the following basis:

FORM OF WEALTH.	1904.	1912.	FORM OF WEALTH.	1904	1912.
	Dollars.	*Dollars.*		*Dollars.*	*Dollars.*

Including live stock on farms and ranges and in cities and towns.

United States National wealth in previous years: (1850), $7,135,780,000; (1860), $16,159,616,000; (1870), $30,068,518,000; (1880), $43,642,000,000; (1890), $65,037,091,000; (1895), $77,[illegible]00,000; (1900), $88,517,306,775.

An unofficial estimate of the National wealth of the United States, as of December 31, 1917, was $220,000,000,000.

There has been no official Census appraisal of United States National wealth since 1912, but the Department of Commerce's estimate for 1916 was $228,000,000,000. In 1918 the Research Division of the Bureau of Foreign and Domestic Commerce, of the Department of Commerce, made the following statement:

UNITED STATES.

POPULATION.		NAT'L WEALTH.		PUBLIC DEBT.		GOVERNMENT FINANCE.			
Year.	Number	Year	Dollars	Date.	Amount	Year.	Revenue	Expend'ure.	D'bt chgs.

NOTES: United States—Estimates of the national wealth are by the United States Bureau of the Census. No estimate of income has been made. Figure of debt for June 30, 1917, includes $85,000,000 of loans to the Allies; the figure for November 30, 1917, includes $3,164,129,750 of such loans The revenue includes $2,428,017,800 raised by borrowing; expenditure includes $677,544,782 of redemptions of public debt and $885,000,000 of loans to Allies. Debt charges represent interest on public debt

France—Census figures of population are given for 1911, and an official estimate for 1913; later estimates not available The two estimates of wealth are unofficial. The first is by A de Lavergne et Paul Henry, in *La Richesse de la France*, Paris, 1908, who estimated the wealth of France at 225,000,000,000 francs, and the national income at 22,500,000,000 to 27,500,000,000 francs. The figure of income here given is a mean of the two amounts. The other estimate of wealth is quoted from an Argentine publication (287,000,000,000 francs). The figure of debt for May 31, 1917, is an estimate by the *Economiste European* of September 7, 1917. The expenditure for 1916 is "authorized expenditure." The figures for 1917 are given as cabled here on February 18, 1918; official figures are not available. The data of revenue, expenditure, and debt charges for 1918 are budget figures, the expenditure representing civil expenditure only, as the war expenditure cannot be forecasted. The franc has been converted at the rate of 19.3 cents. The deficit in revenues for 1918 is to be made good by new taxation and increase of existing rates.

United Kingdom—The national or capital wealth of the British Empire was estimated officially, in 1917, in Parliament, by a Crown Minister, at $130,000,000,000, divided as follows: United Kingdom, $80,000,000,000; Canada, $10,000,000,000; Australia, $6,000,000,000; New Zealand, $1,500,000,000; South Africa, $3,000,000,000; India and Ceylon, $18,000,000,000; Crown colonies and protectorates, including Egypt, $8,000,000,000. The national annual income of the Empire was estimated in Parliament at $17,500,000,000, of which $10,500,000,000 was allotted to the United Kingdom, and $3,000,000,000 to India and Ceylon.

National wealth of other nations—Argentina (1916), $13,865,000,000; Denmark (1906), $2,000,000,000; Germany (1908), $83,000,000,000; Russia in Europe, $60,000,000,000; Italy, $20,000,000,000; Belgium, Serbia, Roumania, $15,000,000,000; Austria-Hungary, $55,000,000,000; Turkey, Bulgaria, $4,000,000,000. The figures for Russia and countries following that in the list were compiled by Prof. E. L. Bogart for the Carnegie Endowment for International Peace.

NEW YORK CLEARING HOUSE ASSOCIATION DATA.

(Prepared for the Almanac by the Manager, William J. Gilpin.)

THE Association is now composed of 28 national banks, 14 State banks, and 15 trust companies. The Federal Reserve Bank of New York, and the Assistant Treasurer of the United States at New York, also make their exchanges at the Clearing House. The Clearing House Collection Department also exchanges at the Clearing House, making 60 clearing institutions. There are 14 banks and trust companies in the city and vicinity, not members of the Association, which make their exchanges through banks that are members, in accordance with constitutional provisions. *President*—Albert H. Wiggin, Chairman of the Chase National Bank. *Secretary*—Herbert K. Twitchell, President of Chemical National Bank. *Manager*—William J. Gilpin. *Assistant Manager*—Clarence E. Bacon. *Examiner*—Charles A. Hanna.

VALUE AND WEIGHT OF GOLD.

(By the United States Assay Office, New York.)

THE unit in weighing gold is the troy ounce. A "fine" ounce means an ounce of pure gold. The mint value of gold does not fluctuate, but remains constant at $20.67183462 per fine ounce. Troy measure is used in weighing gold. The grain is the same in both troy and avoirdupois measure, but the ounce and the pound are not the same. The troy ounce contains 480 grains and the troy pound 5,760 grains, there being 12 ounces to the pound. The troy pound is never used in weighing gold, even when the weights of large quantities are to be computed. The avoirdupois ounce contains 437½ grains and the avoirdupois pound contains 7,000 grains, there being 16 ounces to the pound.

CONDITION OF MEMBERS, N. Y. CLEARING HOUSE ASSOCIATION.

For the week ending November 1, 1919. The figures are six-day averages, except as to capital and net profits. The last named item covers the period from the foundation of the institution.

NEW YORK STATE BANKING STATISTICS.

THE resources reported by the 100 trust companies, 214 State banks of deposit and discount and the 92 private bankers under the supervision of the State Superintendent of Banks on Sept. 12, 1919, aggregated $4,952,582,110. Of this amount the total resources of the trust companies were $3,585,134,412; the total resources of the State banks of deposit and discount were $1,342,205,720, and the banking resources of the private bankers amounted to $25,241,948. The increase in the total resources reported by the three classes of institutions

NEW YORK STATE BANKING STATISTICS—*Continued.*

from June 30, 1919, the date of the last previous call, to Sept. 12, 1919, was $2,999,239. Reports filed with Superintendent Skinner on Sept. 12, 1919, show that from June 30, 1919, the total resources of the State banks increased from $1,270,298,084 to $1,342,205,750, a gain for the period of $71,907,666. During the same period the total deposits as reported increased from $1,050,991,901 to $1,122,871,133, or $71,879,232. The banking resources of the private bankers under supervision increased from $24,357,697 on June 30, 1919, to $25,241,948 on Sept. 12, 1919, a gain of $884,251. While deposits during the same period show a falling off of $703,815, the total on Sept. 12, 1919, being $17,451,352, there was an increase in the surplus carried by these private bankers of $1,302,713. During the same period the reported resources of the trust companies of the State decreased from $3,654,927,090 to $3,585,134,412, an apparent loss of $69,792,678, and their deposits decreased during the same period from $2,911,933,230 to $2,865,475,794, or $46,457,436. The greater part of this decrease, both in resources and in deposits, is accounted for by the fact that during the period referred to the resources of the Scandinavian Trust Co. of New York were taken over by the Liberty National Bank, and the City Trust Co of Buffalo was merged with the Bank of Buffalo. While there was a decrease in deposits secured by pledge of assets, presumably Government deposits, of $103,000,000, there was an increase in the amount due depositors, not preferred, of $76,000,000. During the same period their bills payable were reduced approximately $18,000,000 and their rediscounts nearly $14,000,000. During the same period the deposits of the State banks secured by pledge of assets decreased more than $6,000,000, while their deposits not preferred increased over $98,000,000.

NEW YORK STATE SAVINGS BANKS, AS OF JUNE 30, 1919.

Number, 141; deposits, $2,179,034,583 (a gain of $187,314,233 in 12 mos.); resources, $2,367,041,001 (a gain of $197,162,637); deposited during the year, $653,275,892; withdrawn during the year, $542,272,087; dividends paid and credited, $76,328,837; number of open accounts, 3,579,057 (a gain of 132,168); accounts closed during the year, 540,969.

GRAND ARMY OF THE REPUBLIC.

Commander-in-Chief—Col. Dan. M. Hall, Columbus, O. *Junior Vice-Commander-in-Chief*—Chas. B. Wilson, Los Angeles, Cal. *Surgeon-General*—Stephan I Brown, Knox, Ind. *Chaplain-in-Chief*—Rev. Wm. W. Gist, Cedar Rapids, Ia. (Col. James D. Bell, Brooklyn, was elected Commander, but died, and was automatically succeeded by the Senior Vice-Commander).

OFFICIAL STAFF.

Adjutant-General—Isadore Isaacs, New York City. *Quartermaster-General*—Col. D. R. Stowits, Buffalo, N. Y. *Judge-Advocate-General*—Wm. A. Ketchum, Indianapolis, Ind. *Inspector-General*—Jas. C. Taylor, Newark, N. J. *National Patriotic Instructor*—Hosea W. Rood, Madison, Wis. *Assistant Adjutant-General*—Geo. A. Newman, Des Moines, Ia. *Assistant Quartermaster-General and Custodian of Records*—J. Henry Holcomb, Philadelphia, Pa. *Chief of Staff*—G. A. Holsey, Chester, N. H. *Senior Aide-de-Camp*—Thos J. McConlkey, Brooklyn, N. Y.

The number of Grand Army Posts, December 31, 1918, was 4,704. Losses by death during year ended December 31, 1918, were 9,708. The first post was organized at Decatur, Ill., April 6, 1866. The first National Encampment was held at Indianapolis, November 20, 1866. Expended in relief (1918), $46,606.

MEMBERSHIP BY STATES—Alabama, 58; Arizona, 75; Arkansas, 174; California and Nevada, 4,660; Colorado and Wyoming, 1,426; Connecticut, 1,640; Delaware, 259; Florida, 634; Georgia and South Carolina, 125; Idaho, 398; Illinois, 8,380; Indiana, 6,620; Iowa, 5,664; Kansas, 6,201; Kentucky, 604; Louisiana and Mississippi, 211; Maine, 2,016; Maryland, 882; Massachusetts, 6,59; Michigan, 5,115; Minnesota, 2,254; Missouri, 3,074; Montana, 281; Nebraska, 2,456; New Hampshire, 1,107; New Jersey, 2,019; New Mexico, 92; New York, 10,976; North Dakota, 164; Ohio, 11,453; Oklahoma, 979; Oregon, 1,768; Pennsylvania, 10,980; Potomac, 863; Rhode Island, 722; South Dakota, 672; Texas, 498; Utah, 244; Vermont, 1,272; Virginia and North Carolina, 277; Washington and Alaska, 2,269; West Virginia, 647; Wisconsin, 3,382. Total in United States, 110,188.

AMERICAN AUTOMOBILE ASSOCIATION.

(Organized in 1902).

President—David Jameson, Pennsylvania. *Vice-Presidents*—Ralph W Smith, Colorado; P. J. Walker, California; H. J Clark, Minnesota; Mrs. Robt. Lee Morrell, New York; Clifford Ireland, Illinois; Dr. John H. Quayle, Ohio; Dr. R. R. Elmore, Kentucky. *Treasurer*—H A. Bonnell, New Jersey. *Secretary*—John N. Brooks, Connecticut. Chairmen of Boards: *Executive*—A. G. Batchelder, Riggs Building, Washington, D. C. *Good Roads*—George C. Diehl, Ellicott Square, Buffalo, N. Y. *Touring*—Carl G. Fisher, Indianapolis, Ind. *Legislative*—W. Eugene Turton, 810 Broad Street, Newark, N J. *Contest*—Richard Kennerdell, 501 Fifth Avenue, New York City.

The American Automobile Association has over 200,000 members. Its main objects are—To unite in one body all the automobile clubs and individual motorists of the country; to secure reasonable and just legislation and to aid in proper enforcement of automobile laws and ordinances; to obtain local, State, and Federal aid in the construction and maintenance of good roads; to encourage road travel and transportation, and to secure, prepare, and disseminate information relative thereto; to support sportsmanlike contests and other movements that will advance motoring interests.

Members of the American Automobile Association can obtain exact and detailed information from the national bureaus of the Touring Information Board in Washington, D. C., and New York City, and also from the 600 local clubs, in some of which they have guest privileges. These touring bureaus keep a list of hotels and garages which guarantee to give fair treatment to automobilists. Through its Legislative Board, the American Automobile Association has exerted influence on automobile legislation. For the benefit of those who enjoy good sport, the American Automobile Association has taken charge of racing and endurance contests. Elsewhere in THE ALMANAC will be found the official American Automobile Association summary of the motor laws of all the States.

PALEOZOIC CORALS.

Paleozoic corals have been found in the Timan-Urals and in the Silurian rocks of the New Siberian Islands; but in both cases the evidence shows that the coral faunas were stunted in comparison with those of the contemporary seas to the south. Numerous simple and simply branched corals, associated with thick growths of calcareous algae, grow to-day in the northern seas. Dead branches of Lophohelia are so common on one bank in the Christiania Sound (latitude 58° N.) that it has been described as a Pleistocene coral reef. Small nodules of corals, of reef-building genera, such as *Plesiastroea*, live at present in the cold seas of southern Australia, far to the south of the region of coral reefs. The evidence of the fossil corals is supported by that of the Arctic marine faunas of all geological periods. Their most striking characteristics in the past are their characteristics of to-day. Nor does the existence of leaf beds in the Arctic prove anything more than local geographical changes, for leaves grow with remarkable rapidity and luxuriance within the Arctic Circle, under the influence of the continuous daylight of Summer.

Surplus figures are based on par values of stocks and bonds.

BANKS IN MANHATTAN AND BRONX.

THE New York Clearing House at 77 Cedar Street is composed of banks and trust companies associated for exchanging checks and bills they hold against one another. The Federal Reserve Bank of New York and the Assistant Treasurer of the United States at New York also clear. Other banks, not members of the association, clear through members. The representatives of the members appear at the Clearing House at 10 o'clock every business day, with the checks and drafts to be exchanged. The resulting balances are ascertained in about an hour, and before 1.30 o'clock those indebted pay their balances, and after that hour the other banks receive the amounts due them. The Clearing House has been in operation since 1853.

Elsewhere in this section of the ALMANAC, under the heading "Statement of Banks in the New York Clearing House Association," will be found statistics as to the capital, profits, loans, gold holdings, and deposits of most of the institutions named in this table.

Banks are open from 10 A. M. to 3 P. M., and on Saturdays from 10 A. M. to 12 noon.

San Francisco	J. U. Calkins		John Perrin	W. N. Moore	Ira Clerk.

There are branches of Federal Reserve banks in the following cities: Cincinnati, Pittsburgh, Baltimore, New Orleans, Birmingham, Jacksonville, Detroit, Louisville, Omaha, Denver, El Paso, Seattle, Spokane, Portland, Ore., Salt Lake City, Buffalo, Nashville, Memphis, Little Rock, and Houston.

Every National Bank is required to become a stockholder in the Federal Reserve bank of the district in which it is situated, and any State bank or trust company which complies with certain specified requirements is permitted to become a member bank. There were (December, 1918) 8,612 National Banks in the United States which have thus been required to become member banks, and 936 State banks and trust companies had become members

RESOURCES AND LIABILITIES, OCTOBER 24, 1919.

Besides the gold and silver coin in circulation, there was also in circulation, July 1, 1918, the sum of $5,379,427,424, including Federal Reserve notes, with a per capita circulation of $50.81.

Gold and silver cannot be stated separately prior to 1876. From 1862 to 1875, inclusive, gold and silver were not in circulation except on the Pacific Coast, where it is estimated that the average specie circulation was about $25,000,000, and this estimate is continued for the three following years under the head of gold. After that period gold was available for circulation. As the result of special investigation by the Director of the Mint a reduction of $135,000,000 was made in the estimate of gold coin in circulation on July 1, 1907, as compared with the basis of previous years, and on September 1, 1910, a reduction of $9,700,000 was made in the estimate of silver coin.

War risk insurance is handled by a bureau of that name in the Treasury Department at Washington. It began with the Marine Insurance Bureau, established September 7, 1914. In 1917 Congress added a Seamen's Division, which, up to November 11, 1918, had written $2,389,541,525 on the lives of American ships' officers, masters, and seamen; premium payments had totalled $47,593,555, and claims and operating expenses had amounted to $30,548,663

MONETARY SYSTEM OF THE UNITED STATES.

(Revised by the Director of the Mint.)

GOLD COIN—Weight, 25.8 grains to the dollar; fineness, 900-1000, unlimited as to issue; denominations, $2.50, $5, $10, $20; legal tender, unlimited; receivable for all public dutles; exchangeable for gold certificates and subsidiary and minor coin.

STANDARD SILVER DOLLARS—Weight, 412.5 grains; fineness, 900-1000; ratio to gold, 15.988 to 1; coinage ceased in 1905; legal tender, unlimited, unless otherwise contracted; receivable for all public dutles; exchangeable for silver certificates and smaller coins.

SUBSIDIARY SILVER COIN—Weight, 385.8 grains to the dollar; fineness, 900-1000; ratio to gold, 14.953 to 1. Limit of issue, needs of the people. Denominations 10 cents, 25 cents, 50 cents; legal tender not to exceed $10; receivable for all dues up to $10; exchangeable for minor coin; redeemable in "lawful money" at the Treasury in sums or multiples of $20.

MINOR COIN—Weight 5 cent piece, 77.16 grains, 75 per cent. copper, 25 per cent. nickel; 1 cent piece, 48 grains, 95 per cent. copper, 5 per cent. tin and zinc; limit of issue, needs of the people; legal tender not to exceed 25 cents; receivable for all dues up to 25 cents; redeemable in "lawful money" at the Treasury in sums or multiples of $20.

GOLD CERTIFICATES—Limit of issue for gold bullion to two-thirds of the amount of gold certificates outstanding; for gold coin, unlimited, unless gold coin reserve against United States notes (greenbacks) falls below $100,000,000; denominations, $10, $20, $50, $100, $500, $1,000, $5,000, $10,000; gold certificates are not a legal tender; receivable for all public dues; redeemable in gold coin at the Treasury.

SILVER CERTIFICATES—Unlimited as to issue for standard silver dollars; denominations, $1, $2, $5, $10, $20, $50, $100; not a legal tender; receivable for all public dues; redeemable in silver dollars at the Treasury.

UNITED STATES NOTES—Limit of issue, $346,681,016; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; legal tender for all debts, public and private, except Customs and interest on the public debt; receivable for all public dues; redeemable in gold at the Treasury.

TREASURY NOTES OF 1890—No further issues; volume steadily diminishing by redemption in silver dollars; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; legal tender, unlimited, unless otherwise contracted; receivable for all public dues; redeemable in gold or silver dollars at the Treasury.

NATIONAL BANK NOTES—Limit of issue not to exceed capital of banks; denominations, $5, $10, $20, $50, $100, $500, $1,000; not a legal tender; receivable for all public dues except customs; redeemable in "lawful money" at the Treasury or at bank of issue.

FEDERAL RESERVE BANK NOTES—Limit of issue unlimited, except by the required security, and by the discretion of the Federal Reserve Board; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; not a legal tender; receivable for all public dues except customs; redeemable in "lawful money" at the Treasury or at bank of issue.

FEDERAL RESERVE NOTES—Limit of issue same as Federal Reserve Bank notes; denominations, $5, $10, $20, $50, $100, $500, $1,000, $5,000, $10,000; not a legal tender; receivable for all public dues; redeemable in gold at the Treasury, and in gold or "lawful money" at any Federal Reserve Bank.

FOREIGN COINS VALUED IN UNITED STATES MONEY.

(Proclaimed by the Secretary of the Treasury as of October 1, 1919.)

Entries of merchandise liquidated upon the values proclaimed herein will be subject to reliquidation upon the order of the Secretary of the Treasury whenever satisfactory evidence shall be produced to him showing that the values in United States currency of the foreign money specified in the invoices were at the date of certification at least ten per centum more or less than the values herein proclaimed. Carter Glass, Secretary.

Commercial values of silver for single years may be ascertained by multiplying fine ounces by annual average prices of silver.

For 1915 figures of the previous year are repeated for those countries from which no returns were received.

GOLD IMPORTS AND EXPORTS.

MOTOR CAR LAWS OF THE VARIOUS STATES.

MOTOR LAWS AS NOW WRITTEN.

Compiled and issued October 15, 1919, by the A. A. A. Touring Board, Riggs Building, Washington, D. C. Carl G. Fisher, Chairman; A. G. Seiler, Secretary.

STATE.	Registration and Fees for Passenger Cars and How Applied.	If Taxed as Personal Property.	Driving License.	Non-Resident.	License Plate (1st col. b'kgr'd, 2d color figures.)	Speed and Lights.
ALA....	Annually according to insurable horse-power. Payable to Probate Judge of county of residence. State registration record kept by State Board of Equalization, Montgomery. October 1st. To 24 H. P. $11.25; to 29 H. P. $18.75; to 39 H. P. $26.25; to 40 H. P. and over $30. Electrics $20. steamers $25. Half fee after April 1st. 20 per cent. to incorporated cities, otherwise to county. 80 per cent. to State.	Registration in lieu of all taxes, but does not prevent the collection of an ad valorem tax.	Chauffeur—Driving cars for hire—$5 annually; renewal $2.50. Badge provided. Local ordinances prohibited.	Exempt for period granted by visitor's State—entire year or fraction thereof.	Dark green with white letters and figures. For 1920 white-black.	Reasonable and proper, not exceeding 30. Slow down, sound horn at cross roads. No State law covering non-glare lights. When approaching or passing horse or animal which appears badly frightened, such persons shall cause the motor to cease running so long as shall be reasonably necessary to prevent accident and insure the safety of others. If necessary for the public safety a motor vehicle shall be brought to full stop when approaching a street car which has been stopped for passengers.
ARIZ...	Annually Secretary of State, Phoenix. 25 H. P. and less $5; to 40 H. P. $10; over 40 H. P. $15. Quarterly reduction. N. A. C. C. rating. All fees to State road fund.	Personal property.	None required for private individuals. $5 perpetual—for hire cars and employés only.	Exempt 6 months with home State tag. Shall notify sheriff showing compliance with home State laws.	Black-white.	Reasonable and proper. Built-up sections 10, elsewhere in cities and towns 15, outside municipalities 30. Local ordinances prohibited unless signs are placed. No State law covering non-glare lights or lights on horse-drawn vehicles. Use arm signal when turning.
ARK...	Annually, Com. State Lands, Highways and Improvements. Little Rock. $10. All funds to State Treasurer.	Personal property.	Chauffeur $1 annually. Badge provided.	Exempt for period granted by visitor's State—entire year or fraction thereof.	Front and rear. Black-green.	Reasonable and proper. Built-up sections 15; outside municipalities 20. No State law covering non-glare lights on horse-drawn vehicles.
CAL....	Annually, Feb. 1st, Motor Vehicle Dept., Sacramento. 40c per H. P. Trailers $2. Electrics $5. Aug. 1st to July 31st, three-fourths fee; Aug. 1st to Oct. 31st, one-half; Nov. 1st to Jan. 31st, one-fourth. N. A. C. C. rating. To Motor Vehicle fund; construction and maintenance of county and State roads. Fine to municipal improvements. Notice of transfer of ownership must be given dept.	Personal property.	Chauffeurs $2 annually; renewal $1. Badge provided. Operators and chauffeurs must carry license certificates.	Exempt 3 months with home tags, but must register with Motor Vehicle Dept. 24 hours after operating vehicle in State. No charge for permit.	Front and rear. White-blue. New plates each year.	Reasonable and proper, not to exceed 30. Built-up sections 20; business districts 15. Crossings and curves, etc., 15. Headlights of various types may be used if approved by testing agency selected by Supt. of Motor Vehicle Dept. Diffusion lens must not produce dangerous glare. Light required on horse-drawn vehicles. Local ordinances prohibited.
COL....	Annually, Sec. of State, Denver. Up to 20 H. P. $2.50; up to 40 H. P. $5; over 40 H. P. $10. Manufacturer's rating. Reduction quarterly. Half to State road fund and half to county road fund. Notice of transfer must be given Sec. of State.	Personal property.	Chauffeur $2 annually. Badge furnished.	Exempt 90 days with home State tags. No fee.	Front and rear Dark brown-aluminum.	Reasonable and proper, no specified rate. State law requires non-glare lights, also lights on horse-drawn vehicles. City and county ordinances prohibited.

CONN..	Annually, Com. Motor Vehicles, Hartford. 50c per H. P., N. A. C. C. rating. Registration fees are chargeable from 1st day of month on which application is received. Pro-rated after April 1st. No fee for transfer if same H. P., otherwise charge for excess. All fees to Highway Com. for use on State highways.	Personal property.	Owners and chauffeurs $2, for each year or fraction thereof. All driving licenses expire on the last day of February of each year. Examination for operator's license $2 (does not apply to renewal).	Exempt entire year or fraction thereof. Operators must be over 18 years and resident of State	Front and rear. White-black. No more than one set shall be displayed.	Reasonable and proper. Maximum 30, 20 through thickly settled. Curves, etc., 10. Passing cars 5. Truck on highway, mirrors required when view of highway to rear is obstructed. State law requires that headlights shall not cast beams higher than 42 inches above ground at 85 feet in front of car. Spot lights must not shine beyond 30 feet in front and must cast rays to right of centr eof road. No local ordinances permitted. All accidents must be reported to Com. Motor Vehicles within 24 hours.
DEL....	Annually, Sec. of State, Dover. $2 for every 500 lbs. or fraction thereof, gross weight. This includes weight of passengers, 125 lbs. Double fee for metal-tire trailers if weight exceeds 1,500 lbs. Half fee after Sept. 1st. All fees from registration paid into State Treasury for use of State Highway Dept.	Registration in lieu of all taxes.	Owners and chauffeurs $3; family $8 annually.	Exempt for period granted by visitor's State—entire year or fraction thereof. Special license to foreigners upon recommendation of A. A. A.	Front and rear. Blue-white. Special tag for trailers.	Reasonable and proper. Built-up sections 15; curves, etc., 7½; in thinly settled section 12; elsewhere 25. State law requires non-glare lights on motor vehicles; must be properly coated, dimmed or deflected so as not to blind or dazzle.
DIST. OF COL....	District of Columbia Automobile Board, Washington, D. C. $3 for 24 H. P. or less; $5 for every 24 H. P. and not over 30 H. P.; $10 for over 30 H. P. N. A. C. C. rating. Registration year begins Jan. 1st. Deposited in the U. S. Treasury to the credit of the District of Columbia.	Personal property.	Owners and chauffeurs $2 perpetual.	Exempt for same period granted by visitor's State—entire year or fraction thereof (except Maryland).	Front and rear. White-black.	Between intersecting or connecting highways 18. Across intersections, around corners or over wooden-floor bridges 12. Out of any alley 6. Where not more than 2 houses between intersections 22. Trucks 12 between intersections and 8 at crossings. Stop back of street cars receiving or discharging passengers. No searchlight or intermittent flashlight to be carried on automobiles.

N. A. C. Horse-power Rating—The standard rating (formerly A.L.A.M.) has been adopted by the National Automobile Chamber of Commerce, Inc. The formula adopted is $D^2xN \div 2.5$. D is the cylinder bore in inches, N the number of cylinders, and 2.5 a constant based on the average view of eminent engineers as a fair conservative rating for a four-cycle motor at 1,000 feet per minute piston speed.

The following States have made reciprocal arrangements for the interchange of motor vehicle privileges with Ontario: California, Connecticut, Colorado, District of Columbia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, New Jersey, New Hampshire, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, Tennessee, Texas, Vermont, West Virginia, Wisconsin, and Nebraska.

CANADIAN CUSTOMS AND LICENSES.

By a ruling of the Canadian Customs Department during the Summer of 1916, a motorist from the United States may tour in the Dominion of Canada for a period of 30 days without giving bond for the return of the car. If the motorist desires to stay longer than 30 days, it will be necessary to give a bond for twice the estimated duty of the car. The bond must also be signed by two residents of the Dominion, acceptable to the customs authorities. The $25 in cash is returned to the States before the expiration of six months. If the tourist expects to stay for a longer period than 30 days, and does not wish to go through the formalities of filing such a bond, he may obtain a bond from the customs brokers at the port of entry upon payment of $5. The motorist may enter Canada at any of the ports of entry or leave either at the point of entrance or at any of the other ports.

When in possession of such a bond, the motorist simply has to present the car to the customs authorities at the port of entry, and they will examine it and take up the bond. It is necessary for the motorist to present the car at the port of exit and have the bond released. There is little formality required at the port of entry and no passports are necessary for a citizen of the United States. If the motorist's home State grants reciprocity, non-residents may tour in the Province of Quebec without taking out a license. New Brunswick grants an exemption of 21 days. Thus, however, does not apply to chauffeurs, who must take out a license and pay $4 for same. Nova Scotia grants like exemption with home State.

FEES FOR COMMERCIAL VEHICLES.

ALABAMA—Less than 1 ton, $15; less than 2 tons, $22 50; less than 3 tons, $37 50; less than 4 tons, $56 25; over 4 tons, $75.

ARIZONA—Same fees as for passenger cars.

ONTARIO—Trucks of 8 tons and under, $5 per ton or fraction of combined weight and carrying capacity; over 8 tons and not more than 10 tons, $7.50 per ton or fraction; over 10 tons, $10 per ton or fraction. Permit must be secured for excess of 12 tons. Half fee after September 1st.

QUEBEC—One ton, $25; 1 to 1½ tons, $37.50; 1½ to 2 tons, $50; 2 to 2½ tons, $62.50; over 2½ tons, $75.

MANITOBA—Same fees as for passenger cars.

SASKATCHEWAN—Same fees as for passenger cars.

BRITISH COLUMBIA—Same fees as for passenger cars.

NATIONAL MOTOR VEHICLE THEFT ACT.

AN act to punish the transportation of stolen motor vehicles in interstate or foreign commerce.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this act may be cited as the National Motor Vehicle Theft Act.

SEC. 2. That when used in this act:

(a) The term "motor vehicle" shall include an automobile, automobile truck, automobile wagon, motor cycle, or any other self-propelled vehicle not designed for running on rails.

(b) The term "interstate or foreign commerce" as used in this act shall include transportation from one State, Territory, or the District of Columbia, to another State, Territory, or the District of Columbia, or to a foreign country, or from a foreign country to any State, Territory, or the District of Columbia.

SEC. 3. That whoever shall transport or cause to be transported in interstate or foreign commerce a motor vehicle, knowing the same to have been stolen, shall be punished by a fine of not more than $5,000, or by imprisonment of not more than five years, or both.

SEC. 4. That whoever shall receive, conceal, store, barter, sell, or dispose of any motor vehicle, moving as, or which is a part of, or which constitutes interstate or foreign commerce, knowing the same to have been stolen, shall be punished by a fine of not more than $5,000, or by imprisonment of not more than five years, or both.

SEC. 5. That any person violating this act may be punished in any district in or through which such motor vehicle has been transported or removed by such offender.

Received by the President, October 17, 1919.

(NOTE BY THE DEPARTMENT OF STATE—The foregoing act having been presented to the President of the United States for his approval, and not having been returned by him to the House of Congress, in which it originated, within the time prescribed by the Constitution of the United States, has become a law without his approval.)

YACHTING.

Sir Thomas Lipton renewed his challenge for the America's Cup in October, 1919, and it was later mutually agreed to hold the races during the season of 1920 unless unforeseen obstacles arose. Sir Lipton's challenging yacht, Shamrock IV., remained in drydock at the Erie Basin, Brooklyn, N. Y., and neither the Resolute nor Vanitie, defending candidates, have been in commission since 1915. All three yachts were informally inspected during 1919 and were reported to be in an excellent state of preservation. There was considerable activity in yachting circles along the Atlantic Coast and on the Great Lakes, races between the smaller type of craft being the feature of the Atlantic season. A record of the trial races between the Resolute and Vanitie during the season of 1915 is appended for reference purposes: Fifteen trials between the Resolute and the Vanitie were sailed, and the Resolute won on July 3 by 1m. 8s ; on July 7 by 1m. 6s.; on July 9 the Vanitie discontinued owing to the breaking of a gaff; on July 10 by 3m. 31s ; on July 13 by 4m. 16s ; on July 15 by 13s.; on July 17 by 26m. 12s.; on July 27 by 3m. 57s ; on August 5 by 1m. 36s. (corrected time, the Vanitie making 28s. faster actual time); on August 7 by 20m. 18s ; on August 10 by 4m. 15s., and on August 11 by 3m. 59s. The Vanitie defeated the Resolute on July 5 by 4 m. 11s.; on August 3, the Resolute meeting with an accident, and on August 6, by 10m. 55s.

Bermuda to New York Race, August 16–19, for submarine chasers, won by Sub. Chaser No. 131 (Lieut. J L. Day, commanding); time, 56h. 46m.; Sub. Chaser No. 90, second; Sub. Chaser No. 324, third.

ROWING.

YALE VS. HARVARD—VARSITY EIGHTS.

YALE and Harvard eights have rowed fifty-one races, beginning in 1852 on Lake Winnepesaukee at two miles, when Harvard won. In 1855 the course was changed to Springfield and lengthened to three miles. Lake Quinsigamond was the scene for nine years, and Lake Saltonsall for 1869. After an interval of seven years the crews in 1876-77 went to Springfield, Mass., when the four-mile course was inaugurated. In 1878 the crews changed again to New London, Ct. The records:

1915–16–17–18–19, no races held. 1906, September 8, Cambridge beat Harvard University, U. S. A. (P. to M.), 19 minutes 18 seconds. * On March 30, 1912, in attempting the race both boats were swamped and the race was declared void.

The world war interrupted the English university boat races. A large percentage of the students of Oxford and Cambridge fought, and some star members of the crews were killed in the conflict.

ROWING—*Continued.*

WORLD'S PROFESSIONAL SCULLING CHAMPIONSHIPS SINCE 1880.

The first championship match since the beginning of the World War was rowed on Thames, at Putney, England, on October 27, when Earnest Barry, champion from 1912, lost his title to Alfred Felton, of Australia, in a four and a half mile race. Felton defeated Barry by six lengths in 25m. 40s. Previous races:

1880—E. Hanlan, Toronto, Canada, beat E. Trickett, Putney to Mortlake, November 15. Time—26m. 12s.
1881—E. Hanlan beat E. C. Laycock, Sydney, N. S. W., Putney to Mortlake, February 14. Time—25m. 41s.
1882—E Hanlan beat R. W. Boyd, on Tyne, April 3. Time—21m. 25s.
1882—E. Hanlan beat E. Trickett, Putney to Mortlake, May 1. Time—28m. 00s.
1884—E. Hanlan beat E. C. Laycock, on Nepean River, N. S. W., May 22. Time not taken.
1884—W. Beach, Dapto, N. S. W., beat E. Hanlan, on Parramatta River, N. S. W., August 16. Time not taken.
1885—W. Beach beat T. Clifford, Dapto, N. S. W., on Parramatta River, N. S. W., February 28. Time—26m. 00s.
1885—W. Beach beat E. Hanlan, on Parramatta River, N. S. W., March 28. Time—22m. 51s.
1885—W. Beach beat N. Matterson, Sydney, N. S. W., on Parramatta River, N. S. W., December 18. Time—24m. 11s.
1886—W. Beach beat J. Gaudaur, St. Louis, U. S. A., Putney to Mortlake, September 18. Time—22m. 29s.
1886—W. Beach beat Wallace Ross, St. John's, N. B., Putney to Mortlake, September 25. Time—23m. 5s.
1887—W. Beach beat E. Hanlan, on Nepean River, N. S. W., November 26 Time—19m. 55s.
1888—P. Kemp, Sydney, N. S. W., beat T. Clifford, on Parramatta River, N. S. W., February 11. Time—23m. 47s.
1888—P. Kemp beat E. Hanlan, on Parramatta River, N. S. W., May 5 Time—21m. 36s.
1888—P. Kemp beat E. Hanlan, on Parramatta River, N. S. W., September 28 Time—21m. 25s.
1888—H. E. Searle, Grafton, N. S. W., beat P. Kemp, on Parramatta River, N. S. W., October 27. Time—22m. 44s.
1889—H. E. Searle beat W. O'Connor, Toronto, Canada, Putney to Mortlake, September 9. Time—22m. 42s.
1890—J. Stanbury, N. S. W., beat W. O'Connor, on Parramatta River, N. S. W., June 30. Time—22m 59s.
1891—J Stanbury beat J. McLean, N S. W., on Parramatta River, N. S. W., April 28. Time not taken.
1892—J Stanbury beat T. Sullivan, New Zealand, on Parramatta River, N. S. W., May 2. Time—17m. 26½s.
1896—J. Stanbury beat C R. Harding, Putney to Mortlake, July 13. Time—21m. 51s.
1896—J. Gaudaur beat J. Stanbury, Putney to Mortlake, September 7. Time 23m. 01s.
1901—G. Towns beat Jake Gaudaur, Rat Portage, Canada. Time—20m. 30s.
1904—G. Towns beat R. Tressider, on Parramatta River, N. S. W. Time—21m. 49s.
1905—J. Stanbury beat G. Towns, on Parramatta River, N. S. W., July 22. Time—(unofficial) 19m. 50s.
1906—G. Towns beat J. Stanbury, on Parramatta River, N. S. W., July 28. Time—19m. 53 1-5s.
1907†—G Towns beat E. Durnan, on Nepean River, N. S. W., March 2. Time—22m. 27s.
1907—W. Webb beat C. Towns, on Parramatta River, N. S. W., August 3. Time—20m. 45s.
1908—W. Webb beat R. Tressider, on Wanganui River, February 25. Time—20m. 28s.
1908—R. Arnst beat W. Webb, on Wanganui River, December 15. Time—19m. 52s
1909—R. Arnst beat W. Webb, on Wanganui River, June 22. Time—18m 15s.
1910—R. Arnst beat G. Whelch, Akaroa Harbor, N. Z., April 4. Time not given.
1910—R. Arnst beat E. Barry, Zambesi, Rhodesia, August 18. Time—20m. 14 3-5s.
1911—R. Arnst beat Harry Pearce, on Parramatta River, N. S. W., July 29. Time—19m. 46s.
1912—E. Barry beat R. Arnst on Thames River, London, England, July 29. Time—23m. 8s.
1912—E. Barry beat E. Durnan, Thames River, England, October 14. Time—22m. 31s.
1919—A. Felton beat E. Barry, Thames River, England, October 27. Time—25m. 40s.
†Afterward resigned when challenged by his brother, C Towns.

GOLF.

PLAY for all national golf championships was resumed in 1919 and the season was notable for a number of tournaments and similar contests held for the first time since 1916. The records of the principal events follow:

United States Open Championship, played at Boston, won by W. C. Hagen, Detroit, 301; M. J. Brady, Watertown, Mass, 301; J. Hutchinson, Golf, Ill., 306. On the play-off for first place, Hagen defeated Brady 77 to 78 at eighteen holes. Previous winners: 1916, at Minikahda Club, Minneapolis, Minn. Final round, June 30. Won by Charles G Evans, Jr., amateur, 286; J. Hutchinson, 288, second; J. M. Barnes, 290, third. 1915, at Short Hills, N. J., won by Jerome Travers, amateur, 297; second, T. L. McNamara, professional, 298; third, R. G. McDonald, 300. 1914, at Midlothian, Chicago, Ill, won by W. C. Hagen, score 290; Charles Evans, Jr., 291, second; George Sargent, third. 1913, at Brookline, Mass, won by Francis Ouimet, 72, with Harry Vardon, 77, second, and Edward Ray, 78, third, after a triple tie in final round of 304. 1912, at Buffalo, N. Y., won by Jack McDermott, 294; with Tom McNamara, 296, second, and Alex. Smith and M. J. Brady tied at 299 for third. 1911, at Wheaton, Ill., after a triple tie between J. J. McDermott, M. J. Brady and George O. Simpson at 307, J. J. McDermott won in the playoff, with Brady second and Simpson third. 1910, at Philadelphia, Pa, Alex. Smith, 298 1909, at Englewood, N. J., George Sargent, 290. 1908, at Myopia, Fred McLeod, 322. 1907, at Philadelphia Cricket Club, Alexander Ross, 302 1906, at Onwentsia, Alex. Smith, 295. 1905, at Myopia, W. Anderson, 314. 1904, at Glen View, W. Anderson, 303. 1903, at Baltusrol, W. Anderson, 307. 1902, at Garden City, L. Auchterlonie, 307. 1901, at Myopia, W. Anderson, 331. 1900, at Chicago, Harry Vardon, 313.

United States Amateur Championship, played at Oakmont C. C, Pittsburgh, Pa., final round, August 23, won by S. Davidson Herron, Pittsburgh, who defeated Robert T. Jones Jr., Atlanta, 5 and 4. The Interstate game between Rhode Island and Massachusetts on July 4, played at Brockton, was won by Massachusetts by 6 runs.

New York won the Halifax Cup competition for the second time.

New York defeated Philadelphia in an Intercity series in 1918 for the first time, winning 3 of the 4 games played.

Yorkshire won the County Championship in 1919, which was resumed for the first time since the war started in 1914.

The following New York cricketers were killed in the war: H. V. Tattersall (Manhattan), H. B. H. Boyce (Bensonhurst), L. A. Carey (Kings County), C. B. Ellis (Bensonhurst), C. A. Fry (Staten Island), C. L. G. H. Grell (Staten Island), H. Hertslet (Crescent A. C.), W. Johnstone (Crescent A. C.), E. J. Newbury (Columbia Oval), A Tilbury (Kings County), A. R. R Trench (Staten Island), H. Lomas (Manor Field), C. A. S Stephenson (Port Washington), R. St George Walker, Jr. (Staten Island).

Fall River Club won the Championship of the Rhode Island District Cricket League.

H Livingston of the Pittsburgh Field Club established a record for the United States by scoring three consecutive centuries in one week in a tournament held in Chicago in August, 1907; a similar feat was performed by H. N. R. Coblet in Canada in a tournament held in Vancouver, British Columbia, in August, 1906. H. V. Hordern of the University of Pennsylvania established a record for the United States and Canada by securing 213 wickets during 1907. J. B. King and F F. Kelly are the only two bowlers who have taken over 2,000 wickets. A. C. MacLaren scored 424 for Lancashire vs. Somerset at Taunton, England, July, 1895—the record in a first-class match. A. F. J. Collins, playing at Clifton June, 1899, for Clarke's House against North Town, scored 628, not out—the record in any match. Melbourne University scored 1,094 runs against Essenden at Melbourne (Australia), 1898—the highest authenticated record. In a match between A. E. Stoddart's English team and New South Wales, 1,739 runs were scored—a record in first-class cricket The longest partnership on record was 623 runs by Captain Oakes and Private Fitzgerald, First Royal Munster Fusillers vs. Army Service Corps at Curragh, 1895. In a small match in Australia F. R. Spofforth bowled down all 10 wickets of his opponents in each inning—a feat without parallel. F. R. Spofforth on the Australian tour in 1878 took 764 wickets—a world's record. Dr. W. G. Grace, the world's greatest cricketer, died October 23, 1915. He hit up 217 centuries during his career, which will not likely ever be equalled.

Best records in the United States and Canada are by G. S. Patterson eleven playing against A. M. Woods eleven at Philadelphia, scoring 689 runs, in 1894. Australians against Vancouver scored 633 for 8 wickets in 1913. J B King scored 344 runs for Belmont against Merion B in 1906. W. Robertson, 206, not out, and A. G. Sheath, 118, not out, scored 340 runs in partnership, without the loss of a wicket, at San Francisco in 1894. Smallest score, Americas 0 against Roseville at Guttenberg, N. J., in 1897. The smallest score in international match in United States, West Indians 13 against Australians, 1913. Smallest score in Canada, Winnipeg 6 against Australians, 1913. Largest score in the Metropolitan District Cricket League Championship, New Jersey Athletic Club 385 runs for 5 wickets against Manhattan, at Bayonne, N. J., 1897.

Seven centuries in a season, P. J. Higgins of Los Angeles in 1912, 159, 100, 100, 121, 182, 110, 240.

G. S. Patterson of the Germantown C. C. scored 1,748 runs in season of 1892—a record for the United States. Rev. F. W. Terry of Toronto C. C. scored 1,509 runs in season of 1892—a record for Canada.

BASEBALL.

THE baseball season of 1919 was one of the most prosperous in the history of the professional game, the sport proving exceptionally popular, as was the case in all sports, a marked revival of interest having been shown immediately following the signing of the World War armistice.

WORLD CHAMPIONSHIP SERIES, 1919.

Several changes were made in the playing rules, principal among them being an increase of the series from four out of seven games to five out of nine games. The competing teams were Cincinnati, winner of National League pennant, and Chicago, winner of American League pennant. Cincinnati defeated Chicago, 5 games to 3.

RESULTS OF GAMES.

First game at Cincinnati, October 1. Cincinnati—9 runs, 14 hits, 1 error. Chicago—1 run, 6 hits, 1 error. Batteries—Reuther and Wingo; Cicotte, Wilkinson, Lowdermilk and Schalk.

Second game, at Cincinnati, October 2. Cincinnati—4 runs, 4 hits, 1 error. Chicago—2 runs, 10 hits, 2 errors. Batteries—Sallee and Rariden; Williams and Schalk.

Third game, at Chicago, October 3. Chicago—3 runs, 7 hits, 2 errors. Cincinnati—0 runs, 3 hits, 4 errors. Batteries—Kerr and Schalk; Fisher, Luque, and Rariden.

Fourth game, at Chicago, October 4. Cincinnati—2 runs, 5 hits, 2 errors. Chicago—0 runs, 3 hits, 2 errors. Batteries—Ring and Wingo; Cicotte and Schalk.

Fifth game, at Chicago, October 6. Cincinnati—5 runs, 4 hits, 0 errors. Chicago—0 runs, 3 hits, 3 errors. Batteries—Eller and Rariden; Williams, Mayer, and Schalk, Lynn.

Sixth game, at Cincinnati, October 7. Chicago, 5 runs, 10 hits, 3 errors Cincinnati—4 runs, 11 hits, 0 errors. Batteries—Kerr and Schalk; Reuther, Ring, and Rariden.

Seventh game, at Cincinnati, October 8. Chicago—4 runs, 10 hits, 1 error. Cincinnati—1 run, 7 hits, 4 errors. Batteries—Cicotte and Schalk; Sallee, Fisher, Luque, and Wingo.

Eighth game, at Chicago, October 9. Cincinnati—10 runs, 16 hits, 1 error. Chicago—5 runs, 9 hits, 1 error. Batteries—Eller and Rariden; Williams, James, Wilkinson, and Schalk.

DISPOSITION OF WORLD'S SERIES MONEY.

Money receipts for the 1919 World's Series broke all records, the nearest approach to the nearly three-quarters of a million taken in at the gates being in the series of 1912, when the receipts were $490,499 for the eight games played that fall.

The figures for the eight games of the 1919 series follow:

Attendance, 236,928.

Receipts (exclusive of war tax), $722,414. U. S. Government war tax, $73,239.

Players' shares, $260,349.70.

Clubs' shares, $389,822.90.

Commission's share, $72,241.40.

Total for Cincinnati players, $117,157.68

Total for Chicago players, $78,104.70.

Second teams of leagues:

New York Nationals and Cleveland Americans, each $19,526.21.

Third teams of leagues:

Chicago Nationals and New York Americans, each $13,017.45.
